REPUBLICAN CLUB ELECTS OFFICERS

AUBREY THOMAS CHOSEN AS HEAD OF ALABAMA REPUBLICAN CLUB.

W. Aubrey Thomas, president of the Jenifer Iron Company, Jenifer, Ala., and one of the best-known ironmasters in the country, and one of the leading Republicans in Alabama, a close friend of President Harding, was elected by unanimous vote, just closed by the board of governors, as president of the Republican Club of Alabama, for the ensuing two years.

"The election of Mr. Thomas as president of the club, has the endorsement of its several thousand members, and it is the general opinion of all believers of good government throughout the state, that with Mr. Thomas at the head of this well known organization, who has the respect and confidence of all Republicans, that under his leadership, a strong Republican party will be built up in Alabama.

"Mr. Thomas is a man of magnetic personality whose sole object is to build up a strong Republican party in Alabama. Mr. Thomas, having no political axes to grind or political debts to pay, and who is a great believer of good government and two parties in the state, feels that with the cooperation of not only the members of this club, but the Republicans thruout the state, and with the many natural advantages offered by this state, that it is only a matter of a short time when there will be two distinctive parties represented in Alabama," said Frank S. Rea, secretary.

The following is the executive committee for 1922-1923: C. H. Krauss, Birmingham, Chairman; N. H. Freeman, Birmingham; Cal D. Brooks, Birmingham; F. L. Britton, Birmingham; L. E. Daniel, Birmingham; W. P. Lewis, Mobile; Sumter Cogswell, Pell City; W. E. Bosworth, LaFayette; H. E. Berkstresser, Dadeville; H. A. Cathey, Florence; E. B. Beason, Demopolis; W. Aubrey Thomas, president; Frank S. Rea, secretary-treasurer.

CARD OF THANKS

We wish to thank the peopel for the kindness shown us during the recent sickness and death of our son and brother, James M. Scott.

Mr. and Mrs. R. W. Scott and family.

There was a great rush on at the tax office the latter part of last week, people hurrying at the last minute to make their assessments and pay taxes in order to avoid the fee charged to delinquents who do not assess and may before the first of January.

The Editor of The Union-Banner has found what went with the watermelon we were expecting to get for a Chritmas present. Monroe Parrish got it off the Christmas tree at Providence, and ate it on Christmas day. This is the first instance we have ever heard of anywhere about here where a watermelon turned up late enough to be eaten for Christmas. Mr. Parrish says it was a good one.

GIST SEES A FIRM TONE IN MARKETS

STATISTICAN FORECAST EARLY END OF LULL IN MOVEMENT OF PRODUCTS.

Montgomery, Ala., Dec. 31.—F. O. Hooton, director of the state markets bureau, in a statement issued Saturday, says that the lull in business following the holiday rush is especially true this season in regard to the movement of farm products. He adds, however, that although business activities in general will not get back to their normal stride for several days, a firm tone is now noticeable in market reports. The remainder of Mr. Hooton's statement follows:

Cotton has advanced from $2 to $2.50 per bale during the week, showing active demand and slow sales. Middling cotton reached 18 cents Friday, and there is a confidential air to future trading.

The average prices paid to farmers for commodities named in several country markets throughout the state this week are as follows: Corn 65 cents per bushel; peanuts, runners, $45 per ton, Spanish $52 per ton, in small lots $1 per bushel; sugar cane syrup 50 cents per gallon; sorghum syrup 37 1-2 cents per gallon; hogs 6 cents per pound; cattle 3 cents per pound; chickens 19 cents per pound; eggs 40 cents per dozen; cotton seed $31 per ton; cow peas $1.45; velvet beans $14 per ton; Johnson grass $14 per ton; peavine hay: $20 per ton; peanut vine hay $10 per ton; other hays $8 to $10 per ton.

The recent announcement given out by the state division of markets that sugar planters of Louisiana had proposed to exchange standard granulated sugar in 100-pound sacks for cow peas, is creating considerable interest among the large producers and local merchants in the pea producing sections of Alabama. Several of these have already requested further details about this proposed exchange and have been placed in touch with the agent representing the sugar planters. This agent, in a recent letter to the division of markets, says: "Some of the sugar planters of this state are offering standard granulated sugar in payment of cow peas. From the looks of present conditions sugar planters will be unable to buy their usual supply of cow peas on account of insufficient funds. There are large quantities of sugar on hand which is moving very slowly.

CHAIRMAN CULP URGES PAYMENT OF POLL TAX

MUST PAY THIS MONTH TO VOTE IN THE ELECTIONS THIS YEAR.

Clanton, Ala., January 3, 1922.

To the Republican Voters of Chilton County:

As chairman of the Republican organization of your county, I feel it my duty at this time to try to impress upon each and every one the importance of every voter in the county who is behind with his poll tax to pay up before the first of Feb-February.

There will be during the year 1922 elections of vital importance, and to fail to pay your poll tax means that you can not vote in any election held this year.

On the 30th of this month will be held an election to determine whether or not the state shall issue twenty-five million dollars in bonds to build roads, and in August the general state and county primaries will be held. The people of this county will be called upon to elect a Probate Judge, a Sheriff, a Clerk of the Circuit Court, a Representative to the State Legislature, two members of the Court of County Commissioners, and two members of the School Board of the County. So you see it is of importance that we all be qualified to take a citizen's part in these elections. And I want to impress upon the ladies of the county the importance of keeping right up with your poll tax, for you have the same political and civil rights that the men have, and I would like to see the ladies of Chilton County set an example for the men, as we have a number of men who are behind with their poll tax. Remember also that every dollar of poll tax money goes right back to your school, in the district in which it is paid.

So, let each of us make a special effort to get our people to pay their poll tax during this month, so we can all participate in the elections that will be held this pear.

W. G. CULP,
Chm. Repub. Ex. Com.,
of Chilton County.

AMERICA RELIEVED OF MANY TAXES

NUISANCE, LUXURY AND NONSENSE LEVIES CEASE WITH COMING OF NEW YEAR.

Washington, Dec. 31. — America drew a long sigh of relief Saturday night. Many of the so-called "nuisance," "luxury" and "nonsense" taxes, imposed by the government as a means of raising war revenues, are revoked beginning with the first day of the new year.

The articles on which the consumer must no longer pay a direct 10 per cent tax include ice cream, soda water, railroad transportation, masculine and feminine wearing apparel, sporting goods, chewing gum, toilet articles, muscial instruments and "passes" to theaters and other amusements.

Patrons of amusements where the price of admission exceeds 10 cents, however, are given no relief. The amusement tax is unchanged except that it is revoked from free admissions (passes) and from admissions of 10 cents or less. All the penny taxes at soda water, candy and ice cream stores are repealed and the ice cream cone is one cent cheaper as a result. The new tax is paid by the manufacture.

To the traveler great relief is given. The tax on transportation is repealed, as well as the surtax on Pullman car travel and parlor accommodations.

All kinds of clothing are now relieved from the direct consumers' tax This includes clothing, hats, caps, neckwear, collars, shirts, shoes and hose. The tax had been levied on articles costing in excess of certain fixed prices.

Under sporting goods, tennis rackets, fishing tackle and rods, baseball, football, basketball paraphernalia are included in the list freed from luxury taxes.

A number of taxes are transferred from the purchaser to the retail dealer beginning tomorrow. This list includes jewelry, carpets, rugs, trunks, traveling bags, portable light fixtures and fans. All are 5 per cent in excess of certain sums.

T. J. Headley of Randolph was in Clanton Tuesday. Mr. Headley is selling out his property preparatory to removing to Collinwood, Tenn., where he will in future be engaged in the mercantile business with his brother in law.

60,000 TONS ARE MOVED BY BLAST

24,200 POUNDS OF DYNAMITE "SHOT" IN QUARRY AT MITCHELL DAM.

Mitchell Dam, Ala., Dec. 31.—One explosion of dynamite at the rock quarry below the dam at Duncan's Riffle moved 60,000 tons of rock Friday afternoon, preparatory to the operation of rock crushers and sand rolls.

This blast said to have been the greatest ever exploded at one time in Alabama, set off 24,000 pounds of 60 per cent and 75 per cent dynamite, and the entire face of the cliff overlooking the Coosa River pitched forward, striking the water and making a w[illegible] ut ten feet high.

[illegible] and [illegible] ineer O. G. Thurlow and [illegible] ineer L. V. Branch had [illegible] this piece of work, prepara[illegible]or which has been going forward with electric and hand drills night and day for the past three months. H. H. Hamilton, of the Birmingham office of the Dupont Powder Company, had supervision of the loading.

Engineers and many others witnessed the explosion from the end of the cofferdam, and both motion pictures and "stills" were taken as the spark ignited the explosion.

THE OLDEST BANK In Chilton County

Nothing Mysterious.

There is nothing mysterious about modern banking methods. Most people know all about how to do business with a bank, but to those still unfamiliar, we offer the following information:—

To open an account, merely bring your money to the bank. We will credit you with the amount and will give you a pass book on which the amount of your deposit will be entered. We will also give you a check book. When pou wish any of the money, or desire to pay a bill, write a check for the amount and sign it. When the check reaches the bank we will pay it, charging it to your account. Every additional deposit of funds will be entered on the pass book which you have. ANOTHER SCORE FOR THE FORDSON TRACTOR

If anybody has any printing offices they want to move, we advise them to secure the services of Bill Parrish and the Fordson Tractor, of the Clanton Motor Car Company. We have tried this combination recently and find it highly satisfactory, for the purpose of moving heavy machinery and other weighty matters connected with a printing outfit.

When The Union-Banner came to solve the tremendous problem of moving into our new building, we concluded to make use of the Fordson Tractor, which machine is reputed to be good for anything in the world. Mr. McDavid of the Clanton Motor Car Co., very kindly consented to allow us the use of one of his, and the services of Bill Parrish to navigate her. A heavy slide was built and the presses and linotppe machine rolled aboard by means of skids placed underneath. When the slide was loaded with all the things that we could stack on her, Bill gently applied the juice to the Fordson and in a few minutes the whole cargo was being unloaded at the new building in the same manner as it was loaded at the old place.

It required several loads in this manner to accomplish the task, but it was done without a hitch, and with but very little "pi." All glory to the Fordson. Outside of the "Universal Car," it is the greatest piece of machinery Hank ever turned out.

TRYING TO STOP NO. ONE

We are glad to note the tenacity of the Clanton Chamber of Commerce in their efforts to have the Louisville & Nashville Railroad Company stop passenger train No. 1 in Clanton. This fast train, if stopped regularly in Clanton, would be the most serviceable train passing through our city. It reaches Clanton going south from Birmingham about eleven o'clock in the morning. There is a big delegation in Montomery to-day at the hearing in the Montgomery Circuit Court before Judge Leon McCord relative to the case. The matter was taken up some time ago before the Alabama Public Service Commission, which granted the request of Clanton favorably. The railroad did not accede to the ruling of the Commission but appealed the case to the Montgomerp Circuit Court, the hearing today being on this appeal. We hope Clanton wins out in its contentions in this case, as it is by all means justice to the town for the L. & N. to allow us service with this train.

THE HIGHWAY AMENDMENT ELECTION

A meeting of the citizens of Clanton is called for Friday night in the interests of this election which will be held on January 30th for the purpose of issuing bonds with which to secure the $25,000,000 appropriated by the government for the purpose of building up permanent highways throughout the State.

The county of Chilton has already been surveyed and work approved of by the State authorities, so that as soon as the election carries work will be begun on the road from Calera through the county to Marbury.

The taxes for paying off these bonds are to be paid by the motor vehicles, and not by the other residents of the county. Good roads saves tires, gas, repairs in the general upkeep of the car. It will therefore be a good investment to automobilist to have these roads and more than pay the extra tax now levied for this purpose. Everyone who drives a car should be interested in this meeting next Friday at 7:30, p. m., for the purpose of organising the county for the election.

P. G. CARTER,
Chairman for Chilton County.

HIGH SCHOOL BAND ORGANIZED

Regular work was resumed at the high school Monday, January 2nd. Preparations are now being made for the regular mid-term examination, to be given the latter part of next week. The school has reached an enrollment of 173 and others are expected at the beginning of the second semester.

We were pleased to have the first rehearsal Wednesday afternoon of the High School Band, recently organized. The band is composed of twelve pieces at present while we are expecting a few others to secure instruments and begin practice within a very short time. The band is under the able supervision of Prof. H. E. Snow of Birmingham. Prof. Snow has had a wide experience in this work, having been director of the Boys Industrial Band of Birmingham for a long time, and has directed bands in Michigan, Ohio, Indiana, Montana, Oklahoma, Alabama, etc. With the hearty cooperation of the people of Clanton we anticipate a very successful season.

Vote for the Bond Issue. It is the only hope of getting Alabama's share of the good roads money appropriated by Congress.

Under the laws and rules that will be in force when the bond issue becomes effective, maintenance will begin as soon as construction ceases.

Rebuilding a road that has gone to ruin through neglect is not maintenance, but re-construction. Maintenance means keeping it from going to pieces by making repairs as soon as needed.

There is one thing certain, a protective tariff never hurt an American industry and it almost always helps.

Washington Post—In buying scrapped ships for tractor making, Hank Fords wants to beat our armament into plow horses.

The good roads bond issue is not a political question, a partisan design nor a fractional effort. All parties and all factions are united in the effort to get Alabama out of the mud.

Bond Issue roads will give to the children in the county the same educational advantages enjoyed by those who live in the cities and larger towns.

Alabama now has the chance to build and maintain good roads in every county, without any expense to the counties, without increasing taxes and without raising the assessed value of property.

THE LORD'S PRAYER.

Mr. L. D. Popwell suggests that everybody start off the new year by reading and keeping constantly in mind, the Lord's Prayer. He brings us a copy of the prayer which we reproduce below:

Our Father which art in Heaven, hallowed be Thy name. Thy kingdom come, Thy will be done on earth as it is in heaven. Give us this day our daily bread, and forgive us our debts as we forgive our debtors, and lead us not into temptation, but deliver us from evil; for Thine is the kingdom, and the power and the glory forever. Amen.

FINAL UNIT PUT IN AT LOCK 12 PLANT

Sixth Addition to Power House Completed, Adding 19,500 Horse Power.

By placing in operation Saturday the sixth unit at the Lock 12 power house, on the Coosa River, the Alabama Power Company has completed the full installation of the plant, 19,500 horse power being added, making the total 110,000 horse power at this plant.

This is the final unit for Lock 12 hydro-electrict plant.

While the water flow will not permit the continuous operation of the six units for all the year, the installation of the sixth unit will be of great assistance in handling the great demand for power, the coming year promising much, belief being expressed that there will be an approach to normal conditions.

Thomas W. Martin in a statement issued Saturday said there was an expectation of additional demands in the new year for at least 40,000 horse power in the electric line. When it is taken into consideration that this is more than is consumed in Birmingham, same idea can be gotten from the increase looked for in hydro-electric power.

The completion of and installation of the sixth unit, the final unit, at Lock 12, on the Coosa River, is of no mean importance and the steady operation of the plant, when the water flow permits it, is assured.

President Thomas Martin, of the Alabama Power Company, gave out the following statement Saturday:

"Our company placed in operation on yesterday the sixth final unit at the Lock 12 power house, Coosa River, with a capacity of 19,500 horse power, thus completing the full installation of the plant, making 110,000 horse power in the six units.

"The water flow will not permit the continuous operation of the six units for all the year, but the additional unit which we have installed will be of great assistance in enabling our company to meet the demands such as we will doubtless have during the coming year when business is nearer normal.

"Our forecast of business conditions in the territory which we serve leads us to believe that the additional demands on our system during 1922 will approximate 40,000 horse power. This indicates a continued improvement in business and that we should approach a normal condition before many months. With this view, we are doing everything possible to anticipate this additional demand for power so that we may aid the expansion of business which we feel will come during the year."

CHAMBER OF COMMERCE

The Clanton Chamber of Commerce held its monthly meeting in the Odd Fellows hall on Monday night and the spirit shown was very good. Mr. R. D. Busbee as the recently appointed Traffic Manager gave some very valuable information as to the excessive freight rates now charged as compared to other places, and made recommendations how best to meet the situation. This matter was left in his hands for proper action.

Regarding a cotton or knitting mill industry the secretary was instructed to pursue the present methods now being adopted to get into touch with an interested party, with the assurance that local capital could be raised for such an enterprise, if the right party can be found to superintend the work, and with sufficient capital to match that of the local capital that might be subscribed. Correspondence is now being held with possible prospects. It was generally conceded that in the course of time something would be secured with the present methods now being pursued.

The annual meeting of the Chamber was set for Thursday night, January 19th, at which we hope a large attendance will be present.

Mrs. J. Osmond Middleton, of Mobile, arrived in Clanton Tuesday to spend a week with her parents, Mr. and Mrs. Wiley Littlejohn.

The Bond Issue offers the only chance the poorer counties have or ever will have to obtain the federal aid for highway construction.

RAILROADS PLACE BIG RAIL ORDERS.

NEW YEAR BEGINS WITH QUICKENED INDUSTRIAL ACTIVITIES

FARMERS FEED THEMSELVES

Florence "Dollar For Job" Concern Being Investigated — Sylacauga Building New Light Plant. Alabama Yams and Cane Syrup.

Birmingham.—The L. & N. Railroad has placed orders for 50,000 tons of rails for 1922 delivery. Of this tonnage all but 5,000 tons will be rolled at the Ensley mill of the Tennessee Coal, Iron and Railroad Company.

News of the orders came via New York and has been locally confirmed.

In addition to the order for 45,000 tons for the Louisville and Nashville the Tennessee company some time ago booked one for same amount for the Southern Pacific for 1922.

When the Ensley rail mill begins its 1922 grind it will have 90,000 tons on order books from two Southern roads alone. The normal production of the Ensley mils is 6,000 tons per week.

"In Out of the Cold."

Albany.—A cat now occupies a prominent place in the household of H. B. Beard, manager of the American Oak Leather Company's plant here. The cat inadvertently prevented a robbery of the Beard home.

A few nights ago Mr. Beard went into the cellar of his Jackson Street home to put more coal into the burner. As he descended the stairway he noticed his cat following, and turning to the feline, he inquired, "Well, what are you doing hree?" He was astonished to hear a negro's voice reply from the darkness, "Boss, I just come in here out of the cold." The negro fled.

Yams and Cane Syrup

Montgomery.—Luther D. Fuller, of Jamestown, N. Y., chief agricultural agent for the Erie Railroad and former Montgomerian, who is spending the holidays here with relatives, told officials at the state agricultural department that he believes he can find a market for Alabama sweet potatoes and cane syrup. Local and Southern markets for these important Alabama farm products are dull at present and there are large quantities of both on hand. Mr. Fuller stated that as soon as folks in the North and East achieve a full appreciation of Southern yarms and ribbon cane syrup, the marketing commodities will no longer be a problem.

"Dollar For a Job."

Gadsden.—Working people in Alabama City are reported to be getting letters from Florence and vicinity in which the proposition is made that if they will send $1 in cash to the writer they will be guaranteed a job there providing Henry Ford obtains a lease on the Muscle Shoals project. It is understood that the matter has been taken up with the federal authorities with the request that the scheme be investigated. According to information some of the people of Alabama City have complied with the terms of the letter by sending $1 to the writer, who appears to have an extensive mailing list.

Gadsden.—According to T. S. Kyle, receiver, the sale of the assets of the Queenelda Graphite Company at Ashland means a complete reorganization of the $5,000,000 corporation. SHOULTS

The north wind doth blow; and my! it makes a fellow button up his overcoat too.

Rev. J. D. Deason filled his regular appointment Saturday and Sunday.

It was most too cold to smile Sunday, although there were some who could hardly help it. Why? Because Misses Beatrice Little and Marie Thomas, teachers of the literary school, returned.

Miss Birdie Hall, a student of the Thorsey Iistitute spent the holidays with parents, Mr. and Mrs. Calton Hall. She left Saturday for Montgomery to where she dined with one of her friends on Sunday. Then to Thorsby on Monday night to take up herschool work.

We always cheer up when the postman hands us a letter from our kindred that are far away from home. One day last week joy was turned into sadness when Mr. and Mrs. John Moore received a letter from their son Ezra of Breckenridge, Texas, stating that he had received serious injury from a car wreck. He has been in Texas for two years and holds a position with an oil concern, where he is making great success. His many friends are sad to learn of his misfortune, but hope his condition is not serious.

After spending a week with homefolks, Miss Eva Hall returned to Hattiesburg, Miss., Tuesday night, where she has been working since summer.

Mrs. W. M. Oden visited relatives of Billingsley last week.

Mr. and Mrs. Howard Oden and children spent a few days of last week with relatives of Mulberry.

Mr. David Bearden spent last week in Selma with his brother, Chancy, and sister, Mrs. O. S. Rhodes.

Mr. John Moore is suffering greatly with a bad cut foot. One day last week he was cutting wood and his axe slipped and cut a bad gash in his foot.

Mrs. Clarence Latham and little son of Breckenridge, Texas, spent a few days last week with her sister, Mrs. Cleve Latham. She is visiting her parents of Lawley. She was before marriage Miss Birdie Shoults.

Mr. and Mrs. William Rasberry and daughter, Alline, and son spent last Wednesday with Mr. and Mrs. H. R. Oden.

McNEEL RELEASED AS REVENUE COLLECTOR

REVENUE OFFICER WILL TURN OVER OFFICE TO FOSTER THURSDAY.

Final notice of his release as collector of internal revenue and the appointment of J. Henry Foster of Birmingham Saturday by John McNeel, who will turn over the office to Mr. Foster Thursday, in accordance with instructions which are from Commissioner of Internal Revenue Blain at Washington.

Mr. Foster, at present chief clerk in the internal revenue department, will serve as collector until the confirmation of the permanent collector now pending in Washington, is made, according to the orders.

Mr. McNeel has been collector of internal revenue at the local office for the past eight years, having been appointed early in the first administration of Woodrow Wilson.

W. E. Snead, of Boaz, whose application is now before the United States for confirmation, will probably succeed Mr. Foster, although nothing definite as to when he will take over the office has been forthcoming from Washington.

Mr. Snead's application, which received the full indorsement of the Republican state organization, was first sent to the Senate for confirmation in September, almost simultaneously with the receipt of Mr. McNeel's resignation. The latter was never accepted until recently, at the urgent request of Mr. McNeel. The special term of Congress passed out without formal action being taken on Mr. Snead's application, which was again sent by President Harding at the opening of the December term.

According to Senator J. Thomas Heflin, who was in Birmingham Saturday, one of the causes of the delay was that there has been no denials or explanation of the charges which have preferred against the appointment of Snead. Senator Heflin further stated that it is probable that final action will be taken shortly after Congress opens this week.

Mr. McNeel, retiring collector, will engage in income tax work immediately upon his release and will have offices in the Jefferson County Bank Building.

Pretty Birthday Party.

One of the prettiest Christmas affairs given by little folks was the party given last Friday afternoon by Elizabeth, the attractive little daughter of Mr. and Mrs. G. C. Harris, celebrating her fifth birthday anniversary. The little hostess, wearing a dainty dress of white crepe de chine and assisted by her mother, received the guests. A color scheme of pink and green was used in the artistic decorations of the dining room and living room, where merry games were enjoyed by all. Late in the afternoon cream and cake, in pink and green, were served. The birthday cake beautifuily embossed and holding five tiny pink candles set in tiny pink rosebuds made a handsome center piece for the table, which was presided over by Miss Maud Wagoner. In cutting the cake, Joe Earl Gowan cut the dime, Alex Hayes the button, Julia Cox the heart. A Christmas tree holding the favors for each guest was an attractive feature of the entertainment. The children also enjoyed pinning the stems on the apple, prize was won by Master Hermon Harris, a miniature Santa Claus. The guests included the following: Marie Frasier, Dorothy Sessions, Erien Littlejohn, Holland Popwell, Bill Minor, Mary and Julia Cox, Edwin Wagoner, Joe Earl and Ruth Gowan, Esterlee and James Dennis, Hermon Harris, Mildred, Edna and Marie Durbin, Rose Mary and Mike Pickens, Hal Broadhead, Cathrine and Alex Hayes, Virginia Eubanks, J. W. McKee, Elizabeth Gragg, Fannie Moore, Evely Littlejohn, Elizabeth and Helen Eubanks, Nelson Parrish, Grover Harris, Virginia and Robert Alred.

Later the merry group were served tempting refreshments by Misses Marzell Mullins and Allie Crumpton. About 30 of the younger set enjoyed this pretty party.

Miss Allie Crumpton left Monday for her home in Brewton.

Quit Laxatives, Purges; Try NR

NR Tonight — Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

DOINGS at MULBERRY

(By G. H. DeShazo.)

Well, the holidays are over and every body is back at work again with renewed energy. The year 1921 has gone never to return and some of us may feel that we did not receive all that we should during the year, but we all should feel thankful that it has been as well with us as it has. Just pray to God to bless us in the future as well as we have been in the past. Now let's all pull together and make the new year a record breaker for everybody.

Say, has anyone found that ear of corn with an odd row of grains yet, come on boys and bring it in for we want to see it.

Mrs. R. E. Tucker returned home Saturday night after spending the holidays with her parents, Mr. and Mrs. D. O. Manning.

Mr. W. J. Morris and family of Liberty community spent last Thursday with Mrs. Morris' brother, Mr. T. L. LeCroy.

On last Wednesday quite a crowd from this community went over to Golden Ridge and held a song and prayer service at the home of "Uncle John" and "Aunt Jane" Thacker. ENTERPRISE DRIPPINGS

The Christmas guns have ceased to roar around here and people have returned to their usual occupations.

As Christmas times came on and around Sunday, the time seemed rather quiet. Of course that meant a dull Christmas to the boys, especially we who like to shoot grass birds.

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—

CARDUI

WARS EAT UP THE TAXES

When I set out to discover for you where the money you pay as federal taxes goes I did not have far to look. It goes for wars, past, present and prospective. Last year a little over 90 per cent of the national income went that way. In the report of the secretary of the treasury submitted to congress in December, 1920, he remarks:

An analysis of government expenditures for the fiscal year 1920, on the basis of daily treasury statements, develops the striking fact that of the net ordinary disbursements of $6,403,000,000 about 90 per cent consisted of expenditures under the following heads:

Purchase of obligations of foreign governments	$ 421,000,000
War department	1,611,000,000
Navy department	736,000,000
Shipping board	581,000,000
Federal control of transportation systems and payments to the railroads under the transportation act, 1920	1,037,000,000
Interest on the public debt	1,020,000,000
Pensions	213,000,000
War-risk insurance	117,000,000
Purchase of federal farm-loan bonds	30,000,000
Total	$5,716,000,000

Substantially all the expenditures entering into this total, and a large share of the expenditures on various minor accounts, represent burdens directly traceable to the war, to past wars or to preparedness for future wars. These figures serve to indicate the direction which sincere efforts to reduce the cost of the government must take.

Then I found Mr. Gilbert, the undersecretary of the treasury, saying:

There has been much idle talk to the effect that the excessive cost of government is due to inefficiency and extravagance in the executive departments. Without doubt there has been waste and inefficiency in the various government departments and establishments, and much can be accomplished, and has already been accomplished, by the introduction of efficient and economic methods of administration and the elimination of duplication and unnecessary work. It might well be possible to save as much as $50,000,000 or $100,000,000 by careful and scientific reorganization of the government's business.

The figures show that over 90 per cent of the total annual expenditures of the government are related to war. Out of total expenditures during 1920 of about $6,400,000,000, about 5½ billions represented expenditures directly traceable to the war, to past wars, or to preparedness for future wars. Of this, about $2,500,000,000 went for the army and navy, over $500,000,000 for the shipping board, over $1,000,000,000 for the railroads, another $1,000,000,000 for interest on the public debt, almost $500,000,000 for purchase of obligations of foreign governments on account of their war expenditures, and the remainder for pensions, war risk allotments and miscellaneous items related to war. An analysis of the expenditures of the first six months of the fiscal year 1921 gives similar results. The figures also show that the total cost of running what may be termed the civil establishment proper, that is to say, the various government departments, boards and commissions and the legislative establishment, have not much exceeded $350,000,000 even in the abnormal war years.

I sought details. If more than 90 per cent of the entire disbursements of 1920 went for past and prospective wars, how much had we been spending to keep the world safe for democracy? We are all familiar with the argument that the best way to prevent war is to be prepared for war. I thought I might find out whether that was true. I went back into the records and found that year by year, from 1834 to 1919 inclusive, the treasury department had kept an account of the actual disbursements—not appropriations, mind you, but actual money expended—of the War department, the Navy department and for pensions. When I got all the figures before me I couldn't add them up.

In the bureau of internal revenue they loaned me a machine and an operator, and so I know and can tell you that from 1834 to and through 1919 the War Department actually disbursed $23,002,390,008.65. In the same period the Navy Department spent $6,907,369,032.84; and pensioners of past wars got $5,634,079,694.23.

That is a thundering total of $29,909,759,041.49 for the army and navy alone, leaving out of account the $5,634,079,694.23 for pensions.

I will let you decide whether any part of the twenty-nine billion dollars spent for preparedness and for war prevented our going to war or found us prepared when we went to war. The three items I have enumerated are only ribs of the skeleton of the cost of war preparation and activity. I have not been able to excavate any other detail figures. But it is known that the war of 1812 cost about $133,703,880.

The cost of the Mexican war is estimated to have been $63,605,621.

The total cost of the Civil war, taking the period from June 30, 1861, to June 30, 1866, may be figured closely at $3,500,000,000.

The treasury in the winter of 1920-21 estimated in a report sent to congress through the secretary that the cost of the World war to us to that date had been $24,100,000,000, exclusive of our loans to the allies and other foreign nations.

So you see the cost of wars is going up, no matter how much money we spend by way of preparation.

Good Roads advance civilization and make a prosperous country.

POOR ORIGINAL

THORSBY SECTION

(S. E. Norton, Manager.)

Misses Jennie and Edith Robinson had as their week-end guests, Misses Emma Jowers of Wetumpka, Alpha Bently of Judson College, and Marie Flummer of Thorsby.

The ladies of the Baptist Womans Missionary Union did not fail to remember their pastor, Rev. W. P. Lowery who desires to gratefully acknowledge and express sincere thanks for their Christmas gift of twenty dollars.

At a recent meeting of the Ladies Aid Society of the Congregational church the following officers were elected for the ensuing year: Mrs. A. K. Horn, President; Mrs. J. H. Goddard, Vice-President; Mrs. E. W. Butler, Secretary; Mrs. C. C. Peterson, Treasurer. This society will have charge of the dinner at 6 o'clock p. m. Wednesday, preceding the annual meeting of the church which is to be held the same evening. This dinner has long been a custom and amounts to an annual roud up of members of the church and others who consider it is their church home and includes all members of the Sunday school and Christian endeavor society, a sort of "home coming family dinner." At the church meeting which follows, reports of officers of the church and its affiliated organizations will be presented and officers for the ensuing year elected, these matters will be more fully published in our next issue.

The Thorsby Chamber of Commerce will hold on open forum meeting at the Conregational church at 7:30, p. m. Thursday, January 5th. This meetin is open to all citizens of Thorsby and vicinity who are in any ways interested in civic improvements. A telephone message to President Graham from Birmingham Chamber of Commerce gives assurance of one or more good speakers to address the assembly. Coming from an organization noted all over the state for its accomplishments. It is hoped the people of Thorsby may get some inspiration as well as information as to how civic improvements are organized and "put over."

The Ladies Guild sociable for December was entertained last Thursday at the home of Mrs. C. E. Lucas. There was a good attendance and as always at these gatherings an enjoyable time.

After going to Wetumpka and losing a game to the Wetumpka Athletic Club, Thursday by a score of 25 to 35 the Thorsby Basket Ball team went to Clanton Friday and took them into camp to the tune of 39 to 11. The game was called at three o'clock and started with a rush, at least the Thorsby team began that way, and when time was called at the end of the first quarter the score stood 15 to 3 in favor of Thorsby. At the end of the first half Thorsby had 25 to Clanton 3, the boys being completely demoralized by the snappy pass work and goal tossing of their opponents. By using a little substitution the Clanton boys managed to put up a better brand of ball in the second half though they still were unable to stop the rush of the Thorsby team. When the dust of battle had cleared away the score stood 39 to 11 in favor of Thorsby, every member of that team having come in on the scoring act as follows: Forwards, Littleton 12, Graham 5; Center, Franklin 8; Guards, Collins 12, Learp 2. For the Clanton team the score card showed: Forwards, Connatser 5, Wyatt 0; Center, Mahan 2; Guards, Kemp 4, Roberts 0; Substitute, Mullins.

The Wotan Koellner Benefit Concert at the Lutheran Church Monday night proved to be a program of unusual excellence. Young Zoellner, though but thirteen years old, gave definite evidence of genius as a violinist. A full house of good music lovers gave rapt attention to the masterly work of this young prodigy. Every number given simply increased the desire to hear more. Like children under the spell of a good story teller. It is hoped that Thorsby may be able to secure a return engagement of this very worthy attraction at some future date.

Thorsby Public School and Thorsby Institute re-opened after the holiday vacation Tuesday morning with a full attendance.

The Congregational Ladies Aid Society will be entertained at the home of Mrs. R. A. Turner on Jones Street at 2:30 p.m. Thursday.

Mr. and Mrs. Philip W. Horn, with their young son, Lloyd, from Troy, spent Christmas with Mr. Horn's parents, Mr. and Mrs. A. K. Horn. These young people have many warm friends in Thorsby.

A Christmas party honoring her daughters, on Wednesday afternoon, Dec. 28th, Mrs. F. E. Adams and Miss Helen Gronquist of Birmingham, was given by Mrs. F. E. Gronquist at their home in Thorsby. The house was beautifully decorated with Holly Lillies, carnations and roses. Music was furnished by a new Victrola, presented by her daughters.

On Wednesday afternoon, Dec. 28, Mrs. Hattie M. Gerald entertained quite a number of her Lutheran Church friends.

On Friday afternoon, Dec. 30, Mrs. Magne Anderson assisted by her daughter, Mrs. Ivey Horn, gave a delightful tea party to some of their many Thorsby friends. No house in Thorsby would hold them all.

Master Thomas Adams, son of Mrs. Emma Adams, a student in a military school in Mississippi, spent Xmas. with his grand parents, Mr. and Mrs. F. E. Gronquist.

Mr. and Mrs. Lawrence Lefstead of Birmingham spent New Years day with Mr. Lefstead's mother, Mrs. Johanna Lefstead.

Mr. and Mrs. C. R. Foss entertained at dinner Christmas day.

Miss Naemi Turnquist has taken a position as Bookkeeper with The Forest Lumber Company at Clanton. She will continue to make her home in Thorsby, going and coming by train.

On Saturday night, January 7th at 7:30, in Bates Hall, Miss Agnes Gerald will will give a song recital, assisted by Miss Inga Erdahl, pianist, and Miss Catherino Perry, reader. This will be an opportunity to enjoy the work of these talented young women of Thorsby, and a cordial invitation is extended to the public.

Mrs. May Hastings Nottage is still seriously ill at the home of Mr. and Mrs. J. H. Goddard, having been removed there from the boys dormitory where she has made her home for some time. Mrs. Cochrane of Nebraska has arrived in Thorsbp to take up the duties of House Mother at the boys dormitory and part time teacher in the Institute. Mrs. Cachrane has had much experience in dormitory life and it is expected will capably fill the place vacated by the resignation of Mrs. Nottage.

SPECIAL SERVICES AT ADVENTIST TABERNACLE

Beginning Sunday night, January 8, at the Tabernacle, there is to be a ten days institute conducted by the Alabama Conference of Seventh-Day Adventists There will be in attendance at this meeting Elders J. L. McElhany of Nashville, Tenn., President of the Southern Union Conference, V. O. Cole, who has charge of the evangelistic colporteur work in the South. There will be also in attendance a number of Bible and religious literature colporteurs from different parts of the State with that of the local conference workers.

The Adventists are a great literature people and believe in good wholesome reading. The old adage "As a man reads so is he," they believe is true today as it was in the dim, ancient past. So, they put forth every effort to furnish good reading matter for both the old and the young.

They are now issuing religious literature in over one hundred leading languages of the world, that present Bible truths and Christian principles. None of their literature carry any commercial advertisements but depend entirely upon the merits of the literature and its sales for support. They believe that the commercial and religious world should be kept separate, each having its legal and rightful functions.

There will be meeting each night at 7:00 o'clock throughout the week and all are invited to attend these services. Elders J. L. McElhany, S. G. Haughey and others will fill the pulpit during the weeks night meetings.

THE STOPPING OF NO. 1

Carter and others will be present to represent the city and county. As this is a matter of vital interest to every citizen and will mean much to the city and county it is hoped that a large delegation will go in a body to this hearing. Cars will leave the Court House about 7:30 or 8 o'clock, a. m. If you have no way of going yourself get in touch with the secretary of the Chamber of Commerce and he will see that you have a way to go. We would like a delegation of some twenty people at least.

P. G. CARTER, Secretary
Clanton Chamber of Commerce.

OAK HILL

The cold weather did not keep the good people of this community from attending the splendid services at this place Saturday night, Sunday and Sunday night. Our new pastor, Rev. L. H. Jones, who has been spending the holidays with home folks at Cullman was back on the job and was listened to with great interest by his hearers throughout his discourses. He will preach here on Saturday night, Sunday and Sunday night of the first Sundayin each month throughout the year, and the United Singing Society meets here every fourth Sunday afternoon. Sunday School every Sunday in the year.

The Singing Society will meet with Union Grove next Sunday evening. All the classes are urged to be present, as it will be time to elect officers for the ensuing year.

Among the many visitors in this community this week was old Aunt Fannie Mims of Mt. Nebo, who had been visiting her sister, near Calera. She tells us the sad story of the sickness and death of her husband. Mr. A. C. Mims, better known as Uncle Bud Mims, who was at one time tax collector for this county, and was loved by all who knew him. She tells of how good and kind her friends were to them during his sickness and death, and we want to extend to them with her our healtfelt thanks for their kindness to them in time of trouble. May God's blessings be upon them all. E. L. GLASSCOCK.

BOTH HOG AND HOMINY PLENTIFUL IN LIMESTONE

Farmers Prepared to Feed Themselves During 1922.

Athens.—Just prior to the holidays the slaughtering of unusually large hogs was the "order of the day" in the western part of Limestone County.

The leader in this work was M. A. Starkey, of the Cairo community, who slaughtered one hog weighing 715 pounds, dressed, another 705 pounds, and a third 530 pounds. Another monster was killed by Walter Morris, which weighed, dressed, 612 pounds and J. A. Boyd killed one weighing 555 pounds. These hogs were all of the Poland China breed, and in excellent condition for both pork and cured meat products.

N. C. Graham, Charles Varnell, Oscar Davis, and Hughes & Bullington were among others in West Limestone, which for many decades was known as a "hog and hominy" section, to kill big hogs, and, in line with the general hog killing in other sections of the county, these indicate that the farmers of Limestone are prepared to feed themselves during the new year of 1922.

WAR TAX ELIMINATED ON PASSENGER, FREIGHT AND EXPRESS.

Birmingham.—Along with elimination of the 3 per cent tax on railroad freight charges, 8 per cent charge on passenger fares and the extra tax on Pullman fares, war tax on express shipments also comes with 1922.

Saving to the public in the elimination of the tax on express packages will amount to $1,500,000 per month, according to experts.

"The war tax on express shipments amounted to $17,502,000 in the year 1921," said J. T. Montgomery, local agent of the American Express company. "The average charge for each express package was $1.50 and the average tax for each shipment was 8 cents. The elimination of the war tax amounts to a decrease of 5 per cent in the express rate."

Test Case To Be Filed.

Birmingham.—Right of the board of revenue to appropriate money for charitable institutions not directly under the control of the county will be tested in a friendly suit to be filed by the Anti-Tuberculosis Association of Jefferson County, and grows out of the report made several months ago by the state examiners in which $80,000 in warrants payable to the institution were charged back to M. V. Henry, county treasurer, as illegal appropriations.

Christmas Without Fatalities.

Montgomery.—Alabama's Christmas celebration was held without a fatal accident resulting from fireworks and Christmas trees, according to reports received by W. J. Williams, state fire marshal. Mr. Williams has been informed that only two deaths from fire occurred during the holidays, and they were due to an open grate and not from a celebration. The reports also show that the loss from fire during the holidays was negligible.

AMERICA IS RICHEST NATION ON EARTH

REPORTS INDICATE CHEERFUL OUTLOOK FOR THE NEW YEAR

Washington, Dec. 31.—The United States government, with a monetary wealth of $8, 244 000,000, enters the new year as the richest nation on earth.

The government wound up its 1921 affairs Saturday night with a cash balance of approximately $475,000,000 being effected during the year.

Treasury Department figures showed that $5,518,000,000 of Uncle Sam's monetary wealth was in actactual circulation, the remainder being held in the treasury as guarantees for silver certificates. Subsidiary silver coins total $272,800,000, of which about $260,000,000 are in subsidary silver, of which approximately $260,000 is in circulation.

Included in the nation's monetary wealth is $346,000,000 in United States notes, $2,796,500,000 in Federal Reserve notes, $116,600,000 in Federal Reserve Bank notes and $749,700,000 in national bank notes. Some of these bank notes are held in the treasury but the amount in actual circulation tonight totals approximately $3,642,000,000. There are also in circulation gold and silver certificates backed by the deposits held in the treasury.

During the year the government paid off more than $3,000,000,000 on the public debt, but created new debts totalling aproxmately $2,550,000,000 in round figures. This accounted for a reduction of $450,000,000 in the total public debt.

The reduction was effected by an excess of that amount in the ordinary receipts over ordinary expenditures.

From all revenue sources, the government received $2,250,000,000 during the year (approximated) This included taxes, customs and tolls.

Expenditures for salaries and other ordinary disbursements totaled $1,850,000,000. The figures do not include foreign loans, public debt funds or any extraordinary receipts or expenditures, merely the usual run of routine business.

On the whole the governuent had a prosperous year, although there was a reduction of some $800,000 in the amount of money circulated. The Treasury Department's reports hold an optimistic note with indications of better economic conditions during the new year.

L. H. REYNOLDS,
1-5-3t Judge of Probate.

The election for the twenty-five million dollar bond issue to be held January the 30th is fast aproaching, and indications are that the voters of Aabama will rally to the support of this measure. The adoption of the bond issue means that we will get this county, as well as other counties a part of the supposed highways of of the voters could travel over just thi- state, there would be no question of Alabama will rally to the support but that the issue would carry unanimously.

Dr. W. B. Crumpton, the venerable secretary emeritus of the Baptist State Executive Board, has written and publihsed a bookiet endorsing the $25,000,000.00 bond issue for a system of permanent roads. Dr. Crumpton is quoted as saying that he preaches good roads and advocates the adoption of the bond issue whereever hegoes, and feels that he is doing the Lord's work when he does so. "There is the truest sort of religion in the good roads movement" he says.

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

WASHINGTON LETTER

MATTERS OF INTEREST AT THE NATION'S CAPITOL.

Debts Out.

The action of President Harding in commuting the sentence of Eugene Debs and twenty-three other persons convicted of charges growing out of the war will receive popular approval. They were simply released from custody, but do not regain their American citizenship which they lost when convicted. Mr. Debs is 66 years of age, of great personal charm and high character, and has been the candidate for President on five occasions of voters ranging in number from about 100,000 to 1,000,000. All of those considerations had weight with the President in determining his action. It is highly probable that Mr. Debs will not take an active part in politics in the future, and even if he should he could not have the influence he did during the troublous times of the war. The other prisoners who went free on Christmas Day were persons who obstructed the draft in ane way or another. No clemency was shown to those convicted of sabotage or attempts to destroy the Government by force. The President announsed that he would not consider lamiency to that class of cases.

The Russian Relief

Five days after the President approved the bill appropriating $20,000,000 for Russian relief, the grain was moving into the famine districts. The money used was not actually in the Treasury, but was in the hands of the Grain Corporation ready for use without the delays frequently incident to the payment of Treasury funds. Some objections have been made to the course Congress has pursued in the matter, on the ground that it furnishes a dangerous precedent that may embarrass us in the future when other countries are in distress. There is no need for such fears. Future Congresses will not be governed in any way by the actions of their predecessors, each session being limited in what it may do only by the Constitution. If requests are hereafter made for American relief each case will be decided purely on its merits, without reference to what may have been done for Russia or any other country.

Get-Together Meetings

President Harding and General Dawes have arranged to hold semi-annual budget meetings with the heads of departments, similar to that held last summer. The next meeting will take place the latter part of January. Each department and bureau head will be called upon to report at the meeting the changes that have made in his offices and the economies that have been effected. Plans for the future will be mapped out, and each official again impressed with the necessity of avoiding deficits. There is a law imposing fines and imprisonment upon any Government official who expends money in excess of the amounts authorized by law, as well as providing for the summary removal of the offender. It is the intent of General Dawes to enforce that that statute if necessary, but the spirit of co-operation now apparent in the Federal service indicates that there will be no occassion to invoke the law.

Pearl Buttons Protected.

In 1913 the Democrats made radical reductions in the duty on pearl buttons. This is a relatively small industry found in New Jersey, New York, and Pennsylvania. One of the leaders in the industry states unequivocally that "the manufacture of pearl buttons was made possible in the United States by the tariff of 1890." That was the McKinley tariff. In 1913 this industry gave employment at high wages to 11,800 men and 4,400 women and consumed 50,000 to 60,000 tons of fresh-water shells per year. Our chief competitor was Japan. Imports of fall buttons prior to the passage of the Underwood law were under one million dollars—pearl buttons not being stated separately in the returns. In 1920 we imported over 5,000,000 gross of these pearl buttons, valued at nearly $2,000,000. The House in the pending tariff bill has adopted pretty much the same duty rates on pearl buttons that were carried in the Republican tariff law of 1909, in spite of which the importers declare that the rates are prohibitive. They are not, and the rates should not be lowered. We have many thousand workmen and a number of pearl button factories to consider and their claims are more entitled to respect than those of the importers of Japanese pearl buttons.

A Business-Like Way

The Internal Revenue has adopted a new procedure for facilitating the refund of excess taxes. Heretofore it has been the practice to notify taxpayers of their privilege of filing a claim for refund in excess of the amount that should have been paid. Under the revised method certificate of over-assessment and a check for amount will be sent to the one who has overpaid. It is a return to a common sense way of doing business, and is in line with approved private practice.

Billions Tax Exempt.

Frequent advertisements are seen for additional capital need in business. It would be forthcoming if there were not so many billions tied up in tax-exempt municipal securities. A Constitutional amendment phohibiting the issuance of such bonds, would go far to cure the evil. It is probable that the States will have an opportunity to pass on such an amendment in the near future.

Their Stewardship

The correspondence of the Treasury and State Departments during the period we were making loans to foreign governments, recently published as a Senate document, is a revelation of one phase of Wilsonian recklessness that is not generally realized. More than a billion and a half dollars, collected through the sale of Liberty Bonds to our people, were handed over to foreign representatives at Washington without any warrant in law; in fact, it is admitted by Mr. McAdoo or his subordinates in the letters published that they were fully aware that they were proceeding illegally, and they resorted to various subterfuges to cover their trails and escape discovery. It is to be hoped that the foreign debt refunding commission, soon to be created by Congress will be able to salvage those loans and return the money to the taxpayers.

TELEPHONE DIRECTORS MEETING LAST FRIDAY

The Board of Directors of the Peoples Telephone Company held their meeting at the court house last Friday for the transaction of business relative to the operation of the Central office for the year 1922. Chairman W. T. Bean presided at the meeting.

Mrs. Plier was employed to operate the Central again for the next year under the same arrangements which has been in force for the latter part of 1921.

The date for the payment of Central fees for this year was set for the 15th of this month. After that time all who are not paid up will be denied service through the central.

Central fees may be paid any time between now and the 15th of January to Mr. Jasper Dennis, Secretary and Treasurer, at the county tax office in the court house. If Mr. Dennis is not at the office, Miss Genie Collins will receive the money and issue receipts for same.

The central fee was reduced to $2.50 for this year, and every phone holder is urged to pay up so that there will be money enough to operate the central and render satisfactory service throughout the entire year.

The many friends of Mr. A. D. Duke will be glad to learn that his health is much improved lately. His son Ben, was in the Banner office Tuesday and stated that he believes his father will regain his health now, although he is almost totally blind.

JIMMIE DYKES WINS PRIZE

The holiday prize which was given away at Bean Brothers Store was won by Mr. Jimmie Dykes. The trophy was ten dollars in cash. The lucky number which was held by Mr. Dykes was 211.

A whole lot of the good roads bond money will go for labor and the highway payroll will be an item of local prosperity in many an Alabama community, as well as go a long way towards relieving unemployment.

Worth Considering.

The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you wil lconsider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. There are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.—Upchurch Drug Company, Clanton, Ala.

Constipation.

Constipation of the bowels is a stoppage of the sewerage system that removes waste matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste, as it is that the waste pipes of your home be kept open and carry off the waste from the house. Ifyou would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed.—Upchurch Drug Co.

VOLUME IX. CLANTON, ALABAMA, JANUARY 12, 1922. NUMBER 39.

SOME QUESTIONS AND THE ANSWERS

TWENTY-FIVE MILLION DOLLAR ROAD BOND ISSUE CATECHISM

1. Ques.—Is it proposed to issue and sell $25,000,000.00 worth of bonds in 1922?
   Ans.—No. Only such amount of bonds will be issued and sold as the money is needed.
2. Ques.—To what amount will bonds be issued in 1922?
   Ans.—Only sufficient to take up the Federal appropriation now under agreement and the Federal allotment for that year, in all about four million dollars.
3. Ques.—To what amount will bonds be issued each year thereafter?
   Ans.—It is expected that the Government will give Alabama from 1½ to 2 million dollars annually and bonds will be issued and sold to match that amount.
4. Ques.—For what term will these bonds be issued?
   Ans.—They will be issued for terms of from 10 to 40 years.
5. Ques.—What rate of interest will these bonds carry?
   Ans.—The law provides that the bonds cannot bear a rate of interest greater than 6% and shall be sold for not less than par. Alabama bonds should sell now, bearing interest at a rate of 5½%.
6. Ques.—Who will handle the sale of these bonds?
   Ans.—A special law was passed bp the Legislature at the recent extra session creating a bond commission to be composed of the Governor, the Attorney General and the Chairman of the State Highway Commission.
7. Ques.—Does any member of this Commission receive pay for his service as Bond Commissioner?
   Ans.—Bond Commissioners receive no pay for their service.
8. Ques.—How will the interest on these bonds be paid and out of what fund?
   Ans.—Interest will be paid semi-annually out of the motor vehicle fund.
9. Ques.—What is the state's share of the motor vehicle fund?
   Ans.—For the fiscal year ending September 30th, 1921, it was $917,811.50.
10. Ques.—After the interest on bonds is paid what becomes of the remainder of this motor vehicle fund?
    Ans.—The remainder must be used for the creation of a sinking fund to pay off these bonds when due and for the maintenance of roads constructed.
11. Ques.—Will the motor vehicle fund increase?
    Ans.—For the past five years motor vehicles have increased at an average annual rate of more than 25%. We may expect at least an average annual increase of 10% for the next seven or eight years, which of course, means just that much increase in revenue from that source.
12. —Will this issue of bonds in any way affect taxes?
    Ans.—It will decrease taxes because when the State and the Federal Government build the main through roads in the several counties of the State, it becomes the duty of the State to maintain these roads without any expense to the counties, therefore it will not be necessary for the counties to levy so high a rate of taxes for the purpose of building roads and bridges. The auto licenses pay both principal and interest on the bonds and provide a fund to maintain the roads that the State and Federal Government have built.
13. Ques.—Who selects the roads to be improved?
    Ans.—The twelve state highway commissioners, representing every Congressional district, subject to the approval of the Federal Government.
14. Ques.—Who appoints the State Highway Commissioners, and do they receive salaries?
    Ans.—The Governor. They do not receive salaries
15. Ques.—What kind of roads will be built?
    Ans.—Such roads as will permit all kinds of vehicles in all kinds of weather to go over them every day in the year, especially such roads as will enable the farmers of the State to carry their products to the market in the winter months.
16. Ques.—Who will maintain the roads after they are constructed?
    Ans.—The State without expense to counties.
17. Ques.—Does the Federal law require the State to maintain these roads?
    Ans.—Yes, under penalty of losing all future aid if it fails.
18. Ques.—Are any roads now being maintained by the State?
    Ans.—Yes, the State now has under perpetual maintainence 247.-81 miles of road in 19 counties.
19. Ques.—Will every county in the State get a share of the money derived from the sale of State bonds?
    Ans.—Yes, both the bond amendment and the State highway law provide that not less than one-quarter of a million dollars shall be spent by the Highway Commission in each county in the State. This does not include Federal money, so a county can reasonably expect that the State and Government will spend at least a half million dollars in each county.
20. Ques.—Where a county has already constructed a State trunk road or a part of a State trunk road, will the State take over such road for perpetual maintenance?
    Ans.—Yes, provided such road is up to the standard required by the Government, if it is not up to such standard the State, with Federal aid, will reconstruct it and then relieve the county of future maintenance.
21. Ques.—What has been done with the money received by the State heretofore from the licensing of motor vehicles?
    Ans.—Prior to October, 1919, this money vent into the general fund of the State. Since that time it has been used by the State Highway Department together with money received from counties to match Federal aid.
22. Ques.—Howmuch work has the State Highway Department done with this fund?
    Ans.—The Department has built 261 miles of Federal aid road since October 1st, 1919.

    The Department has made surveys and plans for a total of 1,208 miles of road.

    The Department has under contract now 219.71 miles of road.

    The Department has under maintenance 247.81 miles of road.

    The Department has received from the Government over two and one-half million dollars worth of road building equipment, the freight, expenses of handling,loading and unloading being $78,620.46.
23. Ques.—How many counties has the State made surveys in?
    Ans.—58.
24. Ques.—If the State had failed to make surveys and plans and entered into agreements with the Government covering various road projects what would have been the result?
    Ans.—The result would have been the loss of every dollar offered by the Government not covered by an agreement.
25. Ques.—In what class of counties are such projects located?
    Ans.—In the counties that are too poor to pay any part of the cost of the work.
26. Ques.—Will these counties have to pay any part of the cost of road building on Federal projects if bonds are issued?
    Ans.—No.
27. Ques.—If the bond issue should fail what will be done about these projects under agreement with the Government in the poor counties?
    Ans.—The State will have about $800,000.00 with which to match approximately $3,300,000.00, consequently the State will lose $2,500,000.00 which goes back to the Federal treasury and will be redistributed to other states.
28. Ques.—Has the Government offered to give Alabama $25,000,-000.00?
    Ans.—No. The Government allotment to Alabama has been in the past $5.776,552.58, under the new bill we will receive $1,553,-420.67 for 1922. We can reasonably expect an annual appropriation of not less than this sum with good prospects of it being approximately $2,000,-000.00.
29. Ques.—How much money has the State got under agreement with the Government which the State cannot match without a bond issue?
    Ans.—$1,475,039.89, involving 202 miles of road.
30. Ques.—What safeguards are there to insure the State against the wasting of money?
    Ans.—The Government being a party to all work, has men to watch carefully all work to see that is properly executed and that no money is paid for work until it has been done in accordance with plans and specifications. Not one dollar of State money is paid out without first having the certificate of the State Highway Engineer, checked by the Chief Examiner of Public Accounts and approved by the Governor.

PROBATE CLERK EXPLAINS POLL TAX

Editor Union-Banner,

So much has been said, written and done to try to get the people of this county qualified as voters until I am almost ashamed to ask for space in your paper to explain some of the trouble with the records of the Poll Tax Payers, which we have to deal with in this office.

We will suppose that a Mr. "Zac Jones" registered in 1901 in Beat 5, as twenty-one years of age, that he paid his poll tax in that Beat for 1901 to 1907 both inclusive and at that time he moved to Beat 16 and paid Poll tax for 1908 and 1909 as "Z. A. Jones," then perhaps he moved to some other Beat or back to Beat 5 and paid part of the time as Z. A. Jones. I am sure we cannot know every man in the county personally and know exactly where he ilves or in which Beat he lives and when we made the voters list and came to Beat 5 and found that "Zac Jones" had registered in 1901 and paid Poll Tax until he was twenty-eight years of age and then quit, there would be nothing for us to do but wonder why a man had paid continually for several years and then quit, but of course we would have to leave him off, even though we did find him in Beat 16 for some more years there would be at least two thousand names that we would have to check over before we came to his name in Beat 16 and see where he had paid some years, but of course the record would not show which Beat he came from and we could never remember that we had seen this same Mr. Jones' name in Beat 5; even if we did we would not know if "Zac Jones" and "Z. A. Jones" were the same people.

The law requires the Probate Judge to transfer a voter from one Beat to another only when they request it, but when we absolutely know a man has moved to another Beat we transfer him, but as I have stated, we cannot know or think of them all, and if every person would come in and request that they be transferred to the Beat they had moved to and pay their Poll Tax in that Beat and always pay in the name which they used while registering I am sure there would not be one tenth as many people left off the voters' list, for we try to do our work the very best we can and are only too glad to help any one qualify as a voter.

We are also having trouble with the lady voters. The law required to register with their given names and many of them are paying and using their husband's initals. There is no way for us to know that a lady who registered as Mrs. Mary Smith and paid her Poll Tax as Mrs. J. C. Smith are the same people, perhaps she has even moved from one Beat to another, and this makes it all the more difficult, but if she would pap as Mrs. Mary Smith and then notify us that she had moved to another Beat and would pay her poll tax in that Beat, there would hardly be a chance for her to be left off the list.

Since women were given the right to vote, almost a year ago, I suppose there have been at least one hundred and fifty girls that have gotten married in this County and we have not received a single notice to change their name on the card but if they registered as Miss Sallie Jones in Beat 4 and married Jim Smith in Beat 10 and paid poll tax as Mrs. Jim Smith, I wonder how they would expect us to put them on the qualified list and yet there are people that do things exactly like this every day, but if they would notify us that they had changed Beats and Names and ask to be transferred to another Beat and then if Mrs. Jim Smith would pay as Mrs. Sallie Jones Smith, we could easily know where to credit her Poll Tax.

I hope the people will not think this a complaint, we are only asking for their co-operation in getting a correct voters' list and now will they help us? We know it is a worry to them to go to vote and have to take the challenged oath and I hope this letter will explain why so many of them have to take it.

We are anxious to help you to get on the qualified list, but you must help us also.

I also understand from the Tax Collector that not many of the ladies who live in the Rural Districts are paying their poll tax. I cannot see why a lady who lives on the farm will not want to help her husband win his ticket as much as the lady who lives in the city. I am sure if her husband were to need her assistance in any other way that she would gladly give it; he will surely need it in the election this year, then, won't you ladies pay your Poll Tax and be ready to help win the victory, for it will be much more thrilling if you know that you had a part in the right and that you helped HIM win.

In addition to this, it is very unfair for the city ladies to say where your tax money shall be spent and you have to take only as they are willing to give you all because you failed to qualify as a voter.

Many people have paid their Poll Tax in some other County. It is necessary that they get certificates from that Probate Judge showing the years they have paid before we can exempt them from Poll Tax in this County.

Yours very truly,
GERTRUDE POPWELL,
Probate Clerk.

DEATH OF RUFUS T. TURNER

Many glad hearts were made sad when the message came that Rufus Turner, son of John Turner, was dead. God called him home to His own on December 29th, 1921. Mr. Turner was a young man 26 years of age, and was at the time of his death in a government hospital in Johnson City, Tennessee.

He joined the army in 1917; was in the Rainbow Division, and fought in every engagement of his division during the world war. He was gassed while in France.

He was a young man who loved his country as well as his friends, and was always willing to return good for evil. The very thought of giving his life for his country made death easy.

At the age of fourteen he surrendered his life to Christ, and joined the Methodist Church. Weep not loved ones, for beyond a doubt our loss is heaven's gain. He was laid to rest in Mt. Carmel cemetary Jan. 2. 1922, the funeral being conducted by Rev. John Lembrick.

ALABAMA MEN ON A TRIP TO TEXAS

Organization Has Received Nearly 100,000 Bales and Sold 30,000 —Higher Prices Are Yielded.

Dallas, Tex., January 8.—The Taxes Farm Bureau Cotton association has, to date, advanced approximately $3,500,000 to members of the organization. It has received in the neighborhood of 100,000 bales of cotton and in pursuance of its plan of orderly marketing it has sold about 30,000 bales.

These things the officials of the Texas Farm Bureau Cotton association told the party of Alabama farmers and business men who are here to study the operation and results of the association. In addition, the Alabamians were told that this cotton has been disposed of at a figure yielding the farmers from $10 to $15 a bale more than street buyers are paying growers outside of the organization. According to Walton Poteet, secretary of the Texas farm bureau, the Texas Farm Bureau Cotton association has more cotton on hand classed and graded and ready for delivery than any five cotton firms in the world.

Borrowing Privilege

The Texas association has been extended the privilege of borrowing up to $15,000,000 from the war finance corporation, is using a cash loan of a million dollars from Texas banks, has acceptance credit of another million and a half at Texas banks, and has been assured by New York bankers that it will be extended as much more credit in New York as it needs.

The Cotton association in Dallas employs 125 office workers, occupies three floors and an extra room in another office building. In one room, for example, there are 18 clerks who do nothing else but write checks all day long. So much work has accumulated that a night shift has been employed, which works from 7 p. m. to 6:30 a. m. The work of handling cotton and keeping records of its movement has been so scientifically arranged that a fourth grade child can understand what has happened to any farmer's cotton and can look on the book himself and see for himself, if he wants to. The largest single sale made by the association so far was 6,200 bales, for which it received a check for $625,000.

THE OLDEST BANK In Chilton County

The Rooster Crows

Yes, but who pays any attention to his crowing? We all know it is nothing but a bluff. But when the old hen cackles she is telling the world that she has accomplished something.

In other words, she is advertising. There is a difference between crowing and advertising. In the case of fowls, the difference was an egg. Our bank advertises, but we try to avoid crowing. When we speak of the real accomplishments of our bank we are not crowing, we are advertising—cackling if you please. And we have a cackle coming, don't forget that. "We deliver the goods."

THE PROPOSED ROAD BONDS

The Union-Banner is of the opinion that the proposed bond issue of twenty five million dollars for road building in Alabama is of vast benefit to the people of the State. We believe that the plans by which it is proposed to carry on the road work and the financing of the proposition, provided it is approved by the people of the State will bring many advantages to the people of the whole state, absolutely without cost to a vast majority of our citizens.

It is our intentions to publish from time to time quite a lot of the matter that is prepared bp the Alabama Highway Improvement Association arguing in favor of the proposed bonds. We hope those who may be undecided as to how to vote on the mater will read and study these things carefully and conscientiously, and thereby make up their minds what is right to do by the 30th of this month, and vote accordingly. If a man or woman honestly believes it is right to vote against the bond issue, we do not blame them in the least for voting against it. If a man or woman believes it is right and proper that the bonds should be issued by the state and the roads built, then it is the duty of such a one to vote for the bond issue on January the 30th.

This paper is always open to the voice of the people on any and all sides of every public question. Any-one either for or against the bond issue, has the full privilege of expression through our columns at all times.

We would like to see Chilton county vote a majority in favor of the bond issue on the 30th, as we believe it would be an endorsement by our people of the most forward and progressive step that our state has ever attempted to make.

STATE HIGHWAY AND FARMS

The farmers above all others should be enthusiastic over the proposed amendment authorizing a bond issue of twenty-five million dollars for state roads. It is known that there are many abandoned farms in Alamama, much available land that is no longer cultivated and plenty of acres that have never been cultivated. There are also many farms that do not pay. The chief reason for all this is poor roads. The cost of hauling goods to market or shipping point and bringing supplies back to the farm is in some cases greater than the revenue derived from the sale of products. There are farms in this state twenty miles from the shipping point. In places where there are bad roads the twenty miles might as well be a hundred miles, particularly in bad weather. If the roads were good the twenty miles would mean little to the farmer who hauled his goods by truck. It is highly probable that the farmer of Alabama sustains each year because of poor roads would easily pay the cost of constructing these roads.

Fortunately, the bond issue furnishes the relief desired. With state trunk roads connecting all principal towns no farm would be far from a trunk road. Local and county enterprises should be able to keep the branch roads in travelable condition and so the proposed highway system will be of direct cash value to the Alabama farmer. Not only will the present farms be able to operate at a greater profit, but also additional acreage will be placed in cultivation and farm communities will spring up where now there are isolated farms. Farm communities mean community assets, including schools, churches, shipping-points and the like. The farmer cannot afford to vote against the bond issue.—Mobile Register.

DEATH OF SENATOR PENROSE OF PENNA.

Washington, Jan. 9.—Senator Boies Penrose had an extraordinary career, and, since only an extraordinary man can have an extraordinary career, it is worth while to take note of some of the characteristics of the recently departed leader of the Senate.

In his youth Penrose took the world in general, and his own work in particular, seriously. As a student in both elementary and secondary schools he worked hard, and stood near the head of his class when he was graduated from Harvard. This could not have been achieved without personal effort and self denial. "To learning there is no royal road—alike the peer and peasant must climb to her abode."

Having completed a course in law, Penrose chose public life as a career and entered upon that with the same concentration he practiced in his studies at college. Elected to the Pennsylvania House of Representatives at the age of 24 he served so acceptably that after two years he was elected to the State senate where he served ten years.

While still a member of the State senate, he was elected to the United States Senate, beginning his service in the latter body in 1897. His death a few days ago closed a life of 37 years in the public service—all in elective offices. During this period he found time to serve his party as chairman of the State committee two years, as a member of the National Committee 13 years, and to attend and take an active part in four national conventions. Although physically unable to attend the convention of 1920, his interest in that important gathering was not lacking. He was in constant telegraphic communication with friends at the convention hall. This indomitable spirit resulted in his death, for in the last few months he disregarded the advice of his physician and applied himself to matters of national legislation instead of seeking the rest he needed.

Among the peculiarities of his nature may be noted his wide reading of newspapers as a means of ascertaining public opinion yet his absolute refusal to reply to any newspaper criticism or misrepresentation. Although appreciating the great value of newspapers he never sought newspaper publicity. He engaged in no outdoor sports, took no physical exercise, sought no diversion, even in the theatre. In recent weeks he had confessed that he believed his neglect of open air exercise a mistaken policy and expressed the intention of changing his habits as soon as he regained sufficient strength. While other men found diversion and recreation in evenings at cards or social enjoyment, Penrose found his diversion in the pages of his well-chosen books. His well-stored mind made him a ready and effective debater as well as an able legislative leader, but his concentration undoubtedly shortened his life. He died at the age of 61.

The public record of Penrose needs no man's commendation or defense. When popular election of senators was established Penrose and his record were made the issue in a State election. Penrose went on the stump and personally presented his record before the people of his State. He was re-elected by a vote of two to one over his leading opponent, polling practically as many votes as both of his opponents combined. In 1920 he was re-elected by a plurality of 600,000. After such popular verdicts, other comments are superfluous.

The good roads bond issue is not a political question, a partisan design nor a fractional effort. All parties and all factions are united in the effort to get Alabama out of the mud.

She is survived by the following children: Mrs. Napoleon Johnson of Clanton, Mrs. John Browder, of Gorgas, Miss Allee Stewart of Birmingham, and Eugene Stewart of Madison, Wisconsin.

JOHN M. ROBINSON DEAD

BOB MARLER ARRESTED TUESDAY

Deputy Sheriff Leonard Martin went down to Kincheon Tuesday and arrested Bob Marler, who was wanted in Birmingham on a charge of making whiskey. He was brought to Clanton and carried to Birmingham by Deputy Sheriff Cole of Jefferson County.

Reports say that Marler some time back was engeged in the making of whiskey for a combination of other fellows, having two stills in his house at West End. The report says that he was given ten dollars a week for making the booze. Officers arrested Marler in Birmingham, and his bond was made and he was told to leave Birmingham, which he did. A few days ago his bondsmen decided they wanted Bob to come back to Birmingham, and had the Sheriff of Jefferson county to get on his trail.

Mr. H. L. Foster, a merchant of Luverne, has bought out the bankrupt stock of Littlejohn Brothers in Clanton, and is offering the stock of goods for sale to the retail trade. Attention is called to his advertisement in this paper.

Mrs. Jake Shepherd returned to her home last Friday after a visit to relatives in Clanton.

Will Culp, Jesse Jones, B. J. Sessions, and Jim Grant were visitors at the office of the Union-Banner last Thursday.

Rebuilding a road that has gone to ruin through neglect is not maintenance, but re-construction. Maintenance means keeping it from going to pieces by making repairs as soon as needed.

MRS. HENLEY DEAD

The wife of Mr. L. W. Henley di[ed] on last Saturday and was buried last Sunday at Pleasant Grove. The deceased lady was 71 years old, and is survived by her husband and several children and grand children. Rev. C. D. Messer preached the funeral and burial arrangements were in charge of Undertaker Mell Martin of Clanton.

Alabama now has the chance to build and maintain good roads in every county, without any expense to the counties, without increasing taxes and without raising the assessed value of property.

UNION GROVE

The weather was too bad for the superintendent to come to Sunday school and the preacher to come to preach Sunday morning but in the afternoon a large crowd of people gathered at the church, and with Mr. Lige Glass acting as president, we had one of as good singings as we have had in some time.

Directirs for the evening were: E. L. Glasscock, Vernon Northcutt, Vester Campbell and Miss Mollie Vinzant. Miss Myrtle Dorminey presided at the organ throughout the evening. Meet us again at Collins Chapel next Sunday evening at 2 o'clock with your song books. Everyone come and let's have another good time singing praises to Him from whom cometh all good things.

This is the shortest crop on record in Walker County, Mr. Wilson states. Walker's record crop of cotton was raised in 1914, the crop reaching 14,000 bales that year, according to Mr. Wilson.

Good Roads Day.

Montgomery.—All public schools throughout Alabama will observe Friday, January 20, as Good Roads Day. Teachers will be requested to devote at least a portion of the day to the presentation of a good roads day observation in which pupils will participate.

Mr. J. R. McAfee is making preparation for addition of three rooms to his house.

Some people are going to put off the paying of poll tax until thep are barred from participating in the forth coming elections. This is a matter that concerns us a great deal and we should attend to it.

A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

Duplicate wearing parts for

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.

At last the dining room was thrown open, revealing a beautiful table of "eats" with a pretty birthday cake burning its six candles. Much fun was created by the effort of the little ones to blow out the candles and after all were extinquished the cutting of the cake took place, when Alice Polk cut the dime, Joe Earl Gowan the button, and Miss Alice Selmon cut the thimble. Each guest was presented favors of the occasion, the girls each receiving tiny dolls and the boys rubber balls. The little host was the recipient of a number of lovely birthday remembrances.

STOPPING NO. 1

A splendid hearing was granted the delegation who went from Clanton to Montgomery last Thursday for the purpose of giving evidence as to why No. 1 should stop at Clanton. Dr. V. J. Gragg, C. R. Mullins, C. B. Cox, R. D. Foshee, J B. Atkinson and P. G. Carter constituted the personnell of the delegation. Mr. Hugh White, the Assistant Attorney General acting on behalf of the State, did everything in his power to strengthen the evidence and testimony given on behalf of Clanton. The witnesses conducted themselves well, and strong testimony was given showing no just reason why it should not stop at this important county seat just as much as at any other or all the other county seats at which it does stop. It would be of great service to Birmingham, Montgomery, Sylacauga, Columbiana, as well as to Clanton and the precinct. The hearing for the other side on behalf of the railroad is to be set in the near future.

We are not able to say at this writing what the final outcome of it will be, but think that the outlook for it to stop by May the 1st is very bright.

The Chamber of Commerce is behind this important move and will do its utmost to bring about this very desirable and neccessary convenience to the citizens of Clanton. This is the first time this organization has had the matter in hand, but the prestiege that such an organization carries with it usually brings such things to pass. This is true in regard to all matters for the benefit of the city and community, therefore as a good citizen, join the Chamber of Commerce.

P. G. CARTER, Secretary.

CUT COTTON COST BY MAKING FOOD

Southern Farm Prosperity Absolutely Dependent on Cutting "Cash Crop" Production Cost Through Food-Making And Saving.

Atlanta, Georgia.—(Special).—The cotton farmer got his "bumps" again in 1921 between boll weevil, unfavorable seasons, food and grain buying on credit, combined with a price on cotton insufficient to 'pay him out.' Same old story, the same thing that has happened three or four times in the last dozen years," said H. G. Hastings, President of the Georgia Association, an organization for state wide development.

"We might just as well face the fact that with the world wide financial and political mix-up in Europe following the world war, there is no possible chance for using normal quantities of cotton at profitable prices to us if we continue to grow cotton on the high cost basis that we have been doing.

"Cotton is the one best money crop for the South, and probably always will be. The time of war prices is over and the problem from now on is to lower cost of production and at the same time afford the cotton grower a fair profit.

"Cost of making cotton is primarily the cost of food, grain and forage for the farmer, his family, his laborers or tenants, and his work stock. Cutting food, grain and forage costs by home production will reduce cotton costs from one-third to one-half.

"Plant for an abundance of food, grain and forage, thus cutting down store bills, and the lower prices for cotton will not hurt so much. We cannot, with European countries so thoroughly disorganized, reasonably expect high prices for cotton for several years and we must make cotton at lower cost, or else quit cotton growing.

"Most of us cannot quit cotton, hence the absolute necessity of food, grain and forage planting in 1922—the making on home acres of every pound of food and grain needed to see us through.

"In this food production program, take the home vegetable garden seriously. Give the home garden a square deal, and it will surprise you in the amount of healthful food produced. It takes the least ground, can be planted the earliest, brings quick returns and if kept replanted and worked will stay by you all the season through."

Florence.—Messrs. G. W. Templemayr and R. S. Danby, Detroit realtors, have closed a deal for the property of Louis Gusmus, which lies on the Brick pike between Sheffield and nitrate plant No. 2, amounting to approximately 400 acres. The consideration is said to have been $100,000 or approximately $250 per acre. The Detroit men are said to have offices just across the street from one of the Ford plants in Detroit and they are said to have "inside" information as to what is happening at Washington. It is stated on good authority that they contemplate the purchase of several other tracts of land, some of them on this side of the river. Mr. Templemayr is reported to have said to several people that he and his associates contemplated buying large acreage in this district.

Fire supposed to have been caused by defective wiring destroyed the Studebaker service and sales station operated by Foy Walden, at Dothan. About 15 automobiles were burned and the accessory stock badly damaged. Loss is estimated at $20,000.

Watermelon In January.

Rosedale.—How'd you like to set your teeth into the middle of a red, juicy watermelon about now? Desire for just that experience was what led James Whitfield, Rosedale negro to devise a way for bringing it about. His method was simple, he wrapped it in some old clothes to keep out the air and put it in a box in a coc dry closet. On January 3, he decided a little watermelon would taste good. And he had it, the flesh still firm and luscious.

DOINGS at MULBERRY

(By G. H. DeShazo.)

Wonder where everybody is going to. Never saw so much moving going on before. Seems that most everybody around here has been stricken with the moving fever; such a swap up you never saw the beat. If the Sheriff had a warrant for some of these folks it would take him a week to find them, but lets don't give him that chance to find us on such business.

On Tuesday of last week, after the news had gone in for that week, the death angel visited the home of Uncle John Thacker and wafted the spirit of his dear old wife, Aunt Jane, to a higher and better kingdom, where there will be no suffering. Aunt Jane bore her troubles cheerfully unto the end, seemingly in all readiness to go. She is survived by her husband and one sister, Mrs. Lem Atchison, and a host of distant relatives. The body was laid to rest in the Isabella cemetary on Wednesday. Rev. R. T. Gilbert conducting the funeral services.

Dr. James A. Edwards, Chiropractor, and family of Birmingham, visited Dr. Edwards' parents, Mr. and Mrs. J. C. Edwards, on last Thursday and Friday.

On Friday last, Mr. W. H. Veazey, J. E. Summers and W. C. Grooms went to Clanton shopping.

Mr. D. O. Manning made a business trip to Maplesville Saturday.

The faculty of the school here attended the regular session of the teachers reading circle at Maplesville Saturday.

Mr. Ed Cooper has moved his family to Mr. Ben Manning's place, where he intends to farm during the coming year.

Mr. W. F. DeShazo has been confined to the house for the past few days with a carbuncle. This is about as bad a one as we have ever seen having a total of 20 heads.

Owing to the weather conditions there was no services at the Baptist church Saturday and Sunday.

Master Ben Harmon is very sick this week, having a severe cold.

Grooms-Smith.

Quietly married at the home of the bride's parents, Mr. W. C. Grooms and Miss Mildred Smith. Rev. R. T. Gilbert of Maplesville officiating. The bride was lovely in blue taffeta with accessories. The groom also was attired in blue. Only a few close friends and relatives attending. The happy couple went at once to the lovely home of the groom, where they will be at home in the future. Both have many warm friends. The bride being the daughter of Mr. Y. E. Smith, and Mr. Grooms is the son of our well known resident, Mr. H. J. Grooms. Wishing for them many happy and prosperous new years, and lets hope for them that "they were married and lived happily ever after" may be more than true.

Mr. Leon Smith, who has been on Coast Guard Duty with Uncle Sam's Army for the past 3 years, has obtained his honorable discharge and is at home, where he says he intends to assist his father, Mr. Young Smith, in farm work this year. Loren says he has had enough of army life for a while any way. We are certainly glad to have him back with us again.

Monday was registration day here. Mr. Parnell and Mr. Gulledge being on the job. Mr. J. L. Johnson accompanied them here . Mr. Johnson seems to be making himself very handy and accomodating these days. Wonder why?

Marvis Grooms, better known as "Dock," says he contemplated joining the army, but has decided to move to "Stumps-hills" with his father instead.

Mr. Ben Mooney says he has a perfectly good "Flivver" that he will sell so cheap that you would think he almost gave it away. Anyone looking for bargains in that line will do well to see Mr. Mooney.

Owing to the inclemency of the weather during the past week, there has not been very much "Doings" going on out here, which makes a shortage of news this week. However we are glad to have the rains now, so that the clay will be good wet for the crops in the spring.

MRS. HARLEY RAY DEAD

Mrs. Harley Ray died at the home of her daughter, Mrs. A. J. Dobbs, Sunday, Jan. 8th, at 1 o'clock. She was 62 years, 7 months and 8 days old. She was laid to rest at Maple Springs, where she has been a member for some time. She leaves to mourn her loss, a husband, 9 children, 36 grand-children and 2 great-grand children. Before her marriage to Mr. Ray she was Miss Caroline Hammons. The following children survive her: Mrs. J. D. Sanders, Mrs. L. D. Mims, Mrs. A. J. Dobbs, Mrs. Erby Higgins and Miss Ida Ray. Messrs Willie, Joe, Lonnie and Horace Ray, and one nephew, Mr. Eddie Hammons.

Our mother, she has gone to rest,
Her vioce no more we hear.
Oh how we miss her smilling face,
And loving tender care.

A FRIEND.

THE TIME TO TAKE PEPTO-MANGAN

WHEN YOU FEEL A LITTLE 'OFF' IT WILL BRING YOU BACK TO HEALTH.

Some people never need any medicnie at all. They are, as the saying goes, "strong as a bull." They are mighy lucky. Mos people need a good tonic once in a while. They akecold, or through overwork or social activity do not get enough sleep; many eat improper food and thus hurt the digestion. It is mighty wise to take Gude's Pepto-Mangan with the meals for a few weeks and build up. One cannot have too much good health. Pepto-Mangan gives you plenty of red blood, and everybody knows that red blood means feeling good and looking good all the time. Soly by druggists in liquid and tablet form.

COTTON SEED.—We will pay $20.00 per ton for cotton seed for a limited time only, as we are going to load out our last car soon.

WORKING FOR THE GOOD ROADS BONDS

An enthusiastic meeting of Clanton citizens was held on Monday night at the court house to organize for the coming election on January the 30th for the adoption of the Highway Amendment which means a splendid high way throughout the county and other roads leading to the highway. The meeting was called to order by the chairman, Rev. P. G. Carter. The following were appointed to act as a central committee with power to act: Secretary and Treasurer, Mr. Howard Foshee; Executive Committee—W. T. Callen, C. B. Cox, B. J. Sessions, C. R. Mullins, J. A. Maddox. For the purpose or organizing the beats the following chairman for each Beat were appointed—Beat 1 Mr. O. R. Mullins; Beat 2 Mr. W. H. Conway, J. P. Gentry; Beat 3, Will DeShazo; Beat 4 Ed Giles, E. H. Mims, Joe Jackson, Zack Bowery; Beat 5 W. A. Gulledge, Tom Henderson; Beat 6 J. R. Owens, Bob Wilkins; Beat 7 Dr. C. N. Parnell, Charlie T. Walker, H. R. Oden; Beat 8 W. C. Dyer, T. G. Milling; Beat 9 C. R. Foss, Bill Benson; Beat 10 H. N. Smith, J. Lee Cox; Beat 11 Jack Gentry; Beat 12 T. J. Dorminey, S. J. Dupriest, Richard Robinson; Beat 13 John B. Moore, William G. Conway, Beat 14 Clint Veazey, Tom J. Hubbard; Beat 15 E. G. Caldwell, Will Burnett, John M. Culp; Beat 16 J. Monroe Parrish, J. A. W. Mims.

These chairmen are asked to solicit the assistance of others in their respective beats as committeemen whom they know as favorable to the amendment.

An office will be established in the court house in the room known as the treashrer's office, opposite the Superintendent of Education's office, where you can apply for any information or literature necessary. All those who are properly informed will not vote against it, but will give it their loyal support. It is the only way to have good roads built in our county and properly maintained. It benefits every farmer and citizen, and saves time and money.

It does not Increase the Taxes One Penny.

It saves expense in the upkeep of your wagons, buggies and cars. The other States have already approved of the amendment and are already drawing their appropriation. Why leave Alabama in the mud and especially Chilton County, when the government is willing to give us these good roads without extra taxes, built under Federal Supervision and maintained by the State. This is just a fair square deal. Every intelligent citizen properly informed will vote for it.

Call on us for any further information if there is anything you do not know or understand about it. We will furish you this free of charge.

P. G. CARTER, Chairman.
HOWARD FOSHEE, Secy.

Bud Bates of Poplar Springs was in Clanton Monday. He has moved from his place on Coosa River where he has been living for several years, to the Mrs. Laura Patterson place near Poplar Springs.

SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.— The efficiency of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's. E 88

THE BURDEN OF TAXES

Before the war the government of the United States spent about one billion dollars a year for all purposes, including interest on the public debt. In the fiscal year ending June 30, 1920, the first full fiscal year after fighting stopped, the government spent in round figures six billion four hundred million dollars. In the fiscal year 1921, that is, up to June 30, 1921, it spent $5,115,927,689.30, and in the fiscal year of 1922, which will end on June 30, 1922, it will spend more than four billion dollars, says Secretary Mellon of the Treasury Department.

These figures include interest on the public debt which amounts to about one billion dollars, but include nothing for sinking fund or other debt redemption. Including both interest and sinking fund, the government will spend more than four times as much the fiscal year 1922 as it spent yearly before the war.

These expenditures and these heavy charges are a part of the price of victory. Your whole present problem is to curtail them. It concerns you to know just how these immense sums were gathered and how much you paid and are paying toward them, for of course we, the tax payers, the men and women with jobs, the men and women who have what the census calls gainful occupations, paid every cent of it. It was our money until the government took it.

Let us examine the fiscal year 1920. I have not the detailed account for 1921, but it was slightly less than the year previous, as the year ending June 30, 1922, will be a slightly less burden on us than the year preceding. According to a careful analysis made by the late Dr. E. B. Rosa, of the United States bureau of standards, a government scientist who was deeply and intelligently interested in the subject, every man, woman and child in this country contributes an average of fifty-three dollars in taxes to the support of the national government. Actually it is nearer fifty-four than fifty-three dollars, but I am taking the smaller sum for the sake of the round number. That is, the average family of five persons pays $265 a year out of its earnings to the federal government alone, in addition to what is paid for state, county and city taxes. The estimated average yearly income of a family of five is something more than $700. But before any of that $700 is spent $265 must be turned over to the general government to run the business of the United States.

The actual amount that each one of us paid was $53.77. We paid it through the medium of internal revenue taxes and customs duties on imported articles divided as follows:

	Per Capita
Income and excess profit	$37.20
Cigars and tobacco	2.77
Transportation and other utilities	2.72
Autos, candy, furs, jewelry, etc.	2.52
Beverages	1.86
Special taxes on capital stock, etc.	.99
Estate inheritance	.97
Stamps on legal papers, etc.	.79
Admissions to amusements, etc.	.77
Insurance and miscellaneous	.23
Total	$53.77

The taxpayer is next of kin to the treasury. At any rate he is the first person notified when the treasury needs money, and he always has to dig down into his jeans for whatever is needed. Taxpaying, even more than charity, begins at home. The boy's best friend is his mother, but the taxpayer's only friend is himself. The only thing that can be done for him is to disclose as vividly as possible how much his government is costing and let him decide what he will do about it. It all comes down to this: The more money the government spends through defective organization or extravagance, the less you have to spend or save.

So much for the cost of the national business we support. We are all minority stockholders. The concern has no other source of revenue than our contributions. It doesn't make any money. In times like these, when almost everybody feels that he gets too little for what he sells and has to pay too much for what he buys, it seems to me the least we can do is to take an active and intelligent interest in this great common enterprise of ours and make sure that it is well organized; that it doesn't waste or spend extravagantly; that the employees are paid an adequate wage and have proper working conditions; that their morale is kept high and their enthusiasm in our interest unabated; in fine, that as a business it shall be conducted as efficiently and economically and on as modern scientific principles as any large private business.

Is it?

That is a question you must answer for yourself after I have acquainted you with the actual situation and condition.

Good Roads advance civilization and make a prosperous country.

CLANTON BAPTIST CHURCH

Last Sunday was a bad day for all churches. The Sunday School and congregations at both services were pretty good. The night congregation exceeded the anticipations of the pastor, and a fine spirit was manifest during the service. It is expected that services will be held next Sunday as usual if a supply can be found to fill the pulpit during the pastor's absence, who has been asked to preach for the Centerville church next Sunday and help them raise the money for their new building. The same contractors who built the church at Clanton are now erecting the church at Centerville, and knowing of the splendid way the Clanton people did it, believe that some practical and much help can be obtained through the pastor of the church in helping them to solve what is always a difficult problem.

The services of the Clanton church are as follows: Sunday School at 9:45 a.m.; Preaching at 11 a.m. and 7 p.m.; Sunbeam Band at 3, p.m; Junior B. Y. P. U. at 4 p.m.. We Cordially invite everyone to the regular services of this church. If we can help you let us know.

P. G. CARTER, Pastor.

POOR ORIGINAL TORN

THORSBY SECTION

(S. E. Norton, Manager.)

In all well regulated schools in these days the health of the boys and girls is a matter of grave concern on the part of the faculty, hence athletic or physical exercises of some kind are an important part of the training which the students receive and in many schools the athletic coach or physical science teacher is one of the highest paid of all the faculty, which emphasizes the value of a belated Christmas gift to Thorsby Institute and a similar one to the Thorsby Public school which they received Monday morning.

Early in December the Executive Committee of Thorsby Branch of Chilton County Chapter of American Red Cross met at the home of Mr. and Mrs. S. E. Norton to consider how best to use some money they had on hand which they were authorized to devote to the betterment of health conditions in their local community. Prof. J. Leonard Harris, principal of Thorsby Public School and Miss Emily B. Ellsworth and Miss E. J. Robinson representing the faculty of Thorsby Institute were also present at that meeting. Mr. Chas. S. Howard Chairman of the committee and Mrs. S. E. Norton, Rev. J. W. Davenport and Mr. J. P. Sorensen were other members of the committee present. After a report from the Treasurer giving the amount on hand, a general discussion ensued as to what could be done for the physical welfare of the most people in the community. It was conceded that almost any plan that could be thought of could best be operated through physical improvement of the boys and girls in the Thorsby schools. Mrs. Norton then announced that she and Mr. Norton had for several months been using a system of physical exercise which they had found very beneficial and offered to give a demonstration, provided the company would join in, which was done by most of them. The system is similar to one used as setting up exercises for the boys in the Navy during the war, except that instructions for each movement are given from Phonograph records which also furnish very attractive music, so that much the same sensations are enjoyed as when marching or dancing to spirited music. Prof. Harris remarked that "This seems sort of familiar" as he spent considerable time in the Navy.

Miss Stoddard, while in Thorsby, expressed a wish that both Thorsby Institute and the Public school might have access to these records, as she knew that both schools have Phonographs. Miss Jenkins had also expressed a wish that this system might be introduced into our schools.

The committee quickly decided that it would be eminently worth while to present a set to each of the Thorsby schools. It was intended to do it as a Christmas present, but there were so many other things to take the time and attention of students and faculty that it was decided to wait until after the hoidays. In addition to the directions for each movement by a clear voice from the phonograph and the stimulating music, there are numerous charts of illustrations showing the exact position of each movement so one is not apt to go wrong.

It is hoped that much good to our boys and girls may result from this new departure.

Want to Feel Just Right?

Take an NR Tonight

JUST TRY IT AND SEE how much better you feel in the morning. That "loggy," headachy, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

Nature's Remedy (NR Tablets) is sold Guaranteed and recommended by your Druggist

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best. Get a 25¢ Box

CHARLIE DENNIS ARRESTED IN CLANTON WEDNESDAY

The arrest of Charlie Dennis in Clanton about noon Wednesday, on a charge of violating the prohibition law, precipitated quite a lively time for a few minutes. He drove a Ford car into town from somewhere and stopped at one of the garages. By some means Sheriff Gore got suspicious of his actions and decided to search the car to see if there was any whiskey in it. When he and Deputy Martin undertook to make the search, Dennis refused to allow them to search it without a search warrant. Sheriff Gore thereupon departed to secure the warrant and left Deputy Martin in charge of the man and the car until he returned.

Deputy Martin got in the car and instructed Dennis to drive it up to the Court House to await the securing of the search warrant. When Dennis started he refused to stop at the Court House, but turned down the highway in an effort to get out of town. When he saw that he was unable to shake Martin loose he proceeded to get hold of his gallon jug of booze and broke it into flinders. Deputy Martin was cut about the hands by the glass from the broken jug, but he succeeded in getting the car stopped, and placed Dennis in jail. Judge Reynolds placed him under bond of one thousand dollars for the charge of violating the prohibition law and one thousand dollars for the charge of resisting an officer.

Up until late Wednesday evening Dennis was still in jail, and the car in custody of the Sheriff.

HALF YOUR LIVING WITHOUT MONEY COST

Cash Crop Production Costs Can Be Cut In Half By Food And Grain Making And Saving At Home

Atlanta, Ga.—(Special.)—"No one is wise enough to know or foresee the outcome of the world wide financial and political mix-up that has followed the world war and the inflated price joy riding spree that we have all engaged in," said H. G. Hastings, President of the Georgia Association, Georgia's organization for state-wide development.

"The wise farmer in the South will forget the 30 to 40 cent cotton price that led him to disaster in 1920 and figure on a selling price of around 15 cents under conditions of normal yield and acreage which we are very liable to have in 1922. This necessitates reduced cost of cotton making or else being wiped out.

"The cost of cotton or other cash crop making in the South or anywhere else is largely food cost, food for the farmer and his family, food in the shape of grain and forage for his working live stock. With low prices for cotton or other cash crop the farmer cannot afford to pay any outsider profit or expense on the food he, his family and working live stock consume. This means to quit living off of supply merchants' shelves and to live off the products of home acres.

"The situation requires chickens, hogs, milk cows and acres of corn, oats, wheat, forage and miscellaneous crops from which to feed them. Last but not least, in importance, is the home vegetable garden which is the quickest and cheapest source of food in the world.

"Most folks here in the South don't taken the home garden seriously and thereby make a great mistake. There are too many of the 'lick and a promise' sort of gardens and mighty few of the real sure enough kind.

"We have been told repeatedly by those who plan and prepare for a real garden, plant it, tend it and keep it replanted through the season, that it furnishes half the family living at no money cost except the small amount spent for the seeds needed.

"The garden is, or rather should be, the earliest planted. It brings food the quickest. It starts cutting store bills for food the first week anything is ready to use. A little later, half or more needed for the table comes out of the garden.

"If rightly tended and replanted it supplies food all summer and fall, the surplus above daily needs goes into cans or is dried for winter use. Yes, the right kind of garden is a life-saver, and we all need a life-saver of this kind in 1922."

Constipation.

Constipation of the bowels is a stoppage of the sewerage system that removes wsate matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste, as it is that the waste pipes of your home be kept open and carry off the waste from the house. Ifyou would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed.—Upchurch Drug Co.

LAW OFFICE MOVED

The law office of Reynolds & Reynols has been moved from the Court House to the Hayes Building up stairs over the Post Office. They will be pleased to have their friends call to see them in their new location.

Uncle Sam will see that the roads built with federal aid and bond issue money are constructed along scientific lines.

Uncle Mose Robinson of Beat 16 came to see the new office of The Union-Banner on Wednesday. He expressed himself as being well pleased to see the paper in such splendid quarters. Uncle Mose has been a loyal supporter of the paper ever since its beginning away back in the days of White and Crichton. We appreciate his interest very heartily.

Worth Considering.

The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you wil lconsider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. T here are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.—Upchurch Drug Company, Clanton, Ala.

Rheumatism at 60

How glorious you will feel, mother, when your rheumatism is all gone. Let S. S. S. do it. It will build you up, too!

S. S. S. Thoroughly Rids the Body of Rheumatism Impurities.

Somebody's mother is suffering tonight! The scourge of rheumatism has wrecked her body; limping and suffering, bent forward, she sees but the common ground, but her aged heart still belongs to the stars! Does anybody care? S. S. S. is one of the greatest blood-purifiers known, and it helps build more blood cells. Its medicinal ingredients are purely vegetable. It never disarranges the stomach. It is, in fact, a splendid tonic, a blood maker, a blood enricher. It banishes rheumatism from joints, muscles and the entire body. It builds firm flesh. It is what somebody's mother needs tonight! Mother, if you can not go out to get a bottle of S. S. S. yourself, surely somebody in your family will. Somebody, get a bottle of S. S. S. now! Let somebody's mother begin to feel joyful again tonight. Maybe, maybe it's your mother! S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

"Tom, Dick and Harry" Have Arrived.

Dear Friend:

Tom is here! So is Dick! And Harry, too!

All THREE of them are here!

If you don't know Tom, you ought to!

And Dick and Harry are also worthy of your acquaintance. We want you to meet them—all THREE.

They made a big hit at the last Convention of the National Shoe Retailers' Association, but you were not there and they have come to our Store to meet you.

That's why we want you to come to our Store to meet them.

Tom was in the Army. He is a broad gauge sort of a fellow—mighty comfortable looking—and he is. Dick is a trifle snappier in appearance, yet he is equally as good a friend to your feet. The only difference between Tom and Dick is at the toe—they are both the same width at the base. Harry is the dude of the bunch — mighty NIFTY and smartly dressy—as spick and span as a $5,000 Coupe, and no company is too fast for him.

Tom, Dick and Harry enjoy the honor of being the only ones of their kind (regardless of price) who have BOTH FULL-LENGTH VAMPS AND SOLID SOLE LEATHER BOXES and they are all COMBINATION in both last and pattern. There are no shoes (at $2 a pair more) which have the same genuine leather inside counter-pockets and inside vamp reinforcements. Tom, Dick and Harry are made of the same materials all the way through—they only differ in appearance. And look at this—the price is only

$6.50 PER PAIR

Be sure you bring your feet with you when you come to see them. They're in our window now! Will you vote for Tom or Dick or Harry? Or all Three?

To be Given to Somebody---FREE

If YOU want any of it, then just Read this and ACT

Would a big fat $50 check look good to you these hard times? Of course it would; and especially so if you could find one while you walk down the highway. Well, that's just about what some lucky person is going to do—Not exactly find the check in the road, but get the $50 with almost as little effort as picking that much money up out of the sand. There's lots and lots of things you could do with $50.

Wouldn't it be fine if somebody should make you a present of a nice, brand new, never-been-spent $50 bill? Well, that's just what we are going to do, and here is our plan of going about it—

We want 1,000 more subscribers on our mailing list within the next three months, so we are going to give a ticket with each new or renewal paid-in-advance yearly subscription to The UNION-BANNER at the regular price of $1.50 per year. These tickets will entitle the holder to a chance on one of 14 cash prizes to be given away at the close of the campaign which will begin at 12 o'clock Friday, January 13th, and continue until the 1,000 mark is reached.

The tickets will be printed in duplicate, one set to be sealed and locked up before the others are given out to subscribers. They will be numbered from 1 to 1,000, and whn the last one is given out the duplicates will then be unsealed, put in a tub, thoroughly stirred, and a blindfolded child will draw a ticket from the tub, which will be the number receiving first prize, $50 in cash. The tickets will be stirred again and another one drawn, which will be the number receiving second prize $25 in cash. The process will be repeated until all the 14 prizes are drawn.

As stated above the first prize will be $50 in cash, second $25 in cash, third $10 in cash, fourth $5 in cash, and fifth to fourteenth prizes will be each $1 in cash.

Send on your renewals now and get your neighbors to subscribe. The more they come, the better we like 'em, and the quicker someone is going to have the pleasure of spending some of our good money. If you are paid in advance send your renewal for another 12 months and we will assure you of 52 copies of the best reading you ever got for $1.50.

This year is campaign year, and lots of you people will want to be posted on the doings in political circles. The best way to do that is to subscribe for The UNION-BANNER, the truth and light machine of Chilton County. If you haven't got but three dollars now, pay your poll tax with half of it and use the other half to subscribe for the UNION-BANNER, Chilton County's BIGGEST, GREATEST and BEST paper.

Let 'em roll in boys. Snow us under. We will manage to crawl out in time to get your "hot stuff" to you on time every week. Someone is going to get this free CASH, why not YOU?

Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

JUDGE REYNOLDS ANSWERS JEFFERS

Clanton, Ala., January 9, 1922.
Hon. Lamar Jeffers, M. C.
Washington, D. C.
Dear Sir:-

I will try to answer your personal letter to me of the 4th inst., also your letter of January 5th, in the Montgomery Journal; another of January 6th, in The Birmingham News, and one to the Chilton County News of the same date; also your telegram of the present date. If there are any more I have unintentionally failed to find them.

To dispose with a few preleminaries before getting down to the point at issue; I was sorry that I could not see fit to wire your answer as you requested, but the propositions you have advocated and the requests you have asked of me need more time and space than that of a hasty telegram, and too the affair could not be so terribly rushed, as you said in your letter you were answering a letter I wrote October 27th, of last year, an interval of practically two months, and I do not think a few days delay now could hurt.

I was impressed most emphatically with the change in demeanor of your letters to the Montgomery Journal. The Birmingham News, and the Chilton County News, and your personal letter to me; the former I noticed were imposing and very dictatorial, while your personal letter was more pleading and respectful. With irony and satircal sarcasm you mentioned the name of "Probate Judge" some several times in the former, and at one time the name was superseded by the word "Powerful," making the same the "Powerful Probate Judge," but in your letter to me I do not find this tone present. It seems, Major, that you are struggling with a losing fight, in your attempt to have Democrats appointed Postmasters where Republicans are justly entitled to the office, and you want me to help you in your lost cause.

I will attempt now to answer all your letters and propositions candidly and frankly, returning respect for disrespect, in a fair and just manner, as I see it.

The other ex-soldier I had in mind was E. F. Conway of Jemison, Alabama, of this county, who is an applicant for Postmaster there. You asked me to wire Mr. Street of Guntersville, Ala., to ask the Postoffice Department to hold up the appointment at both places. I suppose you would be willing to have them held up indefinitely as they are both now being filled by Democrats. You have asked a thing that you yourself know is impossible, and as far as I know, it is the first request of its kind; you have asked the Republicans of this County to endorse a Democrat when the Republicans are justly entitled to the place. I do not think you will deny that a Republican ex-soldier is entitled to the place above a Democrat, they having the same qualifications, but by your suggestions you are denying the Republican boy that which justly belongs to him. Probably at Clanton this would not result, as no Republican ex-soldier is an applicant; but in other counties you can see the fallacy of your suggestion. You have asked me to betray my own party to help you obtain a few of the ex-service votes in this county; my own party would call me a traitor, and they would rightly do so. To further illustrate the uneffectiveness and failure of your method, let me say there are about 450 ex-service boys in this County and to let them fill every Government office in the County, which you know is impossible, would help only a small part, and the same would be the result in other Counties of the State. In other words you suggest giving the Postoffices to a select few while the mainstay of our boys are out in the country and are never helped. It seems to me that it would serve to embitter feeling and to show partiality. We love all our boys, from Sargent York of Tennessee to the most obscure plough boy of Chilton County; they all went, fought and bled their blood for their country; we are sorrp that they had to go at all and hope the destinies of the future may be steered clear of War. Now that they are back, besides the glory they obtained, they are entitled to some material compensation; glory cannot satisfy the pangs of hunger, neither will the Postoffice Compensation for a few help the others who are not so fortunate. To localize the controversy, Mr. Tom Parrish, whom you are writing of, is an ex-service man and is entitled to all this Government can give, but is he more entitled than the boy who has no chance for the Postoffice and never will have? Is it right to feed some and starve the others? It is an actual fact that there are some ex-soldier boys in this county who are in needy circumstances; some of these are trying to farm, without means and money, working at saw mills, cutting cross ties, etc., while Mr. Parrish has one of the best positions in a mercantile business in Clanton. You will also find this state of affairs with all other boys who can pass the Government examination for Postoffice. Those that can pass do not need the positions, while those that cannot pass are generally the needy. In other words, as I see the justice and the fairness of it all, it does not matter whether the boy made a name in history for himself, or whether he died and was buried as the Unknown Hero, nameless forever; they all did their best for us and now let's all do our best for all of them, not just a few. I have tried to point out to you the fallacy of your suggestion, now I will give you mine.

My policy is not to favor a few, but for all alike. I am in favor of the Government making appropriations for all the boys. It is true that it has already given them $60.00 bonus, but this is a very small amount for what they did for their country, and I hope the Government will soon appropriate as much as it can for the boys. This will reach all alike and every boy, poor or ignorant he may be, will be just as favored as any other, the Democrats as well as the Republicans, and if we appoint only a few to office the poor uneducated boy will be shut out.

I did not intend to spend so much time on this one point, but you raised the thought and I wanted to give you what I thought a better plan. I have attempted to do so in a respectful manner and as candidly and as frankly as possible.

Mr. Howard Roper, a Democrat, is acting postmaster at Jemison. He has a clerk running it for him while he is teaching school one hundred miles away and drawing his salary from both places. We have had an acting postmaster here since October, 1918, simply because J. L. Wilson, who made the highest grade, was a Republican, and President Wilson would not appoint him postmaster, because the custom of the Democratic administration was not to appoint any Republican to office, regardless of the Civil Service Rules.

You speak of what the Republican administration is doing about appointing Democrats. Do you know that we did not have a single Republican appointed in the county under Mr. Wilson's Civil Service Rules; and yet he was President eight years, and the Civil Service rules were much more strict than they are now.

I will try to make myself plain to you on this subject, and I would be glad that every ex-service man in Alabama could read this: I do not believe in Republicans appointing Democrats to office when the Republican is just as qualified as the Democrat. On the other hand, I do favor Democrats appointing Republicans when the former are as well qualified as the latter. It seems to be the policy of the Democrats when they are in power to appoint only Democrats, but just as soon as Republicans get in, they still think they ought to be equally preferred with the Republicans.

I do not think it is right when there is a Republican like Prof. Bean here, who was one of the highest of the three applicants for the postoffice, who has the endorsement of his party, a man whose past life and character is above reproach, who has served his party faithfully, should now be made to step aside for Mr. Parrish because he went to camp at Jacksonville, Fla., but mainly because he is a Democrat. It is also true that Mr. Parriss was not one of the three highest applicants, as there were several higher than he.

If you were to endorse Republicans for postmasters as you want me to endorse Democrats, I cannot say how long your party would stand for such action, but I believe I would be safe in saying your chances for re-election would be just as great as the proverbial snow ball, etc.

You have asked me in your letter a thing which if I were to do it would be no less than selling out my party and would be highly traitorous to that party.

I believe you are playing petty local politics, making a poor futile attempt to get the ex-service vote of this county, under the guise that you are helping these boys. I think the boys and all other people in this county should know the truth.

I know that all ex-service men can not be appointed postmasters. Then if the government owes these brave young men anything, and we all sincerely believe it does, it ought to pay them what they deserve and not try to satisfy the whole by appointing one man out of a hundred to a government position and leave the rest without any reward, as the case would be in this county. We have several hundred young men in this county just as brave and deserving as Mr. Parrish, and much more needy. Then why should Mr. Parrish be selected among these boys for the government to show its appreciation for what the boys did, and leave the poor ignorant boy, as is generally the case who fought bravely, to struggle alone.

I am sure that you, a man who has himself spent time in France, who has fought beside the boys, could not be willing for us to spurn and turn our backs on the majority of those boys, just to favor a pitiful few. It has no justice in it, and the man for whom you are attempting to secure the Postoffice, down in his heart believe this. I am sure that any boy who was unselfish enough to sacrifice his life for this country would not be so selfish as to agree to a scheme like proposed. A man does not need a microsiope to get at the bottom of of this thing. It is simply a political scheme, and no ex-service boy who gives this one minutes thought will be hoodwinked into believing he will be benifited by another boy being appointed Postmaster.

If we should do what you advocate and Mr. Parrish be appointed Postmaster, a place would be given to a Democrat that justly belongs to a Republican. Mr. Bean would be making the sacrifice to show the appreciation of the boys entering camp, and Democratic politicans would come around and make great speeches and have the boys throw up their hats, when they related the great things they had done for them, and get their votes, and a few leaders be elected to office on prejudice as has been done in the South for the past fifty years.

Any reasonable man, ex-service or not, can see what all this fuss is about, for it is nothing more than a deceitful scheme to get the ex-soldier's vote in this county.

I cannot understand you asking that the Republicans endorse a Democrat for office in this county; knowing how the Republicans were treated under the eight years of Mr. Wilson's Regime; it seems to me that it is a reflection upon the principles of the Republican Party and an insinuation to its people.

From my foregoing arguments and reasons, the principles of the party for which I stand, and with a consideration for the ex-service boys and the people at large in this County, I will be forced to deny your request.

In conclusion, I would infer from your article that you want to let the people of Chilton County know what you are doing for them and I suggest that you come to Clanton, Saturday, January 21st, and defend the Democratic Party, and while I am only a simple and plain "Probate Judge," as you reffered to me so many times in your article, and not an illustrious Major or Congressman, I shall endeavor to defend the Republican Party, with an equal division of time.

I know the people of this County would be glad to hear you and that a good crowd would come out. We would then meet the boys face to face and explain the whole matter, but by writing to the Birmingham News and the Montgomery papers, the majority of the people here do not get the benefit of your information; so if this date which I suggested does not suit you, set one for yourself and let me know when you can come and I will arrange the meeting.

Yours very respectfully,
L. H. REYNOLDS.

FARMER WRITES AGAINST BONDS

Editor Union-Banner:

I thank you for saying your columns are open for both sides on the State Bond Issue.

As a matter of fact everyone should want good roads. If the money was to be managed or put in absolute control of the Commissioners Court of theCounties of the State, it might be wise for the people to put the State $25,000,000 with interest added, further in debt than it now is.

Under the civil Engineer and private contract system which goes with this proposition I do not believe the people of this county will be satisfied. If any of the funds are ever used in this county.

The people will have no say so by petition or otherwise as to what road will get aid, but so far as little old Chilton is concerned a few fellows in Montgomery will have full say.

75 million to be devided by 48 will give Alabama, if it gets her part, will be less than 1½ million the National Government will give. But do you think Alabama will get as much as New York or Ohio? Its a safe bet that one rich county in Ohio will get more of this money than all of this State. Then again when this State gets money from the government for road building, how much will Chilton get? I say none till the Montgomery crowd say so. We didn't get anything in the other election, did we? All this talk about folks from Alabama getting money from the government. They say there is a way for Alabama farmers to borrow money to aid in making a crop, but you can't find anyone who's got a dollar yet, or can even tell how its done. Somebody dispute this.

So far as this county is concerned it will fail, if for no other reason for lack of confidence in the way and by whom the money will be handled. It is said the automobile tax will take care of these bonds. If the State gets that much money from that source, why not apply it direct to the roads and get the same amount of money each year with no additional debt to the State.

Under the wey the bond crowd propose to use money on roads cost too much to build a mile of road.

Our part, if any, will get us about one mile per year.

Yours truly,

A FARMER.

SHERIFF GORE HAD CUTTIN' UP TIME

It was a cuttin' up time for Sheriff Gore Tuesday afternoon when he applied the axe to fourteen wild cat stills of one variety and another, rendering them futile for all future service other than a quiet repose in the scrap pile. The stills were destroyed in front of the county court house, and represented an accumulation from various raids conducted during the past year. They were taken from the store room in the jail to the court house, and after the cutting up, carried back to the jail. There are yet some other stills in jail which the sheriff is preserving until some cases in which they are connected are disposed of in court.

NEW YORK STORE PUTS ON NEW APPEARANCE

The work of remodeling and enlarging the New York Store in Clanton has been under way for the past three weeks, but is about to be completed now. The carpenters are winding up their part of the work and the painters are busily engaged in refreshing the whole inside of the building with a new coat of paint.

In the future the entire ground floor of the Tipton Mullins Building will be occupied by the New York Store, which when the new arrangements are completed, will be one of the nicest stores in Clanton. Mr. M. Lande, Manager, is to be congratulated upon the keen business foresight he has used in the building up of a business here that has become a fixture in the minds of people who come to Clanton to spend their money and buy their goods.

The public is cordially invited by Mr. Lande, to visit his store when in Clanton. He will be glad to show pou one of the neatest and best arranged dry good stores in Clanton, whether you want to buy anything from him or not.

CARD OF THANKS

Editor Union-Banner:

Will you please grant us space in the columns of your paper to express to the many kind friends and neighbors our sincere and heartfelt thanks for their kindness through the sickness and death of our dear mother. May the Benedictions of Heaven be your reward, and may God's richest blessings be with you through life is the prayer of your grateful friend.

BEAN NOMINATED FOR POSTMASTER AT CLANTON

The Birmingham Age-Herald Tuesday morning carried the following in a dispatch from Washington, relative to the appointment of Wiley M. Bean, Republican, as Postmaster at Clanton:

"The President to-day nominated Wiley M. Bean to be Postmaster at Clanton. Mr. Bean is a Republican, and was named despite the fact that Thomas Parrish, an ex-soldier, was given a certificate of preference by the civil service commission.

"Representative Jeffers of the Fourth Alabama District, who made a fight for Parrish, stated to-night that he was actuated by hope that certificates of preference given to ex-service men by the civil service commission, acting for the President, would be regarded as more binding than sraps of paper.

"'It is evident, however,' he said, 'that this administration is more determined to place local politicians than to reward the soldiers who fought the battles of the country.'"

Confirmation of Mr. Bean is expected soon, and then for the first time in over three years Clanton will have a real full fledged Postmaster. We have been running on various temporary appointment ever since the death of Postmaster J. E. Robinson in the winter of 1918.

KENNEMAR MAY BE NAMED ATTORNEY

The Birmingham Age-Herald of Tuesday morning carried the following dispatch from Washington, relative to the appointment of Charles Kennemar as District Attorney for the Northern District of Alabama:

"Charles Kennemar, formerly Republican candidate for Congress in the Seventh Alabama District, and whose contest for the seat was recently thrown out for lack of evidence, may be named in the near future Attorney General for the Northern District of Alabama.

"But the department of Justice, which would readily appoint O. D. Stree, of Guntersville to that post, is not as strongly disposed in favor of Kennemar.

"These facts were obtained at the Department of Justice to-day. Kennemar has the endorsement of the Alabama referees. Street, it is said, has informed the department that he does not want the job.

"Sam C. Bowman of Birmingham, formerly aplicant for the attorneyship, and now moving under an agreement on the part of Kennemar that he will be named first assistant, is in Washington. He was presented to the department today by Senator Willis of Ohio."

CURLEE AND GILLESPIE DESTROY STILL

Deputy Sheriff J. M. Curlee and Federal Prohibition Enforcement officer Walter Gillespie, located and destroyed another big whiskey making outfit up in Stumps Hills Monday. It was a 60 gallon capacity copper still. There was only one gallon of whiskey at the place. Evidence found by the deputies showed that there had been a large run a few days ago, and there was found nearby seven five-gallon jugs and a ten-gallon barrel which had just been emptied of whiskey. At the still there were 28 sixty-gallon stands of fresh beer that had just been put in soak. No arrests were made in connection with the raid, as there was no one attending the still when the officers came upon it.

CLANTON BAPTIST CHURCH

One hundred and fifty eight were registered in attendance at Sunday School last Sunday. Others were present too late to be registered. Let us make a great effort to have 200 next Sunday. Preaching services will be held by the Pastor and the subject for the morning services will be "Our Great Task." The subject for the night service will be announced. At the close of the morning service the regular conference of the church will be held which was postponed from last Sunday owing to the pastors absence from the city.

The Ladies Aid held a fine meeting at the church this week with some thirty-six or more present. As usual it was a very enthusiastic and inspirational gathering. The ladies of the church are doing fine work, and afford a splendid opportunity for service. If you are not a member and want to do some work in the church join this live body of ladies and they will soon put you to work.

We cordially invite everybody to our services.

P. G. CARTER, Pastor.

COTTON SEED.—We will pay $30.00 per ton for cotton seed for a limited time only, as we are going to load out our last car soon.

CLANTON CHAMBER OF COMMERCE ANNUAL MEETING PUBLIC INVITED

The Annual Meeting of the Chamber of Commerce will be held on Thursday night at the Court House, beginning at 7:30 p. m. The public both ladies and gentlemen, are invited to attend this meeting.

The Annual report will be presented by the secretary, which will show what the Chamber has been doing during the past year. This is a valuable organization to the community and if you desire to know what it has accomplished this is an opportunity to find out.

The membership of this body still numbers about fifty. Others are contemplating joing for the coming year. In addition to this we have the Telephone Co., and the [illegible] Co., who have signified their willingness to co-operate.

Efforts are now concentrated on the location of new industries, and there are several good prospects. By continued perserverance we believe this will soon come to pass. Splendid prospects of cheap brick, a spoke and Handle factory, and a Cotton Mill are among the prospects that give us an encouraging outlook for the future.

Through the Tariff Bureau efforts are now being made for the reduction of the exorbitant freight rates now being charged as compared to other places, with reasonable hope that these will be adjusted.

We shall be pleased for anyone to attend this meeting and it is quite probable that Capt. Lay will show some stereopticon pictures of the development of Coosa River for Hydro-electric power, both the present and future plans. Remember the public are invited. The meeting is tonight (Thursday).

HOTEL AT VERBENA DESTROYED BY FIRE

About two o'clock Tuesday morning the hotel at Verbena was found to be on fire, the result of which was the complete destruction of the building with all its contents.

It was feared that the flames would spread to other sections of the town, but owing to the fact that there was no wind blowing, the hotel and an adjacent servant house were the only buildings to suffer.

CARD OF THANKS

Written words cannot express our feelings, nevertheless we take this method of thanking the very many friends who attended during the illness and death of our husband and father, A. P. Oslin. We feel that your kindness has never been excelled for we could not have asked a moment more of attention, an act more of kindness nor a word more of sympathy. For it all we are duly appreciative and pray God's grace may be as abundantly extended to you.

Mrs. A. P. Oslin and children.

HOME OF ED GILES BURNED MONDAY NIGHT

The home of Ed Giles at the Greer Culver place two miles south of Clanton, was destroyed by fire about midnight Monday night. We learn that some of the household goods were saved from the flames. His barn and outbuildings were not damaged.

PUBLIC SPEAKING AT CLANTON SATURDAY

REPUBLICANS WILL FIRE THE OPENING GUN OF THE 1922 CAMPAIGN.

The attention of the Republicans of Chilton County is called to the fact that there will be a public speaking at the Court House in Clanton on next Saturday afternoon at two o'clock. All Republicans are urged to come and to get everyone else who will to come. It is desired to take the steps to get every Republican in this County who has not already gone to register and pay their poll tax.

It is important to do something NOW, as the Democrats are not leaving a stone unturned in their effort to qualify every Democrat in the County.

It is important that every Republican get busy and do his and her best from now until January 31st, to qualify every Republican in the county. Every woman between 21 and 45 years of age must pay their 1920 and 1921 poll tax, and register, in order to be able to vote this year.

We are informed that the Board of Registrars of this County are going from house to house and registering Democratic women who do not come to their appointments. They are doing this quitely, and not letting any Republican women know about it, seemingly to keep as many Republicans from registering as they can. The Registrars will be at the Court House from January 16th to January 26th. Please get busy and get every Republican woman in your Beat to come and register and pay her poll tax.

COLLINS CHAPEL

Our singing society met at this place on last Sunday afternoon and it was one of the best singings we have had at this place. We were very glad to have quite a number of visiting singers. Mr. John Bean was elected President of the society for the coming year, and J. M. Mims, Vice-President. The directors for the afternoon were E. L. Glasscock, J. L. Harris, Vernon Northcutt, W. G. Culp, John Bean and Archie Glasscock. Organists were Misses Myrtle Dorminey and Mattie Mims. Our Society meets at Oak Hill next Sunday afternoon.

THE OLDEST BANK In Chilton County

THERE'S A REASON---

When you are sick, why do you send for a certain doctor? Because you have confidence in him. And you employ a certain lawyer because you think that he is competent.

The same motives should guide you in selecting a Bank. Confidence is vital. There should be mutual confidence between a bank and its patrons. Such confidence DOES exist at our Bank. We have confidence in our customers. Ask any of them about their confidence in our reliable Bank. We cordially invite you to accept our modern banking accommodations.

Use Less Lard

It takes less shortening when you make biscuits, pies and cake out of Gilster's Best flour. Because Gilster's Best is made from only the very choicest parts of select soft red Winter Wheat, and milled to such a high patent, it requires almost a third less lard than ordinary flours.

GILSTER'S BEST FLOUR

is simply the BEST flour we know how to make—soft, fluffy, and snowy white. In cotton sacks. Order from your Grocer—*today*.

ALABAMA NEWS TOLD IN BRIEF

IMPORTANT HAPPENINGS GATHERED FROM ALL SECTIONS OF THE STATE.

SULPHUR BY WATER ROUTE

"Tag" Road May Be Extended—Ettowah And Cherokee Citizens Want Free Ferry.

FREE FERRY URGED

Gadsden—The commissioner's court of Cherokee and Etowah counties on the first of the year discontinued the free ferry at Adams ferry on Coosa river, and now the citizens of Pollards Bend, a thickly settled portion of both counties, have petitioned the Etowah county commissioners to take the Adams ferry boat and establish a new and free ferry at Davis ferry and will ask the Cherokee officials to help maintain it.

* * *

Ashville.—Since the "Tag" road is likely to be turned over to C. E. James, a capitalist of Chattanooga, there is a strong probability that the road will be built through Ashville on to Odenville connecting with the Seaboard at that place and taking in some valuable mineral and coal property. This will mean much to this country should the project go through.

The highway has been completed up to the city limits on the western borders of Pratt City, for some time, and had not been finished because of the route into Birmingham not having been officially decided upon.

Cotton Mill Bid Rejected.

Montgomery.—So far the state has received only one bid for the cotton mill located at Speigner prison, and this bid was far too low, Governor Kilby stated. SHE IS "FULL OF PEP," THEY SAY

SHE IS GOOD-LOOKING AND GAY AND IS ALWAYS READY FOR A GOOD TIME.

Why is a girl popular Look around and see what a good time the good-looking ones have all the time. Men seek them out and ask them to parties, dances and entertainments. And notice that it is not the doll-face type real men like most, but the red-blooded girl with "pep" and happy good nature. Any girl who is tired and languid and has a poor complexion and dull eyes can improve her condition and be for happier if she will simply take Gude's Pepto-Mangan until she has put her blood into good condition. Red blood means "full of life" and "full of life" usually means happiness.

Try Gude's Pepto-Mangan and see how much better you feel. Doctors have used it nearlp thirty years for weak, run-down people. It helps them get well. Soid in both liquid and tablet form.—Advertisement.

The Helen Keller Literary Society presented a program Saturday night at Bates Hall which was in charge of the Lanier group of that organization and consisting of Song, by the Society; Devotions, Life of Franklin, Palmer Lefsted; Dialouge, Porter Lee Music and George Hughes; Jokes, Myrtle Jones; Piano Duet, Jennye Robinson and Inga Erdahl; Sayings from Poor Richard's Almanac, Annie Hughes; Stunts, Shadow Pictures, Arthur McCrory.

At the regular quarterly meeting of the Board of Trustees of Thorsby Institute held last Thursday, Miss Helen C. Jenkins, Principal and Miss Emily B. Ellsworth, Associate Principal, were unanimously re-elected for the ensuing school year to open next September. Other members of the faculty will be elected at the April meeting. The Board also voted that the Finance Committee be instructed to make arrangements to secure funds to finish the part of the girls Dormitory now under construction before school opens next fall.

For several months past negotiations have been under way between Thorsby Institute Board of Trustees and the Education Committee of the Methodist Protestant Conference of Alabama, which have terminated in an arrangement by which the Methodist Protestant Conference of Alabama have adopted Thorsby Institute as their official church school for Junior and Senior High School Education of the young people of that denomination in Alabama, and an Education Committee was elected at the Conference to co-operate with Thorsby Institute in making such arrangements as may be necessary to carry out the plan.

Mr. J. S. Benson, a Theological student in Augustinia Seminary at Rock Island, Ill., who has been spending a month, during the winter vacation as pulpit supply for Thorsby Lutheran church, left Monday night for Rock Island. On Friday evening of last week Mrs. John Johnson tendered a reception to Mr. Benson, where his many Thorsby friends could meet him socially.

FIRE AT THORSBY

About ten o'clock Wednesday, Jan. 18th, the people of Thorsby were greatly excited by the discovery of fire in a building at the middle of the south block of business buildings. The fire originated, it is supposed, from a defective flue, between the roof and ceiling above the Restaurant conducted by Mr. Hop Vinson. The south half of the building was occupied by the Thorsby Market, conducted by Mr. J. L. Foss and Mr. M. J. Soberg. Owing to lack of any adequate fire protection the building was completely destroyed together with adjoining buildings to the north, the first owned by J. R. Martin and occupied by Thompson and Bently as a Garage, and the second owned and occupied by A. K. Horn and Son as a Drug Store. The town people and young men from Thorsby Institute quickly formed a salvage brigade that with buckets of water held the fire in check, while many other willing hands removed stocks and fixtures so rapidly that not much of such property was lost except what damage was done by quick handling. The two story building owned by G. L. Foshee and standing next to the first building to burn was saved by heroic efforts on the part of the bucket brigade, although it was in such imminent danger that all the stock and fixtures were removed to a place of safety, and later returned to the stores considerably mussed up.

Mr. C. E. Lucas who owned the building in which the fire started considers his loss about $5000 above insurance of $2100. Mr. Martin, it is understood, had no Insurance. Thompson and Bently's loss wes comparatively light owing to the character of their stock, which was not subject to serious damage by quick moving. A. K. Horn and Son estimate their loss at about $2000 above insurance of $1600 on building and stock which was all removed with the fixtures but both were a good deal damaged by the handling necessary to get them out quick and afterwards convey them to a place of safety for storage. Had there been a high wind from a different quarter the losses would have been more serious.

The fifth number of the entertainment course conducted under the auspices of Thorsby Lyceum and Entertainment Bureau, will be given in Bates Hall at 7.45 Saturday 21st. It is enough to say that this will be one of the best numbers in the entire course. The DuMond Male Quartette have a reputation as delightful entertainers.

The Christain Endeavor Society of the Congregational church, under the leadership of Birdie Hall and Palma Dahl, had an interesting program on the subject "God in our lives." The young people who attended these meetings nearly all take an active part and are getting a lot of good training in such work. The subject for next Sunday night will be "Christian Principles applied to buying and selling." A cordial invitation is extended to young people of Thorsby and vicinity to attend these meetings. Dora Bracken, President; Yancey Kelley, Vice-President; Birdie Hall, Secretary; Catharine Bailey, Treasurer.

The Ladies Aid Society of Thorsby Lutheran church held their regular monthly social and business meeting last Thursday at the home of Mrs. John Carlson.

At the Annual meeting of Bank of Thorsby Stockholders meeting Tuesday, Jan. 17th, the following were elected Directors, A. M. Grimsley, John B. Higgins, Robert Johnson, J. H. Goddard, Chas. E. Lucas, J. R. Martin, E. W. Butler, Carl C. Petersen, Felix Eiland. Officers reported a good year and all seemed well pleased. After the Stockholders meeting, the Directors assembled and elected officers for the ensuing year as follows: Chas. D. Lucas, President; Carl C. Petersen, Vice-President; C. R. Foss, Cashier. $500 was added to surplus account and an 8 per cent dividend given to Stockholders.

The annual meeting of the Ladies Guild of Thorsby was held Wednesday, Jan. 18th, at the home of Mrs. G. F. Harper. The usual reports of officers were received showing good work for the past year. The following ladies were elected officers for the ensuing year, Mrs. S. E. Norton, President; Mrs. Hattie M. Gerald, Vice-President; Mrs. Ivey Horn, Secretary; Mrs. E. W. Butler, Treasurer.

The Colporteurs Evangelistic Institute that was conducted by tne Seventh-day Adventists during the past 10 days closed Tuesday night.

The object of the Institute was to better prepare men and women to go forth to carry the gospel message according to the command given by our Saviour when He said: "Go ye into all the world and preach the Gospel."

Every morning at nine A. M. a devotional service was held, and also preaching services every night by Elder Haughey, while during the day instructions were given by Elder Cole, and others, while there were not many outside who attended the meetings, yet those who did attend, we feel, enjoyed the meetings.

The night meetings were quite well attended, and especially the night when Elder McElhany, President of the Southern Union Conference, gave a Stereopticon lecture on the progress of the Gospel Press, shcwing the rapid growth of this denomination.

These meetings were very much enjoyed by the workers, who were in attendance from different parts of the state, and the cordial welcome and the pleasant time given them in Clanton brought forth many words of thanks and appreciation of our beautiful and hospitable city.

My! My. Isn't this weather we are having the thing for the farmers. If the present conditions prevail for a few days longer, you will hear lots of gee-ups and whoa-howing, for the farmers sure will take advantage of this pretty weather to make preparations for the coming crop season, many already are turning their land and getting things in shape generally for a hard years work, keeping "Old Pete" away from the door.

On Wednesday of last week Mrs. Barney Manning celebrated her seventy-second birthday, by entertaining at a spend-theday party, having as her guests only the members of her immediate family. Among those present were Mrs. Mannings three oldest sons and youngest daughter, the youngest son being unable to attend owing to his absence in Texas. Miss Lona prepared an elaborate birthday dinner which was enjoyed to the fullest extent by all present. The day passed only too quickly and all took their leave regretfully. Let us hope that Mrs. Manning may enjoy many more years of active life and may her light so shine that the proverbial bushel cannot hide it from the world. Wishing for her and hers the best of health and happiness in the years to come.

Last Wednesday evening, we had for a few minutes, what appeared to be a real dangerous run-away scrape. However, everything turned out alright in the end. Mr. D. O. Manning had driven his mule and buggy to Mr. Will White's Grist Mill, also another of Mr .Mannings mules wes there in the posession of a negro renter. And while the negro man was holding both mules Mr. Odie Grooms came along on his motorcycle. Well in a very short space of time there wasn't anything left but the motorcycle. One mule got scared and ran away with the buggy, and turned it over, during the excitement we missed the negro and the other mule, we looked about a quarter down the road and we saw the negro running away with the other mule. And now we are puzzled to know which was scared the worst.

Don't Prod Your Liver to Action

NR Quickly Overcomes Biliousness, Constipation, Sick Headache. No Griping or Pain. Guaranteed.

The organs of digestion, assimilation and elimination—the stomach, liver and bowels—are closely allied, and the proper action of any of these organs is largely dependent upon the correct functioning of all the others.

"Whipping" your liver into action with calomel or forcing your bowels with irritating laxatives or strong cathartics is a great mistake. A better, safer plan is strengthening and toning the whole digestive and eliminative system with **Nature's Remedy** (NR Tablets), which not only brings immediate relief, but genuine and lasting benefit. It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes biliousness, corrects constipation and quickly relieves sick headache.

Get your system thoroughly cleansed and purified for once; stomach, liver and bowels working together in vigorous harmony, and you will not have to take medicine every day—just take one NR Tablet occasionally to keep your system in good condition and always feel your best. Remember it is easier and cheaper to keep well than it is to get well.

Get a 25c box and try it with the understanding that it must give you greater relief and benefit than any bowel or liver medicine you ever used or no pay. **Nature's Remedy** (NR Tablets) is sold, guaranteed and recommended by your druggist.

REGISTRATION OF VOTERS

During the past few days we have been hearing promiscuous reports concerning the action of the Board of Registrars of Chilton County. The reports are in the nature of complaints against what is said to be a policy of the Registrars in going to the homes of Democrats and registering Democratic women voters who did not come to the places where the Board was in session. Our information alleges that these things were done recently while the Registrars were in the western part of the county.

We are further informed that one member of the Board of Registrars, when approached upon the subject by some of the leading Republicans, said that the Board had done such things, and was going to keep on doing them. But he added further that in going to homes to register women who did not come to the registration places, it was done without political preference.

Right here we stop for a while and wonder how many Republican women this Board has registered by going to the homes and registering them after they had failed to show up at the registration place.

We understood that Mr. J. L. Johnson, Business Manager of the Chilton County News, the mouthpiece of the Democratic party of this county, has been going the rounds with the Registrars, making special efforts to get all voters registered. Likewise we are prone to wonder how many Republicans Mr. Johnson has caused to come or brought to the Board for registration.

We are not prepared to say just how much politics the Board of Registrars have been playing in their recent rounds. Nor of our own knowledge are we ready to charge that they have exercised any political preferences at all. We could tell more about that if we had been with them as Mr. J. L. Johnson is said to have been. But that does not matter to us.

We know that the Board of Registrars is composed of Democrats. The Governor of Alabama appointed them to the places because they WERE DEMOCRATS. And we have no doubt but that he had ample assurance that they would properly safeguard the interests of the Democratic party in Chilto. county before he ever appointed them. Then why be surprised or alarmed if they should go out of their way a little bit to enroll a few more votes for the Democratic party?

They could go as far as they wished in scraping up voters for the Democratic party and be praised by the Governor of Alabama for the excellent performance of their duty. But what do you suppose would happen to one of them if he should be even suspected of leaning one single bit toward the Republicans in any way whatever?

All this brings us down to what we want to say to the Reublicans of Chilton County. You need not wait for a Democratic Registration Board or J. L. Johnson to come and roust you out of bed and register you. If you do you will be right where you are when Gabriel blows his trumpet, and not any more registered than you are right now. That one thing is certain.

But if you will GO to the appointments of the Board, they will register you if pou are entitled to register. So it is up to the Republicans to REGISTER THEMSELVES if they want to vote. Get busy and come to the court house before January 26th and register.

You need not get mad because you have heard that the Board is going out and registering Democrats, and think that they will come and register you to keep you from being sore. Democrats think more of a sore Republican than any other kind. The thing that pleases them more than anything else is for a Republican to get sore and stay away from the election or place of registration, or refuse to pay his poll tax and become disqualified.

There is not a doubt in the world but that the Democrats in Chilton County hope to put the Republican party completely out of business this year. And the Board of Registrars and Professor J. L. Johnson are no exceptions in this statement. The passion for Democratic success is running so high with some of the Democrats right now that they expect by the time the next election is over there will not be a Republican left to tell the tale.

Rouse yourselves, Republicans, and let's show them what we can do. It will be easy to maintain our position in this county. All we need to do is to look after the registration and poll tax. But we can't do this without giving some attention to the matter.

PROGRESSIVE CLANTON.

The Town of Clanton is making some commendable advances right now in the direction of substantial progress and improvement, which we think ought to be brought to the attention of our citizenship, and the people of the county in general.

The first item of this improvement program we wish to mention is the work that is being done on the streets of our town. Councilman J. B. Atkinson has direct supervision of this work, and is making a test of gravelling the streets. If the test proves satisfactory, it is the intentions of the Town Council to gravel the main street from the business section of the city out to the city limits through West End; also to gravel the same street to the city limits east on the Lock 12 Highway. The test is being conducted by putting gravel on a block of the main street in front of the court house. The gravel that is being used is of a fine quality of clay mixture which is being hauled from the farm of Dudley Collins. We hope to see the Town Council succeed in its efforts to improve our streets according to the above program.

We learn that the Town Council contemplates concrete side walks from the business section of town leading to both the County High School and Grammar School. This is another progressive step that should be taken at once, and we hope the city authorities will be able to work out a definite plan to do it this summer. Property owners along the streets to be so improved should lend their support to this proposition.

There are some private building enterprises that deserve to be mentioned in this connection. When The Union-Banner erected their new building it started a building program on the block in front of the court house which seems now will end up with a solid line of business houses from the jail property to the corner immediately in front of the court house. Tom Rockett has already built a store building in this block, and the Clanton Produce Company are engaged in the erection of a store house that is going to be one of the finest in Clanton. First thing you know Dr. Gowan is going to have things arranged for a fine two story building on the corner.

Then there is the Central Alabama Hospital building now on the last lap toward completion. This alone is a very valuable addition to the progress of Clanton, and is an institution that will grow in importance and usefulness as the growth of the city continues.

All in all, the growth of Clanton is steady and uninterupted. When the town makes a move it is a move forward. By and by we shall have a factory of some kind here, establishing a considerable weekly pay roll for a large number of working people. Then one thing will call for another, and there is no telling but that within ten years we will have street cars running all over our city and out to the suburbs of Coopers, Lomax, Lock 12, Verbena, Thorsby and Mitchell Dam.

We have got a wonderful future in Clanton.

WILKINS WRITES ON POLL TAX AND BOND ISSUE

Editor Union-Banner:

I wish to have a little space in your paper to say a few words to the voters of Chilton County, and especially to those whose names do not appear on the poll list.

That I may be plainly understood we will take them by numbers. Number one: If you are not sure your name is on the poll list you have the right to go to Clanton and ascertain why it is not there, and give your reasons why it should be there. If you show that you have complied with the election laws your name will be readily established on the poll list. Now Number One, if you do not do this, I do not think you should be angry with anyone but yourself. I just ask you to please see to this matter at once, and go out on January the 30th and vote for the twenty-five million dollar bond issue if you want to. If I go, I will vote for it.

Here comes Number Two: You say you have never paid any poll tax, and have never wanted to vote but just a few times, but if pour poll tax wasn't so far behind and so much now, you would pay up and go to voting. I wish you would make up your mind and go and pay your poll tax. Have your name enrolled on the poll list, thereby enabling you to become a legal citizen of this our great country.

Had you ever thought of what our Savior said about the unprofitable servant He has given us this privilege of voting, which might have been a part of the one talent given us. Then notice what He said: "He that is not for us is against us." Then He expects us to put forth an effort to make our government a great government, and an honor to Him who created us.

Now, Mr. Non-voter, I hope you will not think I am endeavoring to offend you. I am only speaking as I see it with reference to your interest and mine. I want you to see the awkward condition you are in with reference to legal citizenship. If I am rightly informed, which I believe I am, you have no say so as to public affairs. Legally you cannot vote in a school meeting in your own district. We can't legally serve as Trustees unless we are legal voters. To illustrate this, we will say that some of us would want to assess our school district for the benefit of the school, according to the valuation of the property in our District. Do you think you would be willing for me, not legal voter, and you a legal voter, then for me to come in and vote against you and run the assessment over you? I don't think you would. Then let all of us prepare ourselves to vote, and go to the polls on the 30th and vote for the good roads amendment.

Yours for good roads,
R. N. WILKINS,
Billingsley, Ala., Jan. 16, 1922.

PARK MAHAN DEAD

Park Mahan, son of H. M. Mahan, died at the home of his brother-in-law, Harry Roper, near Clanton, last Thursday night. He was found dead in bed Friday morning when Mr. Roper went to the room where he was sleeping to wake him up for breakfast. A little boy was sleeping with him, but knew nothing about when or how he died.

Mr. Mahan's home was in Ensley. He had been here several days visiting among his family. He leaves a wife and one child. His wife is a daughter of the late Mr. Henry Young, who was for many years a citizen of this county, living in the Jumbo settlement.

The remains of Mr. Mahan were buried Saturday afternoon in the Clanton cemetery, attended by a large number of sorrowing friends and relatives. Quite a large number of friends from Ensley came down to attend the funeral.

OFFICIALS ENTITLED TO BOTH FEES AND SALARIES

Supreme Court Renders Important Decision In Jefferson County Case.

Montgomery.—The constitutional amendment adopted in 1912, which provided that officials of Jefferson county could be placed on salaries instead of fees, does not prohibit the legislature from enacting laws which will give the officials additional fees, according to a decision of the supreme court in the case of William J. Waldrop, circuit clerk of Jefferson county, versus M. V. Henry, treasurer of Jefferson county. The legislature may provide a specific salary for any Jefferson county official, and by subsequent legislation may provide additional fees, under the decision.

OHIOANS WANT ALA. LANDS

Twelve Families With Money To Invest Seek Alabama Farms.

Montgomery.—Another caravan of prospective settlers will probably start on a long cross-country trip from the north in the immediate future. This time, however, instead of traveling from Brooklyn to the Far West, they will come from Ohio to Alabama.

H. G. Rande, who resides at 7912 Maryland Avenue, Cleveland, O., has advised F. O. Hooton, director of the state markets bureau, that he is the leader of a party of 12 families interested in coming South to engage in the farming business. None of these families, he states, have less than $3,000 to invest on the spot, while many of them have more. He believes that other families will join the party before the trip is actually begun.

Sulphur By Water Route.

Birmingport.—Two thousand tons of sulphur from the Texas sulphur field have left Galveston this week for Mobile in ocean-going barges destined to the acid plant of the Steel Cities Chemical company at Fairfield and other acid makers of the district. The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you wil iconsider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

Duplicate wearing parts for

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.

HI-Y CLUB AT CHILTON COUNTY HIGH SCHOOL

The Hi-Y Club of the Chilton County High School has been organized among a number of the young men of the school. The organization was assisted and directed by Mr. Holmes, of Birmingham, State Secretary of the Young Men's Christian Association. The organization of the club is a matter of great interest with the young men of Clanton, and there are a number who contemplate joining at the next meeting.

The whole story of the aims and endeavors of the movement is admirably told in the motto which has been adopted as follows: Clean speech, clean athletics, clean scholarship and clean living. If the principles embodied in this motto are wrought into the life of a boy, it is a safe bet that it will mean a life of usefulness and honor when he becomes a grown man. It will develop a contagious Christain character that will spread among the young men of the town and county.

Meetings of the club will be held every Thursday evening at the Court House, at seven o'clock. Special meetings will be held once a month at which there will be out of town speakers and programs of special arrangement.

The following are the officers of the Club: President, Hubert Gardner; Vice-President, Norman Roberts; Secretary, Wallace Cox; Treasurer, Kenneth Danforth. In addition to these officers charter members are Furman Gore, Lincoln DeVaughn, Bill Orr, Elmer Harris, Kenneth Smith and Hoyt Reynolds. Membership in the Club will not be confined solely to boys in the High School, but other boys of the town, over 16 years of age, may affiliate with the organization.

The interest which the boys are taking in this work is commendable. We hope they may hold out faithful for the ideals which are espoused in their noble motto. They deserve the support of the older people in their efforts in this work.

Constipation.

Constipation of the bowels is a stoppage of the sewerage system that removes wsate matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste, as it is that the waste pipes of your home be kept open and carry off the waste from the house. Ifyou would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed.—Upchurch Drug Co.

FOSHEE REPLIES TO FARMER ON BONDS

Editor Union-Banner:

Will you allow me space to say a few words in regard to the Road Bond Issue? I read with interest the letter in your paper last week signed by "A Farmer" and wish that he had had the courage to sign his name for I would like to know the man that would prefer for the County Commissioners to handle this money instead of the State and Federal engineers, together with the State Highway Commissioners. To my mind that is one of the strongest arguments for its support, the manner in which the money will be handled.

Every road will be located, constructed, and maintained under the supervision of the Highway Commission, and before each piece of work is paid for it must be inspected by the State Highway engineers and also the Federal engineers, thus making a double check upon expenditures.

"A Farmer" seems to think this matter will be centralized in Montgomery. The State Highway Commission consists of twelve men, one from each Congressional District of the State, and so Montgomery has only one member. Not even the headquarters for this county will be in Montgomery, as this county will be in the District with Birmingham and headquarters will be established there. If I am not mistaken heretofore "A Farmer" thought the member of the Highway Commission from this Congressional District was a very able man.

He seems to think that the annual appropriation from the Federal Government will be all that Alabama will ever receive. He forgets that that appropriation is an annual one and that it will come to Alabama from year to year if we pass the Bond Issue but if we do not the Federal appropriation will continue the same but other states and not Alabama will receive it.

In reply to what Chilton county will receive, I wish to say that the Amendment provides that every county seat will be connected with the county seats in adjoining counties, and further more that every county is assured a minimum of lot less than $250,000 from the Bonds and a like amount from the Federal Government will make a half million dollars for every county as a minimum.

Yesterday we received a letter from the State Highway Engineer, Mr. Keller, stating that the survey from Calera to Marbury had been completed and plans are ready for immediate construction of that road as soon as the Amendment carries, thus Chilton will be one of the first counties in the state to begin receiving aid from the Bond Amendment.

The Amendment provides that all roads constructed by the State and Federal government will be maintained always by the State, and if Chilton County be relieved of caring for the highways that would be constructed under this Amendment, then what money and road hands it has would be placed on the rural roads leading to these highways and in this way every man in the county will receive direct benefit.

The Amendment provides that the principal and interest on these Bonds must be paid from automobile license fees and not from direct taxes. The Amendment will not raise your taxes will not cause you to pay one cent more tax, nor change the tax system from what it now is.

I sincerely hope the people of Chilton will study this matter carefully, attend the mass meeting Saturday, and on Monday decide to cast their vote for the Amendment, which as I see it is the only hope we have in Chilton to ever have any good roads.

Yours for better raods,
HOWARD L. FOSHEE.

THE OLDEST BANK In Chilton County

THERE'S A REASON---

When you are sick, why do you send for a certain doctor? Because you have confidence in him. And you employ a certain lawyer because you think that he is competent.

The same motives should guide you in selecting a Bank. Confidence is vital. There should be mutual confidence between a bank and its patrons. Such confidence DOES exist at our Bank. We have confidence in our customers. Ask any of them about their confidence in our reliable Bank. We cordially invite you to accept our modern banking accommodations.

ANOTHER FARMER IS AGAINST ROAD BOND

Editor Banner:-

Much has been said in favor of the Bond Issue, but its vices have been overlooked. I am in favor of Good roads, no sane man can oppose them, if it is merely a question of Good roads alone; Good roads are a most valuable asset to any civilization. The need and our ability, at the present, should determine whether we plunge into the program the Bond issue will, if it carries, inventiably lead.

Our present rate of taxation is heavy; we are growing poor amidst the greatest wealth on earth. Our taxation is almost legalized robbery. We have pretty nearly established here at home what we fought to destroy in the late war with Germany. "Government of the few, by the few, for the few." This applies to both state and federal governments. Oh, surely, Democracy is passing in silence at the close of day. The proponents of the Bond issue tell us that the automobile owners will pay all expenses of the Bond issue. This is a gross mistake, for, the owner of the automobile is exactly the class of people who will not pay. Of course, they cannot run a car until they pay the tax; I am not speaking about that, but they will add their tax to their expenses in business, and the man who purchases a sack of flour, a piece of meat, or any article or commodity, will pay a prorata share of that tax. If the automobile owner is to pay the tax, that is class legislation, and hence unconstitutional. The lawyer, preacher, merchant, and drummer classes of people who own automobiles and use Good roads professionally, will pay none of this tax. They will add their car expense, including this tax for the good roads, to their professional service or economic necessity, and pass the burden on to the ultimate consumer, who in the final analysis of civil government, pays all tax. And think not because paid indirectly that it is less burdensome nor easier because you are ignorant. Strychnine, tho taken ignorantly, is not one jota less deadly. I regret very much that the pulpit has gone into politics. Much had I hoped that when Prohibition was an assured fact (?) the pulpit would retire from politics, but they have come back with renewed vigour and undiminished zealousness. The preacher has a duty to perform in the pulpit and in other lines of christian endeavor; you will either tear down the pulpit or raise politics to a higher level, not both. To raise politics to a higher level is an almost impossibility, not that there is no room for political improvement, but from the fact that it has been done, hence the former. It would be alright for the preacher to champion the rights of the people, but he should never champion the rights of the few at the expense of the many. Let the preacher get out of politics, or out of the church for he cannot serve two masters. But to get back. As a further inducement, we are told that the State's part of the motor vehicle tax will be used to pay the interest on the Bonds and a part of it will be used as a sinking fund, to pay these Bonds at maturity. This tax, if I correctly remember, is more than $900,000.00 annually. Here is a million dollars taken out of treasury of Alabama annually. How will this amount be put back in the treasury? By taxation is the only conceivable answer. And yet we are told that the automobile will pay the tax; this is an amazing stupitity and an absurd monstrocity. Now, what will become of the Federal appropriation for Alabama if the Bond issue is lost? The State Highway Commission says: "It will be divided between other states to build Good roads." I am not going to say that this is not so, but I shall leave it for you to say where "diplomacy leaves off and lying begins." Let me tell you, if the Bond issue fails, Alabama's share will go back to the treasury of the federal government. Why Under the present law, $25,000,000.00 is the most that can be issued to any state, and no state can receive one dollar of Federal Money until that state has put up dollar for dollar to the federal program.

Virginia, the old dominion state, the home of Washington, Henry, Jefferson and Lee, has voted down a Good road Bond issue by a vote of 17 and 76 against, in the house.

The State of Alabama pays more than $350,000.00 interest on Bonds that it cannot redeem or are not mature. Why vote an Additional Bond issue. The Good roads bill is Janus-faced legislation, and favors the work of a mad man, are about the most pleasant things that can be sair for it. It yet remains to be said that the Kilby administration has shown a general tendency to extravagance, the sure index of an inferior imagination. It is high time that the people call a halt in the lavish expenditure of their money. These simple observations are but a few of the many things that could be said, and if you will permit me, I shall say that this is but a sugar-coated way to take castor oil.

SAMPLE SAYS REGISTRATION WAS STRAIGHT

The Union-Banner is in receipt of the following letter frof Mr. J. A. Sample, of Plantersville, relative to the reports of alleged discrepancies in the actions of the Board of Registrars in the Western part of the County:

"The Union-Banner, and Citizens of Chiton County: I see a statement in your paper of the 19th, stating that the registrars, while in the Western part of the county, went from house to house to register the Democratic women; and I want to say in Beat 8, Box 2, that they did not do anything of the kind. They only registered those who came before them, or those whe were carried before them. I can't see any good that this report could do, as it is nothing but some rot that someone got up, and of course it was not a Democrat in the Western part of the county. I think that I can speak for all over on this side, and that is a square deal to both sides.

Respectfully,

ROAD TO BE BUILT THROUGH CHILTON

Rev. P. G. Carter, Chairman of the State Board Issue Campaign in Chilton County has received the following letter from State Highway Engineer, Keller, in regard to Chilton County's part of the proposed state road:

Survey has been completed ...m Calera to Marbury, a dis...e of 39½ miles. In case the ...ond Issue carries, the plans will be prepared immediately for the early construction of this project."

There is every reason to believe that Chilton county's part of the Birmingham - Montgomery Highway will be one of the very first pieces of road to be built if the bond issue is authorized. When this 39 miles of road is taken over by the state, and the county has no longer to look after it, we believe it will enable the county to give more attention to some of the other roads in other directions.

LOCK 12 COMMUNITY

Health is splendid. Everybody is feeling like it had been raining some. We hope it has ceased for a few days at least.

Mr. Lamar Waters, who has been running a Turpentine still, has moved his outfit to Wawbeek, where he will put it in charge of his brother, and he thinks he will go back to the Hardware at Pensacola. We were sorry to see him leave, but duty called and he obeyed. He hated to leave as bad it seemed, as we hated to see him leave.

Mr. and Mrs. Ross Mahan are very proud of a new daughter, which arrived a few days past.

Mr. Matt Mahan came up home from Mitchell Dam, where he has been at work for the last three months. He only stayed from Saturday night until Sunday afternoon.

Mr. Tom McKee, who is now residing at Mitchell Dam, was a visitor to this community Thursday.

Miss Mildred Reynolds who is teaching at Flint Hill School House, is very insipid for the past few days, it is believed to have been caused by a workman of the Alabama Power Co. being hurt and had to leave the boarding place.

Now Mr. Editor, you have not a thing on Rosa Lee Mahan about the watermelon proposition, for she has a mellon she can present the first of February. Will that be late enough not to be so early?

On last Wednesday night Glennie Mahan, on retiring, didn't turn out the (electric) light, only put a towel around it, but it was not so very long before she was awakened by so much smoke as the globe bursted and set the towel on fire, which from that pieces fell on the bed and burned some before it was distinguished. Nothing badly burned.

A CARD OF THANKS

As we cannot see everyone and thank them personally, we take this means of thanking each and every one for their kind and able assistance rendered to us in helping to save our building and its contents during the recent fire in Thorsby.

Mr. and Mrs. G. L. Foshee.

Mrs. Sophia Johnson, wife of Carl J. Johnson, died Sunday, Jan. 22nd, aged 61, at their home in Thorsby and was buried Monday in the Swedish cemetery, Rev. James W. Davenport pastor of Thorsby Congregational Church officiating. Mrs. Johnson was the mother of grown children living in Sweden.

Mr. Johnson desires to make pubilc acknowledgment of his deep gratitude for the many acts of kindness and sympathy from neighbors and friends who have been so thoughtful and helpful in his hour of trial.

Mr. August Johnson and family of Birmingham were in Thorsby Monday to attend the funeral of his brother's wife.

A recent event of importance in Thorsby was the annual meeting of the Thorsby Fruit and Truck Growers Association, having a membership of approximately 150 farmers and others engaged wholly or in part in securing something from the soil. Their sales last year aggregated $20,000 of which the largest item was some 60 carloads of watermelons. Strawberries have long been produced by the association in car load shipments, and it is reported that about 150,000 plants have been ordered for renewing old and setting new beds this winter. Other notable products are sweet potatoes, peaches, pecan trees, nursery stock and carnations under glass, besides many other farm and garden products. The association has been in successful operation for about fifteen years and has built up an enviable reputation for their products. Officers elected for the ensuing year are: M. J. Soberg, president; T. J. Martin, vice-president; S. P. Collins, Secretary; C. H. Thomsen, Treasurer; L. E. Diefenderfer, Manager; Board of Directors—Carl C. Peterson, T. J. Martin, J. W. Littleton, Bud McCary, G. S. Burnett.

HOW THORSBY WAS SAVED

During the rush and excitement attending the fire in Thorsby last week there were many incidents which were not recorded in the reports sent to the press. Chief among these was the fact that the destruction was confined to a comparatively small section by heroic team work of men and boys of Thorsby, Thorsby Institute, Clanton and Jemison. Bucket brigades and salvage corps were quickly organized, chiefly under direction of Mr. C. R. Foss. A block of nine buildings stood in the path of the fire, only separated from it by a street, burning embers were flying thick and fast and falling on the roofs the entire length of the block. Water was brought in pails from near by wells and in barrels on trucks from more remote sources and passed up to men and boys stationed on the roofs where, with tubs of water and wet quilts and blankets the falling embers were extinguished, until all danger was past.

But the saving of the G. L. Foshee building which adjoined the one in which the fire originated was a work that would be a credit to any well drilled fire brigade. This building, 50 by 100 feet and two stories high had five large windows with sills but little above the roof of the burning building, the flames from which often mounted high above the roof of the Foshee building completely enveloping the window frames. Tubs of water were provided well impregnated with salt which men at every window, protected by the walls and using brooms, swabbed upon the window frames as fast as they took fire, until the frames were burned out and even the ceiling inside the building caught fire many times, but was doused with the salt water and quenched. So many were engaged in this work that they cannot all be identified, but on behalf of the citizens of Thorsby and especially Mr. Foshee and Thorsby Hardware Co., whose buildings were saved by the streneous efforts of this volunteer fire brigade, grateful thanks are hereby tendered to everyone having a part in the work.

CARTER'S REPLY TO "ANOTHER FARMER"

In the present issue there appears an article by "Another Farmer" against the Highway Amendment for the Bond Issue. As the election to determine this matter is to be held on Monday before the next issue of the Union-Banner, by courtesey of the editor we are premitted to answer what we believe to be the false statements that occur therein, evidently because the writer thereof is quite uninformed on the matter, and by his letter may mislead the people in a matter that means so much benefit to them.

Good Roads.

The writer of this article admits that we need good roads, and while condeming the proposed method of securing them, fails to suggest any remedy for the solution of the problem. Destructive criticism is worth nothing unless something constructive is given in its place.

Taxes

The writer evidently does not understand the question. The Bond Issue does not increase the taxes. Only sufficient bonds are sold, as the proportionate amount of the automobile license tax permits, and as is requisite to take up the government appropriation that comes due to our State. The bonds are not paid for out of the Treasury, nor chargeable to the treasury. The motor vehicle act of 1919 provides that 80% of the net License receipts should be available to the State Highway department for the construction and maintenance of the State Highway. It has therefore never been considered a part of the treasury, but set aside exclusively for this purpose. It was never put into the treasury therefore cannot be taken out of it. Therefore the "absurdity and monstrosity" is on the other foot.

Do The Autos Pay These Taxes?

The brilliant writer of the article in question says "That the automobile owner will not pay the tax, only the merchant who runs cars will pay it, and he in turn will charge it to the expenses of his business, then add it to the cost of his merchandise, which the ordinary citizen must pay. The preacher, lawyer, and professional class will pay none of it. "He has evidently not stopped to think, that the merchant constitutes but a very small proportion of those who drive automobiles. Many salaried men, lawyers, preachers, professional men, and drummers own and drive cars for in excess of the merchant. Here is one preacher at least who has paid his 50% extra tax on a flivver for TWO YEARS for the purpose of the State Highway, and has never charged or received a single penny in return from the people he serves with which to pay the license. This is true of thousands of professional men, preachers and some drummers. This tax has been levied and collected from the automobile owners for at least two years, and if the writer of the article owned such a vehicle he would know better than to make such rash assumptions. He does not even own a flivver, much less an automobile; where then is the justification for his protest. The motor license has paid the tax, and will gladly continue to do so if the State and government give us something in return for the taxes paid, which up to the present we have not had. Good roads will more than repay the extra tax for their construction and upkeep bp the saving of gas, repairs and time. About $12.00 a year is the most that the everage merchant has to pay on his auto. Add that, or even double it, to the business expense of the merchant, figure out the percentage for the extra cost of merchandise even if the consumer paid it, and the absurdity of the argument proffered by the writer is soon apparent. It is so small that it would take a microscopic mind magnified many times to estimate it.

The Federal Appropration.

It is true that this provides for $25,000,000 in the process of time to be given to the states as they are able to match dollar for dollar. It is also true that there is nothing to prevent the Federal Government from reappropriatiing Alabama's amount among the other States if it is not used by this State.

The States Indebtedness

This is used as an argument against more indebtedness. I am not familiar with the provision that has been made to pay off the present indebtedness but it is evident that our contributor to this question fails to see that no indebtedness is incurred by the proposed Bond Issue, since such Bonds are only issued as they can be financed by the motor license. We have this consolation that if this is work of a "mad-man," the Amendment when last submitted to the voters was carried by a large majority throughout the State, and no doubt will be again thus leaving such wiseacres as the writer in question very much in the minority. Castor oil is very beneficial when properly applied, and if this is the nature of the Bond Issue we are sure that it will do more to give us good roads, or better roads at least than those we now have.

The Preacher and Plitics.

With the nature of the arguments submitted by the writer in question we are not at all surprised that he fails to discern the difference between Good Roads and Politics. The question of Good Roads is as far from politics as the north pole is from the south. It is absolutely non-political and non-partisan. The fact however that there is a good deal of religion in it than he thinks for, justifies a preacher in sacrificing his valuable time to benefit tens of thousands of his fellow citizens. If our advocate against the Bond Issue drove even a Ford Car over the awful roads that now exist, and broke as many springs, punctured as many tires, and paid out as much for repairs as some do who drive these cars, he would know something of what a person feels like saying at least. Better then buy good roads to remove the cause and the temptation to keep him from saying such things if possible. Furthermore good roads make it possible for us to send the children to school and get the people to church, and if this is not a good cause please tell us what is. When the writer in question has done as much for the good of his fellowman and the community in which he lives as the preacher he criticies who is giving his time free of charge to this worthy cause there will be some justification for his action, but not till then. We have only to add that one who does not own a single piece of real estate or taxable property or even a Ford Car to pay taxes on for the past two years like others have odne, has but little reason to protest the Bond Issue on the ground of taxation. With only $3500 revenue in the county at the present time with which to build roads, repair bridges, and construct highways, Chilton County will have to be content with corn stalks, hay and other rubbish that has been neccessarily used for the construction of her roads, but with the Bond Issue and the co-operation of the State and Federal Government behind it, we can soon have just as good roads as any State in the Union throughout the county as well as the highway. So vote for good roads and get us out of the mud.

Yours for good roads,
REV. P. G. CARTER, Chm.
Highway Campaign Committee.

MYSELF

By Edgar A. Guest.

I have to live with myself, and so
I want to be fit for myself to know.
I want to be able, as days go by,
Always to look myself straight in the eye;
I don't want to stand, with the setting sun,
And hate myself for things I've done.
I don't want to keep on a closet shelf
A lot of secrets about myself,
And fool myself, as I come and go,
Into thinking that nobody else will know
The kind of a man I really am;
I don' want to dress up myself in sham.
I want to go out with my head erect;
I want to deserve all men's respect;
But here in the struggle for fame and self
I want to be able to like myself.
I don't want to look at myself and know
That I'm bluster and bluff and empty show.
I can never hide myself from me;
I see what others may never see;
I know what others may never know,
I never can fool myself, and so,
Whatever happens, I want to be
Self-respecting and conscience free.

FUNERAL SERVICES OF MRS. RILLA WILLIAMS

Mrs. Rilla Williams, daughter of Mr. A. C. Smith, passed away from the life on Sunday night, January 22nd, after a very brief illness, leaving behind a husband and two small children. Funeral services were conducted at the Baptist church by the Pastor Rev. P. G. Carter, in the presence of a large audience of smypathisers and friends. A beautiful display of flowers betokened the high esteem in which she was held by all those who knew her The remains were buried at the cemetery at Samaria. The smypathy of the community is extended not only to the bereaved husband and small motherless children, but to the father of the deceased upon whom has come great burdens of sorrow in the loss of his home, and of his daughter, and the present physical affliction with which he suffers. God is our refuge and strength and a very present help in the time of trouble.

P. G. CARTER, Pastor.

Miss Gladys Mae Nix spent the week-end with her parents here.

ROAD BOND MASS MEETING

Remember the Road Bond Mass meeting to be held at the Court House on Saturday at 2 p. m. Mr. W. S. Keller State Highway Engineer, will address the meeting. If you do not understand this question, come and get the real facts next Saturday afternoon. Mr. Keller has been engaged in the survey of the State, is fimiliar with the question from its beginning therefore is a good authority in the matter. Come and hear him if you are against the Bond Issue. Questions Invited.

P. G. CARTER, Chairman.

McDONALD COMING SUNDAY

Announcement is made that Prof. H. C. McDonald of Wetumpka, will be at the Associational Rally Day at the Clanton Baptist Church next Sunday. We understand that he has assured Brother Carter of his intentions to be here, and deliver two addresses on that day.

It is useless for us to urge the people to come out and hear Mr. McDonald. During his residence in Clanton, his work in the interest of the church became so widely known and appreciated over the county, that it will only be necessary for the people to know that he will be here, to assure their presene to hear him.

COLLINS TO HELP WITH POLL TAX

Mr. J. D. Collins, Ex-Tax Collector of Chilton County, has volunteered a very valuable service to the people of Chilton county in assisting them to straighten out their poll tax records. He will be at the Court House January 30 and 31, ready to assist any who may call upon him. Mr. Collins was Tax Callector for a long time, and is fimiliar with the ins and outs of all the records. His assistance will no doubt be very valuable to people desiring to get straight on the poll tax records, and pay up back taxes. Everybody is urged to pay up their poll tax before the first of February if they want to take a part in the voting that is to be done this year.

IMPROVED ROADS SUFFICIENT TO ENCIRCLE THE EARTH

What the new Federal highway appropriation to be expended under the direction of the Bureau of Public Roads, United States Department of Agriculture, will mean to the country is accurately gauged in a synopsis prepared by the bureau, showing the use to which the $275,000,000 previously appropriated by Congress has been put. Up to December 31, $212,077,246 had been put to work in projects either entirely complete or under construction. To match that amount the States apropriated $285,379,312, making a total of $497,456,558.

If placed end to end the roads to be paid for by this money would encircle the earth at the Equator and extend as far as from New York to San Francisco on the second lap. The total mileage of roads under construction and completed, the department's records show, was approximately 27,000 miles. Of this mileage 9,555 miles was in projects entirey completed. The balance of 17,445 miles was in project which were still under construction but reported 69 per cent complete October 31. In those projects there was the equivalent of 12,000 miles of completed roads, so that the completed road to date was more than 21,000 miles, or nearly enough to encircle the globe.

Prior to 5 years ago the Federal Government took no active part in the road construction of the country. Today about one-half of all roads under construction are being aided financially by the Federal Government, and the construction is subject to inspection and approval of Federal engineers.

Heretofore the State of Alabama has not been getting any of this Federal aid, because the state has not been able to put up any money to meet the Federal appropriation. On the 30th of this month Alabama will vote on the Good Roads Bond Issue, which, if adopted, will be used to meet our part of this Federal money. In the event our people vote for the Bond Issue, we shall in the future years be the beneficiaries of some of this road building that is being carried on by the national government.

Worth Considering.

The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you wil lconsider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. T here are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.—Upchurch Drug Company, Clanton, Ala.

A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

Duplicate wearing parts for

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.

"LIFERS" ARE CIVILY DEAD

Arab Wants New County—Judges To Be Banquetted—Regulars Go To McClellan—Knox Appeals Case.

"Lifers" in the state penitentiary of Alabama are civilly dead, so far as their right to bring suits for damages is concerned. The Alabama Supreme Court ruled that John Quick, sentenced to life imprisonment, was not entitled to recover damages from the Western Railway of Alabama, for injuries suffered when a train was alleged to have hit a motor truck driven by him at a crossing near Montgomery in April 1921. Quick started proceedings asking for $50,000 damages. The Supreme Court held that Quick did not have the right to bring suit against the railroad. The case was sent to the Supreme Court from the Montgomery county circuit court, where a similar position had been taken. The Supreme Court opinion was prepared by Associate Justice Sayre and affirmed the action of the lower court. Under the common law, it was formerly held that convicts serving sentences for felonies were deprived of civil rights, but this was modified to some extent by the statute, which holds that convicts serving life sentences are civilly dead, it is explained.

PHOTO FILM IMPORTS

Washington, Jan. 17.—In 1911 we imported 11,725,000 linear feet of motion-picture film. During 1921 (figures not yet compiled) imports fell not far short of 200,000,000 linear feet. The Department of Commerce finds this tremendous increase is due to the growth in the import of what is known as raw film, that is "sensitized but not exposed film." The other classes are positive—the finished film ready for projection—and negatives—the exposed film from which the projection positive is made. Both of them are known as "exposed" film. This exposed film averages about one-tenth of our imports and competes with the motion-picture industry. The raw film imports compete with the domestic production of photographic goods. Imports of exposed film last year were about one half what they were in 1914, when 20,000,000 linear feet came in, a goodly share of which was undoubtedly used for propaganda purposes during the first year of the war.

More than four-fifths of the raw film and two thirds of the exposed film imported into the United States come from five European countries, namely, Belgium, France, Germany, Italy, and the United Kingdom. Normally from one to two million feet come from the rest of the world. In 1914 we imported 8,666,000 feet of raw film from Belgium. During the war the Belgium industry was wrecked, but last year we imported from that country about 40,000,000 feet. Acout 50 per cent of our raw film imports now come from France, and she also sends us about 33 per cent of our exposed film. About one-sixth of our raw film came from Germany in 1914, and last year imports of that film from Germany exceeded 32,000,000 feet. It is reported that the German raw film industry was little disturbed by the war and is now in a very strong position.

American producers of film have recently encountered great difficulties in marketing products in Germany and France, where high duty rates have impeded our sales. The pending Republican tariff carries a duty of 25 per cent on "films, sensitized but not exposed or developed," while the prepared film carries a duty of 30 per cent. It is believed that these rates will sufficiently protect domestic industry. Raw film in the present law—the Underwood law—is admitted free of duty. All exposed film is subject to the censorship of the Secretary of the Treasury.

THE BONUS AND THE DEBT

It becomes more and more evident that the prospects for the passage of a soldier bonus bill depend upon the results obtained in collecting the principal and interest of the $11,000,000,000 debt owed to us by foreign governments. President Harding and other Republican leaders are in favor of the bonus, but are not willing that the burden of its payment shall be put in the Treasury in its present condition. If the national revenue can be increased $500,000,000 or more a year from foreign sources it may then be fesible to adopt a form of cash bonus that would not put an additional hardship on the taxpayers. Conferences have been held at the White House and elsewhere on the pending debt refunding legislation and its relation to the bonus. It is not probable that there will be a specific provision included in the refunding bill that the receipts on account of the debt shall be paid over to the soldiers. Rather it is hoped that the condition of the Treasury would be so improved by receipts from abroad that the payment of the bonus could then be authorized.

PUTTING PEP IN THE SENATE

The appointment of George Wharton Pepper to the seat in the United States Senate made vacant by the death of the late Senator Penrose not only adds an illustrious man to that body but fully maintains the high standard that Pennsylvania has set for her representatives in the Upper House of Congress. Mr. Pepper is a lawyer of note, and has written several books on legal subjects. He has made a special study of Federal legislation as related to the laws of the States, and has embodied his observations in a work entitled, "Borderland of Federal and State Decisions." His knowledge of international and Constitutional law is extensive, and in the prolonged discussion over the proposed entrance of the United States into the league of nations Mr. Pepper was in the forefront of the opposition to the league pact. Senator Pepper was a member of the first Plattsburg camp for the military training of civilians, and takes pride in including in his short biography in "Who's Who" the fact that he was "color sergeant, First Provisional Regiment, Plattsburg, N. Y., 1915." Senator Pepper is a forceful speaker and will doubtless be heard frequently in espousal of sound political and economic doctrines.

FRENCH GUARANTEE

The first direct outgrowth of the Washington conference is seen in the inter national meeting at Cannes. First reports from the coference in France indicates that a four-power treaty is likely to be drafted which will give the French sufficient guarantees of safety to induce them to abandon their decision to build a big submarine fleet and to maintain a huge army. The United States, of course, will not be a party to the undertaking, and will receive no benefits therefrom, except as they may accrue indirectly through a lessening of the dangers of war. It may be that the Cannes conference would have been held whether President Harding had called the Washington meeting or not, but it is certain that its agreements have been facilitated by the achievements already accomplished at Washington.

PENROSE MET ALL COMERS

Senator Penrose never permitted public criticism to divert him from the official business he had in hand. Probably no more vitriolic denunciation has ever been heaped on a single individual's head than has been directed at Mr. Penrose. He, himself, possessed a command of sarcasm that was unique, and he frequently used it to good advantage. He never took the trouble to reply to his traducers, and lived to see many of them relegated to the obscurity whence they emerged.

SIMPLIFIED TAX RETURNS

Heretofore all income tax payers have been compelled to spend a lot of time making out their income reports. In the large cities it has often been the case that a long line of citizens would wait for an opportunity to get the assistance of a government expert in making out their returns. Those with large incomes derived from various sources will still have some difficulty but about 80 per cent of the the people—those with incomes of $5000 or less—will find their work much expedited by the simplified form of return that has been adopted by Secretary of the Treasury Mellon.

Mr. J. B. Jones, a good Republican from Coopers, was in Clanton Wednesday and paid up his back poll tax from 1902. That is the kind of men who need to get busy if we are to keep ahead of the Democrats in Chilton County.

Remember Republicans, Democrats, Socialists, Good Roads Advocates, and Bond Issue Opponents, that next Tuesday winds up the poll tax business. If you don't get right before that time, you need not worry about politics any more this year, for you will not be permitted to vote.

When enthusiasm for success and the hope of victory gets into the bones of an ameteur politician, you may as well pull up stakes and move out the boundary lines of propriety and legal procedure. His ardor will not be confined by any limitation under the blue sky.

Wouldn't it be fun if we could have an old fashioned snow about a foot deep, so we could fix us up a real sleigh like Scott Chestnut did back in 1897, and glide smoothly over the hills and hollows. Then too we could get out and track rabbits to their dens in stump holes and clay roots. Some fun in those days.

It might be well for some people in Chilton County to remember that there are certain infractions of the laws of Alabama govenring elections and voting qualifidations that are punishable by penitentiary sentence. Some of the political busy-bodies would be jolted to wake up with a term at Spigeners staring them in the face.

JEFFERS "CRAWFISHED"

The way Congressman Jeffers "backed out" in refusing to debate with Judge Reynolds on the soldier appointment question is indeed amusing. Here is the way he tried to patch up his excuse:

"As to my possible plans for future speaking dates, will say that I do not know when I will arrange for any speaking in the district. But as far as dividing time is concerned and having Probate Judge Lewis Reynolds arrange a meeting for me, I will say that I think now that it be better for you, Judge Reynolds, to announce and arrange and conduct your speakings whenever you feel like it, for the benefit of those who want to hear you, and allow me the privilege of doing the same."—Lamar Jeffers.

You are a wise guy, Major. You may use your long range guns on Reynolds and get away with it pretty well. But beware when it comes to locking horns with him on the platform. You did the only thing you could do to save your face.

As for debating with Judge Reynolds, we have seen bigger figgers than Major Jeffers take to the tall timber when Reynolds got on their trail.

He challenged the silver tongued and cotton tailed Tom Heflin for a joint political debate over at Rockford one time. Heflin had been speaking his political fire all around over Coosa county and had the folks believing he was mighty handed down. When Reynolds challenged him some of the folks got scared and thought the Judge was going to get eaten alive.

But lo and behold, Mr. Heflin, unlike some of the Coosa county people, had seen Reynolds before, and knew very well what was the best thing to do under the circumstances. Therefore he proceeded at once to leave Rockford for the nearest railroad station to answer a rush call which he had somehow received from somewhere else.

We have also seen the mightly Oscar Underwood, that towering strength of the Democratic household, wilt under the fire of Reynolds's scorching rejoinder, and flee from the Shelby County Court house in a mad rush for the tall uncut.

We are not surprised that Mr. Jeffers succeeded in formulating some excuse for not meeting Reynolds. He will do the same thing the next time a challenge is sent. Watch and see if he don't.

THE POLITICAL SITUATION IN IN CHILTON COUNTY

Politics in Chilton county has recently taken on a vigorous spell of activity. So much has been said and done by first one and another that it has put a real campaign spirit into the bones of those who are politically inclined, although the primary election is as far distant as the scorching month of August.

As is well known, both near and far, there are two sides to the political game in Chilton county, Democratic and Republican. It is our purpose here and now to mention a few observations from the viewpoint of a Republican who wants to see the Republican party in Chilton county win in the elections this year, by honest and honorable methods.

We believe that the people of Chilton county, if fully appraised of the things that concern their political welfare in the future, and if allowed to express their franchise openly and without the use of chicanery or prejudice, will continue to entrust the affairs of our county government to representatives of the Republican party in the various county offices. The records made by our Republican officials in years past, compared with the records made by the Democratic officers we have had, seems to us to warrant the above prediction as to the future.

To begin with, we will note that the Democrats are jubilant over what they believe to be a fact, that they have got the Republican leaders scared as never before. Just how and why they figure this, we do not know or care. We are ready to admit, however, that the Democrats are making a greater effort to re-estblish their party in Chilton county now than they have done since they lost their hold in 1916. That is their privilege, and we do not blame them for honestly trying to do so. It is a mighty poor Democrat or Republican who does not want his party to win. And it is also a mighty poor Democrat or Republican who will stoop to unfair or dishonorable means to get his party into power.

All this sudden wave of political enthusiasm has arisen over the matters of registration of voters and the payment of poll taxes. As was stated in last weeks paper, there have been some allegations of illegal acts reported concerning recent actions of the Board of Registrars; and of course if these things have occurred, it is reasonable to suppose, as pointed out last week, that the Democratic party is none the loser by virtue of the transactions. We do not countenance such action as has been reported, and we wish to warn Republican voters that they should bestir themselves and qualify to vote, so as to be able to meet this effort of the Democrats to increase their strength.

Whether legal or illegal, honorable or dishonorable, it is a fact that the Democrats are registering large numbers of their people, and qualifying them to vote this year. We have heard some of them say that they are determined to see that every Democrat in the county is qualified and votes in the elections this year.

Then there is but one thing for Republicans to do—keep apace with them by seeing that every Republican is registered and fully qualified, and casts his or her ballot in the primary and the general election.

The matter of payment of poll taxes is receiving the same careful attention on the part of the Democratic leaders as is the registration. They are endeavoring to have all poll taxes of Democrats paid up. It has been reported to us that some of the Democrats of Clanton have been soliciting contributions for a fund to be used in paying up back poll taxes for a number of Democrats, a list of whom they have written out and are showing to parties whom they solicit to contribute to this fund. If the Democrats in Clanton are engaged in this missionary effort for the Democratic party, there are doubtless several others over the county who are engaged in the some work. We shall not pass judgment here upon such methods as these, if they are actually in progress as reported. We leave that for the people of the county to think upon.

But we do want to impress upon the minds of Republicans who have not paid their poll tax, and ask them what this means to the possibility of success for the Republican party this year. And it might be a question for thought of even those Republicans who have paid up and are qualified.

In recent years the Republican party has carried Chilton County by majorities all the way from five to thirteen hundred votes. Now if the Democrats manage, by their different methods to register and qualify by paying up back poll taxes, all who will vote their ticket, in addition to those who have been voting it all along, you can see that it will mean that the Republican majority will be considerably cut down, if not indeed overcome, unless the Republicans like wise succeed in registering and qualifying many who have not heretofore participated in the elections.

You may call it scared, or whatever else you might wish to name it; but it is nothing but plain facts and figures. If Republicans expect to continue their party in control of the affairs of Chilton County, this new hope, and these questionable methods of the Democrats must be met. This does not mean that a Rpublican who is qualified and all paid up can sit still and be content with his own security. He must get in behind his neighbor who is not qualified to vote and stir him to action.

As said above, we do not countenance illegal or unfair methods to get votes any more than we would uphold such schemes to get money or any other desired object. We are not calling on Republicans to meet the Democrats with any of the unfair methods they may be using against us. We can save ourselves easily, and do so by fair and square practices. It can be done by the Republicans exercising their rights, only if they WILL do it.

To get busy now while the opportunity is at hand, means that the Republicans will continue to hold their majority. To remain idle and inactive means that there is a chance that our party will lose to the Democrats.

It is just up to the Republicans to choose this day whom you will serve. It will be too late to wake up after the first of February, which is next Tuesday.

As we said last week, it is foolish to get mad and sore at what the Democrats may or may not be doing. You can rest assured that they are looking after their interests. If the success of the Republican party in the future is to be taken care of it must be done by Republicans, and it must be done right now, without delay.

IN REGARD TO THE TREASURER OF CHILTON COUNTY

In view of the fact that the bid of myself for the office of County Treasurer was accepted by the Commissioners Court at their session on December 12th; and in view of the further fact that at the session of said Court on January 15th, the office of County Treasurer was given to Mr. John A. Thomas and not to myself, I feel that it is but fitting that I make some explanation to the people in regard to the transaction.

On December 12th my bid for running the office of County Treasurer being the lowest one submitted to the Court, the job was awarded to me by the Court. I was to be checked into the office on January 15th. But after going into the matter more fully than I had done prior to submitting my bid, I reached the conclusion that inasmuch as my business dealings with the county in the way of advertising and printing was the source of a considerable amount of money from time to time, which comes out of the county treasury, that it might not look just right to somebody who might object to me "paying myself off" out of the county money. In order to avoid any criticism of this kind I determined that it would be the best that I decline the position.

But I wish to state here that I appreciate the confidence of the Commissioners Court in awarding me the position I asked for, and I am indeed sorry that circumstances arose under which I could not take care of the county's business for them in the capacity of county treasurer.

After I had decided not to take the job, the Court gave it to Mr. John A. Thomas, Cashier of the Peoples Savings Bank, whose bid was the next lowest to mine.

And right here I wish to add a word about the attitude of Mr. Thomas's bank in regard to the finances of Chilton County. It has been due to the kindly spirit of Mr. Thomas and Mr. Callen toward the present administration in our county that our county officials have been able to travel and keep the county running on a cash basis. They have loaned the county money when it could not be obtained anywhere else. Even this week, a loan was consumated with them, whereby the county obtained sixteen thousand dollars with which to operate the county business on for another year. Without borrowing this money, in view of the fact that the county is burdened with heavy interest on the old road debts, it would have been impossible for the county to have paid off its current obligations during this year. And if the money had not been obtained from the Peoples Savings Bank, it could not have been had elsewhere.

Some may see fit to criticise the Commissioners Court for giving the office of County Treasurer to a Democrat. We believe such criticism, if made, will be out of place and unwarranted. The Commissioners are entrusted with the job of financing the county's business. Mr. Thomas and his bank have helped them with their almost impossible task; and now I do not see how anybody could blame them for giving Mr. Thomas the job of Treasurer, especially since his bid was the lowest one under consideration.

In conclusion, I want to appeal to the people of the county to stand by the Commissioners Court and help them in every way possible. They have had a hard task to pull the county through the financial troubles that have been thrown in their way. They deserve much credit for the way they have handled the business.

Respectfully,
W. M. WYATT.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

DOINGS at MULBERRY

(By G. H. DeShazo.)

Say, who can tell us where the weather man is? He surely has taken a vacation and left the flood gates open. My, this kind of weather is bad on Fords and automobiles in general.

Mr. D. O. Manning made a business trip to Stanton last Saturday.

Mr. J. D. Griffin spent the week end with home folks at Marbury.

Mrs. Harmon left Friday for the week-end with relatives in Montgomery.

Misses Jessie Dennis and Annie Manning visited Mr. John Vinson in Clanton during the past week.

Mr. D. O. Manning, W. F. Deshazo, and Floyd Ward made a business trip to Clanton Saturday.

We regret to report that Mr. W. F. Deshazo is confined to the house on account of another bad carbuncle.

G. H. Deshazo went up to Pelham Sunday, returning Monday night.

Mr. T. C. Jones of Jonestown was a visitor to Mr. W. F. Deshazo's on Sunday.

I told you that these basket ball boys out here were forging forward. They went down to Maplesville last Friday evening and tied up in a match game with the Shoults boys, again, suffering defeat, but raising their standard somewhat above their previous mark, the score being 18 to 13 in favor of Shoults. Come on boys, you'll show 'em where they get off yet.

The "Doings" is kinder short this week, owing to the correspondent being away from the community most of the week.

Mr. G. H. Deshazo was in Clanton Friday and Saturday on business.

OAK HILL

The United Singing Society met at this place Sunday afternoon, and was attended by one of the largest crowds in some time. The singing was one of the best we have had yet, and was greatly enjoyed by all present. We were glad to have the Oak Grove class and visitors from other places with us. Come again, we will extend to you a hearty welcome at all times. Union grove was well represented, and did their part in making it the great success that it was.

We were made to rejoice because we, through the goodness of God, were permitted to be there and listen to the sweet songs sung by that great class of singers, who come from almost all parts of the country.

Promptly at 2:00 o'clock, our newly elected president, Mr. John Bean, called the class to order and sung the opening song followed by prayer, after which the following directors were called, who sung from two to four songs each: Charles Glasscock, Vernon Northcutt, Leonard Glasscock, Vester Campbell, E. L. Glasscock, A. H. Glasscock. Organists for the evening were: Misses Esther Atkinson, Myrtle Dorminey, Flossie Cobb, Emma Arledge, Lena Glasscock. E. L. Glasscock was elected vice-president of the society at this place.

After the announcements were made Mr. W. J. Northcutt made a short talk on the Sunay Sdchool Convention that is to be held here next Sunday evening, and urged that every Sunday School be represented, and everybody who possibly can attend to do so, and especially the singers, that we might have good music in the convention. Everybody is invited to come and help make it one of the best sessions of the convention held in this District.

E. L. GLASSCOCK.

UNION GROVE NOTES

Miss Leone Hall of Union Grove was home to a number of friends on Friday evening, January 20th. Various games were enjoyed. Those who enjoyed her hospitality were Misses Edna and Iri Robinson, Pearl Chandler, Mollie Vinzant, Myrtle Dorminey, Amy Robinson, Hattie Vinzant, and Lucile Prosch; Messrs Bernie and Arthur Chandler, Alvin and Alfred Marler, Ervin Robinson, Osmond Dorminey, Willie Bratton, Elbert Hall, Clyde Davis, Olean Northcutt and Howard Robinson.

LINEN SHOWER FOR HOSPITAL

Mrs. Belle H. Wade requests us to announce that arrangements are being made for a linen shower for the Central Alabama Hospital by the ladies of Clanton, to be held in the near future. WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me.

"I saw after taking some Cardui . . . that I was improving. The result was surprising. I felt like a different person.

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me . . . My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments.

82 YEARS OLD AND AS GOOD AS A YOUNGSTER

"7 or 8 years ago I was a very sick man. Doctors said catarrh trouble of stomach and bowels, affecting the liver and heart. For more than a year I wanted to die, but could not. Upon the advice of a friend I tried Mayr's Wonderful Remedy, and although 82 years old I now feel as good as a youngster." It is a simple harmless preparation that removes the catharrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Alred Drug Co., and Druggist everywhere.

MAPLESVILLE NEWS

By Miss Bertie Blackmon.

Two very able sermons were delivered at the Methodist Church Sunday at 11 o'clock and Sunday evening at 7 o'clock, by Dr. Dannelly, the Presiding Elder of Montgomery. A large congregation was present at both sermons.

Rev. Matthews of Prattville made an eloquent speech at the Baptist Church Sunday at 10:30. His subject was "Getting a Free Baptist School at Six Mile," principally for children whose parents haven't finance to send them through High School.

Our school is making rapid progress with Mr. H. A. Harris as principal, Mrs. Bessie Hayes, Miss Anice Kemp and Miss Allie Miller as assistants. Everybody is dreading the monthly tests, but not so badly as usual, for in the opening of the year everybody resolved to put forth an effort to make higher grades than before. So after all, they are expecting an easier time than heretofore.

J. W. Swim, Jr., who was shot thru his arm accidently on a hunt with several boys during the holidays is improving. His class and schoolmates are glad indeed he is improving. They are anxious to see him back in school.

Mr. Chester Kemp, who has been visiting relatives and friends, has returned to Montgomery.

MRS. HUDSON WILLIAMS DEAD

Mrs. Hudson Williams of Birmingham, who was before her marriage Miss Rilla Smith of Clanton, died at South Highlands Infirmary last Sunday night. She was 26 years of age, the daughter of Mr. A. C. Smith, and leaves a husband and two children to mourn her death. The cause of her death was given as spinal meningitis.

The body of Mrs. Williams was brought to Clanton Tuesday, where the funeral was preached by Rev. P. G. Carter at the Baptist Church. Burial services were at Samaria Church, attended by many sorrowing friends and relatives.

Mrs. Williams was well known in Clanton, having lived here all her life up to the time of her marriage to Mr. Williams. Her circle of friends was as wide as her acquaintance and all who knew her are bowed in grief at her death.

CLANTON BAPTIST CHURCH

Last Sunday was quite a good day for this church. A Sunday School of more than 150 present and two good congregations were present. There is however, plenty of room in the fine new church and auditorium for more folks. Many will be interested in the announcement of the program for next Sunday of the Associational Rally to know that Prof. H. C. McDonald of Wetumpka is to have part on the program, along with the pastor. He will speak at both the morning and afternoon services. The churches at Concord, Corinth, Floyd, Mount Zion, Providence and Samaria are invited to join with us in this Rally, the purpose of which is to emphasize the work of the Unity Association to which these churches belong. Delegates from these churches will be properly entertained. Come and make yourself at home with us. Let us work for a large Sunday School next Sunday of at least 200 present all on time.

P. G. CARTER, Pastor.

The Banner office was pleased to have as visitors Tuesday Messrs. W. J. Morris, Zack Lowery and Frank Hayes of Baker School House and Liberty Hill Community.

Dr. Gragg and Dr. Marcus have returned from New Orleans, where they spent a couple of weeks brushing up on the latest ideas in medicine and surgery at Tulane University.

MOFFITT DROWNED AT HIGGINS FERRY SATURDAY

I. D. Moffitt, an Alabama Power Company surveyor, was drowned at Higgins Ferry on Coosa River last Saturday. The ferry boat was coming across from Coosa side, bringing a load of household goods for a negro who was moving from Coosa County over here. Moffit, desiring to cross the river, took passage on the flat, along with some half a dozen other people.

The river was swollen by the recent rains and the current was so swift that it caused the ferry to swing loose from the cable, whereupon the flat with its cargo was instantly swallowed by the waters of the river. All the other people on the flat succeeded in making their way back to the Coosa bank by means of a aboat. Mr. Moffitt grabbed on to a kitchen safe that was floatnig, and when last seen was still holding on to it as it was carried down the swift current. Some parties are said to have seen the safe floating down the river some half a mile below the ferry, and they state that no man was holding to it when they saw it.

Mr. Moffitt was about 30 years of age, unmarried, his home being in Dunlap, Tennessee. He has been with the Alabama Power Company here for the past year and has made many friends who regret his tragic death.

The Alabama Power Company is making every effort possible to recover his body, but up to the time of this writing they have not succeeded.

HODGENS AGAINST BOND ISSUE

Editor Union-Banner:

After looking over and considering the bond issue of twenty-five million dolars to be paid for highway purposes, taxation to run for forty years at 5½%, dear friends, how much are you going to leave your children in debt at the age of forty years? Are you going to leave them free holders or in the lunatic asylum or poor house, where ninety-nine per cent of us who have been voting ought to be?

Now I want to ask a question. There must be a loose screw in the machinery somewhere, either in front or rear. It is either in the voters or in the men that they are electing. My taxes thirty-five years ago were $3.35, poll tax included. I owned forty acres of land, one cow and one horse. To-day my taxes are between twenty-nine and thirty dollars. I own 139 acres of land, one horse and one mule. Still they say it does not raise our taxes one cent on the dollar. Will some good friend please explain to me through The Union-Banner how they figure this when taxes are growing every year, and us poor people who have been taxed once to pay road tax are working our own roads, and many people who are subject to road duty are leaving the farms on account of unfair dealings. The farm is the foundation of the world. When the foundation is destroyed, we have nowhere to stand. I therefore ask the voting citizens of Alabama to consider before it is too late. As for myself, I will vote against it. G. W. HODGENS.

Jemison, Ala.

We learn that Mr. A. C. Smith has sufficiently recovered as to be able to go to his home at Coopers. During his period of treatment in Birmingham it was found necessay to amputate one of his legs.

The roads are going to be so bad by next Monday that many people will not be able to travel over the "bad" roads to their voting places to vote for "good roads."

Commissioners Court of Chilton County was in session Tuesday, all members of the Board being in attendance.

WHY DO THEY LIKE THIS MAN?

IT IS BECAUSE HE HAS THE LIFE AND ENERGY THAT RED BLOOD GIVES.

He has a good color. He is strong and virile, and looks it. He is good humored. He laughs easily. In short, he is "full of life," which is simply another way of saying he is ful" of red blood. If you are weak and run-down and nervous, don't sleep very well and have a poor appetite go to your druggist and buy a few bottles of Gude's Pepto-Mangan and take it for a few weeks at meal-time. See how it will build you up by giving you plenty of good blood. Don't drag around half sick and half well. Get some "pep" into you by taking Pepto-Mangan. Sold in both liquid and tablet form. —Advertisement.

PAGE BLEED THROUGH

HENRY FORD'S IDEA OF BOND BUYING

Washington, Jan. 17.—For the purpose of showing the inportance of giving small savers an opportunity to aid in the development of industrial enterprises, the Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr., contrasts some recent utterances of Henry Ford. The Association says:

"In a recent interview Henry Ford declared that his bank balance was in the neighborhood of $140,000,000 and that he had no doubt that his assets could be capitalized and sold for a billion dollars. He had previously given out the information that his income and excess profits tax last year was $76,000,000. Concluding his recent statement he said, 'All the money that comes to me goes into new industries. I never invest money in bonds or anything of the kind.'

"In view of some public comments Mr. Ford had previously made on the subject of the rights of bondholders it may be worth while to take more than a passing glance at the above quoted remark. Mr. Ford is by native talent and training a man of mechanical skill, and of rare ability in the organizing of productive industry. He not only knows how a piece of machinery should be constructed in order to get the best results out of the least material but how to produce that machinery at the lowest cost. He also knows how to put that machine on the market to the best advantage. He not only has capital but he has the ability to use that capital better than any one else could use it for him.

"But Mr. Ford makes a grievous mistake when he assumes that others should or can do as he has done. There is many a man of mechanical skill who can conceive a new idea in machinery but who has not the business ability to get together enough capital to finance production. There are also men of earning power as wage earners who have no business ability which would enable them to make by themselves profitable use of their savings. Our present complex industrial organization is made up very largely by bringing together the men of skill in production and the men of accumulated savings.

"The man with five or ten thousand dollars of savings to invest cannot go into the business of producing automobiles, or sewing machines, or typewriters, or phonoghaphs; but if enough of these small capitalists put their money together under the management of some man skilled in production they can put into practical operation an industrial enterprise which will not only earn a profit for the manager but a profit for these numerous small capitalists whose savings are thus employed. Without this combination of the capital of one class of people and the skill of another, both the capital and the skill would remain idle. These capitalists must, of course, have some evidence of their interest in the business and that evidence is represented by stock or bonds.

"Because he has capital enough of his own to be the sole owner of his establishment and to have no bonded indebtedness, Mr. Ford recently declared that bonds were a commercial evil and should be thrown away. Under that theory of business organization the saver of small amounts would be denied the opportunity to use that capital in useful production. Moreover no capital would also be denied the opportunity to become a useful producer on an extensive scale.

"In his latest declaration regarding his investments Mr. Ford has given what is practically a repudiation of his earlier statements."

NOTICE OF ELECTION

The State of Alabama, Chilton County.

I, J. L. "ArticleXX. Section 1. The State is authorized to engage in the construction, improvement, repair, and maintenance of public roads, highways, and bridges in the State of Alabama. To this end, and for this purpose, the State is authorized to appropriate funds; and also to issue and sell interest-bearing negotiable State bonds, in an amount not to exceed the sum of twenty-five millions of dollars ($25,000,000.00) to be issued in such denominations, numbers, and series, and maturing at such time, as may be provided for by law; but such bonds shall bear a rate of interest not grater than six per centum per annum, payable semi--annually, and shall be sold at a price not less than par value thereof. Provided, that in counties which are divided into two or more judicial divisions in each of which regular terms of circuit court are held, the places where said terms of court are held shall likewise be connected with each other. It shall be the duty of said highway commission or highway department to equitably apportion among the several counties the expenditure of both money and labor and the time or times of making such investments. Not less than one-quarter of a million dollars of the proceeds of these bonds shall be set aside and expended by the State Highway Commission in each county in the State. To create a sinking fund for the prompt and faithful payment of the principal and interest of these bonds and for the construction, maintenance, and improvement of such public highways, roads and bridges, the Legislature shall levy a special annual license or privilege tax on all automobiles, and on all motor driven vehicles which may be used on the public roads and highways of this state. Such bonds when issued shall be a direct obligation of the State, and for the prompt and faithful payment of the principal and interest thereon the full faith and credit of the State is hereby irrevocably pledged, and such bonds shall be exempt forever from all taxes of every kind."

GREATER AUBURN SEMI-CENTENNIAL CAMPAIGN

On the 23rd of this month came a man to Clanton by the name of Mr. McElroy, his business was to organize Chilton County for the Auburn Semi-Centennial Campaign. He told me that I had already been selected to be Chairman for Chilton County, and this was done without my knowledge or consent. I tried to make it plain to him that we were in no position here just now to contribute to anything, as we were doing all we could for our home community, but nothing would do him but that I must leave my office and go with him, which I did and Mr. Howard Foshee, Supt. of Education consented to help, Miss Roberta Curry very kindly agreed to present the work to the ladies of the County whenever and whereever the opportunity presented itself and while we did not see Mrs. T. C. McEwain and Mrs. R. E. Luckie, we put their names on the publicity work, and feel that they will be glad to do this much for the undertaking.

It is the plan that these five meet in the near future and select a vice-chairman, Secretary and Treasurer, and also appoint some one in each Beat of the County to do the work in their respective communities. This may sound obsured to a great number of us, but we can do our part, whether it be large or small.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination---the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence,—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes,—let them be interrupted or improperly carried on, and sickness of some kind follows.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain body poisons,—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body.

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

ALABAMA SHOULD VOTE TO COLLECT

F. J. CRAMTON, PRESIDENT OF THE ALABAMA HIGHWAY COMMISSION SETS FORTH CONCLUSIVE REASONS WHY BOND ISSUE SHOULD BE RATIFIED.

STATE IN BAD NEED OF ROADS

Failure to ratify the bond issue means passing on to another state the golden opportunity which is rightfully Alabama's.

In an appeal to the people of Alabama for an overwhelming majority favoring the highway bond issue in the special election January 30, F. J. Cramton, President of the Alabama Highway Improvement Association, amplifies ten reasons for ratification which have been read throughout the state. The main reason is Alabama will secure highways in every county, built by state and federal governments. Counties will be relieved of a heavy burden.

The fact is emphasized that the federal government will give an annual amount to the state if the people of the state will provide a fund to match this appropriation. If we do not match the federal appropriation any unmatched amount will be given to the other states which do match it.

First—It gives permanent highways without taxation. Automobiles pay all interest, create a fund to retire the bonds when due and yet leave enough for upkeep.

Second—It means a boom in 1922. With the bond issue ratified, not less than six million dollars will be spent during the year. Every class of business will be benefitted. Plans are ready to start construction when the first issue of bonds has been sold.

Third—It returns some of the money paid the federal government in taxes. The government offers to return a portion of the millions of dollars paid in recent years, by building permanent highways, if we comply with its terms.

Fourth—It means we shall have roads which can be traveled to markets and to schools every day in the year. The government repairs permanent roads and these maintained.

Fifth—It means employment of men, animals and machines which have been idle. The money and work will be distributed throughout the state so each county will be benefitted.

Sixth—It actually reduces taxes because we shall be relieved of thousands of dollars of expenses annually. When a farmer breaks a spring in his automobile or a wheel of his buggy he has paid a mud tax. If he takes one bale of cotton to market when he might take four over a good road he pays mud tax.

Seventh—It means that our own state proposes to take advantage of the good roads offered at government expense. The opportunity is not for an unlimited time. If we do not vote this bond issue the money which the state cannot match will go to other states. Think of the people of a northern state riding over roads which belong to the people of Alabama.

Eighth—It provides an equitable system guaranteeing each county not less than $250,000 of state funds and $250,000 of federal government funds. The amendment itself requires that not less than $250,000 of state funds go to each county and if we vote to match the federal funds this gives each county at least $500,000.

Ninth—It relieves every county of a heavy burden because roads built by state and federal governments will be kept up by automobile license funds. The federal act making the appropriation for road work requires every state to maintain the roads so built. The government will make inspections to see that the law is kept. If necessary the government will rebuild the roads and charge the cost to the state and not to the counties. This will relieve the counties of a heavy burden on their treasuries.

Tenth—It means the federal government, co-operating with the state in constructing roads, will see that roads are properly built and that all money is safe-guarded. No one person's word is taken but the governments representatives are sent to see that the law is complied with. The government maintains engineers in Alabama who inspect the plans when roads are proposed and if they approve the plans are sent to Washington where they must be approved again. Contracts are then let and from that moment all work is under the supervision of both the state and federal governments.

With these facts before the people, President Cramton expressed the opinion that the vote against the bond issue January 30, will be very small.

Mr. Frank Thomas of Birmingham spent Sunday with his mother, Mrs. E. W. Thomas.

SHOULTS

My. My! If the rain continues for a few days, the roads will be sure enough muddy. They will almost be impassable for cars. The boys and girls say "school days" are not altogether pleasant in rainy weather. They are longing to see the sun creep out again.

Last Thursday was a gloomy day. The sun being hid behind the dark clouds up until late in the afternoon, the clouds passed from over the sun. It's beautiful rays reflected on the dark clouds in the East, a beautiful rainbow at this time made everything a scene of beauty.

LEONARD MARTIN WILL RUN FOR SHERIFF

Some weeks ago we published a little item stating that Deputy Sheriff Leonard Martin was thinking of making the race for Sheriff of Chilton County this year. Mr. Martin tells us now that he has definitely decided to get into the race, and will make his aunnouncement in the near future.

He has many friends over the county who will be glad to see him get into the race. If he is nominated and elected, he will no doubt fill the office with credit.

Mr. R. Nelson Brassell of Montgomery was in Clanton Tuesday to attend the funeral of Mrs. Hudson Williams.

Constipation.

Constipation of the bowels is a stoppage of the sewerage system that removes wsate matter from the body. It is as necessary that your bowels move regularly once each day, to carry off this waste, as it is that the waste pipes of your home be kept open and carry off the waste from the house. Ifyou would enjoy good health, keep your bowels regular by taking Chamberlain's Tablets when needed.—Upchurch Drug Co.

HAD NO PLACE TO SPEAK

It is related that during the recent presidental campaign a lone Republican in a Democratic town in South Dakota found it impossible to rent a hall in which to give a speech for Harding. The Democrats gave one or two addresses a week but this lone Republican had unseuccessfully attempted to rent the city hall and other smaller ones. No one sympathized with him, but one of the leading Democrats thought he would "rub it in," so he offered the Republican the use of his vacant lot in the east end of town, with a big manure pile in the middle.

The offer was accepted and when the day came for the speech the undaunted Republican mounted the manure pile in the middle of a large audience. He complimented them for their courtesy and said that he had been making speeches for over 40 years over North and South Dakota and adjoining states but that this was the first time he had had the pleasure of making a Republican speech from a Democratic platform. Politicans are unmerciful.—Yellow Jacket.

Mr. Maurice Lande, of the New York Store, made a business trip to Montgomery yesterday.

Bilious Headache.

When you have a severe headache, a disordered stomach and constipation, take three of Chamberlain's Tablets. They will correct the disorders of the liver an dbowels, effectually curing the headache.—Upchurch Drug Company.

VOLUME IX. CLANTON, ALABAMA, FEBRUARY 2, 1922. NUMBER 42.

Reynolds Exposes "Tricks" of Board of Registrars

Showing How They Have Conducted Registration to Give All Advantages Possible To the Democrats.

Editor Union-Banner:

I want to reply to what Mr. J. A. Sample said in an article in your paper last week. He says that the Registrars were fair and did not show partiality to any one. Let's see what the facts are: Two years ago the same Registrars started out to take applications from persons in Beats and register them, without the applicant coming before the Board. They gave Mr. Roy Pitts at Stanton a lage number of applications for him to take, and bing before the Board; but after it was known what the Registrars were going to do, these applications were not taken, and the board took the position that it was not lawful to register any one unless they came before the Board in person; and of course we had the right to believe that the Registrars would adopt the same policy this year, as the same law was in force and the same board was registering. But let's see what happened. The Registrars advertised their first appointments in Democratic Beats, and if there were two boxes in one Beat, they took the Democratic box first and left the Republican until after the first of February. Take Beat 6; they went to Kincheon and registered people at their houses who never went before the Board, passed right by Republican women, never said one word to them, but registered Democrats at the same house where Republicans were, and left the Republicans out.

They went to Concord box in Beat 13, but left Minooka out until later. In fact, as I have stated, they were dead sure to take all Democratic Beats first, which gave the Democrats the advantage. They advertised to be at Shoults January 11th, but left right after noon, went out to register Democrats from a list furnished them, and some Republicans went to Shoults in the evening, but no Registrars were there. Was this fair?

The Registrars at Beat 14 did not so much as go together but separated, one going one way and another another, from house to house, registering Democrats, and putting many on the list that were never before the Board. The Registrars went from house to house in Beat 13, Concord Box, the Democratic box, and registered persons that were never before the Board.

Take the advertisement of the appointments by the Board. They advertised where they would be, down to January 26, at the Court House, then skipped until Febryary 1, 1922, which left a few days that no appointments were made. All this was advertised in The Union-Banner. But what happened? They advertised in The Chilton County News that they would be in Beat 8 January 28, but never put this in The Union-Banner; and I will swear that the Chilton County News was not sent to me during the time this advertisement was in it. Mr. M. D. Foshee says it was not sent to him, and yet the law requires it to be sent to both of us. It was sent to me when it first came out, but I have not received a copy for about a month.

You see what has happened. Could anyone say that we have been treated fair by the Board of Registers. I believe that all officials ought to treat all alike.

I am informed that many are registering and swearing that they have been in this county twelve months, when as a matter of fact they have not. The application blanks that every applicant signs says they have been in this county twelve months. Some of them are being hauled to the Registrars by some of the Democrats and told to register, and many of them are taking affidavit when they know they are purging themselves.

What have we come to in this county? Are we to make the law and the courts out a joke? Is it to go out that men can swear falsely and that they will not be prosecuted? Are we to understand that because Democrats are in contral of the higher courts that men can purge themselves and nothing will ever be said about it?

I want to say that as long as I am official of this County that I will try to see that when it is my duty to enforce the law that it will be enforced on all alike. And I am ready to see that every person who willfully violates the law is punished, and if the list of registered voters contains any names that are not entitled to be on it, I stand ready to give whatever help I can to see that it is purged of all illegal names.

Let me ask the people of this County what all this means May I ask who is putting up all this money, to hire high priced men to give up good jobs and do nothing but work for the Democratic party?

May I ask what has come over this County that such efforts are resorted to, to have a few hand-picked men elected to office? Will the people read between the lines?

I want to say a few words to the ex-Service men, that just as soon as the Governor sends me the proper blanks, I will give notice to all who were in the service, between January 1, 1917 and November 11, 1918, to come before me and they can be exempt from all poll tax due up to October, 1923.

The law requires me to publish the list of qualified voters of the County after April 1, and if all voters will watch The Union-Banner they can see whether their names are there or not. If their names are not there, they can come before me and show that they are qualified, and I will put them on the list.

I hope to get every qualified voter in this county on the qualified list this year, and if each and every voter will help, it can be done.

Many have paid a poll tax in some other County, and have not filed their certificate from the Probate Judge of that County with me.

I want to congratulate the Republicans of this County for the work they have done for the last few days in trying to get persons to pay their poll tax; but Republicans, we must all work. We have never had just such a condition in this County before, and we must be up and doing. We know what happened in 1910. Your great grand children will be paying tribute to a Democratic administration, long after you are dead, for what they did when they were in office.

There seemed to be some misunderstanding about the uqalified list to vote Monday. This list was made up last May, as the law requires, and I will make a new list the first of next May, which will be the qualified list of voters for the next year. A good many had got their names straight on the records since last May, but were not on the list of voters Monday. The law governing voters is the most unreasonable law ever put on the Statute books, and ought to condemn any party that made it.

I hope every woman and man that is not registered will watch the dates of registration and meet the Registrars there and register. I wish every white man and woman in this County was a quelified voter.

Respectfully,
L. H. REYNOLDS.

GOOD FOR CHILTON

Bond Issue Carried by Nearly 4 to 1.

The confidence of the campaign managers was not disappointed when the results of the election on the Bond Issue were reecived. We felt sure that no such an intelligent proposition as this the Chilton County citizens as a whole would record a good majority in its favor. We expected to lose some ground over the last election, as some folks seemed to have had the idea that "there was a dead nigger in the wood pile" at this time, but we were much pleased to see that we have at least held our own with that of the last election on this question. It was a streneous campaign, as the sum of $122.00 was expended for local expenses, every dollar of which was needed to properly inform the people. In this election there were some pleasant surprises. It was thought at first that most of the country people would vote against it, but in some Beats they went almost solidly for it. Hurrah for them! A fine spirit of unselfishness and patriotism was shown by some of the Beats who, though several miles from the main highway, voted almost solid in its favor. Beats, 1, 13, and 16 are among them. It will be seen that Clanton went six to one, Verbena and Mt. Creek almost solid for it, Thorsby and Jemison two to one, and Beat 10 four to one. We suspect that if Thorsby had been left to itself without the interference of a nearby neighbor, it would have carried at least three or four to one, for we know something of the enterprising and progressive spirit of Thorsby. Beat 6 has the distinction of being the only one to vote against it in the county, so far as the present returns are concerned. Probably if they had known that before the election, they would not have recorded such a vote.

Now, that the election is carried, it means much for the county. Fifty thousand dollars will be spent in this county during the next year. Hundreds of men will be put to work on the roads, scores or teams will also earn their board, and best of all, we will soon have a good highway throughout the county that will be there to stay not only for ourselves but for the rising generations who will benefit from it. All countl revenue for roads will then go to the upkeep of the country roads and bridges. In the course of about five years other highway roads will be built throughout the county, connecting the counties together, and then Chilton County and Alabama will boom. Farms will be worth more, farmers will get their produce to market quicker and better, so save time and money. The mule and the horse will not be beaten almost to death as some are now when compelled to drag the farmer and his load out of the mud. Cruelty to animals will then be inexcusable, as it should be even now, and though the poor dumb brute cannot talk like Balaam's ass, it too will rejoice in good roads. The person who drives his car will find pleasure in that, because of good roads, and though his license will be higher, bills for the upkeep and repairs of the car will be lighter, and almost every farmer will want to drive a flivver over the good roads brought about and made possible by the Bond Issue, State and Federal Aid.

We congratulate everyone who voted for it in the splendid success of the election, and thank you for your co-operation in this campaign.

P. G. CARTER, Chm.,
H. L. FOSHEE, Secy.

MARRIAGE OF MR. LUCIEN DUNCAN AND MISS CLARA CRUMPTON

Mr. Lucien Duncan and Miss Clara Crumpton, two popular young people of Clanton, left here last Sunday morning to spend the day with their friend, Miss Louise Connatser, of Thorsby. Lo and behold, when they returned to Clanton Monday night, it was not Mr. Lucien Duncan and Miss Clara Crumpton, but Mr. and Mrs. Lucien Duncan. In order to make the above clear to our readers, it is necessary to relate here the story of a wedding.

It was just a plain case of two perfectly normal and human young people making up their minds to get married, after the customary routine of courtship and love. How they got away with their suit cases without folks finding out what they intended to do is not to be told here. We don't know that part of the story, neither does anybody else but themselves.

They went to Montevallo to the home of Mr. and Mrs. Milton Smith. Milton and Lucien got on a morning train going to Columbiana, where the marriage license was obtained. They returned to Montevallo in the afternoon, and the wedding ceremony was performed by Rev. Ogletree.

The happy young couple returned to Clanton Monday afternoon, and will make their future home here. They are being showered with congratulations and best wishes by hundreds of their friends.

Mr. Wallace C. Edler of Thorsby was in Clanton Wednesday. He said he had made settlement between his insurance company, the International, and the people who were burned out at Thorsby recently. His company made immediate adjustment and paid losses of $1,500 to Mr. Lucas and $1,600 to Mr. Horn.

UNCLE TOM WATSON OVER A HUNDRED YEARS OLD

Mr. T. J. Headley of Randolph was in Clanton one day last week and related to the Union-Banner the story of a birthday celebration held lately by a man up his way who is over a hundred years old.

The man is Uncle Tom Watson, who lives near Mars Hill. His birthday was the 9th of January, when he was 102 years old. Uncle Tom came here from Georgia, settling where he new lives. He was a team driver in the Civil war. Up to two years ago he continued to work, in spite of his old age. For the past year he has been spending his time in bed, although not sick at all. He eats heartily and enjoys his meals. On his birthday celebration he was surrounded by members of his family, some of whom are descendants of the fourth generation. There was about 50 of his family present.

HAD TO QUIT RACE FOR VOTING REPUBLICAN TICKET

Lee S. Jones, who has announced as a candidate for Probate Judge of Pike County, has withdrawn from the race. In the last election he cast a Republicon vote, and so could not qualify as a candidate in the Democratic primaries.

This is one af the instances where the State Democratic Executive Committee has attempted to "force" the people to stay in the Democratic party whether they want to or not. There were some instances in Chilton County last year where men were denied the right to vote in the Democratic primary between Jeffers and McDonald, because they voted a Republican ticket in the previous election.

Remember citizens, if you did not vote the straight Democratic ticket last year, you need not walk up to the Democratic primary this year and expect to vote. According to instructions of the State Democratic Executive Committee, you will be kicked out of the election.

CURRY FOR SOLICITOR

Hon. Thos. A. Curry of Clanton has announced himself a candidate for Solicitor of this Judicial Circuit, on the Democratic ticket. This Distret ncludes the counties of Chilton, Autauga and Elmore.

SEEKING TO CHANGE VOTING PLACE

Mr. Editor:-

Efforts are being made to change the voting place from Mountain Creek to Midway, there is much opposition to this proposed change owing to the fact that it would necessitate the old Veterans at the Home having to change their voting place as stated.

BAND CONCERT IN TOWN THIS AFTERNOON

Clanton people are to have the pleasure this afternoon of hearing a concert by the Chilton County High School Band. The boys who compose this band have been working quietly, but none the less enthusiastically, for the past few months, under direction of Mr. H. E. Snow of Birmingham. Prof Alverson, Principal of the school, says he believes the band has made splendid progress in their work, and he invites the public to come out to the concert this afternoon and see and hear for themselves. The concert will be near the court house at 3.00 o'clock. The concert is free, and everybody is cordially invited to attend.

The people of Clanton should be proud of the boys who the striving to make us a real brass band. They deserve our united and enthusiastic support. There is nothing that is more appreciated in a town than a home band. It is useful, entertaining, and a great advertisement to a town to have a good band. The fact that our County High School has taken up the task of providing the band and training the boys is noteworthy, as it places the matter in a light that carries more prestige, and commands the support of the people as being a genuine honest endeavor to accomplish something worth while.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

Pimples Keep Young Men Down!

They Make Women, Too, a Puzzle! How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price,—you pay for every pustule, black-head and pimple on your face. Pimples produce prejudice and prevent prosperity. Your heart may be gold,

S. S. S. Will Rid You of the Crushing Pimple-Calamity.

but who wants to kiss eruptions? Pimply men don't look like the owners of anything. Pimply women, too, are puzzles, with no prospects and no power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on lost flesh in a hurry, why you hear of so many rheumatics being freed from this scourge, with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

BOND ISSUE VOTE IS OVERWHELMING

SOLDIER BONUS BILL ALSO CARRIES IN EVERY COUNTY IN THE STATE.

The voters of Alabama gave an overwhelming majority in the election Monday for the $35,000,000 highway bond issue.

The returns also indicate that practically a unanimous vote was cast for the constitutional amendment exempting soldiers and sailors from the payment of poll taxes until October 1, 1923.

Geneva county is the only county that has reported a majority against the bond issue.

Not a county has cast a majority against the poll tax amendment. Every indication is that not 10,000 votes were cast against it in the state.

F. J. Cramton, president of the Alabama Highway Improvement Association, is quoted as saying:

"The success of the campaign is due entirely to the untiring zeal and enthusiastic interest of the county campaign chairmen.

"I am deeply grateful to all of them for their splendid work for their respective communities and their state. There has been just enough opposition to the amendment to arouse the necessary interest in its adoption, and stimulate the county and community chairmen to renewed effort. Never at any time, throughout the entire campaign, have I entertained a single doubt concerning the ratification of the good roads bond issue amendment."

IMPORTANT MODIFICATION OF FORD'S FIRST OFFER

Provides For A Commission To Be Appointed By The President To Insure Observance.

Washington.—Two important modifications of the original proposal of Henry Ford for the purchase and operation of the Muscle Shoals, Ala., power and nitrate projects were contained in an official copy of the contract signed by Mr. Ford, received by Senator Harris of Georgia.

Appointment of a commission by the President was provided in the contract as finally approved, which would be empowered to determine whether the contract was being strictly observed with respect to production of fertilizer compounds and whether the contractor was retaining profits in excess of the 8 per cent return allowed him. The other change was an agreement by Mr. Ford to pay an annual rental of 4 per cent on whatever sum was necessary to complete dam No. 3.

In its original form the contract provided for payment of rental only on the sum which Mr. Ford estimated would be the maximum required to complete dam No. 3. The government experts were of the opinion that Mr. Ford's estimate was far below the cost which would have to be met.

KNICKERBOCKER DISASTER TO BE THOROUGHLY PROBED

Washington.—Investigation of the cause of the Knickerbocker theatre disaster which caused the death of more than 100 persons, was begun by several agencies of the District of Columbia government, with the probability that the Senate and House also might undertake exhaustive inquiries.

The Senate is expected to act on a resolution by Senator Capper, republican, Kansas, calling for an investigation of the catastrophe by a committee. Despite the announcement of Representative Mondell, republican leader, that the house would not authorize an inquiry until District of Columbia officials have concluded their investigation, Representative Ryan, republican, New York, charging that the collapse of the roof was due to faulty construction and would not have occurred had there been proper inspection, offered a resolution proposing an investigation.

District of Columbia directors said they would go into every phase of the tragedy which occurred Saturday night when the roof, weighted with snow, fell on an audience of several hundred, not only for the purpose of fixing the blame but also guarding against possible recurrence of such calamities.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also couse a gentle movement of the bowels. When you have any trouble with your stomach, give them a trial.

The body of Mr. Moffit, the man who was drowned at Higgins Ferry on Coosa River, has not yet been recovered. The Alabama Power Company are using every necessary precaution to find the body.

T. J. Gulledge and W. S. Clark of Beat 5 were visitors to Clanton Tuesday. They came here to bring the returns of their Beat in the Bond Issue election.

We publish elsewhere a statement of Mr. S. J. Andress, of the Soldiers home, in regard to an effort that is being made in Beat 5 to have the voting place at Mt. Creek moved to Midway. From what we gather from the letter of Mr. Andress, there is opposition to the proposed change among the old soldiers at the home. We are not acquainted with the case, and cannot say whether it would work a greater hardship on the old soldiers to go to Midway to vote than to go to Mt. Creek. If it is further from the home than Mt. Creek, we do not think the change should be made. It would be better, it seems to us, if a change is to be made, just to move the voting place out to the soldiers Home, so the old soldiers will not be put to any unconvenience whatever in voting.

The Chilton County Road Bond Campaign committee are to be congratulated upon the splendid manner in which they managed the campaign which brought out such a splendid vote for the Bond Issue on Monday. The enthusiasm which was put into the campaign by Chairman P. G. Carter and Secretary Howard L. Foshee is no doubt responsible for the splendid vote that was polled. Everybody predicted that the vote would be small, but it was not as small as was anticipated. And that which particularly gratifies the management of the campaign is the fact that about four of every five votes cast in the County were for the bond issue; the further fact that only one voting place in the county has reported a majority voted against the measure. Thousands of pieces of literature were mailed out from the county headquarters appealing to the people to vote for the bond issue, and numerous speakings were held under the direction of Rev. Carter.

When it comes to putting a campaign of any kind over, Pastor Carter seems to have the right kind of ginger to do it with. But when someone suggested that he ought to be chose by some candidate to put over his political campaign the preacher was prompt to assert that he draws the line against meddling in politics.

"WHAT IS YOUR LIFE?"

This was the subject of the splendid address of Prof. H. C. McDonald made at the Clanton Baptist Church here last Sunday, to which hundreds of his friends listened with intense interest.

The speaker illustrated beautifully the influence and the forces that go out from a person's life, as expressed in terms of service to humanity. He stressed the responsibility that rests upon people in the preparation of their lives for the utmost service to God and man.

We were much pleased to listen to his excellent address, and wish that we had the space and time here to produce it in full. We can only assure those who did not hear him, though, that they missed one of the finest gems of thought that has come to us in many days.

HI-Y CLUB

The C. C. H. S. Hi-Y Club enjoyed their first meeting to a high extent last Thursday evening. Very hot debating took place during the meeting, among the members.

The business of the meeting included the adoptions of By-Laws and the consideration of the aplications of new members.

All members were present during this meeting.

See you next week.

DEMOCRATIC DEFLATION

Democrats who try to square their party with the farmers by denying responsibility for the abrupt drop in prices of farm crops should remember that in August, 1919, President Wilson promised the Four Brotherhood leaders that all the power of the Government would be exerted to bring down the high cost of living. This was in an effort to prevent the railroad strike. In the fulfillment of that promise a policy was pursued which made the farmer the first and severest victim of deflation. In an effort to help one class, another class was ruthlessly injured. While there was not much reduction in the cost of food to the consumer, there was an enormous cut in the price paid to the producer, struck blindly at prices of food, but accomplished little except spread ruin among the producers of food. We do not say that the Democratic Administration was solely responsible for deflation. The fact is that deflation would have come any way, but it would have been a natural, evenly distributed deflation if the Wilson Administration had not undertaken to force it by artificial means and by bringing pressure upon one class of commodities. The farmer has a just grievance against the Democratic administration, record proves it, and the farmer is not going to forget it.

POLITICS AMONG SOME VETS

In view of the record of what the government has done in preparing accommodations for disabled veterans, there is a strong suspicion that the charges of neglect preferred by the officers of certain veterans organizations are inspired by the desire to make a showing of activity in behalf of the veterans. There are politicians in soldier's organizations as well as elsewhere. Uncle Sam is not neglecting his duty now, whatever may have been the case during the administration which never prepared for anything.

A SUGGESTION FOR HAYS

It is to be hoped that Mr. Hays will include among the reforms to be made in the moving picture industry a decree that there must be an end to political propaganda through the instrumentality of the screen. During the campaign to prevail upon the Senate to ratify the Versailles Treaty with the league of nataions covenant, the pro-league view point was brazenly ex-ploited through the movies. Barney Barney Baruch financed the production of a film entitled, "Uncle Sam of Freedom Ridge," that was admittedly a bid for support for the league idea. The movies were also used to boost the Liberty Bond drives which was quite a proper function for them under the circumstances, but the appeals to the public to buy bonds were shot through and through with pro-Wilson, pro-McAdoo, and pro-Democratic stuff that disgusted all fair minded people. Even now the movie industry is still influenced from the same source. While Mr. Wilson was delivering his recent "speech" of 100 words to his admirers who are endeavoring to collect funds for the Wilson Foundation, the movie men were busy, and pictures of the event were flashed on the screens of the country together with a view of the council chamber of the league of nations showing the vacant chair reserved for the United States. It will be as much the duty of Mr. Hays to keep the films free from inspired stuff of that sort as to maintain them on a high moral plane.

45 NATIONS AT GENOA

It is anticipated that the Genoa Conference will include representatives for 45 nations. That is about the number of members in the league of nations. The very fact that they are getting together at Genoa testifies to the moribund condition of the league. The league assembly provided a means for general consultation among all the members, but the rules of the covenant restricting what the assembly may do, and setting over it a council of eight big powers, were enough to take the spirit out of any gathering. Whether the Genoa meeting accomplished anything or not, it will at least be a free interchange of views, unembarrassed by any such threats and penalties as are provided in the league covenant. Despite that fact, we shall probably hear that the Genoa conference is patterned closely after the league assembly, and that really Mr. Wilson should be given full credit for it. As a matter of fact the proceedings at Genoa will derive their inspiration from what has taken place in the free conference of the nations at Washington, which President Harding originated and carried through to successful completion.

EDITOR DECIDES TO TELL THE TRUTH

WONDER WHAT WOULD HAPPEN IN THIS TOWN IF WE SHOULD TAKE THE SAME NOTION.

Texas Editor Tells Truth About Feelings When He Was Called "Lie"

A west Texas editor got tired of being called a "liar" because of an occasional typographical error, or slight dis-arrangement of facts in publishing a common place news item. In his wrath he announced in bold face tppe as follows:

"A lot of people in this town fall out with the editor and brand him as a liar when the ordinary human mistakes of life show up in a newspaper. You have a little charity and fellow feeling for every man in your town but your editor. You claim that you want the facts and d—d if I don't give them to you. Read the next issue of this sheet and you'll see some facts with the bark off. I'll admit that I have been a liar, an editorial liar, ever since I have been editing this sheet, but I have never printed a lie in these columns except to save somebody's feelings from being hurt. I'm not afraid of any of you and I'll be dad blamed if I don't print the truth from now on or until you get out of the habit of calling me a liar every time I make some little unavoidable typographical error. Watch my smoke."

Here are some paragraphs culled from the next issue.

"John Bennin, the laziest merchant in town, made a trip to Belleville yesterday."

"Joyle Coyle, our groceryman, who voted with the Republicans in 1896 and who consumes more mail order whiskey than any other member of the Baptist church, is doing a poor business. His store is dirty and dusty. It is a wonder he has any business at all."

"Rev. Sty preached last Sunday night at the Christian church. His sermon was punk and uninteresting, except some stuff he quoted from Bob Ingersoll for which he failed to give Bob any credit. He also recited a few passages from one of William Elbert Munsey's sermons, and had the gall to palm it off as his own."

"Dave Charter died at his home two miles north of this place last Thursday night. Dock Holderness who is an old friend of the family, attended him a few minutes before he died. He gave it out that Dave died from heart failure and that is a lie. Dave died from drinking too much of a very poor grade of mail order liquor. This paper prints the truth."

"Tom Spadin married Miss Crdie Meador at the county seat last trades day. It ain't generally known but the marriage was brought about by a Remington shot gun manuipulated by the bride's father, Tom concluding that marriage was the healthiest thing he could do until other arrangements could be made."

"Roger Lloyd, cashier of the state bank at Willow Grove, died Wednesday evening and was buried Friday by the Odd Fellows in Pleasant Mound Cemetery. He has been taking this paper for about seven years and so far has not paid us a cent; we thinking that he being a banker, would pay sometime . We will sell the account for two bits' worth of fresh greens."

"Married—Miss Susie Scruggs and Horace Griffin last Saturday night at the Methodist parsonage. Rev. James C. Williams officiating. The bride is a very ordinary town girl who flirts with all the traveling men she meets and never helped her mother three days all put together in her whole life. She is anything but a beauty, resembling a gravel pit in the face and walks like a duck. The groom is a natural born loafer and bum. He never did a lick of work until his step-daddy run him away from home last fall. He went to the county seat and just before starving to death accepted a job as chambermaid in a livery stable. As soon as his ma found out where he was she went and got him and brought him home. He now resides at the home of his wife's father and says that he has no definite plans for the future."

DOINGS at MULBERRY

(By G. H. DeShazo.)

Yes, we had speils about the Bond Issue both pro and con, but it seems that the cons had but very little effect on the voting strength of the people, for as we had predicted all along the Issue carried by a very large majority over the entire State. Now just sit steady in the boat and watch the good roads spring into reality all over the land of Alabama.

Prof. Griffin and the Misses Dennis spent the week-end with home folks. Prof Griffin at Marbury and the Misses Dennis at Deatsville.

* * *

G. H. Deshazo spent Friday night in Clanton with friends.

* * *

Mrs. W. F. Deshazo was called to Plantersville Saturday morning to attend the funerial of her sister, Mrs. W .L. Parnell.

* * *

We told you all the time that if we got the Bond Issue that we could have better roads over the country, well we have already seen some evidence of that fact for this morning (Tuesday) just the day after the election as the correspondent was coming into Clanton we saw a bunch of men actually working the road. Just watch us glide along on these smooth roads of the future in our Henry Flivvers.

* * *

Miss Nola Reynolds made a hurried trip home Saturday morning returning Saturday evening.

* * *

D. O. Manning and G. H. Deshazo attended the Associational Rally at the Clanton Baptist Church Sunday, enjoying two very fine addresses by Prof. H. C. McDonald.

* * *

Well, after all our fears as to the way the Bond Issue was going here, but lo and behold the ballot showed 7 to 1 in favor of the Bond Issue.

* * *

Around the polls last Monday there was considerable heated arguments on the Bond Issue question, of which the leader seemed to be Mr. J. H. Davenport, who wanted to know if they would build him a highway from his house to the Isabella Consolidated School, but we think that we converted him to the cause.

Mr. T. L. Lecroy and son, Thomas, spent Tuesday with Mr. Lecroy's sister, Mrs. W. J. Morris of Liberty.

Mr. G. E. Summers made a business trip to Clanton Tuesday in connection with his Federal Pension as a veteran of the Spanish-American War.

* * *

Wouldn't this weather these days knock the props out from under you tho', every time that you think that there is going to be a few days sunshine just about the time you have your think made up along comes a rain storm and spoils all the fun. I can certainly tell you that with all the rain that we have been having for the past weeks we certainly do need a Bond Issue to fill up the mudholes with, for they sure are accumulating on the Maplesville road these days.

* * *

Duncan O. Manning and W. F. Deshazo were in Clanton attending to business matters Tuesday.

* * *

Sunday is regular preaching day at Isabella Methodist Church, Bro. R. T. Gilbert of Maplesville, the Pastor, will fill his regular appointment there by deivering two sermons, one at 11:00, A. M. and 7:00 P. M. Everybady is cordially invited to attend these services and bring someone with them.

G. H. Deshazo went to Clanton Tuesday to attend to some business matters.

* * *

Say, when you folks get ready for a big time just saddle up the ole tin lizzie and ozze over to Mulberry and we will try to show what a real live country community is like. Come on boys (and girls too) glad to see you just any time.

All together now and lets help the state and Uncle Sam build these roads and then we can all travel with more ease, if with nothing but a wheelbarrow.

A Judicious Inquiry.

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that thep know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed.

ENTERPRISE

The health of this community is very good at present. We have been having some bad weather lately, but our school has been progressing necely.

Last Friday was test day at our school. We think most of our pupils made a splendid grade.

Red Belt Basket Ball team came out for a game with Enterprise last Friday evening, the score being 16 to 11 in favor of Enterprise. Enterprise boys did some excellent playing which we give them credit for.

Mr. Sam and Willie Dykes made a business trip to Clanton Saturday.

The Gray brothers have exchanged their truck for another, but are still making their daily trip to Clanton.

Mrs. J. M. Dykes spent a few hours with Mrs. C. W. Gray Friday.

Our Monthly tests are over now, and the majority of us made reasonably good grades, while some of us come very near, "dropping our candy."

Mr. Sam Dykes says that he can go any where he pleases now, as he has a good way of walking, which pretains to a bicycle.

We all congratulate Mr. Jessie Patterson because of his new buggy.

Some one stated a few weeks ago that Mr. Stanley Davis expressed symptons of going back to Opelika, but we can not understand what he means by that because we have come to the conclusion that the beauty of Opelika is teaching school at Bethsalem.

Miss Lena Dykes was honored by the presence of Mr. Tommie Gray Sunday afternoon.

Mr. J. D. Huett and family spent the night with Mrs. J. W. Cagle Saturday night.

Mr. S. D. Deloach has hired Mr. Ramond Headley to work for him this year.

HOW SOLDIERS DISPERSED ATTACKS

"For two years my stomach trouble was very bad, my doctor had to inject morphine on several occasions when I was striken with these attacks. Since taking 4 bottles of Mayr's Wonderful Remedy I have been entirely well and am serving in the artillery, having been pronounced in perfect health by government physicians." it is a simple, harmful preparation that remocves the catrrhal mucus from the intestinal tract and allays the inflamation which causes practically all stomach, liver and intestinl ailments, including appendicitis. MAGNITUDE OF BILLIONS

I have been throwing the incredible figures at your head. Neither you nor anybody else has the faintest conception of what one billion dollars really is. We speak familiarly of billions as a commonplace, but most of us live our lives in terms of hundreds.

I have shown you that every one of us, man, woman and child, in this country, paid last year $53.77 each toward the support of the government. Of course, every person does not pay exactly $53.77. A great many pay more and some pay less; but those who pay the most try to take it out of those who pay the least by increasing the prices of what they have to sell, or of services rendered or work performed, so that it averages out at $53.77. Some pay more than their share, others pay less. This is called an incident of taxation. The whole point is that we all pay; that we pay now more than we ever paid before; and there is no present prospect of our paying less for some years.

In this way we have all paid our share in the World war. The net cost of that enterprise to date has been $24,100,000,000, or, including our loans to foreign governments, which have not been repaid, $33,455,000,000. These are official treasury figures. Do not let your eyes run over them lightly. Thirty-three billion four hundred and fifty-five million dollars is an almost incomprehensible sum. The cost of running the national government is now around $5,000,000,000 a year. The experts say that for the next two or three years the cost of the government will not descend below about $4,000,000,000 a year.

I want you clearly to understand the immensity, the magnitude, the overwhelming size of such sums. We chatter about billions nowadays without in the least knowing what is a billion. Let me try to bring it home to you. It is now, roughly speaking, 1920 years since the birth of Christ. We do not know precisely and accurately at what hour and on what day Christ was born. But under the Gregorian calendar, according to which we now reckon time, we have a record of the days since January first of the year one, Anno Domini. From the beginning of the year one to January 1, 1921, there elapsed about 701,267 days, or, to reduce it further, 16,830,408 hours; which being reduced again, means 1,009,824,480 minutes.

I will ask you to remember that the whole history of the modern world from the first second of the year one to the last second of the year 1920 has been compressed into 1,009,824,480 minutes.

Now let us suppose that with the permission of the Roman authorities the United States had established a disbursing officer at Jerusalem on the first day of the year one with instructions to pay out $5 a minute day and night, Sundays and holidays included, right down through the centuries to New Year's day, 1921.

Suppose he had been given $5,686,005,706 to start him on his long spell of spending. That is one estimate of the sum that it cost to run this government in 1920. On the morning of January 1, 1921, this mythical disbursing officer, giving money away at the rate of $5 a minute, would have spent only $5,049,122,400, and would still be one of the richest men in the world, for he would have left on hand $636,883,306 of the original sum. Paying out at the rate of $5 a minute for more than 1900 years, he would not have kept pace with the cost of upkeep of this government for the one single year 1920.

Suppose this imaginary government spender had been authorized to pay out at the rate of $28 a minute through the centuries. He would not have finished, on January 1, 1921, paying for our share of the cost of the World war by some $784,036,960. He would have that much left over after paying out $23,225,963,040. He would have been paying out nearly 40 cents every second the clock ticked for more than 19 centuries without being able to discharge our share of the World war cost.

Do you ever bother your head about these bushels and bushels of dollars that you contribute to the support of the government? You earned them. You know whether they came easily or not. Do you know where they go after they leave you, how they are spent, whether wisely or foolishly? It's all your money, contributed for the proper and economic conduct of your business. There is no such thing as government money. The government never earned a cent.

You own the government and you support it, and it is merely administered by men of your selection. I have always been puzzled about why you do not take an active and eager interest in what becomes of your money that you pay in taxes.

But let's go on and get down to cases.

ALABAMA NEWS TOLD IN BRIEF

IMPORTANT HAPPENINGS GATHERED FROM ALL SECTIONS OF THE STATE.

CO-OPERATIVE SALES ARE PROFITABLE.

$61,973.67 Saved To Farmers In Hog Sales During Last Year.

Auburn.—The farmers of Alabama who took part in the co-operative hog sales, under the direction of the county demonstration agents and other members of the extension service of the Alabama Polytechnic Institute, during 1921, secured at least $61,973.67 more for their hogs as a result of selling by the co-operative method, according to the annual report of M. H. Pearson, marketing specialist. In his report Mr. Pearson states that during the year 28 co-operative hog sales associations located in the counties of Dale, Geneva, Pike, Houston, Russell, Bullock, Henry, Barbour, Autauga, Butler, Connecuh, Escambia and Covington were in operation. Only eight new associations were organized during the year, but co-operative shipments were made from many additional points not having sufficient hogs to warrant the organization of a sales association, and the installation of scales and pens.

* * *

Hartselle To Ship Berries.

Hartselle.—Hartselle will ship carload lots of strawberries this year. For several years there have been shipments of berries in a small way, to nearby points, Albany-Decatur, Birmingham and Nashville, and this year arrangements are being completed for shipment in car lots. There were several acres set in berries in this section last Spring and Summer, but owing to the extreme drouth, little success was realized. There is much enthusiasm over the berry prospect and more acreage will be set during the Spring and Fall.

* * *

"New Day."

Birmingham.—When an employe has served with the Alabama Power Company for six months or longer, a life insurance policy is issued to the employe and the premium paid by the company. The policies range from $500 to $2,500, according to length of service by the employe, and policy values are increased yearly until the maximum is reached at ten years. All employes are insured alike, and rights under the workmen's compensation law are not interferred with by acceptance of the policy.

* * *

Barge Sinks.

Tuscaloosa.—The Baker Towboat company of this city report the loss of a large coal barge loaded with approximately 500 tons of coal which broke from its moorings at the coal tipple of the Gulf States Portland Cement company's mines near Lock 17. It is said the barge sank several miles below the mine, where it struck a railroad bridge and sank. Without its cargo, the barge was valued at $6,000. It is understood that the extremely swift river current due to the heavy rains caused the accident.

* * *

Statistics Are Furnished.

Montgomery.—Not only the cattle raising industry, but the dairy and milk products manufacturing business in Alabama, is attracting attention in other states. The state bureau of markets recently received an inquiry from a large New York firm as to the best location in Alabama for the establishment of a plant for the manufacturing of cream and casein. The information asked has been furnished together with statistics of Alabama's dairy production in recent years.

Boy Scouts In Action.

Muscoda.—Muscoda Troop No. 78, Boy Scouts, have been giving a concrete illustration of the fine work scouts can do by seeing a need and working to bring the necessary relief. This troop under the direction of their assistant scoutmaster, Arden Morris, has solicited about $40 in funds and groceries, and have distributed to some of the families in need in the Muscoda vicinity.

* * *

Bank To Increase Capital.

Monroeville.—An increase will shortly be made in the capital stock of the Monroe County Bank, of Monroeville, Ala., from $60,000 to $100,000.

Mining Co. Petitions Bankruptcy.

Aldrich.—The Montevallo Mining Company, with mines at Aldrich, operating with state convict labor, has filed a petition in bankruptcy in the federal court, giving liabilities at $574,048.47, and assets at $658,600. The petition was filed by Dunn & Boyle, attorneys, and was referred immediately to E. H. Dryer, referee in bankruptcy. J. Val Nesbitt was named receiver for the mining company and authorized to operate the properties without interruption.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

CONSTRUCTION ON MITCHELL DAM IS GOING FORWARD

Verbena, Ala., Jan. 31—Work is going forward on Mitchell dam at a satisfactory rate of speed. Since reaching the concrete pouring stage of construction, permanent masonry can be seen growing larger each day. The first section of the big dam across Coosa river at Duncan's Riffle is now being built.

Two shifts are now engaged on concrete operations. One shift works ten hours a day and the other works ten hours at night. Modern concrete mixers have been installed within easy reach of the dam. There are two mixers of two yard capacity each. The concrete mixers pour concrete into two yard buckets which are conveyed to the dam on flat cars by electric locomotives, and the buckets are picked up by large derricks and emptied into the concrete forms. A continuous stream of these buckets of concrete are delivered to the forms. As soon as one train is unloaded another moves in place to be unloaded in its turn.

Modern Methods Used

Likewise the most modern methods are used by the Alabama Power Company in getting out its sand and plum stone for the dam construction. An ample supply of this concrete material is prepared by a big rock crushing plant, which is situated near enough to the mixers to deliver the material by means of belt conveyors. The rock which is fed into the crusher is received from the company's quarry which is located less than half a mile from the dam site. The company will make most of its own sand in addition to crushing its own rock. It will thus be independent of railroad strikes and transportation delays.

Two cableways extend across the river, each being approximately 1,500 feet in length. The first cableway was completed several weeks ago, and the second has just been finished. The cableways are operated with electric hoists and will be very useful in handling rock and concrete during the period of the dam construction. They will also be used in putting certain parts of the electrical machinery into place, later on when the power house section is built.

Living Conditions at Camp

The living conditions at the camp are far above the average on a construction job if this kind. The camp is provided with a modern sewerage system, electric lights, bakery, shower baths, etc., and the workmen are contented. For the most part weather conditions have been excellent during the past few months of winter, the rainfall being comparatively slight, and this no doubt explains in part why the workmen and their families have experienced only a few cases of sickness.

The workmen are showing much interest in the Mitchell Dam Athletic club which was recently formed, and within the next few weeks they hope to construct a building where they can have boxing bouts, indoor basketball, horizontal bars, etc.

SUCCESSFUL RALLY DAY HERE LAST SATURDAY

The Community Rally at Thorsby on Saturday, the 28th, was a decided success from start to finish. About the time for the opening the sun made its appearance for the first time in ten days and the balance of the day was warm and bright.

Thorsby Concert Band, a new organization under the leadership of Mr. J. O. Johnson, was much in evidence and did very creditable work which was helpful in making the program interesting. There are people in the world who have not sufficient range of vocabulary to express themselves in conversational language but few who heard the Thorsby Concert band when they made their initial appearance in public, would not indorse the expression of an old lady we know when speaking of the delight it gave her to hear a certain quartette choir. "I do love to hear those folks sing together, they make such a nice noise."

The Rally was held under the auspices of Thorsby Chamber of Commerce, and many in the auidence, which filled Bates Hall, were members of one or more of the Chamber's affiliated organizations. Thorsby Fruit and Truck Growers Association, The Ladies Guild, Parent-Teachers Association and Thorsby Lyceum and Entertainment Bureau. The first speaker introduced by Rev. J. M. Graham, President of Thorsby Chamber of Commerce, was professor G. C. Starcher, head of the Horticultural Department of Alabama Agricultural College at Auburn, who spoke for an hour to a large and attentive audience on "Success in growing watermelons" which of course included selling them when grown. His masterly treatment of the subject was not based on theories but was a detailed setting forth of practice now in operation in Southeast Alabama and Southwest Georgia, and stated definitely how the growers in that section sucure only large and toothsome melons that will sell at top prices at any time in any market, regardless of how many inferior melons may be seeking a market at the same time. The methods used are practiced and well worth a trial by anyone who is attempting to grow watermelons for market.

The next speaker was a man whose name appears in newspapers in Alabama almost as often as that of Henry Ford, and who in his way is considerable of a public benefactor, and now that the Good Roads Bond Issue has been so forcefully ratified, the results of the efforts of this man will become increasingly apparent all over the state. There is probably no man in Alabama who can talk so convincingly, from the depths of varied experience, on the public benefits derived from good roads as Mr. W. S. Keller, Chief Engineer of the State Highway Department. Mr. Keller spoke for an hour giving definite information as to the co-operative plans and purposes of the State and U. S. Government for building substantial and model highways which will serve as patterns and inspiration for counties and communities in road improvement in every county in the State. His discourse was so celar and convincing that it is diffcult to see how any man or woman, not governed by selfish motives, could cast a vote against the good roads proposition, yet there were some who did.

At noon the assembly adjourned for a basket dinner which had been spread in the dining room of Thorsby Institute, whuch is not yet completed but far enough along to provide a comfortable place with ample room for a lot of peope to be served in Cafeteria style. There was an abundance of good things to eat and everybody seemed to be happy.

The afternoon meeting was addressed by Prof. Starcher, who was well loaded with information on Fruit Growing which he dispensed in a way that seemed to meet the appreciative attention of all present. Thorsby was indeed very fortunate in such an aggregation of talent for her entertainment and instruction.

After the speaking there were two basket ball games which are described herein.

Mr. and Mrs. John Carlson, Mr. J. C. Paramore and Dr. D. M. Paxson went to Birmingham Tuesday.

Mrs. Caroline Perry is spending a few days in Montgomery this week.

Miss Helen C. Jenkins met her mother, from Demorest, Ga., in Birmingham on Friday morning and together they spent the week-end at Albany.

The Congregational Ladies Aid Society will be held at the home of Mr. and Mrs. A. K. Horn on Thursday afternoon of this week.

On Saturday, January 28, Thorsby Institute and the Town of Thorsby were respectively victorious over Montevallo and Helena in two one sided ball games.

In the first game Thorsby Institute was arrayed against the boys from Montevallo. In the beginning, the two seemed to be pretty evenly matched, but after a few minutes of playing Thorsby opened up some plays and passes that their oponents could not stop. From then on there was no doubt about the outcome of the game. The initial period ended 24 to 4 in Thorsby's favor. The second was very like the first, the game ending in another victory for T. I., with the score standing 46 to 10.

Summary: Montevallo 10—Mahoffey, f (0), Lucas, f (8), Allen, c (0), Trussell g (2), Humprey, g (0). Thorsby 46—Littleton, f (16), Graham, f (26), Franklin,, c (4), Maddox, g (0), Burkett, g (0). Sub: Turner for Burkett.

The second game of the afternoon, Helena vs. Thorsby Town team, was even more of a runaway than the first Thorsby scoring 61 counters as opposed to the 10 tallied by their opponents. This game never was in doubt, Thorsby having quickly scored from the first tip off. From then to the end Helena was kept busy trying to hold the score down, while Thorsby was intent upon piling up the largest score of the season. The first half left the score at 22 to 5 in Thorsby's favor. In the second half "Bull" Littleton at forward rung up 5 field goals and Collins at guard broke loose and counted for 9 others. These added to the number scored by other members of the team brought the final game to a close with a 61 to 10 victory for Thorsby.

Summary: Helena 10—Thompson, f (6), Stevens, f (4), Nash, c (0),, Braswell, g (0), Wallace, g (0). Thorsby 61—Littleton, f (16), Graham, f (9), Robinson, c (12), Collins, g (24), Smith, g (0).

SOME MORE OF DR. SCOTT'S MEDICINE

He Says Cut Down the Democratic Tree in Alabama Because it Has Failed to Produce Good Fruit.

Editor Union-Banner:

It has been a good while since I wrote anything for your good old paper; but I have decided to issue and distribute another dose of my "ignorance drops," if you will kindly put them in print for me.

If there ever was a time when the people should stop and think a little, it is now, both women and men. As there is another campaign on this year, we should look out into the future and try to get good men to represent us, and to hold offices, which will be fair and just to all.

I want to say that this year's campaign bids fair to be the hottest one in politics we have had in the state since Cobb, the Populist, was elected Governor, and the Democrats beat him out of the office.

Of course I am not surprised to hear of the dirty deal the Board of Registrars are handing out to the Republicans of Chilton County. You know it seems to be a Democratic hobby to give the Republicans a dirty deal in politics, but want to make it appear that they have repented of the old sins of their party, and try to cover them up with a sheep skin. But the voters need not be fooled. If they will just take a peep under the sheep skin they will find a wolf concealed there.

By their fruits you shall know them. The Democrats try to make it appear that they have pruned up the old Democratic tree in Chilton county, and got her in shape to produce good fruit from now on. Also they tell us the same thing about the state Democratic tree. But I say they have not done any such things, and further, I say they cannot do these things. I have been watching the Democratic tree for fifty years, looking for some good fruit to come from it; and I have not seen any. Now don't you know that a tree that has been producing evil fruit for fifty years cannot be made to bring forth good fruit now.

I want to say that this Democratic vineyard should be cut down. Why cumber the garden with trees that have never been any good? Cut them down, and plant the vineyard anew with trees that will bring forth the right kind of fruit for the people of Alabama.

Thousands of people all over Alabama have become utterly disgusted with the bitterness of the fruit that has been shaken down to them from the tree of Democracy; and they are saying cut her down and start a new vineyard. I want to say that is the only salvation for our good old state.

We should lay down the prejudice that is being held against the Republican party in the state and elect men out of it to represent us and to run our government business. Can't we be willing to try the Republican tree in Alabama one turn at least, and see what kind of fruit it will bear. It has proven to be good in every state and county where it has been planted, and I am sure it will bring forth good fru't to the people of Alabama, if it was given a chance to do so. And it would not take the people fifty years to realize the benefit of it either.

I want to say to the voters of this state that there is nothing better growing on the old Democratic tree, nor stored in the Democratic barn, than the same worthless things that have been given to us in the past. It means the same bitter fruit in the future as in the past, just as long as we depend on the Democratic party. Then why should we not be willing to try a new order of things? It could not be any worse than it has been under the Democratic yoke for recent years.

I believe our taxes would be reduced to a lower rate if the affiars of the state were put in the hands of another political party. We need a change to bring all these things about. Respectfully,

J. N. SCOTT.

Irondale, Ala., Feb. 6, 1922.

CLANTON HAD CLOSE CALL WITH MONTEVALLO

The Clanton Basket Ball team succeeded in taking a game from the visiting boys from Montevallo Wednesday night, but it was a victory by the skin of the teeth.

During the first half it looked as if Clanton was going to have easy sailing, but the sea got rough along towards the end of the journey when the Montevallo boys began to tighten their lines and forged ahead with the score.

Clanton redoubled their efforts as the visitors passed them and before the finish they had succeeded in recovering the game. The score closed with Clanton 25 and Montevallo 22.

This was one of the swiftest and cleanest games of the season, and was witnessed by a large crowd of interested spectators.

BETHSALEM

Although the weather is still disagreeable, every one seems to be taking it "slow and easy" and enjoying good health to the utmost. It is supposed that they all think it takes a few clouds to make the sun shine brighter.

STRANGE STORY OF HALF A DOLLAR

Mr. Charley Wilkins, who lives near Bethsalem, went out to the woods near his house a few days ago to cut some fire wood. He sawed down a large bay tree about fourteen inches in diameter. When he split the lower cut of the tree open with his axe, imagine his surprise as a bright new-looking half dollar dropped out of its hiding place in the middle of the tree, where it must have been secluded for some seventy or eighty years past.

The piece of money is an old model United States half-dollar, which was coined in the year 1844. A battered place on one of its edges indicated that it had been driven into the tree with a hammer. It was within an inch of the peth of the tree, but it is safe to say that this one was at least eighty years old.

Mr. Wilkins brought the piece of wood in which the half dollar was found to the Union-Banner office, together with the piece of money itself. It is quite curious coincidence, and we shall be glad to show it to anybody who wishes to come and look at it.

MEETING OF CIVIC CLUB

One of the most inspiring meetings of recent date was held on Tuesday afternoon, when Mrs. Eric Hart was hostess. Her pretty home was adorned with vases of exquisite red and white carnations. After the roll call paying of dues and minutes read. Reports from the Treasurer showed the amount of $23.24 in the treasury. The Chairman of the "Tourist Camp Site" made favorable talks, showing that the Chamber of Commerce also had this under consideration. It was moved and seconded that we furnish the sun parlor in the new hospital. This was unaminously carried. A motion was also made to buy, for the principal of the Grammar school, a desk which is much needed. Mrs. Hays report showed that a total of 229 magazines had been sent to the prisoners at Spigeners. In co-operation with the Civic the two schools opened a child labor day program. Mrs. Fox and Mrs. Curry were appointed as a committee to see the school principal and urge an Arbor day program. A most interesting program was enjoyed.

Roll call, Toasts to the birds, Paper, water and waterways, Mrs. Heard; Talk, Birds, wild life and Flowers, Mrs. Simpson; Address, Rev. D. M. Pearson. Glimpse of our national parks, Round table conducted by Mrs. Callen. Natures Bill board, The trees, The Audobon movement.

After the program another committee was appointed, composed of Mesdames, Simpson, Armstrong and Hosea Downs, to co-operate with the Parent-Teachers Association on the Library committee. Late in the evening the hostess served delicious sandwiches and hot tea.

Banquet Given.

The Chilton County High School Hi-Y Club enjoyed their first monthly banquet at the Court House last Thursday evening. Besides the feast very enthusiastic speeches were made by the advisory committee, who were the honor guests. Several of the boys of the Club also made good talks. The program was interspersed with songs and yells, and the meeting was declared the most enthusiastic sence the organization of the Club.

Mr. and Mrs. R. N. Miner are the proud parents of a new baby boy. Newton says he now has a "yoke of 'em." Cangratulations.

CLANTON BAPTIST CHURCH

Last Sunday was rather an off day due to the climatic conditions. Especially was this true regarding the Sunday School. Fairly good congregations were present and fine music rendered by the choir. The work of the organized choir is now being highly complimented, and the music they are rendering in the service much appreciated. If you have not heard the choir sing there is a treat in store for you. Preaching services will be held next Sunday as usual, Morning at 11, a. m. and evening at 7, p. m.

Sunday week it is proposed to have a Baptist Church Rally in the specific interest of the local church. Please keep this date open, as every member will be asked to be present at that important meeting. Matters of vital interest are to be discussed which will be announced next Sunday. Let us have a record attendance in Sunday School next Sunday with over 200 present. We can if we will. Everybody cordially invited to our services.

A Judicious Inquiry.

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that thep know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed.

CLANTON [illegible] DESTROYED BY FIRE

Reynolds Law Office, Dr. Hayes' Office Completely Burned Out In Early Sunday Morning Blaze.

The two-story building belonging to Dr. J. P. Hayes, at the corner of Seventh Street and First Avenue, was completely destroyed by fire about three-thirty o'clock last Sunday morning. The flames had secured good headway before the discovery was made, and the entire upper and lower floor of the building was a loss before the waterworks could be brought upon it.

The lower floor of the building was occupied by the Clanton Post Office, the main portion of which was a complete [illegible] only a very few of the records and supplies were rescued. [illegible] of undelivered mail [illegible] post packages, was [illegible] rural carriers department [illegible]ch was not in the main [illegible]ng, escaped with only slight damage by water.

Dept. of Archives and History, Thos. M. Owen, Director

The upper story of the building received the hardest part of the loss, as it seemed to indicate that the fire started up stairs. The office of Dr. Hayes, with all his fixtures and equipment was a complete loss. Also the office and furniture and fixtures of the law offices of Grady and Omar Reynolds was completely burned. The law library of the latter was a very valuable item, being a complete loss.

Again the effectiveness of the city waterworks system in checking the fire was exemplified, as the fire was confined to the building which was burned, with practically no damage to adjoining buildings.

PUBLIC SERVICE THE HIGHEST SERVICE

Washington, Feb. 6,—Lauding the public spirit which calls able men to the public service, the Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr., takes exception to the advice which U. S. Senator Walsh of Massachusetts recently gave to the students of Georgetown University in Washington. In his address, Senator Walsh said: "Young lawyers absolutely blight their careers by becoming mayors of their home cities. Nine men out of ten make a failure of life who enter upon a public career, and usually die in proverty." He earnestly advised every ambitious professional student to "steer clear of a public career."

Commenting upon these utterances, the Republican Publicity Association says: "It seems to be the Walsh doctrine that any man who is worth his salt should carefully avoid giving the public the benefit of his knowledge and experience and devote himself exclusively to the making of money.

"Apparently that has been the dominating idea among Democrats, as the members of that party who have been chosen to fill public office reflect little credit on themselves or on the intelligence of the voters who elected them. Fortunately there is a different standard among Republicans. To have served one's city, state, or country well is considered sufficient recompense even though such success has not been accompanied by financial, munifience. There is not a member of President Harding's Cabinet who could not earn in private practice many times the financial return that he receives in Federal office. The offer of $150,000 a year to Postmaster General Hays to take command of the moving picture industry is a fair appraisal of the real worth of men at the head of affairs in Washington today.

"In the Senate and House there is scarcely a member of the majority party who is not in office because of his love of public service. The salary of $7,500 paid those men each year is a pittance compared with what they could earn elsewhere. Their ambition is to win the commendation of their constituencies. Somebody once said that 'gratitude is a fruit of great cultivation.' It is won in public life only after unselfish effort for the public welfare. A man in public life counts himself a success if he can hear the grateful appreciations of those whom he has sought to represent.

"One experiences a sense of depression in regarding such comments as those delivered by Senator Walsh. If the students of our colleges were to follow his advice the United States would start on the rapid road to disaster, while if his words are disregarded and precisely the oppisite course followed the future of the nation is permanently assured. It is the duty of those prominently in the public eye to urge young men to turn their attention more and more to pubilc affairs. Only by so doing can the standard of fiovernment be improved. The dangers that beset our institutions all have their root in a too widespread neglect of national and local problems.

"Republicans have always made it their business to encourage a wider study and discussion of affiars of government, believing that in so doing a far more intelligent vote will be cast at the elections and a higher type of men will be induced to become candidates for public office. The country's escape from entanglement in the league of nations is a prominent instance of what popular education on national problems will do. Republicans will continue their policies as heretofore, but if Democrats generally are to urge the turning over of pubilc office to men of a lower order of intelligence, a redoubling of their efforets will be neccessary."

GERMAN CHINA IMPORTS

Two and a half times as much German china and porcelian reached the United States in January-November, 1921, on the basis of declared values, as in the first 11 months of 1920, according to the official figures of the Department of Commerce. The value of these German imports for the 1920 period was $722,000, and for the 1921 period, $1,804,000. The German pottery makers are now cutting their prices to such a point that they are actually prying out the Japanese competitors for the American market. Our total imports of this class of goods for the 11 months of 1921 was valued at $11,500,000, compared with $9,906,000 in 1913. "While the preliminary official figures do not show the quantity of china and earthenware imported, it is not unlikely, in view of the price adjustments that are beginning to appear in the world's invoices, that some part of the 1921 increase represents larger quantities as well" declares the Department. So it is not altogether the value that accounts for the increase. German competition is making itself felt in almost every market in the world, but perhaps more so in the American market than anywhere else. The Republican tariff bill should ease the situation, once it becomes a law.

MAPLESVILLE

Our school is still progressing. Every pupil seems to be determined to be prepared for our next test, which will be next week. We are glad to report the enrollment of several new pupils this week.

* * *

Our principal, Mr. H. A. Harris, has succeeded in arousing quite an interest in and around Maplesville for the erection of a consolidated Junior school, and it is now most certain that by the opening of next session we will have an up to date school building, consisting of at least seven class rooms. Boys work room, girls work room, office library and aduitorium, fully equipped for doing Junior High School work. Let us all help in making the undertaking a success, as it means much to our community.

* * *

We are indeed glad to see the rays of the bright sun again, as we all like sunshine. This rainy weather has been very unpleasant for the motor drivers and also for the school children, for a good portion of our part of the country is very mudy after a rain. We all are glad to see a shower once and a while, but not so often, especially in the winter season, for this is the time we like to go to school, and we would be pleased to have sunshine more often.

* * *

Mrs. C. N. Parnell's music class is moving on rapidly this week.

* * *

Miss Ethel Mize entertained several friends Sunday from Lawely.

* * *

Our Sunday school class is progressing. With Mr. Jack Wallace as superintendent. Also our teachers have been successful. We have a large number on the enrollment and would be glad indeed if our enrollment was larger.

* * *

There is to be preaching at the Methodist church by Rev. R. T. Gilbert, and everybody is invited.

LOCK 12 COMMUNITY

Everybody were pleased on this Monday morning with the weather. We had not seen the sun in so long until it looked like it was mildewed.

* * *

Misses Prudie Smith and Leila Trawick spent the week-end at home. They had not been home in some time. They are students of the C. C. H. S.

* * *

The "little teacher" has no reason to be sad any longer, for we hear Mr. Devaughn has most recuperated and will be back in a little while at his work.

* * *

Mr. Will Hinton came up from Duncan's Riffle and spent the week-end with home folks. He was called home on account of his baby being sick.

Had the people of this community once thought we were loosing a neighbor? Mr. John Ellison is moving.

Miss Julia Traywick wants the young people of her section to join her in exultation for she heard from (a school at) Auburn one day last week.

Miss Reynolds spent the night at "Mahan's" last Tuesday night. She reported school news, "scarce"

SARDIS

Health is very good at present, and we are very successful yet in having plenty of rain, especially on Saturdays and Sundays, and you know that doesn't suit the young people very much, however, some of the boys go "rain or shine.'

Sunday was preaching day at Mt. Carmel. The crowd was very small on account of bad weather, but we are hoping that next First Sunday will be a bright sunshiny day and everybody [illegible]get to go to church.

We see that Mr. Herman Broadhead went "over the hill" again Sunday. Seems that he cannot stay from there long at a time and we just cannot understand why he likes to go up that hill so well. However, he seems to enjoy it much.

Miss Bernice Broadhead spent Friday nigh. with Misses Frances and Addie Christian. She reports a nice time.

Our school is progressing nicely. Seems that all like their teacher, Prof. Donald Merchant.

Mr. L. B. Broadhead and son, motored out to Clanton Saturday and also Monday on business.

Miss Audery Motley was to have a party Saturday night as some of her friends from Maplesville and Plantersville were coming. Supposed it rained them out though, as they did not come. We are expecting Audery to go back to Mississippi soon for she says this place does not suit her like Mississippi.

We notice that Mr. Charlie Carter was down here some where again Sunday. Wonder where it was? I think we could guess alright.

Little Laverta Lee Broadhead is just as fat as a pig; has two teeth and is as cute as ever.

Misses Maye Williams, Sallye Culp and Larce Headley, from Fairview, spent Fifth Saturday night with Myrtle and Herman Broadhead. They all went to a party and report a nice time, especially Sallye.

Misses Lennie, Willie and Allie Foshee motored to Maplesville last Saturday.

We were very sorry to learn about the accident Mr. Jack Donovan had last Sunday night coming home from Bethsalem. He ran into a fence that was made for him in his flovver. We are indeed glad of his recovery.

Miss Frances Christian spent Saturday night and Sunday with Miss Bernice Broadhead. Think they had a grand time making candy and cooking.

Mrs. Henry Hays visited Mrs. L.B. Broadhead Sunday afternoon.

Listen! Everybody remember that next Saturday and Sunday is preaching time at Sardis, so be sure and come.

Thanking you for this space we will close until next week.

WHEN BONDS SOLD WORK WILL BEGIN

112 MILES OF FEDERAL AID ROAD NOW BEING CONSTRUCTED

PLANS FOR 286 M. COMPLETED

Women Voters Condemn Jazz—Tenant League Organized

Montgomery.—As soon as the first issue of state highway bonds authorized by the voters in the recent election are sold, contracts can be let for the construction of roads throughout the state. Records of the state highway department show that 112 miles of state and general aid roads are now being constructed. Funds have already been provided for this work and it is now being done under contract.

All plans have been completed for 286 miles of road. Funds have been set apart by the federal bureau of public roads for these projects and contracts can be let as soon as the state makes its portion of the funds available.

Surveys have been completed on an additional 654 miles of road. The book work is yet to be done, including the making of blue prints. However, the field work takes the greatest time and imposes the greatest burdens. The federal bureau of public roads requires the state to furnish minute blue prints of the proposed construction work, which must meet the approval of the federal highway engineers before any project can be approved. These blue prints must cover every foot of the roadway and must show exactly what materials are to be used.

Strawberry Philanthropist

Anniston.—W. W. Stringfellow, philanthropist and capitalist, will make Calhoun a great strawberry patch if he continues the distribution of strawberry plants as he has been doing for the past 10 days. Three lots of strawberry plants totaling 15,000 plants, have been distributed by Mr. Stringfellow to town and county residents and he has ordered 10,000 more plants for distribution. The plants always are eagerly taken within an hour after announcement is made of their arrival. Mr. Stringfellow said he had heard that there are children in the county who never tasted a strawberry and he wishes to have them so plentiful that all the little ones can get some.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did fer her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since . . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."

For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments.

If you suffer as these women did, take Cardui. It may help you, too.

ORGANIZING FORCES FOR GREATER AUBURN CAMPAIGN

CHAIRMEN SELECTED IN MORE THAN 40 COUNTIES—CHARLES F. DeBARDELEBEN IS GENERAL CHAIRMAN.

With county chairmen selected in more than 40 counties and with organizations completed in over 25 counties, the work of organizing the state of Alabama for the Greater Auburn Campaign is making rapid progress.

Charles F. DeBardeleben, of Birmingham, is the general chairman and former Gov. B. B. Comer has accepted the chairmanship of the advisory committee and has been named honorary state chairman. Erskine Ramsey, of Birmingham, is chairman of the executive committee and Henry T. Barlett, vice president of the American Trust & Savings Co., is state treasurer.

State vice chairmen of the committees are A. H. Carmichael, of Tuscumbia; Horace Turner, of Mobile; Gen. R. F. Ligon, of Montgomery, and Mr. Ramsay. The purpose of the campaign is to raise $1,000,000 to meet needs of Auburn for buildings and equipment. Students are forced to sleep in tents because of lack of dormitories, classes have to be held before breakfast and after supper because they are in use every hour of the day every day in the week. There is no auditorium where more than half the students can get together and many gatherings of a religious and educational nature cannot be held as there is no place in Auburn large enough to hold the students.

Failure of the legislature to provide for the growth of Auburn has resulted in the situation which prevents the college from receiving any more students until more funds are available. During the past ten years, Auburn has received less than one-fifth as much for buildings and equipment as a similar institution of the state of Mississippi and only about one-fifteenth as much as the same institution of the state of Iowa. The white population of both Mississippi and Iowa is less than Alabama and Mississippi is below Alabama in wealth. Iowa is about equal to this state.

The campaign is to mark the fiftieth anniversary of the founding of Auburn. The co-operation of more than 10,000 alumni of Auburn is being secured to make the campaign a success and the solicitation will not start until every county is thoroughly organized.

Suit for Voter

Anniston.—A suit of clothes and a hat await the voter in Beat 16 this county who braved popular sentiment and voted for the good roads amendment. Of the 24 votes cast in the beat only one was for the amendment. Arthur Wellborn, chairman of the county campaign committee, will give a new hat to the brave voter, whether it be a man or woman, and Joseph Saks will give a suit of clothes if it is a man. If a woman, a dress will be given by one of the women's wear stores.

WOULD RATHER FIGHT THAN TO WORK

"I suffered for years with stomach trouble and could not eat and just hated for anyone to say work to me. I would rather fight. Since taking a course of Mayr's Wonderful Remedy I actually want to work, and talk about eat, I am the last one to leave the table now." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

S. S. S. Will Build You Up.

Can You See Your Ribs?

"It wasn't that I wanted to get fat,—no, I just wanted to put on about 8 pounds more flesh, then I'd be just right. I've nibbled at diets, gorged big meals, I've haunted health resorts, been to fine climates, guzzled milk, buttermilk, olive oil, emulsions, swallowed pills, digestion fads, and a score of other 'won't-works'. Finally, it dawned on me. None of these things was building up the new red blood cells I needed. I took S. S. S., the greatest red-blood-cell builder, firm-flesh producer, blood-cleanser known. I put on 7 pounds in a month, and my nerves, instead of strings feel like wires. S. S. S. has the world beat."

S. S. S. is guaranteed purely vegetable in its medicinal ingredients. It has produced amazing results in building up run-down, thin-faced, ambitious men, and in making women of all ages more plump and beautiful, and younger looking. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

LAWLEY NEWS

We noticed last week in the Shoults items that they made a very bad error and we just wish to correct it. When they said that they were victorious in the game of basket ball, played between Shoults and Lawley, last Saturday, Jan 28th, they certainly said something false, because this was not true. They didn't even have the scores correct in the paper. They had it 11 and 9 in favor of them, the correct score was 11 and 12 in favor of Lawley. Shoults girls are going to have to practice up more on the rules and not make so many fouls as they made that afternoon, and learn to get things fair and square and not cheat their way through.

The music pupils of Lawley are all progressing very rapidly. The Mozail Music Club met last Saturday and their teacher, Miss McAfee Smith finds that they're all taking lots of interest in their work. She says she likes to teach a class like that.

Misses Edith Jones, Pearl Jefferson and the two Misses Smith spent yesterday in Maplesville with Miss Ethel Mize and also Miss Frances Brown, although it was a very bad looking day for visitors, they were shown a very delightful time by the young people down there.

Mr. Bedney Collins was here this week-end visiting his parents. He is a scholar at the University of Alabama.

Miss Ophena Lawley, who has been home for several weeks on account of sickness in the family, has returned to Selma where she is staying with her sister there.

THORSBY DEFEATS CLANTON HIGH

Tuesday afternoon the Thorsby Institute basketball team and a truck load of the students motored to Clanton and brought home the bacon. After plowing through the mud on the highway for about an hour and a half, finally arrived and soon the game was ready to start.

In the first half, the game was an extremely slow affair, being featured by numerous fouls, slow passwork, and little scoring. The half ended with Thorsby leading by a four point margin, the score being 6 to 10. In the second half things livened up a little. The Thorsby team began to play together a little as a team should and as a result, Clanton was soon hopelessly outdistanced. This half was fast and ,snappy at times, and some real basketball was exhibited. When the dust of the battle cleared away, the score board showed that Thorsby had netted 17 points while Clanton could show only 6. This returned Thorsby victors by a count of 27 to 12.

Friday Marbury will invade Thorsby, and then there will be one grand battle royal. Here's one for Thorsby. Let's go!

Summary: Clanton, 12—Roberts, f (4), Reynolds, f (7), Daniels, c (0), Orr, g (0), Cox, g (0).

Thorsby, 27—Littleton, f (13), Graham, f (12), Franklin, c (2), Maddox, g (10), Burkett, g (0).

Referees: Kemp and Sappington.

MR. C. J. PARAMORE DEAD

Mr. C. J. Paramore, aged 59, died suddenly at his home in Thorsby at 5 o'clock, P. M., Feb. 7th. About two years ago Mr. Paramore came to Thorsby, purchased what is best known as the J. F. Peterson place, where he made his home with his wife and daughter, Marjorie, aged 12. There are four married daughters, three of whom live in Birmingham and one in Louisville, Ky. Mr. Paramore was well known in business and fraternal circles in Birmingham where he resided several years. The family and several intimate friends accompanied the remains to Birmingham by train Wednesday morning.

Mr. Edgar Collins and wife welcomed a new son to their home on Monday.

Now that the Highway is to be built on the new survey through Thorsby, there is considerable activity in securing locations for business adjacent to it this past week, Tompson and Bentley have bought 75 feet frontage on which they expect to erect a substantial Garage in the near future. Mr. D. M. Paxson has also bought a lot at the corner of the new highway and Jones Street, on which he intends to build a suitable structure as a salesroom for Tombstones.

Mrs. Carl C. Petersen had a delightful birthday party Tuesday afternoon. Her age is not given for publication, but those who helped to grace the occasion were Mesdames, J. P. Sorensen, J. F. Owens, Nels Petersen, Herbert Petersen, Martin Petersen C. A. Petersen, Anna Villadsen, Hattie M. Karlson, S. E. Norton, C. H. Thompsen, Robert Johnson.

A new feature of instruction in Thorsby Institute for the second semester, will be a series of lectures once a week, covering the four and a half months to the end of the school year, by Rev. James M. Graham, Superintendent of the Southeast community Development. Mr. Graham will present to the students, which will be encoraged to take notes which they can preserve for reference, on many phases of modern community development in which the school, the church, or some organization, or group of organizations become the center through which the citizenship of small towns and rural communities may co-operate for better living conditions which no one alone can accomplish so effectually as can be done when all pull together.

One more splendid number on Thorsby Lyceum and entertainment course will round out a very satisfactory and successful season. On Thursday night of this week Dr. E. T. Hagerman, who for several years occupied the pulpit of Methodist Churches, the largest in several prominent northern cities, says "He was an American two hundred years before he was born." His ancestors having come to America in 1659. Where he has been heard once he is always in demand for a return engagement.

Mrs. May Hastings Nottage, for the past four years a member of Thorsby Institute Faculty, who has recently been very ill, has recovered sufficiently to return to her home near Boston, Mass. She left Thorsby Sunday morning for Savannah where she was to take steamer for Boston.

Mrs. F. E. Jenkins of Demorest, Georgia, mother of Miss Helen C. Jenkins, principal of Thorsby Institute is visiting in Thorsby for a few days.

The Lutheran Ladies Aid Society will be entertained at the home of Mrs. Bergette Erdahl at 2:30, P. M., Thursday, Feb. 9th. It is well understood that no special invitation is required by any lady in Thorsby who is disposed to attend these social gatherings of the different ladies organizations of Thorsby.

The meeting of the Parent-Teachers Association last Friday night was one of the best attended and interesting in the history of the organization. A prominent feature of the occasion was the musical part of the program. Thorsby Concert Band was out in force and rendered several selections in a manner reflecting much credit on themselves and their leader, Mr. J. O. Johnson. Miss Agnes Leary favored the audience with an appreciated vocal solo. The principal speaker of the evening was Mr. Willie T. Bean, who was formerly Chilton County Superintendent of schools. His subject was "Our School System and what it needs." Among other things he mentioned "A higher standard of citizenship," that can appreciate the value of education enough to make the necessary sacrifices to permit their children to attend and remain in school whatever time may be necessary to secure it.

Use Less Lard

It takes less shortening when you make biscuits, pies and cake out of Gilster's Best flour. Because Gilster's Best is made from only the very choicest parts of select soft red Winter Wheat, and milled to such a high patent, it requires almost a third less lard than ordinary flours.

GILSTER'S BEST FLOUR

Reynolds Replies to Letter of Mr. C. Reese Mullins

Points Out Facts Showing Unfair Actions of Board of Registrars and Explains Some of Other Shadows of Mullins's Argument.

Editor Union-Banner:

My hope has been that it would not be neccessary for me to write any more on the subject of politics for some time. I think it would be best to leave politics off for some while yet, as it will be a long time before we have any election. But I feel it is neccessary for me to reply to the letter of my friend C. Reese Mullins, which was printed last week in the Chilton County News.

I will state at the outset that I appreciate his straightforward article, as I am sure it expresses his honest opinion. And the further fact which makes his letter noticeable is that it lays down a fundamental principle upon which the Democrats stand.

I have always contended that politics ought to be understood by the voters. Every voter ought to know what each candidate stands for, as well as the fundamental principles of the parties which the different candidates represent. I think little personal mean politics is about the meanest thing in the world. We can always be pretty sure that when candidates and political parties resort to personalities, those candidates and parties which do so are void of merit within themselves, but seek to get into office by exploiting the demerits of somebody else.

Any person seeking an office for the salary alone, and not with the intention of helping to make a better government for the people of a county, state or nation, will always make a poor officer. Parties and individuals alike, ought to stand for something that is worth while to the masses of the common people. Likewise parties and candidates of parties ought to have a firm conviction that their election would be better for the common people, and make the country better to live in, and render the people a better service from the functions of the government machinery and the execution of laws.

Mr. Mullins asks me about the speech of President Harding in Birmingham last fall. I want to say that I think it was a great speech. I share this opinion in common with The Birmingham News, together with many other Southern newspapers, all of which, though Democrats in politics, said that it was one of the greatest speeches ever delivered.

Then he asks me about the Dyer Anti-Lynching Bill. I will say that I have not had time to follow very closely all the debates and discussions of the bill which have appeared of late. I am not as well posted on the contents and provisions of the bill as I would like to be; but as I understand it, I am opposed to it. I am not the only Republican who opposes this bill. During the debate in Congress on this bill, a speech was made against it by a very able Republican who rperesents the Chattanooga District of Tennessee. Portions of what he said were published in the Birmingham News, and I think his assertions were very logical from the standpoint of the South and the negro problem.

Mr. Mullins seems to think that the Republicans all over this county have been treated fairly by the Board of Registrars, and that they have not shown any special favors to any voter. He says that I am dreaming. I want to add that if I am dreaming, my friend Mullins must have a nightmare when he says the Board of Registrars have been fair and have administered the duties of their offices as public officials should do.

I differ with Mr. Mullins in regard to the Registrars; and I want to repeat here, as I stated in the former article which he attempted to answer, that the Rigistrars went from house to house and registered Democrats, and passed right by the homes of Republicans and did not stop to see whether anyone wanted to register there or not.

When we say anybody did wrong, we ought to be able to produce the facts to substantiate our charges, and name the exact time and place the wrong was committed. So here are some of the things upon which I base my charge that the Registrars have been unfair to Republicans: I have been informed that they registered Mrs. Durbin at her home, out under her wagon shelter, while there was a Republican lady in her house who had not registered and who did not know what was going on until some time afterwards. The Registrars passed right by Mr. John Ramsey's home, where his poor old mother, a Republican, lived, and they did not stop and see if anybody at that house wanted to register. They passed Mr. D. M. Appearson's home. His wife is a Republican, and she was sick at the time, and was not able to go and register. They did not stop at Mr. Apperson's to see if anybody there wanted to register. I have been informed that Mrs. Apperson has not yet been able to go anywhere to meet the Board and register. They went olny a short distance further and stopped at the home of Mr. Houston and registered his folks who are Democrats. I have further information that they registered many other Democrats in Beat 8 who did not go before the Board, which is contrary to law.

The Registrars went from house to house in Beat 14, not together, but one at a time, and registered many Democrats who did not go before the Board, and who never saw

LADIES SEEKING TO AID THE CENTRAL ALABAMA HOSPITAL

The Ladies Aid to the Central Alabama Hospital Committee is composed of a few of Clanton's substantial matrons, and will undoubtedly prove to be a most valuable asset to the hospital.

Realizing that the public school teachers are a potent factor in our country, since their leavening influence is felt in every home, the chairman of this committee of ladies, has forwarded to each school teacher in the county a copy of the following letter:

"As chairman of a committee of co-workers who are laboring for the success of the Central Alabama Hospital, I am addressing you.

"Our hospital, situated as it is, upon a spacious and elevated plot, presents an aspect that is impelling and imposing. Commodious and convenient, the Hospital is ideal in its every detail.

"We have for a long time felt the desire for an up-to-date home sanitarium. Thanks to enterprising Chilton County citizens for the realization of that wish.

"The opening day of our Hospital will occur within the very near future, possibly about the first of next month. We should each give material assistance to so deserving an enterprise. We should entertain a personal interest in its success.

"Can you not, as a leader in your community, lend a helping hand? Probably your patrons and pupils would be glad to give linen, sheets, pillows slips, counterpanes, towels, sash curtains, tray cloths or napkins. Probably they would prefer donating trays, china, or silverware. Some have agreed to donate the entire furnishings for a room; others will provide partial furnishings. The Civic League of Clanton has asked for the privilege of furnishing the sun parlor.

"Our committee is hoping for a generous response from every community. We trust that you may be enabled to stimulate interest in behalf of the project. We need your service, and will appreciate your every effort.

"Will you please notify us at your earliest convenience just what we may expect of you?

Gratefully yours,
MRS. M. L. WHITE,
Chairman of the Ladies Auxiliary to the Central Alabama Hospital Com.

JEMISON VOTING ON SCHOOL TAX

The people of School District No. 70, at Jemison, are voting today (Thursday) on a proposed special three mill tax for school purposes in that district. Many other districts of the county have already adopted this system for schools and find it very satisfactory. Jemison will no doubt adopt it and find it the best way possible for financing a good public school.

FUNERAL OF MRS. CALLEN SATURDAY

The citizens of Clanton and relatives of deceased were again reminded of the uncertainty of life and the certainty of death by the very sudden departure of Mrs. W. T. Callen from this life to Paradise on Friday morning, February 10th, at 6:30, A. M., at the age of 61 years. Though being able to dress with the full expection of preparing breakfast for the household she was suddenly seized with pains of the heart and within twenty minutes was beyond all medical skill as her spirit was translated to her heavenly reward.

For more than twenty-five years Mrs. Callen was a loyal and faithful member of the Clanton Baptist Church. She was a devout and pious Christian, who lived near to God.

As a member of the Civic League she took a keen interest in the civic improvements and betterments of Clanton and commuity, and was present to give an interesting address at the last meeting of the league.

The funeral service in accord with her repeated requests were held at the residence of Mr. W. T. Callen, conducted by her pastor, Rev. P. G. Carter, in the presence of a very large company of sympathisers and friends. The beautiful display of flowers was an outward manifestation of the high esteem in which she was held by those who knew her. Te manner of her death in the suddenness of her departure was a fitting climax to so noble a christian character. The remains were laid to rest in the Clanton Cemetary to await the sound of the trump of the Archangel that shall summons the dead in Christ to be clothed upon with immortality.

To the husband, children and relatives of the deceased, the whole community extends their heartfelt sympathy and consolation. Though dead to this world she yet speaketh and her words do follow her.

P. G. CARTER, Pastor.

READING CIRCLE HELD HERE LAST SATURDAY

The Clanton Group of the Teachers Reading Circle was held at the Chilton County High School building here last Saturday, February 11th. The program was under the direction of the able leadership of Prof. W. E. G. Sutton, Principal of the Verbena School. All the teachers of the Clanton Group were present but three.

The meeting was a very interesting one. Besides the regular textbook work, there were splendid addresses made by Prof. Sutton, Prof. Ira Pegues of the Clanton Grammar School and others. Mrs. Ward gave a splendid talk on teaching phonics.

The following delegates were elected to attend the Alabama Educational Association which meets in Birmingham April 13-15: S. E. Alverson, Mrs. Cordelia Ward, Mrs. Mary Thomas; alternates, J. L. Wilson, Mrs. Ida Trotter, and C. D. Hughes.

The last meeting of the circle will be held on March 11th. An interesting program will be prepared, and an enthusiastic day will no doubt result on this occasion. All the teachers will be present and show their apreciation of the ability displayed this year by the capable leader of this important work.

PARENT-TEACHERS ASSOCIATION

Quite a number of patrons attended the meeting of "Clanton Parent-Teachers Association" Friday afternoon at the Grammar school and enjoyed the following program:

Song, "America."—All.
Business.
Music, Miss Ethel Thompson.
6th Grade Number, Miss McMillan.
Music, Ruth Sessions.
Aims and Ideas of this Assiciation, Mrs. VanDerveer.
7th Grade Number, Prof. Pegues.
Music, Stella Thomas.

Social Hour.

Mrs. A. Johnson, Mrs. Heard, Mrs. Culppepper, Mrs. Bob Jones, Mrs. McSwain, Hostesses.

Grade work on exhibition in each room.

A Judicious Inquiry.

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that thep know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed.

What Chamber of Commerce Has Done in the Past Year

Annual Report of Commercial Organization Shows Accomplishment of Many Things Worth While for Town and County.

ANNUAL MEETING OF CLANTON CHAMBER OF COMMERCE

The Annual meeting of the Clanton Chamber of Commerce was held in the Courthouse on Friday, February 10th. The Annual report, as presented by the Secretary, showed that some good things had been accomplished and others were in course of development in the near future such as the stopping of trains, the establishment of a Veneer industry and the location of a Bed and a Hardwood Industry. By motion of Mr. W. T. Bean the report was ordered to be printed in both of the local papers and appears below.

Election of Officers.

The following officers were elected for the ensuing year: President, Dr. V. J. Gragg; Vice President, W. W. Fox; W. T. Bean, C. Fenn Jones, J. Lee Smith, T. H. Neighbors, and J. P. Lawrence as Directors. Mr. C. Reese Mullins was unanimously elected to the position of Second Vice-President to fill the only vacancy on the Board.

Financial Statement.

The finacial statement as presented by the auditors showed that quite a good sum of money had been contributed during the first eleven months of its existence and is as follows: (See Statement.)

With the bright prospects of locating industries in the near future the sentiment was expressed that all the present members retain their membership and a drive be made for additional members who should belong to the Chamber.

At the close of the meeting Captain Lay showed a fine set of stereopticon pictures demonstrating the future possibilities of the Coosa River Hydro-Electric development to a good audience of people. The Annual Report, as presented to the meeting is as follows:

FIRST ANNUAL REPORT

Presented to the Membership of Clanton Chamber of Commerce on January 19th, 1922.

Gentlemen:

Your Secretary takes pleasure in presenting the First Annual Report of the Clanton Chamber of Commerce an organization which was ridiculed by some and guessed would be dead in three months.

Archives and History, Dept. of Thos. M. Owen, Director.

Organization.

The first meeting for the purpose of organizing a Chamber of Commerce in Clanton was held on January the 6th, 1921., and the Rev. P. G. Carter was elected as temporary Chairman and G. M. Wyatt as temporary Secretary. A nominating committee of five were appointed for the purpose of electing officers and a Board of Directors. At a subsequent meeting held on January 21st, the committee reported as follows:

President, Dr. V. J. Gragg; Vice-President, Dr. J. P. Hayes and W. W. Fox; Directors, G. C. Walker, W. T. Bean, J. L. Smith, C. F. Jones; Treasurer, V. J. Heard. The report of the committee was adopted and these gentlemen declared duly elected. Mr. G. C. Walker declined to serve, and in accordiance with the powers delighted to the Directors Mr. T. H. Neighbors was asked to fill the vacancy, and later on Mr. J. P. Lawrence was added to the Directors.

Secretary.

At a meeting of the Board of Directors held on January 27th, Rev. P. G. Carter was unanimously appointed as Secretary.

Constitution.

At a meeting of the Directors, held on February the 3rd, the Constitution and By-Laws tentatively submitted to a regular meeting of the body on January 21st with some changes and additions was adopted, and then submitted to the next regular meeting of the body on February 10th and accepted.

Committees.

According to the Constitution the Directors appointed the following committees:

Membership, Publicity, Educational, Civic and Public Utilities, Industrial, Entertainment and Program, Agricultural, Good Roads, Public Health. The membership committee is the only committee that has really functioned during the year with the exception of the Executive, who have met several times when neccessary, at the call of the Secretary. The membership committee did some fine work under the Chairmanship of Mr. J. P. Lawrence. The other committees seem to feel that all matters pertaining to the Chamber of Commerce were perfectly safe when left

FRIDAY'S SHOWERS

Something new under the sun.

It would seem that our Clanton women are not content with the various offices and honors that they have lately acquired. They are now actually competing with government weather forecasters and are predicting two showers for next Friday afternoon.

Both are linen showers however, according to the prognostications, and will continue simultaneously from two to four in the afternoon. They will be given by the Ladies Auxiliary to the Central Alabama Hospital Committee for the benefit of the hospital.

Residents west of the railroad will be entertained at the Wilson Hotel. Those on the east side will be entertained at the home of Mrs. J. Q. Wade.

Any kind of linen suitable for a hospital will be an acceptable offering. Ladies may feel free to "chip in" with one another if they so desire. All are cordially invited to attend these functions.

Pretty Party Given.

On Tuesday evening at the home of Mrs. Grady Broadhead was the scene of one of the seasons most elaborate parties, when she and Mrs. L. F. Gerald were joint hostesses, paying a special courtsey to Mrs. F. S. Fesch, who is the house guest of Mrs. Gerald. The valentine festival was emphasized in the floral and decorations of the home. The entire apartments were draped in quantities of Southern Smilax and exquisite red and white carnations were lavishly used throughout. The rooms were lighted with a score of red candles which cast a soft glow over the secene.

The guests were met by Mrs. Mack Wyatt and invited into the dinning room which with the reception rooms, carried out the red and white motif. Red papers and hearts being used to decorate the table, from which a delicous beverage was served by Mrs. Arthur Johnson and Mrs. J. P. Hayes. Mrs. Pearson also read a very appropriate poem on "happiness." After making the pledges for the year it was decided to use this money to furnish our new class room in the church, with a library installed also. One of the most enjoyable affairs of this week was a valentine party given at the home of Mrs. J. J. Pickens, when a number of the little folks of the Sunbeam band were the happy guests. An attractive fish pond decorated with numerous red hearts and cupids bows with evergreens afforded much pleasure. From here each little guest, being successful fishermen, received pretty valentines. A lovely story telling hour was spent with Mrs. Daily Miller and Mrs. Curry as leaders, each telling appropriate childrens stories. Later the refreshments, consisting of nectar and "sweet hearts" was served to about 50 little tots.

On next Sunday afternoon at 3 o'clock at the Baptist Church every member of the Sunbeam band is urged to be present and welcome their newly appointed leader, Mrs. Grover Harris.

GOOD HEALTHY CHILDREN FROM RICH BLOOD

HEALTH STRENGTH AND VIGOR BUILT UP BY GUDE'S PEPTO-MANGAN

You see one child strong and robust; another child pale and thin. One eats practically the same foods and takes the same exercise as the other. What is the difference? Nearly always it's a difference in the quality of the blood. The strong child has rich, red blood and plenty of it. You love to see him eat so heartily. If your child is thin and weak, give him Gude's Pepto-Mangan to build up the blood and see the difference between a sickly, unhappy child childhood and a bouncing, healthy childhood.

BODY OF BARRETT FOUND IN A CREEK

Nineteen Year Old Lad Missing for Three Weeks, Supposed Victim of Violence.

Information was received in Clanton Monday stating that the body of Dewey Barrett, who had been missing from the home of his father, Lloyd Barrett, for several days, had been found floating in Hatchett Creek at the mouth of Weogufka. The discovery of the body was made Sunday morning by another young man who is said to have been going down the creek in a boat.

The reports reaching here state that the neck of young Barrett was found to be broken, and signs of a heavy blow on the right side of his head were found indicating that he was violently murdered before his body was thrown into the creek. The theory that he was murdered and robbed was exploded when his body was found, as his money which he had on his person was still in his pokcets, the reports say.

Sheriff George McDonald of Coosa County, was summoned Sunday afternoon, and immediately after appearing on the scene a coroner's jury was selected and an inquest held, the body remaining in five feet of water where it was found, until the officers arrived. No report was disclosed by the jury, but it is regarded as certain that the young man was brutally murdered and his body placed in the creek to hide the crime. Dr. Julius Jones of Rockford, assisted by a special coroner's jury composed of J. D. Kilgore, P. P. Bonnett, E. L. Boyett, R. O. Snider and Wm. P. Shurett, conducted the initial investigation and inquest.

More than a hundred people had gathered at the scene. No clue has been found that would lead to the identity of the murderer of the young man, but indications are that the crime was perpetrated by very shrewd criminals.

The boy left the commissary of the Henly Lumber Company, which is near the Dollar Postoffice, some three weeks ago, and had not been seen since, until his body was found Sunday. The entire country has been searched ever since his disappearance.

MOFFIT'S BODY RECOVERED

The body of Mr. I. B. Moffit, the Alabama Power Company surveyor who was drowned at Higgins Ferry on Saturday, January 21st, was found last Sunday at the lumber ramp just above Mitchell Dam. A diligent search had been instituted and carried on for many days by the Power Company in an effort to find the body of the drowned man. The river had been scanned day and night by watchmen placed only a few feet apart.

The body of Mr. Moffit was taken in charge by Undertaker Mell Martin of Clanton, who prepared it for burial, and shipped the remains to his home at Dunlap, Tennessee.

The body was accompanied to its destination by Mr. W. J. Rucker.

ATTEMPTED ROBBERY NIPPED IN THE BUD

Burdell Cleveland, a smart young negro boy who has been somewhat familiar about Clanton for some months past, is now reposing behind the bars of the big stone mansion just at the rear of The Union-Banner office. The reason for his being so situated just now is because he did not have anything else to do nor any better sense than to attempt to burglarize the home of Dr. E. E. Upchurch last Friday night.

When Dr. Upchurch went home for supper he found the young negro concealed under the bed in his room. He called him out and stood him against the wall at the point of a gun until officers arrived to take charge of him.

Messrs T. L. and Lee Robinson of Verbena were visitors to Clanton Tuesday. They recently moved to Verbena from the Salem community on Coosa River.

SHOULTS

We are very sorry that some things in the Lawley items of last week were in print for the public to read. We wish to make a few corrections. The Shoults girls do not cheat their way through and do everything in a fair and square way. We are above such cheapness as lowering ourselves like that. If we wish to tell any one of their faults we go at it in a different manner. We wish for the public to know that reports are false. We could say many things along this line but do not wish for our space to be filled with these things that are not important. The game of Jan. 28, between Lawley and Shoults was 11 to 9 in favor of Shoults.

The Shoults boys' basket ball team suffered a bad case of disappointment last Saturday a week ago. They went to Centerville to play the Sophomore Class team, but owing to the weather conditions they did not play They are expecting the Centerville team down here the coming Saturday.

We are very sorry that Mr. Wheeler Walker was disappointed on last Saturday. He had intended going to Centerville to see the ball game between Shoults and Centerville, but was too late to catch the train. It was through this kindness that some one else got there in time. He was on his way riding and some one took his place.

Mr. Howard Ogen contemplates getting an incubator. He must be going into the poultry business.

Mr. Walter Lawley moved into the house vacated by Mr. Lawyer McGee.

Of all the singings, one was enjoyed at the home of Mr. Alfred Lawrence last Saturday night. It lasted for about three hours, and then everybody seemed to want to sing longer.

The little infant son of Mr. and Mrs. Blint McGee has been very ill for several days with erysipelas. From latest reports its condition was very serious.

Mr. Alise Maness spent the week-end with Mr. Wilson Kanipe of Maplesville.

Mr. Clanton Jarrett made the announcement Sunday that there would be prayer services at the Methodist church on Saturday night about 8 o'clock.

Mr. and Mrs. F. A. Ellis spent Sunday night with Mr. and Mrs. C. T. Walker.

After a brief illness Mr. Calton is able to be out to the delight of his many friends.

We are expecting to have some cabbage a little later. If the rabbits don't succeed in getting them before we do. They have already found some gardens.

Mr. and Mrs. Ottis Moore of near Lawley were visitors to Mr and Mrs. Noale Moore Sunday.

Mrs. Jane Marchant suffered greatly with pneumonia since the rainy season has begun.

Miss Myrtle Ingram spent Saturday night with Miss Bibbie Smith.

One night of last week, Mr. A. J. Lawrence was awakened by a noise at the lot. He got his gun and started to investigate. Just before reaching the lot he saw some one making his way for the gate. He fired his gun, which caused the person to run with great speed. He didn't get the person, but succeeded in getting the sack of corn. We are sure the noise of the gun frightened him so badly until he threw the corn down or threw it down in order to have nothing in his way to prevent fast running.

Thomas J. Dorminey of Union Grove, one of our splendid county commissioners, was here Monday and Tuesday attending to the duties of his office.

Prof. J. L. Wilson was able to attend the teachers reading circle here last Saturday, after having been confined to his room for several days with mumps.

Charley T. Walker of Lawley was in attendance at the session of the Commissioner Court Monday and Tuesday, of which body he is a valuable member.

Mrs. Belle H. Wade is one of the most enthusiastic workers for and supporters of the Central Alabama Hospital. She wishes to urge the ladies of Clanton to co-operate next Friday afternoon in making the linen showers for the hospital a grand success. Ladies who desire to give something for the furnishing of the hospital may bring it to one of the showers, either at the Wilson Hotel or at the home of Mrs. Wade. Sheets, pillow slips, towels, or any kind of linen suitable for hospital use will be gladly accepted by the committee of ladies who are helping the hospital in this manner.

POOR ORIGINAL

REYNOLDS REPLIES TO LETTER OF MR. C. REESE MULLINS

(Continued from Page 1)

but one of the Registrars. This also is contrary to the law governing registration.

At Concord Box in Beat 13, which is a Democratic community, the Registrars went from house to house, and registered many voters who never came before the Board at their appointment at that place. They did not go from house to house around Minooka box in the same Beat, which is a Republican community.

Mr. Mullins trys to explain the advertisement where the Registrars put all their notices in the Union-Banner from Jan. 4 to Feb. 10, but left from Jan. 26 to Feb. 1 blank. Then they went and advertised in The Chilton County News that they would go back to Stanton on Jan. 28, after they had already made their regularly advertised trip to that box. Now I want to call your atention to the fact that all the appointments of the Registrars were advertised in both the Union-Banner and the Chilton County News, EXCEPT that day when they went back to Stanton on the 28th of January. Now it looks to me that if the Registrars had wanted to be fair and let the Republicans as well as the Democrats in Beat 8 know that they were coming back to Stanton on the 28th, they would have advertised that appointment in boh papers like they did all the other dates.

They did not put the notice of their second trip to Stanton on the bills they sent out, nor did they post notices of that engagement at the court house, and to make it worse, they had already been in Beat 8 two days, Jan. 6 and 7, and had not been to a single Republican Beat up to this time.

Now if my friend Mullins thinks this is the way to manage public affairs, I must say that I do not agree with him; and I repeat that I think all officers ought to be fair and treat all alike.

As to putting this county in debt I am sure that everybody knows that I was opposed to it. There is not a single man in this county who believes that if I had been elected in 1910, that this county would have been in debt two hundred thousand dollars.

Mr. Mullins knows, if he knows anything, that when the big debts of this county were made during Judge Deason's term of office, the Commissioners always tied on the vote, and Judge Deason untied the vote by voting in favor of making the debts. I reassert here that the Democrats as represented by Judge Deason while he was Probate Judge were directly and absoultely responsible for putting Chilton County over two hundred thousand dollars in debt to build highways that have not been worth but very little to the county. Judge Deason held the balance of power and was virtually the sole power that put the county in debt. The Commissioners were divided in their votes, two for and two against the debts. I am happy to say that both those who were against the debts were Republicans, while one of the two who voted for the debts was a Democrat. With the vote of the Court tied on the debt question, what was to hinder Judge Deason from voting against the debts if he and his Democratic colleagues had been opposed to putting the county in debt? There was nothing in his way. He voted for the debts because he and the other leading Democrats here in Clanton wanted it done, and he and his political friends and associates are directly responsible for our county being sunk so deeply in debt today that we cannot see the day of our redemption. Mr. Mullins and every other sensible man in Chilton county knows that this is the truth of the situation so far as Chilton County's overwhelming debt is concerned.

I had served six years as Judge of Probate before Judge Deason took charge of the office. When I handed the keys of the county over to him there was over ten thousand dollars in the county treasury, and we did not owe anything. The tax rate in the county at that time was 40 cents. When he handed the keys back to me in 1917, there was a great difference. The county owed over two hundred and sixteen thousand dollars, and the tax rate had advanced from 40 to 75 cents, and our county warrants were selling to scalpers for about 50 cents in the dollar.

I promised the people that I would do all in my power to get the county back on a cash basis, and with just a few exceptions, and for only a short time, every person who received a county warrant could get the cash for it without discounting it to a scrip buyer. Then the court house was burned, which added another heavy burden to the already bankrupt county treasury. But a new court house was built, and the county kept right on paying off its obligations. I want to state right here that I thank those Democrats who have helped us in our struggle to keep the county financed, by loaning the county money with which to rebuild the court house.

Mr. Mullins asked me about the contract to work the highways last summer by Messrs. Curry and Norris. I am glad to explain any transaction that I have ever had for the public. I would be glad if every tax payer and voter could be present at every transaction of the Commissioners Court, and see for themselves where every dollar of their taxes is going.

The Commissioners Court hired Messrs Curry and Norris to work the highway from the north line of the county to the south line, at $35 per mile. When the Court went to pay the bill I stated to them in the presence of Messrs. Curry and Norris, and others, that I did not think they had done the work according to contract. I also said that if it was left to me, I would not pay the full price. The Commissioners did not agree with me. I thought I was right and they thought they were right.

I want to state right here that I have never seen any more honest and conscientious men than our present Commissioners. While they and I have disagreed on some things, yet I do not say that I was right every time and they were wrong. I know that I have made mistakes, and will make more yet; but as for my part, I have done the best I could. I can face this county and say truthfully that every official decision that I have made was honest and according to law as I understood it. But even at that, I know I have made some mistakes.

It has been a hard struggle for us to work the highways at all. About all the money we have had for five years to work them with was the little bit we have been able to save from the fine and forfeiture. Since the question is up, I will mention this: When I went into the Probate Office in 1917, the fine and forfeiture fund was over seven thousand five hundred dollars in debt. Those debts have been paid, and the county court has cleared over $5,000.00 and transferred it to the raod funds to work the roads with. Let me call your attention then to this same court during Judge Deason's term running $7,500.-00 behind; then since I have had charge of it, we have not only paid off that indebtedness of $7,500.00, but cleared $5,000.00 besides.

Now here is that fundamental principle of the Democratic party which I said in the beginning was laid down in Mr. Mullins letter. He wants me to agree that the Democrats ought to have control of the county affairs because they are richer than the Republicans. I quote what he says in his article, word for word as follows:

> The Judge seems to want to put great stress on all being treated fair, and I would like to repeat this with emphasis, and then I want to ask the Judge as a matter of information which element in Chilton county pays most taxes, the Republicans or the Democrats? And if it is not a fact that the Democrats pay more than the Republicans? And if this be true, doesn't he thik it would be fair for them to have the management of the county affairs for at least a while and let him rest up?

Well, I have always known that some people felt like the poor people were not worthy and ought not to be allowed to have anything to do with the government; but my friend Mr. Mullins, is the first one I have ever seen who actually had gall enough to come out in print and say that the rich ought to rule, just simply because of wealth. If we follow this idea up, it would mean that we would get the richest man in the country for President, the next richest for Vice-President, and so on down the line, and the poor people who have nothing would be left out altogether. I want to say as before, that this kind of an idea is dominant in the Democratic party and has been for years.

Let us see how this very idea is followed out in the matter of registration of women, to the end that the women who revolve around the little society circles of the cities and towns can register and vote, and the women who dig in the fields of the country districts will be denied this privilege. Here is how it was figured out by the leaders of the Democratic party who, like Mr. Mullins, think the Democratic party ought to rule because it is the richest:

The dates fixed by the Democratic party in Alabama for the registration of women are in January and February, at the very worst time of the year, when the weather and roads are so bad that the women in the country cannot go to register. But of course the "rich" women of the city are not hindered from registering by this impediment. The same thing is true of the restrictions that have been placed around the payment of poll taxes. All these things are done so as to keep as many of the poor country people from voting as possible, in order that the rich classes of the cities may rule the country.

Why not arrange for somebody at the court house to register voters any day in the year This was mentioned in the last legislature, and had the support of the Republicans there, but the Democratic bosses hooted the idea down. Do the leaders of the Democratic party want the poor people to vote and exercise a part in our government? I would answer no; and every law pertaining to voting that has been placed on the statute books of Alabama by the Democratic legislatures speaks out in thunder tones against the free and untrammeled exercises of citizenship by the poorer and common people of the country.

I want to say to Mr. Mullins, in conclusion, that I do not agree with him that the Republicans ought to turn the offices over to them just because they are richer and pay more taxes. Neither do I agree that the Democrats do pay any more taxes than the Republicons. We all know that the Republicans live mostly in the country, and are laborers and producers. If it were not for the few little towns we have in this county the Democrats would not have enough votes to count at the elections.

I suppose that when Mr. Mullins refers to Democratic tax payers, he means merchants, doctors, lawyers, bankers, etc. Then let us see about some of these. Who pays the merchant's taxes? The people who buy his goods pay his taxes. I was in the mercantile business once, and my customers who bought my goods paid my taxes. The fellow who gets sick pays the doctor's taxes. The man who borrows money pays the banker's taxes. The man who rents a home pays the landlord's taxes. The man who ships the produce to market pays the railroad's taxes. Who pays the taxes of the farmer and laboring man? He pays them himself if he can scrape up the money after he has paid the taxes of his merchant, doctor, lawyer, banker, etc. Therefore, of the people in Chilton county who are really and truly paying the tax money, I believe there are more of them Republicans than Democrats.

The proposition of turning this government over to the rich is the most dangerous suggestion that could come before the people. But I do say that the rich ought to be treated fairly; they ought not to have special privileges granted them though, neiter by law nor by officials. This government was founded upon the principle of civil liberty to men women and children, all of them, and not upon the principle of riches and power for a few who should rule all the others.

I hope both political parties will make their ideas known to the voters, and not make this campaign a personal fight. Let the voters themselves decide who they want for officers. But it strikes me right now as a good idea to let the people make a crop this spring and summer, and then there will be plenty of time before November to carry on a political campaign. However, if it shall be decreed by the Democratic leaders that it shall be fight from now until the general election, I feel sure that the Republican side of the argument will be taken care of.

Respectfully,
L. H. REYNOLDS.

PUREBRED HOGS PAY

Auburn, Ala., Feb. 13.—There may be people who still believe that a scrub hog is as good as a purebred one, but Peterson & Wood, of Abbeville, Alabama, do not belong to this group. Experience has taught them otherwise.

In 1920 these people owned two purebred Duroc-Jersey sows which were very similar. One was bred to a purebred Duroc-Jersey boar and farrowed seven pigs on April 4, 1920, and the other sow bred to a scrub boar farrowed seven pigs on April 7, 1920.

Both litters were fed under indentical conditions and sold the 2nd of February, 1921. The litter of seven purebreds weighed 1675 pounds, and the litter of seven grades weighed 1100 pounds, or 575 pounds less than the purebreds.

Carrying this comparison further, the seven purebreds were on the average 82 pounds heavier than the average grades, and valuing them at six cents per pound they were each worth $4.92 more, which must be attributed to better blood.

ARE WE FOR LAW AND ORDER?

Last year when a brutish negro assaulted and murdered a little white girl over in our neighboring county of Bibb, and was speedily tried and hanged for his crime, we heard voices going up all over the state of Alabama, praising the manner in which the people of that section behaved themselves and allowed the law to take its course. Everybody was pleased with the orderly procedure that meted out justice to the criminal within thirty days and was glad that the fair name of Bibb County was saved the stain of a lynching and mob violence. This view of the situation was freely expressed in newspapers of Birmingham, Montgomery, and in fact from all over the state.

But now we see before the United States Congress a federal bill which is designed to insure just such action as was taken in Bibb county last year, in other cases of that kind which may occur. What is the cry now? Why every Democrat in the woods is red eyed with rage because somebody is trying to meddle with them in their business of dealing with the negro. We know of Democrats who were well pleased with the way the Bibb county scrape went off last year, who are now as mad as the devil because Congress is trying to preserve and guarantee that same degree of law and order in all such cases, which are commonly turned into lawless mob violence.

Their argument don't look consistent to us. If it was good to let the law take its course in The Bibb County case last year, why will it not be also good to let the law have its way in all cases of that kind? The whole trouble has arisen out of the eternal hatred and prejudice that burns in the hearts of Democrats of the South against anything that savors of Republican party doings. They are merely employing their venom against this bill in the hope of quenching the spread of sentiment in favor of the Republican party in the South.

WASHINGTON LETTER

YANKEE-DOODLE MACARONI

Washington, Feb. 14—Commenting on the "macaroni and other alimentary pastes" industry, the U. S. Tariff Commission, in its 5th Annual report, says that formerly a large part of our supply of "alimentary pastes" came from Italy, although the United States produces a surplus of durum wheat (the kind used in the industry,) especially prized for such pastes. During the war the domestic industry rapidly expanded and replaced the Italian product which war conditions had elimated from American markets. Italian macaroni, however, commands a price premium and has a well-established demand, particularly among the foreign residents of the United States, who are the largest consumers. Domestic producers fear that when normal conditions are restored the Italian pastes will regain their former market. "Imports during the past two years have been relatively small."

The Democratic tariff law made a 33 per cent reduction in the duty on these goods, or from 1½c to 1c a pound. Today owing to the disparity in exchange this duty is but little removed from free trade. The pending tariff bill carries the old rate. Probably the small importations of macaroni recorded since the war is due to the miserable industrial plight of Italy. But since the United States produces the right sort of wheat for the manufacture of these "alimentary paste" products, there seems to be no good reason why that wheat should be sent abroad to be made into pastes and then shipped back here in competition with the American products. The growers of the wheat can do much better by disposing of it to American manufactures of these pastes, who will employ American operatives to fabricate them, and whose wages will be expended in part in the purchase of American farmer.

SOUTH WANTS DUTIES DOUBLED

From the South comes an insistent demand for a doubling of the import duties on vegetable oils, particularly cotton seed oil, cocoanut oil, soy bean oil, and peanut oil. The Southerners contend that vegetable oils can be produced so cheaply in certain Pacific Islands and in China that it is impossible for the American producer to continue successful competition. This is quite likely true. What the Southerner is asking for is not a "tariff for revenue only" but a tariff for protective purposes. The Democratic platform of 1920 declared adherence to the "traditional policy" of the Democratic party, which policy declares that Congress has no constitutional right to impose an important duty for protection purposes. The Republican platform declared for a return to the Republican protection policy. The Republicans won at the polls, but without the help of a single Southern State. The South looks to Republicans to enact a protective tariff law, from which it gets its share of benefits, but it never helps put the Republican party in power.

TRIPLE SUBSCRIPTION

The most recent issue of Treasury notes was oversubscribed three times. The call was for $400,000,000, but subscriptions aggregated over $1,200,000,000. It is announced, however, that an additional $200,000,000 may be allotted to those who offer to pay for them in Victory Notes. The issue is part of Secretary Mellon's plan for gradually refunding the big Victory Note issue that falls due May 20, 1923, and spreading the maturities over a longer period of time. The confidence manifested by bankers in the present administration of the Treasury Department assures the success of the plan, unless Congress creates new emergencies that will have to be met.

WOUNDS FROM A FRIEND

David Lawrence, the most consistent worshipper at the Woodrow Wilson shrine, recently discussed the agricultural conference in an article in which he said, "Behind the discontent of the farmer that he has to borrow money on short time paper is the knowledge now, too, that the federal reserve system can hurt him immeasurably by passing the word along to the banks not to lend any more money."

This is an admission that one would scarcely expect a Wilsonite to make. The Federal Reserve act is the one measure enacted during the eight years of Wilsonism to which the Democrats now point as an achievement, and it must be admitted that so far as it followed lines marked out by a Republican Currency Commission, it has much merit. But, as Mr. Lawrence intimates, it is in the administration of the act that the farmers find a grievance. Assuring that Mr. Lawrence is correct in saying that the farmers "have the knowledge now" as to the demage the Federal Reserve System can do, they must have acquired that knowledge during the Democratic administration, for it was then that the farmers sustained their great loss.

Far be it from us to assert that the Fereral Reserve Board would deliberately hurt the farmers. We are confident they would not, under the present management, for the whole Harding administration is striving in every way possible to get the agriculturists on their feet again. But such eminent Democrats as John Skelton Williams and Senator Owen have made the accusation, and now we have an almost direct corroboration from the man who was one of the closest and cleaverest supporters of Wilsonism among the syndicate writers.

If the farmers "have knowledge now" that the Federal Reserve Board can hurt them they must have gained that knowledge by experience. If they gained that knowledge by experience they must have gained it during the Wilson regime. If they gained it then, there is no foundation for the statement of Mr. Bryan that the farmers hold the present administration responsible for their financial troubles.

THE PRODIGAL STATE

Woodrow Wilson vetoed the resolution reviving the War Finance Corporation. Thereafter the State of Texas cast its vote in favor of the Democratic candidate for President, whose mind was at one with Wilson's. Since then the War Finance Corporation, revived by passage of the resolution over the President's veto, has loaned more than $8,000,000 on agricultural securities in Texas. One of the most aggressive advocates of a protective tariff is a Texas man who made his voice heard repeatedly at the National Capital in hearings before the Ways and Means and Finance Committees Strange that Texas refuses to vote in accordance with its own best business interests.

BONUS PLUS

The determination of Congress to enact a bonus law must not be taken as an admission of negligence in providing for soldier relief. Up to date there has been appropriated well over two billions for hospitalization, compensation, vocational training, insurance, a former bonus, and other forms of relief, in addition to legislation giving special privileges and immunities to former service men that cannot be valued in dollars and second to no nation in the measure it has adopted to care for its defenders.

GOVERNOR NOT BLUFFING IN PROPOSED MINE PURCHASE

Invites Acceptance of Offer For Mines —Would Call Extra Session. —

Montgomery.—That there is an element of "bluff" in his proposal for purchase by the state of the Aldrich coal mine property from the Montevallo Mining Company, is made plain in a formal statement to the citizens of Alabama, issued by Gov. Kilby.

As evidence that he is earnest, the governor invites acceptance of the offer as it stands. In further evidence of his earnestness he says that though he is convinced the state has legal authority for the carrying out of any agreement for purchase, if there is any doubt of the state's authority, in order to protect the state's interest, he will call an extra session of the legislature and "request the lawmakers, who also represent the people, for such authority as may be necessary."

No one is asked to give more than one dollar.

Nesbitt Reports On Explosion

Montgomery.—C. H. Nesbitt, chief mine inspector for Alabama, attributes the recent explosion at Belle Ellen mine, which resulted in the killing of nine state convicts and the serious injury of another, to the liberation of a strong gas feeder through blasting. This gas, he states, coming into contact with open lights when the men returned, caused the accident. His theory of the cause of the explosion is contained in a formal report to Governor Kilby, after he had personally conducted a thorough investigation of the accident.

Interesting Indian Settlement

Atmore.—P. A. Brandon, curator of the state department of archives and history, who made a trip to South Alabama, was much interested in a settlement he visited in Escambia County, which settlement, he says, is populated by descendants of native Creek and Cherokee Indians. Mr. Brannon stated these citizens of Alabama make their living largely through the manufacture of lumber and turpentine and number nearly 1,000 persons, men, women and children. The settlement is located not far from the town of Atmore.

Most of this work would be considered only prospect work, but they have taken out several cars of good mica and all is above water level.

DEMOCRATIC CONVENTION TO BE HELD SEPT. 7TH

A state convention of the Democratic party of Alabama will be held at Montgomery September 8th, according to resolutions passed by the executive committee at its recent meeting in Birmingham.

Delegates are to be elected at the primary election to be held August 8th.

The committee agreed that for the state at large there shall be ten delegates; two for each senatorial district and the several counties of the state shall have a representation equal to twice the number of representatives in the house of representatives and that the state executive committee elected in said primary shall also be delegates.

Candidates for election as delegates to the state convention shall qualify as such candidates before the first day of April, by filing his or her name with the state chairman if a delegate at large, and, if a candidate for election from a senatorial district or from a county, the name must be filed with the county chairman for that particular county which he seeks to represent.

Birmingham.—Discord entered the affairs of the B. F. High Water Delays Dam Work

Verbena, Ala.—A big rise in the Coosa last week gave the engineers engaged in constructing Mitchell Dam for the Alabama Power Company near here a hard fight. After a struggle with the raging waters, which lasted an entire week, the engineers came off winners. It is stated that no loss to the company resulted, other than the delay in the work.

ANNUAL REPORT OF CLANTON CHAMBER OF COMMERCE

(Continued from Page 1.)

in the hands of the secretary, to whom they seemed to look at all times to take the initiative. If more of the Chairman of the various committees had taken some part in the particular work related to their committee much more might have been accomplished.

Meetings.

Seven regular meetings of the Board of Directors have been held during the year, besides three or four Call Meetings. These meetings have on the whole been well attended by the Directors who have served us well, and to whom the best thanks of the Chamber is due. One exception should be mentioned, that of the First Vice-President who declined to serve.

The general body have held eight meetings during the year, four of which were in the nature of a banquet, at which time special speakers were secured from Birmingham and Selma, Ala. These were Mr. O. L. Bunn, Secretary of Birmingham Chamber of Commerce, Mr. Frank Willis Barnett, and Mr. Morgan Richards, Secretary of Selma Chamber of Commerce. All three speakers were greatly appreciated by their helpful suggestions for the carrying on of the work of the Chamber. The banquet occasions proved to be the most popular as is usual everywhere, and were the largest attended of all the meetings. The expenses of the banquets have been met out of the regular funds of the Chamber. The social features of the banquet have undoubtedly had much to do with the healthy condition of the organization at the present time. No organization can really prosper unless its members get together from time to time to transact its business, and keep in touch with its activities.

Activities.

We are frequently asked "What is the Chamber of Commerce doing?" The following are some of its activities during the past year:

1. It placed Clanton on the map. Through the courtesy of the Birmingham News, Age-Herald, Union-Banner and other papers, Clanton has received more advertising in the form of stories written regarding its advantages and possessions than probably ever before in all its history. The value of this publicity is demonstrated by the fact that when the hospital was contemplated, correspondence was received from all parts of the United States, especially from the northern sections, all of which was addressed to the Chamber of Commerce. We feel it is not too much to claim that the present increase in buildings and population has partly resulted from such advertising. Many more people would locate here if houses could be found, or buildings were available for business purposes. Many applicants have had to seek other fields owing to these circumstances.

2. The Merchants Credit List: For a long time a need has been felt by the merchants of the city of some means of protection against undesirable customers. For this purpose two credit lists have been furnished by the merchants and printed by the Chamber which we are informed has been of considerable service to those who used them wisely.

3. Trades Day: Two efforts were made to observe Trades Day. The first occassion was a disappointment in aerial navigation. Large crowds gather to see some advertised aerial stunts, but owing to the failure of the Flyers to keep their contract, not only was the day unsuccessful in the purpose intended, but the Secretary and Directors profited by their experience for future undertakings. The second Trades Day was observed during the month of October when a full page of free advertising was given to the merchants to the value of $36.00. The special inducements offered by the merchants brought a somewhat larger number of people to town on that day, and some at least reported a better business than usual.

4. Hospital: The possibility of erecting a $20,000 hospital was conceived of by the medical profession of Clanton and County. The assistance of the Chamber of Commerce was solicited, and very willingly given in raising the neccessary stock with which to build. At a joint meeting of the citizens and representatives of the Chamber the method of first securing tentative stockholders as suggested by the secretary was accepted, and with his assistance co-operation with others about $20,000 was soon subscribed. They were later approached and most of them have taken shares in the enterprise with the result that a splendid building is now nearing completion and will be one of the best equipped in the State

5. Stopping L. & N. Train No. 1: This matter was first taken up by the citizens of Clanton about a year ago, and an order given by the Public Service Commission for the train to stop at Clanton. An injunction was then taken out against the order by the L. & N. Railroad. A hearing on the Injunction was promised by the Attorney General, but allowed to lay dormant until the Chamber of Commerce took the matter up with the State last November. In about five weeks after that a hearing was obtained in the Circuit Court of Montgomery. Dr. V. J. Gragg, C. B, Cox, J. B. Atkinson, P. G. Carter, R. D. Busbee, and C. Reese Mullins appeared as witnesses in the case. Strong evidence and testimony was given as good reason why the said train should stop at Clanton. The Assistant Attorney handled the case efficiently for the plaintiff. The hearing was then postponed until a future date for the hearing on the other side. The outlook is bright for the stopping of this train as soon as a decision can be handed down by the Supreme Court to which it will in all probablity go before a final decision is rendered.

6. Traffic Bureau: For the purpose of auditing the freight accounts of the merchants the services of Mr. R. D. Busbee were engaged by the directors at a salary of $125.00 per month for a period of two months.

Though this undertaking has not proved to be a success from a local financial standpoint good service has been rendered the merchants in the assurance that with some exceptions their freight bills are correct. In addition to this valuable information otherwise unobtainable has been sucured which reveals the fact that Clanton rates particularly in Interstate Commerce far exceed those of Calera, Selma, Montgomery and Birmingham, which is contrary to certain decisions of the Interstate Commerce Commission, and which we believe can be properly adjusted. Preliminary efforts are now being made, which if successful will mean very much more to the merchants of the town as well as to every citizen, than the money expended in the employment of the traffic manager. We are assured that there is a splendid possibility for such adjustments. Should we succeed in this, hundreds of dollars will be saved to the merchants and citizens every year.

7. The Bell Phone System: On Thursday, September 15th, the District Manager of the Southern Bell Telephone Co., appeared before the Directors appealing for the assistance of this organization in the establishment of their business on a paying basis. The situation then existing made it neccessary to remove the Central Telephone Exchange and substitute only a Long Distance Booth. The Directors took the matter up at once, by certain suggestions that were made, and efforts put forth to install more Bell Phones. The result now is, that some twenty more phones have been installed, and the company is able to keep a man on the field all the time, thereby giving us more efficient service, and assuring us of a permanent telephone system for the city of Clanton. It was to the Chamber of Commerce this company naturally appealed for the desired assistance which has thereby rendered valuable service to the community.

Future Prospects.

1. Brick Yard: Through the agency of the Chamber a party at Thomaston, Ala., was introduced to a valuable tract of land near Clanton for the purpose of a brickyard. The soil was previously tested and declared to be excellent. The clay exists in sufficient paying quantities and all other things essential to a successful business are there. The party left with the announcement that he would return in a few days with his partner and probably close the deal for 20 acres of this property. Though situated some three miles away, it will mean cheap brick for Clanton if the deal is successfully carried out.

2. Spoke and Handle Factory: Through this same party the secretary is informed of a firm at Linden, Ala., that desires to locate their factory in a new location. As Clanton affords excellent facilities for such a factory we believe there is a bright prospect of securing this industry.

3. Cotton Mill: Correspondence is now passing between the Ala. Power Co., and the Chamber, also with Mr. C. E. McLin of Rome, Ga., the latter concern desiring to locate a Specialty Mill of a cotton manufacturing nature in the near future. Our offer is considered to be the best received yet, and will no doubt be throughly investigated as soon as they are ready to do something.

4. Aerial Landing: Regular passenger service by aeroplane is to be established between New York and New Orleans, beginning about May 1st. The Clanton Chamber of Commerce expects to meet the request of this corporation for an emergency landing close to the city, where such planes can land for repairs if neccessary and doubtlessly for passengers if desired. With this accommodation for Clanton which is thus considered to be on the map between New York and New Orleans there will be little need for No. 1 or the Pan American to stop at Clanton. If such a landing is secured this will be one of the finest advertisements that Clanton can have.

5. Stopping No. 1: Mention has already been made of this. It is the purpose of the Chamber to push this matter as quickly as possible and get a decision in our favor as soon as it can reasonably be done.

Finances.

The Treasurers Statement shows a total receipt of $732 in membership dues and initiation fees the past 11 months. The total expenditures amount to $643.25, leaving a balance on hand of $88.75. Against the balance there are several bills payable including the sum of $200.00 to our Traffic manager, which when paid will leave a deficit of about $90.00. This has been incurred by the establishment of the Traffic Department, but which will be adjusted in the near future. Some office furniture is also included in this amount.

Conclusion.

The report as presented only gives to you a general outline of what has been accomplished during the past year. With the foundation now laid, and the correspondence now taking place, there is no reason why some industry should not be located in Clanton during the coming year.

The present membership now stands at about fifty. With some united effort we feel that this can be substantially increased, and certainly should be since every citizen benefits by this organization. Clanton has a bright future before it in the next five or ten years. Such an organization as the Clanton Chamber of Commerce is very essential for the building up of your community. The secretary through this medium tenders to the Directors, and to the present membership his grateful thanks for their loyalty and support. Several citizens have dropped out during the year either through lack of vision and appreciation of the organization or because of the lack of funds with which to continue their subscriptions. One dollar a month is a very small amount for such an organization to function to its fullest capacity, therefore, with the limited funds available we feel that much has been accomplished, and the foundation laid for much more to be done for the betterment of Clanton, and development of the Community commercially and industrially.

Respectfully submitted,
P. G. CARTER, Secretary.

ALABAMA NEEDS PURE SEED LAW

Auburn, Ala., February 13.—Alabama is being used as a dumping ground by unscrupulous seedmen who are unloading low grade seeds of different kinds upon the farmers of the state, because Alabama has no pure seed laws.

The above statement was made by G. C. Starcher, Professor of Horticulture, and Horticulturist for the Extension Service, Auburn, upon receipt of a shipment of seed potatoes which came into the state as certified Wisconsin Bliss Triumph, but were found to be by actual count 97 per cent culls.

Investigating these potatoes further, Professer Starcher found that more than 50 percent of them were infected with scab, a very injurious Irish potato disease which is very difficult to eradicate from an infested soil.

As a result of his investigation Professor Starcher is advising all farmers and gardeners to use much care in buying of all kinds. Big yields cannot be expected without first having good seed. Where it is necessary to order seed shipped in they should be ordered subject to acceptance upon investigation, in order that the buyer may avoid any difficulties liable to arise in dealing with unscrupulous seedmen.

Turning from the potatoes, Professor Starcher pointed to a shipment of pecan trees sold as first class trees, but they were of the lowest grade, and, incidentally, diseased. He, therefore, issued the same warning for nursery stock of all kinds as for seed.

POOR ORIGINAL

THORSBY SECTION

(S. E. Norton, Manager.)

Mrs. Martha Ellen Martin, widow of the late B. Newton Martin, died at the home of her son, J. R. (Bob) Martin, in Thorsby, at an early hour Monday, February 13th, at the age of 63 years. Mrs. Martin had lived for many years on a farm near Collins Chapel Baptist Church, of which she had long been a consistent member. She was also a member of the fraternity of Eastern Star, and this organization conducted the funeral Tuesday at Collins Chapel, Rev. W. P. Lowery officiating as minister. Although the weather was chilled and rainy the attendance was large.

Mrs. Martin had just left her home and came to Thorsby only last Friday expecting to live with her son. Sunday the family celebrated the 69th anniversary of her birth. She retired at night feeling somewhat unwell, and during the night Mr. Martin went into his mothers room to see if she was comfortable and found her sleeping quietly, but before the family were up Monday morning she had passed away, evidently without a struggle. Surely a desirable end to a long and arduous life.

Mrs. Martin was the mother of eleven children, seven sons and four daughters, all of whom lived to grow up and all except one are living today. They are J. R. Martin, Thorsby; Mrs. Wilson Robinson, Calera; W. F. Martin, Jemison; W. T. Martin, Thorsby; Mrs. Stephen Pate, Jemison; L. P. Martin, Clanton; Mrs. W. C. Middlebrook, Brent; Mrs. J. A. Baker, Calera; L. G. Martin, Calera; N. L. Martin, Thorsby; H. N. Martin, died three years ago.

CARD OF THANKS

The bereaved family desire to publicly express their deep appreciation for the sympathy and many acts of kindness shown them by friends, neighbors, Rev. Lowery and members of The Eastern Star, in their hour of trial.

Mr. and Mrs. J. R. Martin and family and all near kin.

Thorsby Basket Ball Team, hung two new scalps on their belt last week. The first was taken Friday afternoon when Marbury High School Team motored to Thorsby to meet defeat at the hands of Thorsby Institute Team only after both teams had played one of the most evenly matched games of the season resulting in a score of 15 to 19 in favor of Thorsby. Thorsby quickly took the lead and held it throughout the game except a few minutes in the second half. Littleton was a higher scorer for Thorsby, netting four field goals. Graham, his running mate found the basket only once from the floor, but was successful in five out of eight tries from the foul line. Both teams fought hard from start to finish and deserve credit for the showing made. Line up, Marbury, 15, Pinn and Lewis, Forwards, (8), Glenn c, (5) Dawson, (2), and Hogan (0), guards, Thorsby (19), Littleton, (8), and Graham (7), forwards, Franklin, c, Maddox, (4), guards, Urkitt, (0), Substitute, Turner for Burkitt. Referee: Villadsen.

On Saturday afternoon Pleasant Grove Team came over by motor only to lose a game to Thorsby "scrubs" by more than two to one. The game started off in the first half rather slowly but soon speeded up and though the "scrubs" missed a good many shots the first half ended 8 to 3 in their favor. The second half was more interesting, being featured by fast playing and scoring. For the visitors, Wright was the best man, while for Thorsby there was no particular star, all playing well. Line up, Pleasant Grove (11), C. Lenoir, f, (0), A. Wright f, (5), C. C. Lenoir c, (4), F. Lenoir g, (2), G. Price g, (0), Leitcher and Byles Substitute g, (0). Thorsby (23), Johnson f, (7), Davenport f, (10), Burkett c, (2), Shepard g, (4), Turner g, Deason c, Peterson f, Substitutes.

Professor C. M. Williams, formerly a member of Thorsby Institute faculty, now principal of a large school at Dora, Ala., has promised, if the weather is suitable, to bring his Basket Ball team to Thorsby on Friday afternoon of this week and give Thorsby Institute team a game of real basket ball. Thorsby boys are not losing any sleep over the prospect.

The Baptist Ladies Aid Society will meet with Mrs. Tandy W. Robinson on Thursday afternoon, Feb. 16th. A general invitation to "come along" is extended to the ladies of Thorsby.

On Friday night at 7:30, in Bates Hall, Rev. J. M. Graham will present in moving pictures, a dramatised version of "Treasure Island," by Robert Louis Stevenson. Miss Ellsworth, Associate Principal of Thorsby Institute, says she has seen a presentation of this feature film and she prounounces it as one of the best she has ever seen. The proceeds will be for the benefit of Thorsby Athletic Association. Admission: Adults 25c, Children 20c.

The Congregational Womans Missionary Society held their regular monthly meetnig with Mrs. J. F. Owen. They had a very interesting study of the school for girls at Kobe, "Gods Gateway," Japan. A country where only one half of one percent of the population are Christians. Started under Congregational auspices in 1875 with seventeen girls who were obliged to disguise themselves as boys to be premitted to go to school. It now has an attendance of 350 in the Academic department and 200 in the college. The school is, like all Congregational schools, wholly non-sectarian, in that in its directors, its faculty and its students body it is inter-denominational. The school is now recognized by the Japanese Government as "of the highest order."

The regular meeting of the Helen Keller Literary Society at Bates Hall last Saturday night, under the direction of Miss Katharine Perry, was under the auspices of "The Pages" section of that organization with the following program:

Negro Sketch,—Floyd Jordan, Codie, Bell, Charles Glasscock, Malcom Johnson.

Jokes,—Jessie Mims.

Birthday Drill — Mabel Howard, Richard Butler, Ruth Sharpe, Arnold Soberg.

Reading, "The Perfect Tribute—Miss Ruth Gerald.

Songs—Ruth Gerald, Orville Mastin, Frank Mastin, Dora Brackin.

IN MEMORIAM

Thorsby, Ala., Feb, 8.—The members of the Thorsby Chamber of Commerce were shocked and deeply grieved on the early evening of February 7th, upon learning of the sudden death of one of our members, Mr. C. J. Paramore.

While the Thorsby Chamber of Commerce exists for the general purpose of community development, agriculturally, industrially, commercially, and in the realm of health, sanitation, education, social life, and all other phases of human welfare. There is running through it all the real element of fraternalism among its members. We greately regret the loss of our friend and neighbor, and loyal member of the Chamber of Commerce, but our loss is nothing compared to the loss that is sustained by his family, for they have lost the companionship of husband and father.

We extend to the family of the passing friend and brother our sincere sympathy, and assure them of our desire to be of any possible service at any time the Chamber of Commerce can serve them.

By order of the Board of Directors.
Thorsby Chamber of Commerce,
JAS. M. GRAHAM,
J. W. DAVENPORT,
Special Committee.

NOTE:—It has been ordered that one copy of this memorial shall be spread upon the minutes of the Chamber of Commerce, one copy mailed the widow, Mrs. Mary Paramore, and one copy handed to the local correspondent of the Union-Banner, a Chilton County paper.

The committee has this day carried out the above order.

There will be an open forum meeting of Thorsby Chamber of Commerce at the Congregational Church at 7:30, P. M., Thursday, Feb. 16. A principal subject for discussion will be Fire Protection.

PROBATE OFFICE ROBBED

Buglars entered the office of Probate Judge Reynolds some time Monday night, and took from the safe $35.00 in cash, and proceeded to generally plunder the office. All the records, books and papers were disturbed, but nothing has been missed except the cash from the safe.

The entry to the office was made through the door, to which it is supposed that the buglar had a key. The keys to one of the doors of the office have mysteriously disappeared, according to a statement made Judge Reynolds, and it is supposed that the party who entered the office Monday night must have first succeeded in swiping the key to the door.

DOINGS at MULBERRY

(By G. H. DeShazo.)

Owing to the recent fire which destroyed the Clanton Post Office, the mails being congested on account of same the news copy of the writer became entangled in same and was delayed so that it failed to reach the Office in time to be printed last week. But will endeavor to make up for the lost time this week.

The weather man has certainly gone on a strike and is letting the weather do just as it pleases. For the past few weeks we have witnessed all the diferent varities of weather within the short space of twelve hours.

Rev. Buford Lawrence filled his regular appointment at Mulberry Baptist Church Sunday last by delivering a very able sermon.

On Thursday of last week Mr. R. L. Veazey had an old fashioned house covering and my, my, how that crowd did enjoy that regular oldfashioned country dinner.

Mr. Duncan Manning and G. H. DeShazo went to Maplesville on business last Friday afternoon.

Business is on the boom here, Mr. Sidney Webb is engaged in building a big two horse wagon for Mr. D. O. Manning. And Mr. E. T. Chasteen is about to start a regular furniture factory. Anyone who wants a good stout rocker, porch swing or wardrobe would do well to confer with Mr. Chasteen on the matter.

Mr. W. T. White has made himself and family a present of a Flivver. He says that is the only thing that he has ever owned that would make everybody, even pedestrians, give him all the road, and take to the tall timber when they saw him coming.

Mr. David Bates of Golden Ridge, was in this community last week, trading mules with Mr. D. O. Maning.

From some indications we would surmise that spring has opened up. We saw Mr. W. G. DeShazo loaded with fishing tackle hiking himself to the creek to try his luck at catching some of the scaly submarines.

Oh, yes we will have plenty of news from Mulberry now as the school kids have gone to reporting their Sunday afternoon frolics to the paper for publication.

Mr. D. O. Manning reports that everything is moving along nicely at his sawmill.

Miss Nola D. Reynolds visited friends and relatives in Plantersville during the past week-end.

Prof. J. D. Griffin spent the week-end with his family at Marbury.

Mrs. D. O. Manning spent Saturday with her sister ,Mrs. W. J. Morris of Liberty.

Mr. D. O. Manning, W. F. Deshazo and the writer made a business trip to Clanton Saturday morning.

Mr. B. A. Mooney has purchased a new Ford truck and is preparing for a trip to Florida in same.

I don't suppose we will have the pleasure of seeing the smilling face of Mr. Earle Williams around here very much longer as he in contemplating going to Florida with Mr. B. A. Mooney.

Mr. W. H. Veazey and son, Renfroe, made a business trip to the Vida Lumber Co. Saturday.

Mr. D. O. Manning, Fonza Jones and the writer was in Maplesville Saturday afternoon on business.

Messrs Paul and Marion Littlejohn were visitors to this community Sunday.

Mr. Wilbur and Wallace Veazey, and Mr. Clifton Merchant of Macedonia were seen making themselves promiscus in this community Sunday afternoon.

Mr. D. C. Mooney has moved his family into the house recently vacated by Mr. B. A. Mooney, where he intends to farm during the coming year, having rented the farm of Mrs. C. W. Martin.

The weather being permissable on Sunday night there was a fairly good crowd out and considerable interest manifested. Come on out folks and lets revive our prayer meeting and make it worth while.

Mr. D. O. Manning, P. W. Barnes and the writer made a business trip to Selma Tuesday, going through in a Flivver. Mr. Manning and Mr. Barnes were interested in buying some mules, while the writer just went along to take in the "sights."

Mr. E. R. Piper of Thorsby was in this community Monday in the interest of his Insurance business.

Dr. H. M. Nix of Maplesville passed thru this community Sunday on his way to visit with friends and relatives in the Macedonia community.

The weather gets pretty bad over here sometimes but we Mulberry folks manage to keep "doing" around enough to let folks know that we are still over here behind the mud. If you don't believe that we hustle things around over here just come on out and we will show you how it is done.

Rev. W. P. Lowery of Thorsby and Rev. W. A. Goss of Mountain Creek, were in Clanton Monday to attend the preachers meeting at the Baptist Church. They visited The Union-Banner office while here.

We note with satisfaction that the Town authorities have a force of men at work with a wagon and a Fordson tractor, gathering up the rubbish that has been collected on the alleys and vacant lots of the town and carrying it to the garbage dumping ground down in the swamp. Just a little bit of this kind of effort will make Clanton a much better looking town.

CLANTON BAPTIST CHURCH

Splendid congregations were present last Sunday at both services of the church, and a good Sunday school of 160 in attendance, though we would like to see this grow up to 200 by next Sunday weather permitting.

The service next Sunday morning will be of a special nature. A Clanton Baptist Church Rally will be held and Rev. S. H. Bennett, State wide Enlistment Secretary will preach. Immediately following the sermon the regular church conference will be held at which some very important matters are to be considered. The reorganization of the church, the adoption of a liberal budget, and balance due on the pews are among some of the matters to be determined at this conference. It is vry important that vry member be present. Let us also work for a record day in the Sunday School by having a Rally in attendance and interest. Sunday School begins at 9:45, A. M. Preaching service at 11, A. M., and 7:15, P. M. We cordially invite you to all of these services. Come and hear the splendid music by the choir.

P. G. CARTER, Pastor.

VOLUME IX. CLANTON, ALABAMA, THURSDAY, FEBRUARY 23, 1922. NUMBER 44.

SHALL WE HAVE A STATE PRIMARY

ALABAMA REPUBLICANS SEEK DETAILED VOTE BY COUNTIES IN LAST ELECTION

There may not be considerable significance attached to a letter received at the secretary of state's office Monday, from C. B. Kennamer, a prominent attorney of Guntersville. In this letter Mr. Kennamer requests a certified list of Alabama counties, showing the number of votes cast in each county for the republican elector receiving the highest number of votes in the last general election.

Mr. Kennamer requests that the list of counties be complete, regardless of whether or not votes were cast in all counties for the republican electors, and states: "I desire this information at once to be used at a meeting of the republican state committee, in prorating representation from the counties to the next state convention."

While Mr. Kennamer's reason for desiring this information, is plainly stated, it is possible that it may also be used in framing a republican ticket for the general election in November. It has been generally understood that republicans in Alabama would not hold a primary for the nomination of candidates for state offices this year. The fact remains however, that in the race for the senior state senatorship in Alabama, in 1920, the republican candidate, L. H. Reynolds, polled 77,337 votes, and the republicans in this state are therefore entitled to their own primary this year if they so desire. Such primary of course would be held on the same date as the democratic primary, namely, August 8.

In any event Mr. Kennamer's request will arouse a keen and widespread curiosity, which will become more intense until a meeting of the republican state committee is held. It is the general impression that this meeting will be called before the end of the present month. When it is the plans of the republicans, if they have any, for the coming election, will be made known, and at the same time the question of the significance of Mr. Kennamer's letter will be definitely settled.—Montgomery Advertiser.

A few weeks ago Congressman Jeffers sent us a few free garden and flower seeds to give out to people who wanted them. They did not last till the paper carrying the announcement was well mailed out. Everybody called here for seeds. Now the Internal Revenue Collector has left some income tax blanks at our office for us to give out to people who call for them. Wonder if they will be as popular in demand as the garden seed. Well we will wait a few days and see.

Mr. E. G. Caldwell, prominent merchant and business man, of Pletcher, was in Clanton Monday of this week.

Mr. W. T. Herrod, Ex-County Commissioner of Chilton County, was a visitor to Clanton Monday. Mr. Herrod is now a resident of Autauga County, having recently bought a farm near Plantersville.

WANT SUGAR CANE

If you have any sugar cane for sale, please communicate with the Editor of The Union-Banner, stating price of same.

Mr. W. A. Calloway of Verbena Route 3, was a visitor to The Union-Banner office Tuesday.

Attorney Wm. M. Adams of Washington, D. C., was in Clanton this week attending Circuit Court.

A Judicious Inquiry.

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed.

REESE MULLINS SAYS HIS CONTROVERSY IS CLOSED

Clanton, Ala., Feb 21, 1922.

Editor Union-Banner:—

May I have a small space in your paper this week to reply in a few words to L. H. Reynolds' article appearing in your last week's issue. I am sure you noticed his miserable failure to answer my questions and did not attempt to say why he and the Commissioners did not come to our rescue on the tax question. I do not care to enter further into a newspaper controversy, as it is not at all my idea of conducting a political campaign, and especially I can not afford to with a man that will not confine himself to facts borne out by the records of his own office. The Judge is mistaken when he says that when he turned over the Court House Keys to Judge Deason in 1910 that he left more than $10,000.00 in the County Treasury and the county out of debt. You know as well as many others, that he left the county busted, as there was at that time more outstanding warrants against the county than there was money in the Treasury to pay. Nothing having been paid off for several months. Old man Bill Mahan could tell you about this if he was living. The Judge thinks we all have forgotten what happened twelve years ago, and even six years ago, but he is badly mistaken and at the proper time his attention may be called to some other things that has been happening all along,

With best of feelings, and for the well fare of one and all, I am closing my newspaper controversy for the time being.

Respectfully,
C. REESE MULLINS.

FRIENDSHIP BAPTIST CHURCH

If the weather is good, there will be "big doings" at Friendship Baptist Church Sunday. Prof W. O. Rich, Chairman of the Friendship Singing Society, promises to have the best singing in the afternoon that we have ever had at this church—and that is promising a lot. He says that he has the promise of some of the best singers of the county to be here next Sunday afternoon, including Profs. A. A. Beaird, W. M. Devaughn, O. L. Devaughn, and several other noted singers. The Singing Societies at Refuge, Liberty Hill, Poplar Springs, Maple Springs, and Providence are especially invited to come as a whole, if possible. Singing will begin at 2:00, p. m.

Sunday School will begin promptly at 10:00 o'clock, and preaching at 11:00. Rev. E. A. Norris of Verbena will preach at both the morning and evening services. The evening service will begin at 7:00, p. m.

All singers are invited to come Sunday, not only to the singing in the afternoon, but also to the morning services. Come and spend the day with us. We will do our best to make you enjoy it.

B. L. Cobb of Jemison was a visitor to Clanton Tuesday.

RURAL ROUTES IN SOUTH INSPECTED FOR DEPARTMENT

By direction of the PostOffice department, postmasters throughout the country have recently made an inspection of the rural routes from their offices. The purpose was that they might ascertain by personal observation and make report whether the roads used were in good condition for travel, the routes well arranged, boxes properly erected, so as to be easily reached by the carriers without difficulty and without obstructing travel, the carriers serving their routes as officially prescribed, the schedule observed, and whether the families served were satisfied with the service rendered, or there were improvements which could be suggested in the interest of the patrons or the Department.

It became necessary, in connection with the inspection, to request many patrons to take action to the end that heir boxes might conform with the regulations as to kind, condition, location, or height, and in having the name of the owner plainly printed on them. Also, to bring to the attention of road overseers or other responsible persons the need for improvement in roads or repair or construction of culverts or bridges.

It is the desire of the Department, to provide adequate and convenient service, so far as may be possible, to all persons residing in rural communities, but this end can not be attained without the full co-operation of the patrons in the offorts of postmasters and carriers to serve them promptly, regularly and satisfactorily.

Whatever facilitates the work of the carrier is of direct benefit to the patrons, for the greater the ease and speed with which a carrier may cover his route the earlier and better the service afforded.

So, patrons of rural delivery can greatly help themselves by helping their carrier, seeing to it that roads are kept in good condition and promptly opened after storms, by keeping the approaches to their boxes clear, and by prompt and willingly correcting any irregularities affecting their boxes when asked to do so.

Another real assistance that patrons can render carriers is by keeping themselves supplied with and using stamps instead of placing unstamped mail, with money for the purchase of the required postage, in the boxes. This delays the carrier and sometimes imposes a great hardship on him, especially in cold or stormy weather. If preferred, stamped envelopes, either printed or plain, may be obtained from the carrier, are of good quality, and cost but little more than the value of the stamps upon them, and are redeemable at the value of the stamps if damaged, but returned in a practically whole condition. If necessary to place money in a box, it should be put in a coin-holding receptacle or so as to be easily picked up by the carrier.

Money for the purchase of money orders should not be left in the boxes, but should be handed to the carrier and a receipt obtained.

MEN HUNT RABBITS WITH BUCK SHOT

REVENUE OFFICERS BUSY LAST WEEK

State and Federal Prohibition Enforcement officers, in co-operation with the Sheriff's force, had a busy time last week in rounding up several stills and arresting a number of alleged prohibition law violators.

The officers were on their way into the stumps hills region out east of Jemison last Thursday, and passing the home of Mell Kimbrough, they observed a great commotion going on inside the house. They went in to investigate and found [illegible] engaged in the act of giving his wife a licking. The officers noticed that somehow a lot of whiskey had been poured out in the house during the fight. Upon investigation they found some more whiskey concealed about the place. Mr. Kimbrough was taken in charge by the officers and brought to the Chilton County jail.

Dept. of Archives and History, Thos. M. Owen, Director.

On the same day the officers located a big still about seven miles northeast of Jemison, which they destroyed. No arrests were made in connection with this raid.

Another adventure into the stumps hill region Friday resulted more fruitful for the officers. They captured two 500 gallon capacity stills, destroyed 1,000 gallons of beer and ten gallons of moonshine liquor, and arrested four men.

As the officers were on their way to the place where they expected to find the still, they met four men, each of whom carried a Winchester shotgun. One of them had a gallon bucket full of liquor. When they were questioned by the officers they said they were hunting rabbits. Some of the officers examined one of the guns and found that it was loaded with buck shot, whereupon it was determined that there must be some mighty big rabbits in that neighborhood.

The four men were arrested and accompanied the officers back to the stills, which were located near each other. The men arrested were Clarence S. Wilson, Dock Horton, Chap Horton and Malcom Garner. The latter lives in Shelby County.

Mr. J. R. Short of Maplesville was a visitor to The Union-Banner office while he was in Clanton last Saturday.

STRAWBERRY BUSINESS STARTS HERE

Clanton Will Ultimately Develop Growing and Shipping of Strawberries Under Arrangement Similar to Thorsby.

This spring marks the advent of many farmers around Clanton into the field of Strawberry culture on a commercial scale. Already more than seventy-five thousand plants have been taken out by different farmers in the vicinity of Clanton, and will be planted right away.

According to the custom of strawberry plants, those planted this spring will not yield enough berries to warrant shipments being made this season. But by next spring they will be ready to produce a good crop, conditions being favorable.

It is the plan of those who are going into the strawberry business here to eventually build up an association here for the growing and shipping of strawberries on the same plan that the business has been conducted at Thorsby for several years. In fact it is the success of the Thorsby growers that has stimulated farmers around Clanton to enter the field.

The following list of farmers who are planting strawberries this spring:

W. Q. Sanders, Dr. N. S. Johnson, W. S. Willis, J. Matt Johnson, W. W. Fox, J A. Hester, Mrs. Houston Massey, J. D. Collins, B. J Sessions, W. H. Foshee, Jr., L. H. Reynolds, P. G. Marcus, J. E. ANNOUNCEMENT

In behalf of our committee, I am glad to announce that the linen showers of last Friday afternoon, given for the benefit of the Central Alabama Hospital, were a signal success.

The large attendance, upon the occasion of the showers, as well as the large number of serviceable gifts, was very gratifying.

Our Committee extends thanks to Rev. P. G. Carter, who, as representative of the Chamber of Commerce, gave an inspiring address on "Our Hospital," the advantages to be derived by us through its establishment in our midst, etc. etc. The audience was appreciative and viewed from every view point through its mental camera "Our Hospital."

We extend our thanks to Dr. Marcus for his timely remarks. His reasoning, prompted by honest judgement, convinced his hearers, that the hospital, as a material investment, will be a paying one.

We thank Mesdames P. D. Wilson and J. Q. Wade for their hospitality and indispensable services rendered upon this occasion.

Lastly, we thank a generous Clanton public for the gifts that crowned with success the showers of last Friday afternoon, when our Central Alabama Hospital became the beneficiary.

Very truly,
MRS. M. L. WHITE.
Chairman of the Ladies Auxiliary to the Central Alabama Hospital Committee.

FUTURE LOOKS GOOD FOR OUR HOSPITAL

As the completion and opening of the Central Alabama Hospital approaches, the outlook for the success of the institution looks brighter and brighter. The editor of The Union-Banner wishes to specially compliment the ladies in and around Clanton for the splendid support which they determined to give the hospital. The result of the showers for the hospital held last Friday at the Wilson Hotel and at the residence of Mrs. J. Q. Wade attests the splendid interest that the ladies are taking in the matter.

This paper feels proud of the fact that we had the pleasure and opportunity of being among the first to advocate the establishment of this much needed and valuable insitution for Clanton and Chilton County. We are glad that so many have seen the wisdom of the move and lent their help and assistance in the erection of the building. If there are any who have doubted that the hospital would be built, we now invite them to take a look at the completed structure, which is one of the finest hospital buildings to be found in the state of Alabama. Then if there are those who have any doubt as to the successful operation of the hospital, we only ask them to wait a short while and they will see the venture and assured sucess in every detail.

It will be only a few days now until the building will be ready for hospital use. There will be a big opening day before long, detailed announcement of which will be made at the proper time.

Thousands of people who had lost hope of ever being well again have been restored to health and happiness by Tanlac.—Upchurch Drug Co.

Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. MR. AND MRS. A. K. HORN LEAVING THORSBY

When people have been in business and otherwise connected with many interests in the activities of a community for 23 years as Mr. and Mrs. Horn have been at Thorsby, their removal is analagous to the taking away of a familiar landmark that has long been prominent part of the community. Having passed the alotted three score and ten years, and owing to the recent fire which destroyed his place of business, Mr. Horn has decided he will not undertake to rebuild and continue in business. Both Mr. and Mrs. Horn were chartetr members of The United Protestant Church of Thorsby (Congregational) and have been active workers in its various departments since it was organized in 1905. Mr. Horn was for many years Superintendent of the Sunday School and held at different times other official positions in the church. Mrs. Horn has been President of the Ladies Aid Society for many years, and has been an efficient worker in many other ways and one who was always ready to lend a hand in time of sickness or other stress.

With one exception Mr. Horn served longer than any one as a member of The Board of Trustees of Thorsby Institute and was usually prompt at meetings of the Board and its Committees.

Mr. and Mrs. Horn are offering their Thorsby property for sale and intend to make an extended visit among their children located in Montgomery and Troy, Ala., and Denver, Colodado. As means of expressing interest in them and an opportunity to bid them good bye and God Speed, some of the members of the church gave them a "good bye party" at the home of Mr. and Mrs. S. E. Norton on Wednesday afternoon, February 22nd to meet a number of members of the Congregational church in a sort of family party. Those present were, Rev. and Mrs. J. W. Danvenport, Rev. and Mrs. E. W. Butler and daughter, Margaret, Rev. and Mrs. J. M. Graham, Mr. and Mrs. J. H. Goddard, Mr. and Mrs. Sam Goddard, Mr. and Mrs. Cal C. Peterson, Mr. and Mrs. Chas. A. Peterson, Mr. and Mrs. R. A. Turner, Miss Ruth Turner, Mr. and Mrs.. Herbert Peterson, Mr. and Mrs. William Neal, Mr. and Mrs. A. M. Piper, Orville Mastin, Mr. and Mrs. Robert Prim, Misses Lorena and Lois Primm, Mr. and Mrs. J. K. Snyder, Mr. and Mrs. J. W. McCain, H. H. Dahl, Misses Palma Dahl, Ola Gringley, and Delma Music, Mrs. Anna Junkerman.

In one of the slowest games of the season Thorsby Institute Basket Ball team completely walked away with the team from Dora, which Professor C. M. Williams broubht 85 miles by auto through mud and ruts on a trip that took just about ten hours, to show Thorsby what his school team could do, Friday, February 17. Going into the game without having any practice since defeating Marbury the Friday before, the Institute boys showed that they had not forgotten a ball in a way to make their shots count. Of the thirty field shots Dora aimed at the goal only four were successful. Thorsby did better, netting eight out of thirty trials. Maddox allowed "Red" Andrews only three shots, one of them going through Parrish, the other Dora Forward, managed to get only two shots and missed both. "Red" caged four out of eight foul tries, for Dora, while Graham tossed four out of seven and Littleton one out of two for Thorsby. We by led the first half by a score of 12 to 8. The game ended 21 to 12 in favor of Thorsby, making the fifth straight win.

Summary: Dora 12, Andrews, f, (6), Parrish, f, (0), Pallinger, c, (4), Haughton, g, Harbour, g, (2),

Thorsby Institute 21, Littleton, f, (11), Graham, f, (6), Franklin, c, (4) Maddox, g, Burkett, g.

The Ladies Guild of Thorsby will hold their regular monthly social at the home of Mrs. E. W. Butler Thursday afternoon at two thirty. All the ladies of Thorsby and vicinity are invited.

Thorsby Chamber of Commerce at their meeting last Thursday night unanimously went on record as favoring the Ford offer for Muscle Shoals and with but one dissenting vote, they also favored securing for Thorsby some adequate means of fire protection.

The Fidelis class of the Thorsby Baptist Sunday school, will give a social in the Sunday school rooms at 7.30, P. M., Thursday, March 2nd. A little apron will be given to you, and this is what we want you to do: Measure your waist line by inch and see that the tape line does not pinch. For each small inch you measure around place one penny in the pocket found. Our Sunday School chairs, sure as you live will be provided with the pennies you give. Refreshments will be served. We want the public to come.

WHERE YOUR MONEY GOES

I am indebted to the late Dr. E. B. Ross, of the United States bureau of standards, whose analyses of government expenditures I have already quoted in these articles, for the following comprehensive survey of how the taxes you pay to the government are apportioned in expenditures. It will give you the clearest and best idea of where your money goes. For his purpose Doctor Ross took the actual appropriations for the fiscal year 1920, amounting to a total of $5,686,005,706, as given in the regular supply bills and three deficiency bills prior to May 1, 1920. For convenience he divided the purposes for which this money was spent into six groups as follows:

Group I.—Obligations arising from recent and previous wars, including interest on the public debt, pensions, war-risk insurance, rehabilitation and care of soldiers, deficit in the operation of railways, expenditures of the shipping board, European food relief and the bonus to government employees to cover partially the increased cost of living due to the war, a total of $3,855,482,586.

Group II.—War and Navy departments—expenses somewhat above a permament peace-time basis—$1,424,188,677.

Group III.—Primary governmental functions, including congress, President and White House staff, courts and penal establishments, departments of justice, state, treasury, interior, commerce, labor, interstate commerce, and other commissions, one-half the District of Columbia, including all the necessary functions of government other than defense, except the commercial activities of Group V and the research, educational and developmental work of Group VI—$181,087,225.

Group IV.—Public works, including rivers and harbors, public buildings, reclamation service, post roads, national parks and railway in Alaska—$168,203,557.

Group V.—Commercial or self-supporting activities, including the post office, land office, Panama canal and housing corporation, which, taken together, earn their expenses.

Group VI.—Research, educational and developmental, including the wide range of work of the Agricultural department, geological survey, bureau of mines, coast and geodetic survey, bureau of standards, bureau of fisheries, bureau of foreign and domestic commerce, bureau of labor statistics, women's and children's bureaus, vocational education, colleges for agriculture and mechanic arts, library of congress, Smithsonian institution and the public health service—$57,093,661.

Total groups I to VI—$5,686,005,706.

Summary.		Per Cent
Group I—Expenditures arising from recent and previous wars	$3,855,482,586.60	67.81
Group II—War and Navy departments	1,424,188,676.57	25.02
Group III—Primary governmental functions	181,087,225.41	3.19
Group IV—Public works	168,203,557.46	2.97
Group VI—Research, educational and developmental	57,093,660.98	1.01
Total	$5,686,005,705.97	100.00

The first two groups together amount to 92.8 per cent of the total; public works amounts to 3 per cent, primary governmental functions 3.2 per cent, and research, educational and developmental work, 1 per cent. The population of the country being about 110,000,000, the total budget is about fifty dollars a year per capita, of which fifty cents a year per capita is expended for the wide range of research, educational and developmental work included in Group VI.

"That is, of the fifty dollars a year per capita collected for all purposes, a dollar and a half a year per capita," Doctor Ross went on to point out, "was spent for what is here called primary functions of government; nearly as much more was put into public works, and fifty cents a year was put back into research, educational and developmental work, to promote scientific research, to increase production and efficiency, to develop wealth, to promote the public health and to conserve our natural resources. That is a very small part of the total—hardly enough to be regarded as a burden on the nation.

"Indeed, one is led to wonder whether the total burden of taxation would not be lighter if the expenditure for scientific and developmental work were increased; if, for example, it were one dollar a year per capita instead of fifty cents. In other words, if $110,000,000 were expended annually for this creative and productive work, would it not be easier to collect the five and a half billions for other purposes?"

The big money, of course, goes for war, past, present and future, and that is where the saving must be made.

Thirty thousand persons are killed or injured in the United States every day.

DOINGS at MULBERRY

(By G. H. DeShazo.)

As a general rule health is very good at present in this community. And my, but aren't we having some beautiful weather now. The farmers are getting busy here, orchards pruned and sprayed and everything in general is being given the once over and made to look as if the people really meant business.

Thot sho last Wednesday that we were going to get to play snow ball, but just about the time that we had made up our mind as to what we would do the next day, the weather man decided that he had made a mistake and called the snow off.

Mr. Will T. White went to Clanton last Friday shopping, and while there disposed of some of his surplus corn.

Mr. O. F. Davenport and T. L. LeCroy went to Clanton last Saturday on business

Mr. D. O. Manning and W. J. Peters were in Maplesville Saturday attending to the shipping of some cotton to Selma.

Misses Nola D. Reynolds and Jessie Dennis went to Maplesville Saturday morning on a shopping trip.

Mr. C. B. Lenoir, road apportioner for this beat, was in Clanton Saturday attending the special session of Commissionsrs Court and attending to other business matters.

Mr. R. J. and C. C. Williams made a business trip to Clanton Saturday afternoon.

The younger set enjoyed quite a treat on last Saturday night when the Misses Jewel and Vera Wright entertained at an informal Social gathering. Those enjoying this hospitality were: Misses Eleanor Summers, Tula Mae Edwards, Annie Ruth and Glois Manning, Jessie Dennis, Nola D. Reynolds and Mrs. Jessie and Jethrro Hayes, Alvin Mooney, Earl Williams and Guy DeShazo. Also Mr. and Mrs. Kirby Lee Summers.

Mr. M. Manning was visiting relatives in this community last Monday and Tuesday.

Mr. D. O. Manning made a business trip to Montgomery Tuesday to purchase himself a pretty new red wagon.

WILSON BROTHERS LOSE CASE

The case of Wilson Brothers of Pletcher, against the M. & O. Railroad, in the Circuit Court of Chilton County Tuesday, was decided in favor of the Railroad. The case arose out of the burning of a building at Pletcher which belonged to the Wilson Brothers, they were suing the railroad for damages upon the allegation that the burned building was set on fire by a passing train on the M. & O. This is the second time this case has been tried and decided in favor of the railroad.

Joseph Teel of Livingston spent a few days with relatives in Clanton this week. Joe is the son of Ben Teel. He became connected with a Veneer concern several years ago, in the service of whom he is still engaged.

Mr. Calvin Dennis of Deatsville was in this community Sunday visiting Miss Annie Manning, and incidentily spending some time with his sisters, Misses Gussie and Jessie Dennis.

Mr. W. T. White and family spent Sunday afternoon with Mrs. White's mother, Mrs. M. B. Manning.

Mr Willie T. Martin of Birmingham was in this community Monday looking after business connected with his mothers farm.

Misses Mary Belle Woolley and Tula Mae Edwards spent Monday in Clanton on a shopping tour.

Mr. and Mrs. B. A. Mooney packed up their Flivver truck and pulled out for Wauchula, Fla., Monday afternoon. Mr. and Mrs. Mooney were accompanied by Messrs Earl Williams and Alvin Mooney. We certainly dislate to loose them from our community, but as they have gone lets wish them very best of success and health in their new home in the Land of Flowers. Mr. Mooney goes to Fla., to engage in the saw mill business.

Mr. W. F. and G. H. Deshazo made a business trip to Clanton Saturday.

CLANTON BAPTIST CHURCH

Last Sunday was a good day for this church. The value of a united effort was demonstrated in the splendid Sunday School attendance of 185 and the offering in the Sunday School of $9.03. Two fine congregations were present at both services. Rev. S. H. Bennett, Superintendent of Field Work for the State, preached in the morning on "My duty to my church and minister" which was good and practical, based on the relationship of a Layman to his church and pastor. Those who failed to hear this missed a good and helpful sermon. The auditorium of the main floor was well filled at night to hear the sermon by the pastor on The Barren Fig Tree. This was listened to with splendid attention by the audience. The choir rendered some good music which is now becoming a regular attractive part of the service and is much appreciated. The decoration of the platform with the flowers and ferns was another very attractive feature and showed splendid taste and fine interest in the services.

The finance committee are busy this week seeking to raise the neccessary budget for the coming year. With the new building increased expenditures are neccessary. We hope therefore, that the membership will respond liberally in the amount requested by this committee which has been fixed according to the ability of the people. By united effort on the part of the people all the expenses of the budget can easily be met.

With the prospects of good weather let's seek to build up weekly a growing Sunday school and congregation. It is gratifying to know, that during the present pastoriate the Sunday school and preaching services have nearly doubled in atetndance, and the membership roll considerably increased. We solicit your co-operation and your prayers.

Every one is cordially invited to our services.

HARDING AT HOME AND WILSON ABROAD

"In presenting to the Senate the treaties agreed upon at the Armament Conference President Harding occupied a position much stronger than that occupied by President Wilson when he presented the treaty agreed upon at Versailles," declares the Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr. "Mr. Harding was in a position to argue that the honor of the country required the ratification of the treaty. President Wilson and his supporters undertook to make such claim in behalf of the treaty of peace with its league of nations encumbrance, but the plea gained no credence anywhere.

"The difference between the two situations is clear. President Wilson went to Paris practically alone. He took with him a few subordinates, but he neither counseled with them nor received from them any suggestions. They were mere clerks carrying information to give him if called for. Neither directly nor indirectly did he take the advice of the Senate nor keep the Senate informed as to the steps he was taking. Moreover, it having been reported that President Wilson intended to incorporate in the peace treaty the league of nations covenant, thirty-nine Members of the Senate notified him in writing and by the adoption of a resolution that they could not support the treaty with such a provision in it. With that knowledge before him and before the other nations represented at Versailles, President Wilson continued in his determination to interweave the league of nations covenant in the peace treaty in such a way that the whole must be accepted or rejected. He undertook to force the Senate to give its sanction to agreements with which the Senate disagreed.

"No such methods were pursued by President Harding. Instead of going personally as a delegate to the Conference he appointed four of the ablest men in the United States, two of them Members of the Senate and leaders of their respective political parties. These four men in constant consultation among themselves and with the President and with Members of the Senate represented the interests and desires of the United States government. Moreover, the Senate had already, by adoption of a resolution, declared its desire that treaties be made providing for limitation of armament and settling vexatious questions in the Pacific. Thus it is seen the President made the treaties with the 'advice' of the Senate.

"In one other respect President Harding's position was much stronger than that of President Wilson. At the same time he submitted the treaties to the Senate he placed before that body a complete copy of the minutes of the proceedings by which the terms of the treaties were arrived at. In other words, he placed before the Senate all the information in his possession bearing upon the agreements by which it was proposed the United States should be bound. Not so did President Wilson. A vast amount of the data pertaining to the Peace Conference at Versailles was hidden away in what has since been called the 'steel box,' and only in recent weeks have the Senate and the public been permitted to know a portion of the contents of that box and even at this late date only such portions as an editor acting under the direction of Mr. Wilson saw fit to make known through the columns of a limited number of newspapers.

"President Wilson proceeded to negotiate a treaty in violation of both the spirit and the letter of the United Sates Constitution. President Harding paid due respect to both."

IN ANSWER TO MR. BRYAN

Washington, Feb. 20.—"It is common knowledge that the deflation program of the Wilson Administration hit the farmers first and hardest," declares the Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr. "It is common knowledge that the only maximum price fixing undertaken by the Wilson Administration was that which fixed maximum prices for agricultural products. When Congress had undertaken to fix a maximum price for wheat the administrative department of the Government adopted practices which made that price the maximum price.

"In view of the unfailing effort of the Wilson administration to injure agriculture at every opportunity and to refuse to aid agricultural industry in time of pressing need, it is impossible to understand by what line of reasoning William J. Bryan reached the conclusion recently stated by him that the farmers hold the present Administration responsible for their financial depression and will elect a Democratic Congress next November.

"It was not only by affirmative acts that the Democratic administration spread disaster throughout the agricultural community, but by negative acts as well. It will be remembered that the Democrats began their deflation program early in 1920 and the farmers felt the blow that had been aimed at them when it came time to sell their crops in the fall of that year. Recognizing the seriousness of the situation, the Senate Committee on Agriculture presented, on the second day of the session of Congress in December, 1920, a resolution which had been approved by unanimous vote of the Committee prior to its introduction, reviving the War Finance Corporation.

"This resolution, presented by Senator A. J. Gronna of North Dakota, recited that there existed unprecedented distress on account of the inability of farmers to dispose of their products notwithstanding the people of Europe were in dire need of those articles of food, and the resolution directed the revival of the Corporation in order to assist in finding foreign markets for the American surplus. That resolution was supported in the Committee on Agriculture. It was passed by both Houses but vetoed by President Wilson in a message transmitted to Congress on January 3, 1921. On the same day it was passed in the Senate over the President's veto and on the next day was passed over the veto in the House. Both Houses of Congress, at that time, were Republican.

"The Republicans did not assert or assume that the revival of the War Finance Corporation would cure all the ills from which American agriculture was then suffering. They did not expect it to right the wrongs that had been perpetrated. It was the only measure, however, that offered even a small degree of relief and they passed it in defiance of the opposition and veto of the Democratic President.

"With this record before them, American farmers are not likely to be deceived by the statement of Mr. Bryan or any other Democrat, that the Republicans should be held responsible for the present predicament of our agricultural industry."

He says he has always wanted to be fair to everybody, and still has that same desire. He urges everybody to take due notice of the sitting of the Board of Registrars from March 13th to March 17th, inclusive, at the Court House, to the end that all who may wish to register may know about it and come and register.

INCOME TAX MAN HERE

Mr. T. B. Smith, a deputy from the office of the internal revenue collector for Alabama, was in Clanton last Monday for the purpose of helping persons fill out their income tax blanks. Owing to the fact that the announcement of his coming was not advertised in the papers there were not many who called upon Mr. Smith for aid in filling out returns.

However, Mr. Smith left income tax blanks and at The Union-Banner office, where anyone desiring them may call and get the blanks and fill out their returns.

Deputy Smith requested The Union-Banner to say that he will be very glad at any time to communicate any advice to anyone upon any point of the income tax law about which there may be doubt or misunderstanding. Write him at the office of the Internal Revenue Collector at Birmingham and ask him your question and it will have prompt atention.

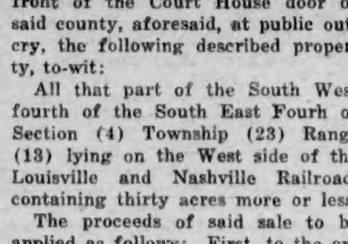
Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now,—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it.

When the cause of skin troubles and eruptions is in the blood, it isn't common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S.S.S. is a scientific blood cleanser,—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S.S.S. is also a powerful body-builder, because it builds new and more blood-cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.



Let S. S. S. Give You An Angelic Skin!

AGE BLEED THROUGH

Some Aspects of the Farmers' Problems

By BERNARD M. BARUCH

(Reprinted from Atlantic Monthly)

I

The whole rural world is in a ferment of unrest, and there is an unparalleled volume and intensity of determined, if not angry, protest, and an ominous swarming of occupational conferences, interest groupings, political movements and propaganda. Such a turmoil cannot but arrest our attention. Indeed, it demands our careful study and examination. It is not likely that six million aloof and ruggedly independent men have come together and banded themselves into active unions, societies, farm bureaus, and so forth, for no sufficient cause.

Investigation of the subject conclusively proves that, while there is much overstatement of grievances and misconception of remedies, the farmers are right in complaining of wrongs long endured, and right in holding that it is feasible to relieve their ills with benefit to the rest of the community. This being the case of an industry that contributes, in the raw material form alone, about one-third of the national annual wealth production and is the means of livelihood of about 49 per cent of the population, it is obvious that the subject is one of grave concern. Not only do the farmers make up one-half of the nation, but the well-being of the other half depends upon them.

So long as we have nations, a wise politcial economy will aim at a large degree of national self-sufficiency and self-containment. Rome fell when the food supply was too far removed from the belly. Like her, we shall destroy our own agriculture and extend our sources of food distantly and precariously, if we do not see to it that our farmers are well and fairly paid for their services. The farm gives the nation men as well as food. Cities derive their vitality and are forever renewed from the country, but an impoverished countryside exports intelligence and retains unintelligence. Only the lower grades of mentality and character will remain on, or seek, the farm, unless agriculture is capable of being pursued with contentment and adequate compensation. Hence, to embitter and impoverish the farmer is to dry up and contaminate the vital sources of the nation.

The war showed convincingly how dependent the nation is on the full productivity of the farms. Despite herculean efforts, agricultural production kept only a few weeks or months ahead of consumption, and that only by increasing the acreage of certain staple crops at the cost of reducing that of others. We ought not to forget that lesson when we ponder on the farmer's problems. They are truly common problems, and there should be no attempt to deal with them as if they were purely selfish demands of a clear-cut group, antagonistic to the rest of the community. Rather should we consider agriculture in the light of broad national policy, just as we consider oil, coal, steel, dyestuffs, and so forth, as sinews of national strength. Our growing population and a higher standard of living demand increasing food supplies, and more wool, cotton, hides, and the rest. With the disappearance of free or cheap fertile land, additional acreage and increased yields can come only from costly effort. This we need not expect from an impoverished or unhappy rural population.

It will not do to take a narrow view of the rural discontent, or to appraise it from the standpoint of yesterday. This is peculiarly an age of flux and change and new deals. Because a thing always has been so no longer means that it is righteous, or always shall be so. More, perhaps, than ever before, there is a widespread feeling that all human relations can be improved by taking thought, and that it is not becoming for the reasoning animal to leave his destiny largely to chance and natural incidence.

Prudent and orderly adjustment of production and distribution in accordance with consumption is recognized as wise management in every business but that of farming. Yet, I venture to say, there is no other industry in which it is so important to the public—to the city-dweller—that production should be sure, steady, and increasing, and that distribution should be in proportion to the need. The unorganized farmers naturally act blindly and impulsively and, in consequence, surfeit and dearth, accompanied by disconcerting price-variations, harass the consumer. One year potatoes rot in the fields because of excess production, and there is a scarcity of the things that have been displaced to make way for the expansion of the potato acreage; next year the punished farmers mass their fields on some other crop, and potatoes enter the class of luxuries; and so on.

Agriculture is the greatest and fundamentally the most important of our American industries. The cities are but the branches of the tree of national life, the roots of which go deeply into the land. We all flourish or decline with the farmer. So, when we of the cities read of the present universal distress of the farmers, of a slump of six billion dollars in the farm value of their crops in a single year of their inability to meet mortgages or to pay current bills, and how, seeking relief from their ills, they are planning to form pools, inaugurate farmers' strikes, and demand legislation abolishing grain exchanges, private cattle markets, and the like, we ought not hastily to brand them as economic heretics and highwaymen, and hurl at them the charge of being seekers of special privilege. Rather, we should ask if their trouble is not ours, and see what can be done to improve the situation. Purely from self-interest, if for no higher motive, we should help them. All of us want to get back permanently to "normalcy;" but is it reasonable to hope for that condition unless our greatest and most basic industry can be put on a sound and solid permanent foundation? The farmers are not entitled to special privileges; but are they not right in demanding that they be placed on an equal footing with the buyers of their products and with other industries?

II

Let us, then, consider some of the farmer's grievances, and see how far they are real. In doing so, we should remember that, while there have been, and still are, instances of purposeful abuse, the subject should not be approached with any general imputation to existing distributive agencies of deliberately intentional oppression, but rather with the conception that the marketing of farm products has not been modernized.

An ancient evil, and a persistent one, is the undergrading of farm products, with the result that what the farmers sell as of one quality is resold as of a higher. That this sort of chicanery should persist on any important scale in these days of business integrity would seem almost incredible, but there is much evidence that it does so persist. Even as I write, the newspapers announce the suspension of several firms from the New York Produce Exchange for exporting to Germany as No. 2 wheat a whole shipload of grossly inferior wheat mixed with oats, chaff and the like.

Another evil is that of inaccurate weighing of farm products, which, it is charged, is sometimes a matter of dishonest intention and sometimes of protective policy on the part of the local buyer, who fears that he may "weigh out" more than he "weighs in."

A greater grievance is that at present the field farmer has little or no control over the time and conditions of marketing his products, with the result that he is often underpaid for his products and usually overcharged for marketing service. The difference between what the farmer receives and what the consumer pays often exceeds all possibility of justification. To cite a single illustration. Last year, according to figures attested by the railways and the growers, Georgia watermelon-raisers received on the average 7.5 cents for a melon, the railroads got 12.7 cents for carrying it to Baltimore and the consumer paid one dollar, leaving 79.8 cents for the service of marketing and its risks, as against 20.2 cents for growing and transporting. The hard annals of farm-life are replete with such commentaries on the crudeness of present practices.

Nature prescribes that the farmer's "goods" must be finished within two or three months of the year, while financial and storage limitations generally compel him to sell them at the same time. As a rule, other industries are in a continuous process of finishing goods for the markets; they distribute as they produce, and they can curtail production without too great injury to themselves or the community; but if the farmer restricts his output, it is with disastrous consequences, both to himself and to the community.

The average farmer is busy with production for the major part of the year, and has nothing to sell. The bulk of his output comes on the market at once. Because of lack of storage facilities and of financial support, the farmer cannot carry his goods through the year and dispose of them as they are currently needed. In the great majority of cases, farmers have to entrust storage—in warehouses and elevators—and the financial carrying of their products to others.

Farm products are generally marketed at a time when there is a congestion of both transportation and finance—when cars and money are scarce. The outcome, in many instances, is that the farmers not only sell under pressure, and therefore at a disadvantage, but are compelled to take further reductions in net returns, in order to meet the charges for the service of storing, transporting, financing, and ultimate marketing—which charges they claim, are often excessive, bear heavily on both consumer and producer, and are under the control of those performing the services. It is true that they are relieved of the risks of a changing market by selling at once; but they are quite willself sufficient and did not depend upon, or care very much, what the great world was doing. The result is that the agricultural group is almost as much at a disadvantage in dealing with other economic groups as the jay farmer of the funny pages in the hands of sleek urban confidence men, who sell him acreage in Central Park or the Chicago city hall. The leaders of the farmers thoroughly understand this, and they are intelligently striving to integrate their industry so that it will be on an equal footing with other businesses.

As an example of integration, take the steel industry, in which the model is the United States Steel Corporation, with its iron mines, its coal mines, its lake and rail transportation, its ocean vessels, its by-product coke ovens, its blast furnaces, its open hearth and Bessemer furnaces, its rolling mills, its tube mills and other manufacturing processes that are carried to the highest degree of finished production compatible with the large trade it has built up. All this is generally conceded to be to the advantage of the consumer. Nor does the steel corporation inconsiderately dump its products on the market. On the contrary, it so acts that it is frequently a stabilizing influence, as is often the case with other large organizations. It is master of its distribution as well as of its production. If prices are not satisfactory the products are held back or production is reduced or suspended. It is not compelled to send a year's work to the market at one time and take whatever it can get under such circumstances. It has one selling policy and its own export department. Neither are the grades and qualities of steel determined at the caprice of the buyer, nor does the latter hold the scales. In this single integration of the steel corporation is represented about 40 per cent of the steel production of America. The rest is mostly in the hands of a few large companies. In ordinary times the steel corporation, by example, stabilizes all steel prices. If this is permissible (it is even desirable, because stable and fair prices are essential to solid and continued prosperity) why would it be wrong for the farmers to utilize central agencies that would have similar effects on agricultural products? Something like that is what they are aiming at.

Some farmers favored by regional compactness and contiguity, such as the citrus-fruit-raisers of California, already have found a way legally to merge and sell their products integrally and in accordance with seasonal and local demand, thus improving their position and rendering the consumer a reliable service of ensured quality, certain supply, and reasonable and relatively steady prices. They have not found it necessary to resort to any special privilege, or to claim any exemption under the anti-trust legislation of the state or nation. Without removing local control, they have built up a very efficient marketing agency. The grain, cotton, and tobacco farmers, and the producers of hides and wool, because of their numbers and the vastness of their regions, and for other reasons, have found integration a more difficult task; though there are now some thousands of farmer's co-operative elevators, warehouses, creameries, and other enterprises of one sort and another, with a turn-over of a billion dollers a year. They are giving the farmers business experience and training, and, so far as they go, they meet the need of honest weighing and fair grading; but they do not meet the requirements of rationally adjusted marketing in any large and fundamental way.

The next step, which will be a pattern for other groups, is now being prepared by the grain-raisers through the establishment of sales media which shall handle grain separately or collectively, as the individual farmer may elect. It is this step—the plan of the Committee of Seventeen—which has created so much opposition and is thought by some to be in conflict with the anti-trust laws. Though there is now before congress a measure designed to clear up doubt on this point, the grain-producers are not relying on any immunity from anti-trust legislation. They desire, and they are entitled, to co-ordinate their efforts just as effectively as the large business interests of the country have done. In connection with the selling organizations the United States Grain Growers Incorporated is drafting a scheme of financing instrumentalities and auxiliary agencies which are indispensable to the successful utilization of modern business methods.

It is essential that the farmers should proceed gradually with these plans, and aim to avoid the error of scrapping the existing marketing machinery, which has been so laboriously built up by long experience, before they have a tried and proved substitute or supplementary mechanism. They must be careful not to become enmeshed in their own reforms and lose the perspective of their place in the national system. They must guard against fanatical devotion to new doctrines, and should seek articulation with the general economic system rather than its reckless destruction as it relates to them.

MR. OLIVER WRITES ABOUT REGISTERING VOTERS

Editor Union-Banner:—

Some controversy has been carried through the County Papers recently in regard to the actions of the county Registrars and other things.

There is not one person who can thruthfully say that I have been unfair or shown partiality to any one from the time I begun in October 1920, to this day. We made mistakes, no doubt. They are made daily in all departments of the Government.

The Registrtion law that was adopted by the Constitution, which was opposed by the leaders of the Republican party, enables all WHITE PEOPLE, without regard to station in life, to REGISTER. These laws have been changed from time to time to meet changed conditions. They are not perfect, but ALL WHITE PEOPLE of proper age can REGISTER, and if they voluntarily pay the POLL Tax, which goes to school fund, they can vote.

Compare this law with the one that the Republican party would have made in 1901, in line with their past record in the State of Alabama.

Grant that Judge Deason was a financial failure, for the sake of argument. Sometimes we hear of an honest failure in business affairs. Do we find people going out of their way to criticise these unfortunates?

But I deny that Judge Deason's Administration was a failure. When he suggested the sale of Bonds, the practical thing to do, he was denied any encouragement from the leaders of the opposite party. Note the difference after he left office.

Again, it has been said that the roads built while Judge Deason was in office are not worth much. Any one familiar with the old and new roads know facts do not bear out that statement.

And too, the roads were built for much less than they could be built today. There are many people in this county who believe that if the funds spent for upkeep had been properly used, the roads now would be in good condition and not impassable, as in many places.

Yours truly,
H. B. OLIVER.

DR. GRAGG THANKS LADIES FOR HELP

Clanton, Ala. Feb. 22, 1922.

To the Editor:—

I would like to ask a short space in your paper to officially express the thanks of the Central Alabama Hospital to the ladies of Clanton, including both the committees and the many givers who participated in the linen shower for the hospital on the 17th Inst.

It was certainly a pleasant surprise to see the great number of donations and to know that they are still coming in as they are. Another thing that we would like to mention is that none of them were trifling gifts. They were all useful gifts and things of value, ranging all the way from table napkins and towels to expensive blankets and bedspreads. The great number of valuable gifts were far in excess of any reasonable expectation.

For all this the thanks of the hospital management is beyond that of words to express.

Respectfully,
V. J. GRAGG, President.

Clanton continues to improve, and again it is Eighth Street that's coming to the front. Mr. Guy Higgins has bought the John Stanfield Home at the corner of Eighth Street and Fourth Avenue and is making some extensive improvements about the place. Judge Reynolds is having the sidewalk paved alongside his property north from Fourth Avenue on the east side of Eighth Street. Grady Reynolds will also pave the sidewalk on his property south from Fifth Avenue on the east side of Eighth Street. Dr. Upchurch will soon pave the sidewalk on his vacant property north from Fourth Avenue on the West side of Eighth Street. This will complete concrete sidewalks on both sides of Eighth Street between Fourth and Fifth Avenues.

Walter L. Culp, alias, Spanish Culp, or possibly better known as the man who discovered a railroad in Florida some years ago, landed back in Clanton last Friday, after spending several months in the north. Spanish is now engaged as a vaudeville performer on the stage, being connected with a prominent vaudeville circuit.

STOPPING OF L. & N. TRAIN NO. 1

The second hearing for the stopping of L. & N. Train No. 1 took place at Montgomery on Tuesday of this week, when the testimony of the Railroad was taken to show reason according to their ideas in the matter why this train should not stop at Clanton. The Secretary of the Chamber of Commerce was present to watch the interests of the citizens of Clanton in this matter. The main reason as stated by the railroad for not stopping this train was the impossibility of maintaining the schedule time of the train which is arranged by them, to meet certain competitive lines at New Orleans and other places. In a mass of technical evidence this was the main argument. It is however, very strange that this train can stop at every other county seat in the State below Montgomery, and a stop of only three minutes at Clanton would delay their schedule so seriously. As was shown by the lawyer representing the plaintiffs according to a detailed statement presented by the defendants the train in question arrived in Montgomery some eleven out of about thrirteen times promptly on time, notwithtsanding the fact that it was supposed to arrive at Clanton late almost every day, thus showing the easy possibility of making up the required three minutes to sop at Clanton, between said stop and Montgomery.

Since we have no express train south during the day the claims of the citizens of Clanton are reasonable and just for the stopping of this train, and by the evidence produced we feel that we have a strong case in our favor. It will depend however, upon the viewpoint taken by the Judge of the Circuit Court who is to make the decision as to the success of our contention. This will likely be given within the next thirty days, and we shall wait with interest the verdict.

Squire John S. Dennis of Beat 11 was among the visitors to The Union-Banner office last Saturday.

H. L. Walker of Thorsby was a visitor to Clanton last Thursday.

Mr. J. B. Wiggins of Dry Valley was in Clanton last Friday.

Mr. R. P. Kendrick of Plantersville was in Clanton a few days the first of this week attending Circuit Court. Mr. Kendrick is one of the oldest citizens of this county. He has been coming to Clanton attending courts and serving as a juror, and otherwise participating in the affairs of the county ever since the county was first formed over forty years ago. It is interesting to hear him relate incidents that took place in those early days of our history.

Mr. Newton Aldridge of Montgomery is at home this week with his mother. Newton is now employed by the Wester Union Telegraph Co., and he has a fine position with them.

Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't over hungry. I knew, by this, I needed a tonic, and as there is none better than—

CARDUI
The Woman's Tonic

. . . I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

This Is Better Than Laxatives

One NR Tablet Each Night For A Week Will Correct Your Constipation and Make Constant Dosing Unnecessary. Try It.

Poor digestion and assimilation mean a poorly nourished body and low vitality. Poor elimination means clogged bowels, fermentation, putrifaction and the formation of poisonous gases which are absorbed by the blood and carried through the body.

The result is weakness, headaches, dizziness, coated tongue, inactive liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, sallow complexion, pimples, skin disease, and often times serious illness.

Ordinary laxatives, purges and cathartics—salts, oils, calomel and the like—may relieve for a few hours, but real, lasting benefit can only come through use of medicine that tones up and strengthens the digestive as well as the eliminative organs.

Get a 25c box of Nature's Remedy (NR Tablets) and take one tablet each night for a week. Relief will follow the very first dose, but a few days will elapse before you feel and realize the fullest benefit. When you get straightened out and feel just right again you need not take medicine every day—an occasional NR Tablet will then keep your system in good condition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well.

Nature's Remedy (NR Tablets) are sold, guaranteed and recommended by your druggist.

MR. PARNELL WRITES DEFENDING REGIST'RS

Thorsby, Ala., Feb. 20, 1922.

Editor:-

I notice in the Union-Banner, issue of February 16th, a reply to C. Reese Mullins from Judge L. H. Reynolds which deals largely with the action of the Registrars. He says much about how things ought to be run, and in many of these I agree with him. He undertakes to trail the Registrars over the County and tell the people what they did. He claims to write from "Information," and writes in such a way that it would seem to be facts in the case. If he has been misinformed in the matter, I want to give him the facts. The Judge undertakes to give the exact time and places the Registrars have gone wrong. He claims we registered Mrs. Durbin under a wagon shed and that there was a Republican woman in the house that we failed to register. The Registrars did not know this Republican woman was in the house and that she wanted to Register. The Judge nor any other Republican did not furnish us with the names of Republicans that wanted to register or was entitled to register.

On January 5th we went to Pletcher and was in session all day at that place. We left there late in the afternoon to go to Beat 8. We were to spend the night with W. Hamp Foshee reaching his place after dark. On our way from Beat 15 to Beat 8 we passed the home of D. M. Apperson, who lives in Beat 8. The Judge well knows that a person can not register except in their own beat or at the Court House. Sec. 8 of the Acts of October 1920, provides that no person shall be registered except at the Court House or in the precinct or ward in which he or she resides. Now then we were scheduled to register voters in Beat 15 that day and late that afternoon we passed into Beat 8 on our way to Mr. Foshee's. Mr. Apperson and his wife lives in Beat 8, therefore, we could not register Mrs. Apperson that day. The Judge also makes the statement that Mrs. Apperson was sick and could not go and register. Let us state that we saw Mrs. Apperson as we passed out at the cow pen feeding and milking her cows. She did not appear to be sick at that time. We passed by Mr. John Ramsey's after dark. There was no light there and we supposed they had retired. And besides we did not know there was anyone there to register. We could not have registered this party for the same reason as in the case of Mrs. Apperson.

We spent the night at Mr. Foshee's and the next morning went on to Riderville to fill our advertised appointment there. We spent the entire day at Riderville and did not go out any where. On our way to Riderville from Foshee's the next morning we did stop at Mrs. Houston's and register those entitled to register. This was the day we were scheduled to be in Beat 8. Now as to this being contrary to the law, I refer the Judge to Sec. 11 of the Acts of October 1920, which reads as follows: "The board of registrars shall have power to examine, under oath or affirmation all applicants for registration, and to take testimony touching the qualifications of such applicants. Each member of such board is authorized to administer the oath to be taken by the aplicants and witnesses, which shall be in the following form and subscribed by the person making it, and preserved by the board, namely: I solemnly swear that in the matter of the application of ———for registration as elector, I will speak the truth, so help me God." The law does not require the applicant to come before the entire board at any particular place. The registrars, however, must be in the Beat in which the applicant resides and on the day they are scheduled to be in that Beat. All applicants that were taken in this way were brought before the board and a certificate issued only after a majority of board had approved it. We construe our action to be according to the law. Section 34 of the Acts of October 1920, provides that, "The board of registrars shall have the power and authority to make such rules and regulations as it deems proper for the receipt of applications for registration and the accomplishing in as expedient a manner as possible for the registration of those entitled to register, provided, however, no person shall be registered until a majority of the beard of registrars has passed favorably upon such person's qualification. We claim we have a right to make our own rules and regulations in so far as we do not go contrary to the law.

With reference to going to the Democratic beats first, I want to state that I planned the route entirely to suit the Registrars and not to suit the Democrats nor Republicans. If the route went to the Democratic beats first, I want to call the Judge's attention to the fact that he planned the route of Registrars in 1920 and that the Republican beats were served first. He has no kick coming there. Turn about is fair play.

Now in conclusion I want to emphatically state that we tried to do our duty as we saw it and to the best of our ability. I am sorry to see that we displeased the Judge in the registration of voters. The board registered Republicans and Democrats alike as they found them, and the failure of any one to become registered is due to their own fault.

J. R. PARNELL,
One of the Registrars.

LIBERTY HILL

The singing society met Sunday afternoon with a large crowd, and good singing. The directors were Glover and J. M. Smith, Rube Miller, J. W. Lowery. The organists were W. G. Culp, Blanche Riggins and Lillie Smith.

We were glad to have with us singers from other places. We invite them to come again.

Our society meets again March 5th. We invite all lovers of music to come and help us.

Our Sunday school and B. Y. P. U. are progressing nicely, but only a few are interested in the work. Those faithful few are carrying the work on as if all were there. Everybody should be interested in Sunday school and B. Y. P. U., especially the members of the church.

Let's all attend Sunday School and B. Y. P. U. Sunday morning.

WEDDING AT COURT HOUSE

Mr. Grady Lodge of Birmingam and Miss Mattie Lou Kelley of Clanton were happily married at the Court House last Saturday, Rev. A. C. Wells performing the ceremony.

Rev. Bob Reynolds of Jemison was a visitor to Clanton Monday.

MAPLESVILLE NEWS

We are indeed glad to have our school progressing like it has been for the last few days. Everybody seems to be enjoying the school. Although the weather is very unfavorable for the girls and boys who live out from school, for it has rained so much until the roads are muddy, but it seems as if our girls and boys are so interested in coming to school until they get their rain coats and parasols and come right on to school. And we owe much credit to Prof. H. A. Harris and his assistants for the great interest that has been aroused in and around Maplesville.

On last Friday afternoon the girl's basket ball team, accompanied by their referee, Miss Allie Miller, motored to Lawley and played the Lawley girls a game. Maplesville winning by a score of six to two. For about ten minutes of the first half it seemed that neither side was going to make a score by the end of the first half, and at the end of the first half the score was 4 to 0 in favor of Maplesville. The Maplesville girls entered upon the court at the beginning of the last half with full determination of keeping their apponents in the rear, the entire Maplesville team deserves credit for their splendid work. The entire Lawley team did splendid work, but their opponents were too swift for them. A clean game was played by both sides.

Mrs. C. N. Parnell and two of her little daughters, Elizabeth and Lucy, attended services at the Christian church of Plantersville last Sunday. The service being carried on by Rev. J. A. Lee.

A valentine party was given last Saturday night by Miss Mary Brooks. She entertained many friends of Plantersville.

Mrs. Ben McMillan of Brewton, who has been visiting Mrs. Martha Abney and Mrs. F. H. Brown has returned to her home.

Mrs. Bessie Hayes spent the week-end with parents, Mr. and Mrs. Billy Nix of Macedonia.

Mrs. W. H. Abeny has returned home from visiting Mrs. Abney's parents, Dr. T. P. Whitpy of Selma.

Miss Mollie Mae Thomas gave a valentine party last Wednesday night and entertained many friends.

Our B. Y. P. U. is progressing fine under the leadership of Mrs. J. C. Merchant and Mrs. Shanks.

Miss Bessie Mae Brooks is visiting Mr. and Mrs. W. W. Brooks this week.

Miss Ethel Mize and Miss Ollie Bearden spent the day Sunday with Miss Gladys Sexton.

Everybody remember Sunday is preaching day at the Baptist church and everybody is invited.

NEW SALEM

Health around here has been bad for the past few weeks. There has been several cases of typhoid fever around here, but we understand that they are all improving some now. We hope that they all will soon be well again.

We learn that W. A. Huckabee and wife have been down sick for the past nine weeks, but we are glad to know that they are able to be up again.

J. M. Huckaboe and family spent Saturday and Sunday with his father and mother and the family celebrated Mr. J. M. Huckabee's 40th birthday, and served a nice dinner to the family and a few intimate friends.

MARCH

THE UNION-BANNER

VOLUME IX. CLANTON, ALABAMA, THURSDAY, MARCH 2, 1922. NUMBER 45.

REYNOLDS SAYS HE WILL STAY BY BOOKS

Mr. Mullins is Invited to Come and See What Record Shows.

Clanton, Ala., Feb. 27, 1922.

Editor Union-Banner:—

I did not intend to write another article at this time, but my friend Mr. Mullins, says I will not confine myself to the facts born out by the records.

The Treasurer's report filed with the Commissioners Court, dated December, 31, 1910, shows a balance of cash on hand $10,476.72. (See page No. 631, Commissioners Court, Vol. 2.)

Mr. Mullins says that the County was without funds and that there were more outstanding debts than there was money in the treasury. I want to state that the Commissioners Court met January 13, 1911, this being Saturday before I turned the office over to Judge Deason on Monday the 15th, and paid off every dollar that we knew we owed. The Commissioners had been instructed to get up all the accounts that were due and to bring them to this Court. It is only reasonable to know that the business of the County was being carried on and that there might have been some unfinished work which would have amounted to a few dollars, and as I remember, there was a bridge over Yellow Leaf Creek which was being built and was not finished when my term of office expired, but as I have stated, we paid all the debts where claims had been filed for, and all the debts that we knew we owed.

Mr. Mullins refers to Mr. W. T. Mahan, who is dead. I wonder why he cannot prove his statements by Mr. W. H. Conway, Mr. S. E. Waldrop or Mr. T G Milling as they were members of the Commissioners Court at that time, and they are still living.

I want to be fair and state the facts as they are: The bills we paid should be taken from the cash we had at that time, but there are always heavy collections in January as taxes are being remitted and Licenses paid, and I have never looked up the Treasurer's books. I am sure that there was more remitted to the Treasurer after this date that was then due the county by the Judge of Probate's office and the Tax Collector than there was due by the Commissioners Court at this time, and if Mr. Mullins will come to this office I will take pleasure in showing him the records so as to prove my statements and if they are not true then I will certainly admit that I was mistaken.

Mr. Mullins says I did not tell him why the Commissioners Court did not relieve the people of the high taxes. I want to state that the Commissioners Court has nothing whatever to do with the valuation of property for taxes; the law made by a Democratic Legislature takes this away from the Commissioners Court, also away from the other officers who are elected by the people, and places it in the hands of a man who is appointed by a Democratic Governor.

The Commissioners Court fixes a County Tax Rate and a tax rate for the roads and bridges; the Road and Bridge Tax is 25c on each one hundred dollars worth of the taxable property. From this Tax the County received about $17,000. Out of this the Tax Collector and Tax Assessor have to be paid and as we owe over $10,000 interest every year on the debt created by the last administration; this leaves us less than $4,000 for all the road and bridge work in the county, and there are some outstanding warrants which were issued by Judge Deason which are still unpaid and which we have to pay every year. The Treasurer has already paid over $4,000 of these this year. You see what road work we do has to come from some other place other than the taxes collected for this work and for the past five or six years it has come from the County Court fund.

Mr. H. B. Oliver says the Democrats had no encouragement to issue bonds and wants you to note the difference after the Repulicans went into ofifce. He is certainly correct, for no one had any encouragement to put this county in det; and it was done over the protest of seventy-five per cent of the voters. The bonds we issued did not create the debt, but they were issued to take care of $200,000 warrants that had been issued by Judge Deason and which were bearing 6% interest, and we could issue the bonds for 5% interest, thereby saving the county $2,000 each year in interest, in addition to postponing the payment of the debt until the county was more able to ake care of it.

Mr. Parnell, one of the Registrars, made a splendid confession in his article, and I will say to him that if he thinks it is legal to go from house to house, and sometimes at night, and register people who never went before the Board and who saw only one of the Registrars, that I am perfectly willing for the legal authorities to pass on this question, and if the courts say that these names were legally registered voters in this county and that these acts were legal, then I have nothing more to say.

Respectfully,
L. H. REYNOLDS.

EIGHT ARRESTED IN COOSA MURDER CASE

Five of These Released Wednesday on Writ of Habaes Corpus.

Recent investigations into the alleged murder of Dewell Barrett, at Dollar, in Coosa County, came to a focus Tuesday when eight arrests were made in connection with the affair.

Fred Henley, Robert Tippett, Charley Levy, Miss Jewel Popwell and a negro named George Williams, were arrested in Clanton. Reports say that Hezzie Boozer, Bill Cody, and a negro woman named Velma Stafford, were arrested in Coosa County the same day.

Those who were arrested were taken in charge by Sheriff Gore on evidence and warrants produced by Detective Cole of the Boedeker Detective Agency, which has been working on the case. An effort of the detectives to carry the parties arrested away from Clanton was blocked by habaes corpus proceedings and they remained in custody of Sheriff Gore. The negro, George Williams, is the only one who was carried to Birmingham by the detective.

The Barrett boy disappeared during the latter part of January and nothing was heard of him until Sunday, Februay 12, 1922, when his body was found in Hatchett creek in Coosa county.

After the boy's disappearance which occured on the night of January 23, 1922, foul play was suspected and Hatchett and Weogufka creeks, near Henley's camp, at which all of the parties arrested worked, were dragged in the hopes of finding the body.

The boy's body was found in the creek on February 12. A coroner's investigation was immediately called and as a result it was found that the boy had been dead for about two weeks, but had only been in the water a short time and blood that ran from the body after he had been hit in the head with a blunt instrument, and had caked on the body was still there, proving, according to the coroner that the boy was not drowned.

County Solicitor Felix Smith, of Coosa county immediately went to Birmingham and placed the case in the hands of the Bodeker National Detective agency. The Bodeker people detailed J. B. Cole and Ed Richardson to the case.

The officers went to work on the case immediately and according to their report, the body had been tied down to make it appear water soaked in the hope that the drowning theory would work.

Barrett was last seen, it is said, in the camp on the night of January 23, in company with Fred Henley, Robert Tippett, Bill Cody and Miss Jewel Popwell a young school teacher of Clanton. According to the officers the theory is that young Barrett was killed on account of others being jealous of his attentions to Miss Popwell.

Parties Released Here.

A writ of habaes corpus was sued out and made returnable before Probate Judge Reynolds at 9 A. M. Wednesday. At that hour no one appeared for the prosecution, and no evidence was offered. A discrepancy was also discovered in some of the warrants, so the judge ordered them all released from custody.

Whether or not this will terminate the unpleasant incident, we do not know. But we hope these young people may be permanently removed from any connection whatever with the Coosa County tragedy.

RABBIT HUNTERS ORGANIZE

The rabbit huters who took part in the hunt on last Wednesday made a perminent organization of the affair with the following afficers:

J. D. Collins, Jr. President; J. M. Wyatt, Vice-President; Dr. J. P. Crumpton, Secretary; Will Jones, Treasurer.

The annual hunt is to be staged every year on Washington's Birthday. The result of the hunt last Wednesday was twenty-three rabbits which were caught in the chase without the use of guns. By the rules of the organization, no guns are allowed in the annual hunt.

Those who took part in the hunt, and who entered the permanent organization as charter members were in addition to the officers named above: Jean Gore, Jesse Connell, Briggs Crumpton, Lucien Duncan, Allen Gore, Joe Gore, Jr., Zed Robinson, Clarence Baker, and Luther Teel.

Anyone who desires to do so may join the organization and participate in the annual hunt. As an initiation fee, all new members each year will be required to carry the game in the first hunt they are in after joining.

MR. LANDE NO LONGER WITH THE NEW YORK STORE

Mr. Maurice Lande, who has been for the past two years manager of the New York Store in Clanton, has severed his connection with that firm. He intends right away to put up a business of his own here.

This is an item of interest to the many friends of Mr. Lande. It was feared that his plans would take him away from Clanton, but he asures us that he will remain with us. Mr. Lande is a splendid business man, and withal, a natural born booster and hustler. He has made for himself an enviable place in the confidence of the people who live in and around Clanton, and who come here to spend their money. Everybody will be glad to know that before many days Mr. Lande will be in business here again, and in position to continue his former service to his friends and customers.

Lande says he is going to have something good to offer the people when he starts his business, and urges everybody to keep an eye on the news papers for further announcements.

FRIENDSHIP NEWS

We are proud to state that we were not in the least disappointed in our services here last Sunday. We anticipated a great day, and we had it.

Sunday school convened at 10:00 o'clock with a fine attendance. Rev. Norris was a little late, but he preached an excellent sermon, which everybody enjoyed.

In the afternoon the Singing Society met with a full house and a singing class that is unsurpassed. Prof. W. O. Rich, Chairman, called the Society to order at 2:00 o'clock. For three hours we enjoyed listening to some of the very best singing we have ever heard.

The directors consisted of:—G. D. Retherford, O. R. Robinson, L. E. Little, W G. Culp, Blanco Durbin. After Mr. Durbin directed Rev. E. A. Norris made a splendid 5-minutes talk on music. Followed by O. [illegible] vaughn, Jesse Jones, and a rece[illegible] ten minutes. Then Rube Miller [illegible] few songs, and we were pleased with a male quartet by A. A. Beaird, W. M. Devaughn, W. G. Culp and O. L. Devaughn The class was then led by Mr Grover Gilliland. A duet was sung by Jesse Jones and Miss Alice Wyatt. The large audience was held spell bound for several minutes by Prof. A. A. Beaird and W. M. Devaughn

Organists for the day were Misses Alice Wyatt, Leatha Mims, Omye Hand, Messrs W. G. Culp and A. A. Beaird.

The Friendship Singing Class wishes to thank all the visiting singers for their splendid help and co-operation in making this afternoon the great success that it was. There were visitors present from all the adjoining communities, and they helped wonderfully in the singing.

The Friendship Singing Society has gladly accepted an invitation from the Refuge Class to co-operate with them in their singing society which was re-organized last Sunday morning. The Refuge Class meets every first and third Sunday afternoon, and The Friendship Class meets every socond and Fourth. All the singers and lovers of music of both these societies are urged to meet with them on their respective meeting days and help both out in the work of song.

LEONARD P. MARTIN ANNOUNCES FOR SHERIFF

Mr. Leonard P. Martin has filed his papers with the Probate Judge of Chilton County, declaring himself a candidate for the office of Sheriff of Chilton County, subject to the action of the Republican Primary to be held on the 8th day of August, 1922.

Mr. Martin is at present serving as Chief Deputy Sheriff under Sheriff Gore. He is a man who has had considerable official experience, and would no doubt make a good Sheriff if the choice of the people of Chilton County should fall upon him this year.

Mr. Martin is a native of Chilton County, having been born and raised here. He is the son of the late Uncle Newt Martin of Collins Chapel.

Sheriff George B. McDonald of Coosa County was in Clanton Monday attending to official business.

Hunter Gillespie of Clanton Route 6 was a visitor to Clanton Tuesday.

SQUIRE DENNIS THINKING OF RUNNING FOR LEGISLATURE

The Union-Banner is in receipt of an interesting letter from Squire John S. Dennis of Beat 11, relative to the political situation in Chilton County, in which he has the following to say:

I see the people are somewhat confused about politics out here. I was thinking of running for Representative in the Legislature from Chilton county. But I have decided to say a few words to the people.

I suggest that the Beat Committee of each Beat come together and consult with one another and pick a man for each office and the voters get behind them and elect them in November, and all [illegible] on right and have no mud sli[illegible]

W[illegible] go to the grave-[illegible]nat was done twelve [illegible] just wanted to put this idea before the people and let them think it over, and if they think it is best to call a mass meeting, let's call one. I want to hear from every Beat in the county. Don't be afraid to let the people know what you all think of the plan. I mena for the best for the people of our county, if I know what is the best.

I think it would be best to pick a good man for each office. Let's hear from all over the county what the people think. I think we had better go to the farms to get our officers. Now think this over, and come out and say what you think of it. If we don't get men who will try to help us, we are in a bad fix. Get together and talk it over and come out and say what you think of my plan.

Yours truly,
JOHN S. DENNIS.

SENIOR PLAY

One of the big events of the school year will be presented by the Senior Class in the annual class play, "The Dream that Came True," on Tuesdy evening, March 14th, at the High School Auditorium.

The play is a Comedy-Dramma in three acts and the Senior Class is sparing no efforts to make this the equal of any Senior play previously presented.

The entire class compose the cast and most of them have already had quite a bit of training along this line under the capable direction of Miss Elizabeth Monroe.

The Senior Class is perhaps the strongest Senior Class in the history of the school. Since the opening of school last September they have led all of the under classes in scholarship. This is rather unusual for a fourth year high school class.

The date is Tuesday evening, March 14th.

THE OLDEST BANK In Chilton County

Proper Treatment

Scrap iron is worth about $50 a ton. Mainspring steel for watches is worth about $22,000 a ton. Both are made from the same kind of ore. What makes the difference in price?

It's the TREATMENT the metal receives — that's all. The dollars you handle idly, spend foolishly, invest carelessly, are worth but very little to you in the long run. The dollars you save and carefully invest, increase in value and lay the foundation for a fortune. The dollars mentioned in each case are just the same. It's the TREATMENT they receive that makes the big difference. See the point?

NEW HARMONY

Dear Editor:—

Please allow me a little space in your Union-Banner.

We are sorry to anow that Mr. R. L. Weaver of this commuity was called to Jones, Ala., on account of the death of his sister last Friday.

Nobody visited Sunday . Some went to Sunday School and singing and some were late getting in and got wet.

We have an evergreen Sunday School. Some times we are rained out but never froze out. We have a very good attendance and have good lessons. Though there are some that don't go as they should. But remember, the Superintendent is still praying that they may come. May God bless all Sunday school Superintendents and teachers. Though your school or class may be small, but don't get discouraged. Read the 18th Chapter of St. Matthews, and when you get to the 20th verse think about what Jesus says.

It don't take a large crowd to have good Sunday schools and prayer meetings but we would like for everybody to come.

A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

Duplicate wearing parts for

B. F. Avery & Sons Chilled Plows

The Chilled Plow with the Lock that Locks

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.

Come in and let us show you just why Avery Plows excel in this respect

DOINGS at MULBERRY

(By G. H. DeShazo.)

Several have asked the writer the meaning of the following phrase which apeared in the "Doings" of last week: "Mrs. Jessie and Jethro Hayes." There might have been others who could not see into this so I will try to give you some idea of its origin. The type-setter skipped a line in the copy, which read as follows: Mrs. Jessie Harmon, and Messrs Harold and Wilbur Smith, Maxwell and Jethro Hayes, hence the error.

Mr. and Mrs. C. C. Williams announce the arrival of a fine baby boy. Congratulations are in order.

By the way, this community must look mighty prosperous to some people, or else we couldn't have so many people through here trying to sell us something Last week we had the fruit tree agants with us for two or three days. If they think there is lots of money hare they have another think coming.

County Commissioner C. T. Walker of Lawley was in this community last Wednesday, 22nd, looking after some bridge work with Mr. W. F. DeShazo.

Miss Lona Maning and Ovie Cooper visited at Mr. D. O. Manning's Friday afternoon

Miss Nola D. Reynolds spent the week-end with friends and relatives at Plantersville.

A large crowd from here went over to Maplesville last Saturday night to witness the production by local talent of a play depicting the early days of Arizona, and especially the "year of '89." All who went returned and report the best time and show they have ever seen off the proffessional stage.

Mrs. W. G. DeShazo has been on the sick list for the past few days, but we are pleased to report that she is recovering.

Mr. D. O. Manning and W. F. DeSrazo made a hurried business trip to Maplesville Saturday morning.

Mr. G. E. and Kirby Summers made a business trip to Clanton Saturday.

Mrs. J. H. Wells and baby of Ensley are visiting Mrs Wells' parents, Mr. and Mrs. D. O. Manning.

Mr. Odie Grooms spent Saturday in Clanton with friends and relatives.

This community is going to have a distinguised guest on the night of March 11th. "A poor married man" is coming to see us. He is going to pull of some mighty good stunts while he is here and if you will watch these columns next week you will hear more about this visit that will interest you very much. He's coming sure if the weather man will permit, and heres hoping that he will.

Owing to the bad weather Sunday night there was no prayer meeting. Come on out folks on next Sunday night and lets make up for lost time. Everybody come and bring someone with you.

Mr. James LeCroy was a visitor to Mr. D. O. Manning's Sunday afternoon.

Mr. and Mrs. W. T. White had as their guests Sunday, Mr. White's father and mother and Mr. and Mrs. T. L. LeCroy.

Dear readers you will have to be content with this for this week as that is about all the "Doings" that have been going on around this neck of the woods for the past week. I will try to tell you more next week, and don't forget to look out fr "A Poor Married Man."

OLD RESIDENT GIVEN UP BY PHYSICIANS

"Given up by five doctors, my only hope an operation. I rebelled on cutting me open, as I am 75 years old. A neighbor advised trying Mayr's Wonderful Remedy for stomach trouble. I got relief right away. I had not not eaten for 10 days and was a yellow as a gold piece. I could have lived only a few days but for this medicine." CARD OF THANKS

We wish to take this means of expressing our appreciation to the kind people of Thorsby for their aid and words of sympathy during our recent bereavement.

Mr. and Mrs. W. L. Leary.

A good many people in Thorsby and vicinity are missing a splendid opportunity to obtain a great variety of reading matter FREE of cost. Thorsby Institute Library contains upwards of 5,000 volumes of carefully selected books of History, Biography, Literature or Fiction, well adapted to the use of children or grown ups. This library is open to the public every day when school is in sesion, from 2:30 to 4:30, p.m., in charge of a competent librarian, who will assist patrons in selecting the class of books they prefer, provided they are in the library. The rules which all are required to observe are few and simple. There is no charge for membership or dues. Each book taken is registered against the name of the borrower who may keep it two weeks. If at the end of this period, they for any reason, have not finished reading it, they may have it renewed by bringing it in and getting the time extended, otherwise, there is a fine of one cent for each day the book is kept beyond the expiration of the time for which it was taken, and no more books can be had until the book is returned and the fine paid or otherwise satisfactory settlement made. Other towns pay thousands of dollars to establish and maintain free libraries, but here is a good one at your door and you are only asked to take the trouble to use it.

The Congregational Ladies Aid Society met at the home of Mrs. S. E. Norton on Tuesday instead of Thursday this week in order to give Thorsby ladies an opportunity to meet Miss Woodberry, socially. The house was filled to capacity and all listened attentively while this gifted woman talked of her experience in a variety of Missionary fields scattered all over the country. After her talk refreshments were served and social hour enjoyed.

Mr. F. F. Saltsman died Sunday afternoon, Feb. 26, at the home of his daughter, Mrs. W. L. Leary, in Thorsby, with whom he had made his home for several years past. Mr. Saltsman was 75 years old and had spent almost of his life in Alabama. Born at Evergreen in 1847, where he grew to manhood and married Miss Frances Louise Parker of Pensacola, Fla., in 1872. In 1876 Mr. Saltsman moved to Birmingham where his wife died in 1884, leaving two sons and one daughter, all of whom are still living. The two sons in Oklahoma. He also leaves a brother and sister in Mobile, a sister at Evergreen and a brother-in-law in Birmingham. Mr. Saltsman was a consistent member of a Baptist church during the greater part of his long and arduous life. He was one of the Pioneers of Birmingham and for 38 years was actively engaged in its business, civic and religious life. He saw the city grow from small beginnings to be the largest within the state.

Funeral services were held at the Leary home, Monday afternoon, conducted by Rev. James W. Davenport, pastor of the Congregational church, and was attended by many sympathizing friends of the family. The remains were then taken to the station and sent to Birmingham for interment at Oak Hill Cemetery on Tuesday. Mr. Saltsman was a quiet but very genial man whom many people in Thorsby had learned to admire.

The big reputation of Tanlac has been made by doing what other medicines failed to do.—Upchurch Drug Co.

The singing at Bethany was largely attended Sunday p.m., which seemed to be enjoyed by all present.

We have singing at this place every fourth Sunday p.m.

We are most sure that some of our school patrons are enjoying a most pleasant time paying their incidental fees this week.

We are glad to have Mr. Albert R. Edwards added to our community. He is employed on a farm by Mr. W. Y. Keel.

The farmers seemed to be busy punching old Dan last week, but he will get to rest some now.

Miss Florence Farmer spent the night recently with Miss Agnes Neeley.

Mr. and Mrs. W. W. Bishop visited Mr and Mrs. W. J. Vinson Saturday night and Sunday at Clanton.

Mr. Hubert Stroud and Miss Myrtle Keel of the Clanton High School visited parents at home Saturday and Sunday.

When you get the blues and no where to go, crank up your jitney and ooze off down here. We will show you what real fun is. You need not be afraid of getting stuck, for we have one of the best roads in the county.

THE MAN WHO LOOKS VIGOROUS

GOOD RED BLOOD IS THE ONLY SURE FOUNDATION OF PERMANENT HEALTH AND VIGOR

Good color, bright eyes, solid flesh, erect bearing are dependent upon rich red blood. If your blood is not up to the mark your general health can not be. Late hours, eating the wrong foods, working indoors, fatigue, effect the blood. So many people eat well and take exercise, yet never seem to improve in health. Gude's Pepto-Mangan taken regularly for a while gives the blood that richness and redness that produces bounding health and vigor. It is a simple, natural way to get well and strong. Gude's Pepto-Mangan comen in liquid or tablets—at your druggist's.—Advertisement.

Mr. Sims, Sanitary Inspector for the Alabama Power Co., at Mitchell Dam, was in Clanton Monday afternoon attending to some business matters in connection with his work at the dam. He says everythig is moving along nicely with the construction work at present.

Found a Cure for Indigestion.

"I use Chamberlian's Stomach and Liver Tablets for indigestion and find they suit my case better than any dyspepsia remedy I have ever tried and I have used many different medicines. I am nearly fifty one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to, now," wites George W. Emory, Rock Mill, Ala. These tablets contain no pepsin but strengthen the stomach and enable it to digest the food naturally. —Upchurch Drug Co.

SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.— The efficiency of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr Parsons describes —valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's. E 22

ANOTHER ANSWER.

Maplesville, Ala., Feb. 28, 1922.

The Union-Banner,

I Hand you herewith my solution of Foolish Question No. 1,000,001.

"If it takes a woodpecker with a rubber bill nine months and thirteen days to peck a hole in a cypress log large enough to make a bundle of shingles that is worth 95 cents, how long will it take a cross-eyed grasshopper with a cork let to kick all the seed out of a dill pickle."

Now, lets suppose that the grasshopper is only 1-100 part as large as the woodpecker, but that he also has 14 times the power of the woodpecker according to his size, then we will readily see that the grass hopper could kick the hole in the cypress log in, say, nine months and thirteen days divided by fourteen, or, 23-14 days. But the grasshopper being handicapped with a cork leg on one side we will have to add one third to that amount so that would make it take the grasshopper 2 37-42 days to peck the hole in the cypress log. The hole in the log being 7000 times as large as the dill pickle, and the grass hopper being 14 times as strong as the woodpecker, he would have 14 times the speed in his kick that the woodpecker has in his peck, which is 999 knocks per second, which being multiplied by 14 gives 13,986 kicks per second. Now, 2 37-42 days is equivalent to .50,648 seconds that is required the grasshopper to kick the hole in the log, which is 7000 times as large as the dill pickle, then divide the 250,648 seconds by 7000 and you will have 35 5648-7000 seconds it would take the grasshopper to kick the seed out of the dill pickle, during which time he would make 495,158 kicks.

Thanking you for your kind patience and forebearance during my explanation of the above question, I am, Very truly yours,

GUY H. DeSHAZO.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

CORN AND VELVET BEANS TOGETHER

One of the best practical farmers of Chilton County has mentioned the following to The Union-Banner as a worth-while suggestion to make to those who contemplate the planting of corn and velvet beans together:

If you plant corn and velvet beans together, plant in four foot rows, two rows in corn and one row in beans, being sure to plant plenty of beans in the bean rows. In this way you can grow as much corn on the ground as if you planted corn alone in rows six feet apart. You can grow as many beans as is neccessary to grow on the land, and you will have the beans where you can work them and keep the vines off the corn until the corn has got the most of its growth. When you get ready to put soda to corn you can go between the corn rows, and the beans will not get any of your soda.

We are glad to offer this suggestion to the farmers, and they may use it if they desire. The plan comes from a man who is a practical and experienced farmer, and we feel he knows what he is talking about when it comes to practical methods on the farm. We have had the pleasure of going over his farm when crops were growing and being cultivated, and we know he is a good farmer.

BRYAN HAS NEW HUNCH

William J. Bryan has left his sunny home in Florida and appeared in cold, wind-swept Washington to offer his leadership to the party which has profited so greately by it in the past. Bill is nothing if not optimistic, and at this stage of the game he fairly exudes confidence. He declares, without even as much as batting an eye, that the country is so heartily sick and tired of the Republican party that the voters will return a Democratic majority to Congress in November, that there will be an even worse landslide for a Democratic presidental nominee two or three years hence than there was on the fatal Nov. 2 back in 1920, that prohibition is the best thing that ever happened in the country since he was defeated for president two or three times, and that the main reason why the farmers are having such hard times is that they refuse to turn Democratic. We offer the customary odds of eight to five that Bill is wrong again, as usual.—Grit.

DEMOCRACY AND DAMNATION

As we have said several times before, the letter D stands for Democracy and Damnation and if the Southern Democratic machine had its way it would soon render the words synoniymous. As a proof we might cite the case in Alabama where the Democratic machine is busy now tryinv to damn every Democrat who voted for Harding. It was the policy of the Wilson administration to try to destroy the political fortunes of every Democrat who didn't meekly bow to the Wilson dictum and that is one thing that drove so many Democrats to vote for Harding in 1920. Now if the Democrats desire to keep up that tactics let them cut their patching. Those persecuted and absued Democrats who voted for Mr. Harding will find a welcome seat in the Republican band wagon again and we invite you fellows to feel at home. Hallow down our rain barrel and slide on our cellar door all you please and may the Lord bless you.—Yellow Jacket.

POSTMASTER APPOINTMENTS

The Washington authorities have begun to loosen up a little bit here of late in the matter of postmaster appointments and confirmations for office down in this part of the country.

The recommendation of Grover A. Bice as Postmaster at Thorsby has been sent to the U. S. Senate in the last few days. Miss Jewel Bratton has been confirmed for Postmaster at Jemison. Judson Strock's appointment at Verbena has been confirmed. Wiley Bean has been confirmed for the Clanton office and will take charge of the office in a few days. Mrs. Martin has been confirmed for Postmaster at Plantersville.

SHOULTS

The people were made to grieve when the sad news reached them that the death angle had visited the home of Mrs. George Hamrick and called from them a devoted husband and father. Not only in his home will he be missed but in the community in which he lived. As long as he was able he was one of the first to arrive at the Tabernacle on Sunday mornings to resume his place in his Sunday school class. He joined the church when quite young and was a member of Pleasant Grove Baptist church at the time of his death. He was just the lovable Christain man that a community would miss most. He could never do too much for those about him. His cheerful face was always seen in the sick room for several miles around. The love and esteem of the people could not be realized until the sad day of his funeral, when they thronged around his casket and dropped tears of grief, showing forth their sorrow of his departure. His voice is still his presence absent, but his life will forever live in the hearts of those that wish to do and see the right things. He leaves a wife, seven sons, seven daughters, and a host of relatives and friends to mourn his death. Two sons and one daughter by his first wife, five sons and six daughters by his last wife. I commend especially his dear wife and children to his God, who is able to soothe the aching heart and wipe away all tears of grief.

Mr. and Mrs. Blint McGee were made to gieve on last Thursday when the death angel visited their home and carried from them their little infant son, age 2 months. The parents of the child, relatives and friends gave their undivided efforts to restore the little child but human aid cannot always restore and God saw fit to number it with his angels in heaven. Let us grieve not for those that are asleep in Jesus. To the bereaved we tender our tenderest sympathy.

Mr. Henry Smith passed from this life on last Friday. He was sick only a short while. His death being unexpected. He leaves a host of relatives and friends to mourn his loss. He was laid to rest in Pleasant Grove cemetery. Funeral services were held by Rev. R. T. Gilbert and Rev. Rhinehart. May the Lord's blessings be on the bereaved of the deceased.

Rev. R. T. Gilbert filled his regular apointment at Pleasant Hill Sunday afternoon. He delivered an interesting sermon, which was enjoyed by a large congregation. Owing to the rain the services were longer than usual. After the sermon a short song service was enjoyed.

Rain, rain, rain. Seems especially on Sundays. This does not exactly please everybody. Why? Because the boys and girls are barred from some pleasure. Tho they are wishing for the beautiful Sundays yet to come.

Mr. James Horton, truck driver of W. M. Thompson's carried a truck load to Maplesville for the play Saturday night. There were thirty with the driver. Besides enjoying the play the trip was enjoyed. The crowd appreciated the kindness of the Messers Thompson and Horton very, very much.

Mr. and Mrs. W. M. Oden dined with Mr. and Mrs. J. R. McAfee Sunday.

Messrs Brady McAfee and Wheeler Walker went to Maplesville Sunday afternoon. From what we can hear they have some special friends there.

Mrs. J. F. Bearden visited her son and daughter of Selma last week, Mr. Chancey Bearden and Mrs. O. S. Rhodes.

Miss Marie Thomas and Mrs. Maness were the guests of Miss Myrtle Ingram and Mrs. Ingram Sunday.

Mr. Alsie Maness dined with Mr. Brady McAfee Sunday.

Mr. and Mrs. Blint McGee visited Mr. and Mrs. Luke Garner Sunday.

Mr. David Bearden is employed by Mr. J. R. McAfee.

We have heard that Maplesville will soon have a Jnnior High School. We are glad to know that there will be a High School so near as that. There will be great opportunities for the boys and girls that have an ambition to make something in life. The time is coming when these opportunities are going to be barred from us. So let us take advantage of them while in youth.

We wish for the school at Maplesville to be a great success.

SECOND WOMAN IS TO HANG

Added impetus was given the campaign to raise $1,000,000 to provide necessary buildings and equipment at Auburn at the Semi-Centennial celebration held at Auburn, February 22. The occasion was made notable by the presence of General Robert L. Bullard, an alumnus of Auburn and one of America's greatest war heroes, Governor Kilby and ex-governor B. B. Comer, as well as probably 100 of the leading business and professional men of the state.

Every speaker paid high tribute to the work Auburn had done and all the visitors expressed great surprise at the poor equipment and lack of buildings and facilities at the institution. Ex-governor Comer voiced the opinion of the visitors when he declared that the institution was justly entitled to $3,000,00 from the people instead of the $1,000,000 which was being asked in this campaign. As an evidence of his enthusiasm for Auburn, Governor Comer announced that he would contribute $5,000 in the campaign. Friends of Auburn were gratified at this additional evidence of his support as he gave the institution $5,000 only one year ago.

The campaign for Auburn has received enthusiastic support from all sections of the state. Throughout the agricultural sections the work which Auburn has done for the farmers has secured their hearty interest and support of the campaign to raise the needed funds.

Winter In Montgomery.

Montgomery. — Montgomery has gained a name during the winter as the birthplace of circus animals. Announcement was made of the birth of a camel in winter quarters of Howe's shows at Camp Sheridan. Road Is Recognized.

Piedmont.—The Chamber of Commerce held their regular monthly meeting, considered as a "get-together" affair because of the enthusiasm and cooperative spirit manifested. The report of the committee, which appeared before the state highway engineer in Montgomery on the 13th inst., proved interesting, inasmuch as the report stated the Anniston-Piedmont Pike had been definitely placed on the map, as a designated interstate highway, and sharing in the federal and state aid.

I wonder who will run for Probate Judge. We would like to have Reynolds again.

Say, we are looking for some good roads money out this way. If we don't get some money we sure do need some good roads any way.

Say Mr. Editor, do you know what it is you cut at both ends and still it gets longer? As for the question in The Union-Banner as to the woodpecker, I never saw one with a rubber bill as many as I have killed. I have seen the crosseyed grasshopper but not the cork leg.

I will ask you another question. How many sticks goes to a crows nest?

Say, the writer wants you to answer the grasshopper question this week.

OAK HILL

The United Singing Society met at this place Sunday afternoon, with a large crowd in attendance. The singing was fine and enjoyed by all present. This was evidenced by the good order and attention given thruout the evening. Everybody seemed to be at their best and eager to sing. The class was arranged and the opening song was sung by President J. P. Bean, followed by prayer. Then the singing began in full blast with J. B. Northcutt as first director. Other directors were Ira Grant, E. L. Glasscock, J. L. Harris. Then our good natured President saw that we were getting tired and thirsty and gave us 15 minutes recess, which we enjoyed very much. After which we reassembled and the following directors were called, who like the other directors, sang from three to five songs each: J. S. Castleberry, Vester Campbell, Leonard Glasscock and A. H. Glasscock. Organists for the evening were Misses Myrtle Dorminey, Esther Atkinson and Prof. Grant and Harris. Prof. Harris made a short talk on the school he is to teach at this place beginning about the 6th of August.

By this time it was near five o'clock but we were so interested in the singing that we forgot the time and did no notice the approaching cloud of wind and rain waiting on the out side to give us a shower, but whcih most of us received on our way home, but we did not mind that for the sweet songs were still ringing in our minds, and our hearts were full of gratitude to God for the blessings of the evening. We had many visitors which we were very glad to see. Come again if you get wet again its worth it, so come we will give you a hearty welcome at all times.

HOSPITAL NEARING COMPLETION

The editor of The Union-Banner made a short visit to the Central Alabama Hospital building on Tuesday of this week, and we found it is by far the finest building in Clanton. (We do not aim for Pastor Carter to see this.)

This institution is going to be ready for its formal opening now in a very short time. Mr. Ed Plier, the man who has charge of the erection of the building, says he will complete the work this week if not prevented by the bad weather.

Practically all the equipment and furnishings for the building are already on the grounds, and will be arranged in the building in the next few days.

We hope next week to be able to carry a definite and detailed announcement of the plans for the opening day of the hospital. But we are authorized now to state to everybody that they have an open inviation to be present the opening. Don't hesitate and stay away if you do not get a personal invitation. Remember you are here and now invited to atend.

Alabama Power Company A Domestic Corporation

Alabama Power Company has frequently been represented to the public as being a foreign corporation.

This is not correct.

Alabama Power Company was organized in December, 1906, by citizens of Gadsden and Wetumpka. It was chartered in this State and exists as a domestic corporation under its laws.

A majority of its directors are Alabamians.

Its 1,300 employes are all citizens of Alabama and many of them own property in this State.

Its entire pay roll goes to employes in this State.

It purchases in the State practically all supplies for its operation.

Its product, electricity, is used in Alabama for the benefit of Alabamians.

The extent and growth of its system has in the past, and continues, to make possible the industrial growth of Alabama. Its future development is needed and will be devoted to supplying the industrial power requirements of Alabamians.

Its rates and regulations are fixed by the Alabama Public Service Commission.

Its service lines extend over 25,000 square miles of territory.

It serves and pays taxes in 25 counties and 50 cities and municipalities.

It serves directly 1,000 industries in Alabama with power, and these industries give employment to 150,000 Alabamians.

It serves indirectly 500 additional industries in Alabama, employing many thousands more.

It serves directly 17,000 consumers with lights and indirectly 35,000 more through other distribution companies.

It paid $150,000 in taxes in 1921.

It has spent in Alabama, since 1912, $21,000,000 in pay rolls and for supplies and materials.

It is spending $8,000,000 in the construction of Mitchell Dam and $5,000,000 more for transmission lines and other facilities, giving employment to 2,000 men, in addition to its regular operating forces.

Of the total amount of securities outstanding, of both Alabama Power Company and Alabama Traction, Light & Power Company, over 70 per cent are owned in the United States.

It is an Alabama institution, and of its 2,934 shareholders, 2,850 live in the following cities and towns of Alabama:

The Pneumonia Month.

March is a typical pneumonia month and usually gives high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneuminoa. It is pleasant to take. Children take it willingly.—Upchurch Drug Co.

PASTORS AND WORKERS CONFERENCE

The Union-Banner:—

Please allow me space in your columns to say a few words about the Pastors and Workers Conference of the Unity and Chilton County Baptist Association, which meets on Monday after the second Sunday in each month, and the next meeting will be held at the Mountain Creek Church.

True to the name it is a conference for pastors and all who are interested in church work, both men and women.

At these meeting vital matters of interest to pastors and laymen are discussed.

It is not as some have said, a Union of Pastors to try to raise salaries, arrange strikes and etc., although the majority of pastors would not be hurt if their salaries were raised some. We only ask the people to attend and find out for themselves what the Conference is for.

We do not want the entertaining church to make elaborate preparation for dinner. Just sandwiches or something of that kind, for our main thought is service.

Come to Mountain Creek March 13th. We will be disappointed if you do not.

Respectfully,
W. A. GOSS.

Everyone in the home, Pa, Ma, Bobby, Mary Ann, Grandma and Uncle Bill. First see who gets the most at home. Then combine your list and send in the big list to The Union-Banner office and if your list has the largest number of correct words you get a prize of $3.00.

But if with your answer you send in $1.50 for one years subscription (Renewal) to The Union-Banner you get $15.00. If you send in $1.50 for one subscription (New) you get $25.00 as first prize; and if you send in $2.50 for two new subscriptions you get $35.00; and if you send $3.00 for three new subscriptions you will receive $50.00. See table of prizes on last page of this paper.

There is no hitch or trick to this puzzle. It is open and above board. It's the contestant with the sharpest eyes that will find the most objects and win the big prize.

It costs nothing to try in the first class. You will want the paper for another year anyway so you might as well get into the second class. But to make the game really exciting and worth while get into the third class by sending us a new subscriber; or better still, into the fourth class by sending us two new subscribers and win a prize of $35.00. With very little effort you can break into the fifth class and qualify for the $50.00 cash prize.

It's going to be some fun. Now who gets the big prize? Can you find 50, Probably even more?

Cash Prizes Offered.

List of cash prizes are offered to those who engage in this contest and conform to the rules of same. There is no trick stuff to be played in connection with this game. It is a game that is being put on solely by the publishers of The Union-Banner. We are strictly behind everything that is offered in the announcement. Every person who enters the game, and who honestly wins a prize will receive The Union-Banner's check for whatever amount is won.

The list of prizes which are offered are printed in the big announcement on the back page. You will notice that in order to qualify for the larger prizes it will be necessary to send a subscription to the Union-Banner with your answer. It does not matter whose subscription you send, whether your own or somebody else. To qualify for the biggest prizes it is necssary to send in three new subscriptions with your answer.

Rules of the Contest.

1. Contest closes April 10, 1922, and all answers must be mailed on or before that day.

2. Anyone living in or outside of Chilton County may compete in this contest. Employees of this paper and anyone else connected with The Union-Banner however are barred from participating.

3. Answers should be written on only one side of the paper. Write your name and address plainly at the head of your lists. If you write of anything else use a separate sheet of paper.

4. Only English words found in the dictionary can be used. Obsolete words will not be counted, however.

5. A word used once cannot be used again as part of a compound word; and only compound words as given in the dictionary as such will be allowed.

6. The same object can be named but once. This does not preclude however the naming of an object which is part of another object.

7. The word may be given in the singular or plural form but if the one is used the other cannot be.

8. The first prize will be awarded to the contestant whose answer has the largest and nearest correct list of words of objects (found in the picture), beginning with the letter "P". Second prize to the next etc. Neatness and penmanship will not be taken into consideration, but every contestant should be careful about the spelling so that no mistake will be made.

9. Only one prize will be awarded to members of the same household, or to any group outside of the family who may have co-operated in the answering of this puzzle.

10. The judges will be three well known citizens of this community having no connection with The Union-Banner and will be selected for their fitness for such a task. The award of prizes as determined by these judges will be final and each contestant agree to abide by their decision.

11. In arriving at this decision the judges will allow one point for each correct word. A margin of 15 incorrect words will be granted to each contestant to allow for a possible legitimate difference of opinion; but each incorrect word above that number woll count one against.

12. If two contestants tie for first place the first and second prizes will be divided between the two pro rata according to their class. The next highest will receive the third prize, etc. If three tie for first place, the first, second and third prizes will be divided between the three in same manner, etc.

Special Reduced Prices.

During the life of this contest, we will make special reduced prices on subscriptions as follows:

For single yearly subscriptions the regular price of $1.50 will prevail.

For a two-year subscription to the same person, or for a club of two yearly subscriptions sent in together, the price will be $2.50.

For a three-year subscription to the same person, or for a club of three yearly subscriptions sent in together, the price will be $3.00.

These rates will apply both to subscriptions sent in with the puzzle contest, and to anyone else who may be able to secure a club and does not wish to enter the puzzle contest.

This is an opportunity for you to secure The Union-Banner a year for only One Dollar. Get two of your neighbors to go into a culb with you and bring or send us three dollars with the three names, and the three subscriptions will be entered on our list for a whole year.

Remember now that this rate only holds good until April 10th. After that time, the standard price of $1.50 a year will be resumed. Get busy now, if you want the Union-Banner a year for one dollar.

Other Cash Prizes.

In addition to the cash prizes that are offered in the picture puzzle contest, there is another hundred dollars in cash prizes which will be given away some time this year. Every year's sbscription which we issue (whether in the puzzle contest or not) gets a ticket that entities the holder to a chance at one of fourteen cash prizes ranging from one dollar up to fifty dollars.

Remember now, that this is campaign year, and you will find The Union-Banner of particular interest in keeping you informed about what is going on in the political arena. If you want the best bargain you ever saw in the way of a newspaper, now is your chance to grab The Union-Banner while this special reduced price is in effect.

LOOK on back page of Union-Banner and you will find explanation of this picture.

MR. MIMS CANDIDATE FOR CIRCUIT CLERK

We call the attention of our readers this week to the announcement of Mr. J. Z. Mims as a candidate for the office of Clerk of the Circuit Court of Chilton County, subject to the action of the voters participating in the Republican primary to be held on the 8th day of August.

Mr. Mims is by no means a stranger to the people of Chilton county, and needs little introduction at our hands. He has been a candidate for public office in the past, and each time his popularity has been attested by the small margin which he lacked of being the nominee of his party. In spite of his past defeats, he has remained a loyal Republican, constantly manifesting an interest in the welfare of the party and in the public affairs of our county. For the past two years Mr. Mims has been Secretary of the Republican Executive Committee of Chilton County, in which capacity he has been a faithful worker.

His announcement is the first one so far to be made for the office of Circuit Clerk, and his entry into the race will no doubt meet with the hearty approval of a great number of his former friends and supporters who will reaffirm their support of him in his present race.

The contest over the Reublican nomination of a candidate for the office of Circuit Clerk this year promises to be an interesting one. Besides Mr. Mims there are other strong and popular candidates being spoken of; it will require the vote of the people on August the 8th to determine who, among the different possibilities, shall be our nominee.

We feel sure that if Mr. Mims should be the successful one, he would be elected Circuit Clerk in November by the unanimous choice of the whole Republican party, and by a handsome majority. As Clerk of the Circuit Court, he would make an official of whom his party, and in fact the entire county, would have justh cause to be proud.

HARRIS WILL RUN FOR PROBATE JUDGE

Editor Union-Banner:—

I have been informed that a report is being circulated that I had made an agreement with some parties not to become a candidate for Judge of Probate in the August primary and would be a candidate for Sheriff.

Now, I want to say that the report is without foundation and untrue. I have made no agreement concerning my candidacy for any office and I have not talked with any one regarding such agreement. I will not be a candidate for Sheriff but will make my announcement for Judge of Probate when the proper time comes. I think it too early to make announcements, and only write this to refute the report and to let my friends know of my intentions for the future.

Respectfully,
H. A. HARRIS.

LANDE TO HAVE STORE

Elsewhere in this paper will be found the anouncement of Mr. M. Lande, stating that he will open up a new store in Clanton in a short time, at the former location of Clanton Produce Company.

For the past two years Mr. Lande has been manager of the New York Store in Clanton, and has made many friends by his fair and square dealings. He promises his friends that he will be able to take care of their wants in his new store and everyone may be sure that he will offer them the very best opportunities obtainable in the way of merchandise, clothing, shoes, etc.

Watch for the announcement of his opening, which will appear in this paper in a few weeks. He will open up just as soon as Taylor and Baker vacate the building.

Thorsby, Ala., March 5, 1922.

MARTIN IS A CANDIDATE

Clanton, Ala., March 9, 1922.
To the Republican voters of Chilton County:

As I have announced myself a candidate for the office of Sheriff of Chilton county, subject to the action of the Republican primary to be held on the 8th day of August, 1922, I wish to say to the voters of Chilton county that I was born and reared in Chilton County and have always voted in every election since I became 21 years of age, and have never voted anything but a Republican ticket in my life. I wish to state my reason for announcing myself so early as I have. My reason for this is because I am now serving as Chief Deputy under Sheriff Gore, and if I should stay in the services as I am, I am always busy in my work and don't have very much time to see and talk to the people as I would like too, and by announcing early I would have more time to see and talk to every voter that I could between now and the primary.

As for my qualifications, I feel like I am qualified for the office of Sheriff, having had about [illegible] experience as Deputy Sheriff [illegible] years experience as an arresting officer for the L. & N. Railroad Company as a secret service man in the Birmingham district

If I should be the choice of the people in the primary, I shall do all in my power to be elected in November, and if elected I shall do my very best to make the people of Chilton county a good Sheriff, and to please the people and to make a good Sheriff, my policy would be, if elected, to execute the law on all alike and to treat everybody that I have to deal with, with all the courtesy and respect that they would allow me to, and at the same time being positive and firm with all. Your vote and influence will be appreciated by me.

Yours very truly,
LEONARD P. MARTIN.

Proper Treatment

Scrap iron is worth about $50 a ton. Mainspring steel for watches is worth about $22,000 a ton. Both are made from the same kind of ore. What makes the difference in price?

It's the TREATMENT the metal receives — that's all. The dollars you handle idly, spend foolishly, invest carelessly, are worth but very little to you in the long run. The dollars you save and carefully invest, increase in value and lay the foundation for a fortune. The dollars mentioned in each case are just the same. It's the TREATMENT they receive that makes the big difference. See the point?

POOR ORIGINAL

C. Reese Mullins Writes Again

Clanton, Ala., March 5, 1922.

Editor Union-Banner:—

Will you be so kind as to give me space in your paper again this week to reply to Judge Reynolds' article appearing in your last week's issue, addressed to me. I will promise you to be as brief as possible, and did not think that I would write any more at this time, as the Judge seems to want to give his feeble defense is perfectly pitiful. No wonder he doesn't want to write any more. The Judge reminds me of the old colored minister who, it was said, made three points in every sermon. First he took his text, second he left it, and third he never returned.

The Judge took his text on leaving $10,476.72 in the county treasury when turned over to Judge Deason, now he leaves this and tells you that this amount was in the Treasury on Dec 31, 1910, and that on Jan. 13th, 1911, he called all the Commissioners together, paid off quite a lot of debts owing by the county and leaving the amount then due by the county for the bridge across yellow leaf creek at Jumbo, which was contracted by him and his Commissioners to the Roanoke Bridge Co., and which I understand, amounted to $2600.00, which has been a matter of common knowledge and besides this. I understand that the county was owing quite a good deal for other bridge work at that time. So you see it is impossible for him to ever return to his text to having turned over the county to Judge Deason with the amount above stated in the Treasury and the county out of debt, as he did not turn the keys over to Deason until, as stated by him, Jan. 15th, 1911. The Judge in replying to Mr. Oliver, you see, is still going after his Republican Commissioners. When he says no one had any encouragement to put the county in debt, and that it was done over seventy-five per cent of the voters of the county. Well, I don't remember exactly about this, but I do remember that the roads was built and after this was done we all know, as Mr. Reynolds says in his letter, that the county had to issue $200,000 of bonds to take care of the out standing warrants against the county for building the roads. This we all know was inevitable, as well as the Judge, and as he now says and knows this is the only way all roads are built.

I also remember, and this is what I cannot understand, that when the Judge made his race for Probate Judge six years ago, he made the county bond issue, the issue in his campaign and said if Popwell was elected the bonds would be voted on the people, and that he was opposed to this, but after his election he was in favor of the bond issue and voted for it. Now, what do you think of that? The Judge is still chafing about that little good roads we had built during Deason's term and seems to think it was a great mistake. I refer to building the road from Lock 12 to Maplesville and the State Highway through our county, in all a distance of sixty-five miles, at an expense of $2000,000, and claims it was done by Judge Deason and his Democratic associates. I have never said that the building of these roads was a mistake, but I have said and repeat that their maintainence has, in my Judgment, been awfully neglected and the scraping of the Highway last summer a shameful waste of the peoples money. Now let's figure a little and see if the building of these roads was a mistake. I am told by experienced road builders and engineers that this class of roads we have would cost from $4000.00 to $5000.00 a mile, well to be on the safe side, we will say $4000.00. Then the sixty five miles of good roads we have, or did have, is worth $260,000.00. So you see if this was done by Judge Deason and the Democrats, they have saved the county $60,000 in spite of all Judge Reynolds could do and say. The Judge winds up his letter to me by jumping on Mr. Parnell, for the careful and diligent manner the Registrars took in getting the voter qualified, and tries to convey the idea that they was showing special favor to the Democrats, but the Judge seems to be left alone. All that long list of his associates which was signed to his first accusation, seems to have dropped him. I wonder how many Democrats attention has been specifically called, by letter, or in person by the Judge, to the importance of paying up their poll tax and registering. Well the Judge says that he and the Commissioners has nothing to do with the valuations of our lands. No and I have never said that they did. The Judge says these values are fixed by an appointee of a Democratic Governor, one in each county. Yes, we all know that, but the Judge does say that the Commissioners Court, over which he presides, has the right, and does fix the Tax rate. Now why could they have not come to our rescue and lowered our tax rate. When Judge Deason turned over the keys to Judge Reynolds in 1917, our rate of taxes was, as I remember $1.50, but where are they now? Where has Judge Reynolds and his Commissioners put them to? They have put them up to the limit of the law. I say whats the use in spending any more time in a newspaper controversy with a man like this. So good by, and good luck.

Respectfully,

C. REESE MULLINS.

MAMY OPERATIONS BEING RESUMED

STATE WIDE BUSINESS PROSPECTS BRIGHTEN WITH BLOWING IN OF BLAST FURNACES

COAL PRODUCTIONS INCREASE

Preparing For Probable Strike Emergency; Will Not Effect Alabama District

Birmingham.—Any strike in the soft coal fields of the United States next month will bring about increased demands in Alabama and preparations to that end have been made. The strength of the United Mine Workers of America in Alabama has been increased some lately, but there is hope that cessation of operations here will be avoided, conditions not existing in this district as elsewhere. Resumptions of operations at blast furnaces in Alabama are also bringing about an increased demand for coal and movements down the Warrior River, now that the coal storage plant is completed at Mobile and functioning, are showing a better tonnage.

The Tennessee Coal, Iron and Railroad Company looks after all of its raw material sources when there is improved activities in its finishing industries and the starting up of two blast furnaces will necessitate an increase in coal and coke also. It is rumored that another furnace will be started up shortly.

Industrial conditions throughout the state in the iron and steel line are picking up steadily and as was predicted a few weeks ago the real turning point is being met this month.

Railroad officials report improved conditions in traffic of coal, pig iron, steel and other products. Preparations will also be made by the transportation companies just as soon as it is apparent that there will be a call for extraordinary amounts of coal, by reason of an emergency after the last of this month.

Syrup Rates Benefit Farmers

Montgomery—Alabama farmers will benefit materially from a recent ruling by the Alabama Public Service Commission, permitting the exercising of a transit privilege in the transportation of syrup and molasses by the A., B. & A., A. C. L., C. of G., S. A. L., Western of Alabama and Southern Railroads. Under the provisions of this ruling, farmers will have the privilege of shipping their molasses or syrup to cold storage plants where its original freshness will be preserved, and keeping it there until they are able to dispose of it at a favorable price, when they will have the privilege of shipping it out again to market. The transit privilege provided will enable them to store either of these products in transit to market by the payment of the same freight rate as for a direct haul.

ALL TOGETHER FOR AUBURN

Birmingham.—The tour of Alabama by General Robert L. Bullard in the interest of the Greater Auburn Campaign has given the movement of the alumni to raise one million dollars for necessary building and equipment a great impetus during the past ten days. General Bullard has been heard by large and enthusiastic audiences of representative citizens at Montgomery, Auburn, Mobile, Eufaula, Columbus, Georgia, Birmingham, Gadsden, Jacksonville, Anniston, and other places over the state. Accompanied by Dr. Spright Dowell, president of Auburn, and Chas. F. DeBardeleben, general chairman, at most of the engagements, the people of the state have been given first hand information of the needs at Auburn. While it is the intention of the alumni in charge of the campaign to conduct more or less active speaking campaigns in every county in the state at the time the actual canvas is made, the greater effort is now being devoted to completing the county and city organizations preparatory to making a canvas for funds.

Heavy Rainfall Reported

Anniston.—Almost continuous rains for the past week, following a previous rainy season of as great duration in February, have made many northeast Alabama roads almost impassable. All of the dirt roads that have no chert or macadam surface are practically past using, people from various parts of the county report. The rainy season in this county is declared by many the most prolonged in years.

The appointment was made by Cordell Hull, chairman of the national committee. The finance committee is considered one of the most important of subcommittees of the national organization. NEW HARMONY

Well, here I come again, if you will allow me a small space. Health of this community is very good except some few sick with cold.

Mrs. Nora Cooper is on the sick list this week.

The singing was fine. We had a large crowd. We also had singing in the afternoon. Leaders in the fore noon were J. M. Williams, W. A. Moore, Mrs. P. A. Bates, and Sam Henley. In the afternoon J. M. Williams, Sam Henley, Mrs. Bates and W. B. Cooper.

We also had a fine sermon delivered by our pastor, Rev. Messer.

There will be singing every first Sunday morning at 9 o'clock in the the Christian Harmony books at Pleasant Grove Church. Everybody is invited to come and be with us. Some time in the near future we are going to have an all day singing there in the old books. Mr. Jeff Best made us a talk on the up building of a community. Mr. Best said if he should stay here he was going to do all he could to help build up the community. We are glad to have such men as Mr. Best with us. We all ought to be boosters instead of draggers. There is nothing to keeping a community booming if every fellow will do his part. So let's all pull together and have the best community in Chilton county. If every community would do that, don't you think we would have better times, better schools, better churches and better people too. Lets all get to fecling that way and have the best year of our life. The world is what we make it. If we frown the world will frown with us. If we smile the world smiles with us. Speak well of everyone. We too often find fault of our neighbors and the fault is in ourselves. If you have got flowers to put on my basket give them to me when living and not after I am dead. Say the good word now, not when I am dead. There has been many to go to the bad because some one failed to say a good word for him, or to him. Let's meet everybody with a smile. Sunshine drives away darkness.

Mr. C. A. Surles has moved over near the church. Sorry to lose him.

Mr. Furnes Shepard visited home folks Sunday from Montgomery, where he is working for the Western Railroad people.

Mr. Fland Bates and family visited Mr. Ocie Paton Sunday.

Mr. Grady Culp and family visited Mr. Walter Anderson Sunday.

Mr. John Jackson visited Mr. Ocie Paton Sunday.

Mr. Jim Best visited Mr. Ocie Paton Sunday.

Mr. Albert Frith visited Mr. Jim Chandler Sunday.

Rain, rain, but the sun shown out bright again, and I guess we will have to plow some more.

Well, I guess we can make out now without any good roads money, as the sun has dried up some of the mud.

Say, Mr. J. N. Dennis tells us he may be a candidate for Sheriff. Mr. Dennis is a good man but we can't tell who the people will choose.

Let's all get together and pull together for better times. Let's pick some good man and elect him.

Well I will ring off for this time, as there is not much news in this part.

MEMORIAM

On February the 24th, Mrs. Mary C. Jackson, the widow of William A. Jackson, passed from this earth into eternity. She was about ninety four years of age.

She was residing with her son, R. M. Jackson, near Sylvania, Ala.

She leaves one son, the above mentioned, and seven step-children to mourn her loss.

I cannot believe that she is lying beneath the cold clods to await some far future day for the general resurrection as did Mary and Martha. Christ told them that he was the resurrecetion, the truth and the life.

God says that He is not the God of the dead, but of the living. He declares that He is the God of Abraham, Issac and Jacob, so I believe that our fathers and mothers are in God's kingdom with Abraham, Issac and Jacob. With the living and not with the dead. J. H. JACKSON.

IT IS TIME TO QUIT

As will be seen from his letter published in this issue of The Union-Banner, Mr. C. Reese Mullins is still wasting his time and spending his energy in the effort to "show up" the discrepancies which he seems to vaguely suspect might be found in the statements of Judge Reynolds. We are bound to say that Mr. Mullins has run completely out of soap, and has made a miserable failure of what he thought would be a sweeping victory in his "newspaper controversy" with Judge Reynolds.

We are impressed with the comparison which he makes between Judge Reynolds and the old negro preacher in his letter this week. It seems to us that Mr. Mullins himself is the one who really compares best with the negro preacher, so far as the three points, taking a text, leaving it, and never returning to it. Let's see if this is correct.

Mr. Mullins began his tirade against Judge Reynolds with this text: The Democrats of Chilton County ought to rule the county because they are richer than the Republicans and pay more taxes than the Republicans. From the best we can see, Mr. Mullins must have decided that it is best for him to leave that subject, and he has not yet returned to it.

As for the friends of Judge Reynolds leaving him, we can say that none of them have left him. We are all right with him, and there are even more with him now than there was before Mr. Mullins took up his "newspaper controversy." As one of those friends of Judge Reynolds, the Union-Banner believes that he has most admirably presented and defended the cause of the people in the matter of the action of the Board of Registrars, as well as in his defense against the pucrile arguments of Mr. Mullins.

Mr. Mullins closes his letter this week by saying: For what is the use to try to argue with such a man? (referring to Judge Reynolds.) There is not any use for you to do it Mr. Mullins. You have clearly demonstrated that during the past few weeks you have been trying it. You have no argument to offer, and you are not able to hatch up anything that will "take" with the people. Therefore we believe you had just as well give up in disgust, as you seem to have done already.

ANOTHER CURIOSITY HERE

Another curiosity has turned up at The Union-Banner office. This time it is a couple of hog feet that are entirely out of the ordinary for what hog feet are supposed to be and look like. There are five toes or hoofs on each of the feet, both of which feet were the fore or front feet of one and the same hog. The animal was of the Duroc Jersey type, and was the product of Mr. Henry Popwell's porker pen. Henry says he raised the hog from a wee-small pig. It weighed something over two hundred pounds when butchered. What next boys? We started out with ripe cuckle burs last April, then we had peach tree and dog-wood blooms in October. The next startling thing to happen was perfectly good watermelons at Christmas. Then Charley Wilkins startled the whole county a while back by finding an 1844 half dollar in the middle of a big bay tree. Now Henry Popwell comes forth with these curious kind of pig feet. We feel from the above varied list of recent eccentric happenings that we can well agree with the old negro preacher who took for his text this brief sentence: "The yarth do move."

UNFORTUNATE CIRCUMSTANCES

The friends of Mr. John Henley and his boys throughout Chilton county deeply regret the unfortunate circumstances that have been developed recently seeking to connect them in some way with the horrible murder of Dewell Barrett at Dollar, in Coosa County. This feeling of regret is made more widespread and real by virtue of the fact that Mr. Henley and his sons are widely known in our county, and have always, and are yet held in the very highest esteem by everybody.

Mr. Henley has been in the saw-mill and lumber business at different places over Chilton County for the past fifteen or twenty years, and as far as we are able to learn, he has never had the least trouble or dissatisfaction with anybody in any community where his operations have carried him. This is equally as true of the boys as it is of their father.

With this long record of peaceable and successful business dealings and social relations behind them, it is not easy now for their friends to accept some of the theories that are being advanced seemingly with the intention of connecting them with one of the most horrible crimes that has ever stained the record of this part of Alabama.

It is true that this crime was committed near the place of business of Mr. Henley, in Coosa county; but that fact in no wise should be taken as a foregone conclusion that the Henleys were mixed up with the ugly affair. There are many other clues that should be followed out throughly before the stigma of shame is sought to be placed upon anybody in this case.

When all the investigations of detectives has been completed, it may be that the Henleys will be wound up in the chain of circumstances in such a way that they will have to go to the bar of justice and make their defense. No one can tell what the outcome of the investigations will be. But there is one thing sure: The people of Chilton county, hundreds of whom know Mr. Henley and his boys well, are not going to attach the responsibility for this horrible murder upon them until it is shown beyond a doubt that they are guilty of complicity in the same.

We sincerely hope that Mr. Henley and his boys, together with the other well known people who were arrested here at the instigation of the detectives, may be found innocent of even any knowledge of the murder, much less being connected with or implicated in it. They are all good people, and we hope their good name may never be suspected to the stain of this or any other degrading criminality.

LEONARD P. MARTIN IS CANDIDATE FOR SHERIFF

The formal announcement of Mr. Leonard P. Martin as a candidate for Sheriff of Chilton County, appears in another place in the Union-Banner this week. Mr. Martin is a loyal Republican, and is announcing himself a candidate for office of Sheriff subject to the action of the Republican voters of the county in the primary of August 8th.

Mr. Martin is a native of this county. He is the son of the late B. N. Martin, and is well and favorably known in many sections of the county. At present he is serving as Chief Deputy under Sheriff Gore, and is filling the office with credit and satisfaction. It may be safely said that if Mr. Matin should be the nominee of the Republican party in Aug., he would be elected in November and would make a good Sheriff. We understand there will be other candidates for the office, and the contest will no doubt take on considerable interest before the election comes off.

Quite a sensation was created at Clanton, Ala., Tuesday afternoon, according to citizens of that place who were here Wednesday to attend the Ford mass meeting, by the arrest of three white men, one white woman and a negro man of Chilton county, charged with complicity in the killing of Dewell Barrett, who lived at Dollar, Ala., Coosa county.

Those taken into custody were Fred Henley, Robert Tippett, Charles Levy, and Miss Jewell Popwell, white, and a negro by the name of George Williams, according to the news brought to Montgomery. It is also understood that Bill Pody and Hezzie Boozer were taken into custody in Coosa county, together with a negro woman, some days ago in connection with the same case.

Those taken in custody at Clanton were released Wednesday on writs of habeas corpus, except the negro who was taken to Birmingham.

The arrests were made after Bodeker detectives had made exhaustive searches and investigations of the death of young Barrett, Sheriff Gore and his deputies serving the papers on the various persons at Clanton Tuesday.

Henley and Tippett are prominent young men of Chilton county and Mr. Levy is also quite well known, while Miss Popwell is well connected in Chilton county and comes of a good family, having always been looked upon as a young woman of model character.

Readers of the Journal doubtless remember the story of how young Barrett disappeared from his home some time ago, in January of this year, and how a search was made for several weeks for him and how he was finally found in a river or creek near his home, his body being badly decomposed.

It was predicted Wednesday that the investigation of this case would develop some of the most startling and sensational features ever brought to light in a killing case in that section of Alabama.—Montgomery Journal.

SHOULTS

Our Literary School will close in two weeks. The pupils of the upper grades are practicing a play that will be given near that time. It will not be as good as they would like for it to be, because several of the pupils have quit to make preparations for farming. Although they hope to have a concert that will entertain their audience for a short while. The pupils are sorry to see the school days come to an end for this session, as it has been short. The school days are the best we have. Our good times are in school. We should try to make it a pleasure in going to school, yet we should not think of neglecting our work to have a good time. We should make use of all the opportunities that come to us, for we have only one time to prepare for life and that is in youth.

Rev. J. D. Deason filled his regular appointment Saturday afternoon and Sunday. The Congregation was small Saturday, but ws much larger Sunday. Many visitors were with us. A very interesting sermon was delivered Sunday and much enjoyed.

Our Sunday school is moving along nicely under the careful management of Mr. H. R. Oden as Superintendent. We are much pleased with some of the changes made by the Superintendent. It is making our school better. He is doing all he can to make our school one that will be interesting to those that attend. We have a good number on roll. They are very attentive.

Our prayer meeting seems to be going dead. Singings taking the place of it. Singing is one of the best ways in prasing God's name, yet we should not let the singings do away with our prayer services altogether. We invite one and all to be with us on every Sunday afternoon about 2:30 o'clock.

The farmers seem to be very blue over such rainy weather. As it is time to make preparations for this years crops. If they do not make the preparations that are required for a grood crop they know their harvest will be small. Though they are making use of what little sunshiny weather they do have.

The works of mammon seem still to be going on in our community. Some good men are doing all they can to keep some of the works from going on. A still not so far from here, almost out of the community, was destroyed. The only thing we are sorry of is that the ones that operated it were not caught.

Miss Marie Thomas, Messrs Alsie and A. C. Maness were the guests of Miss Ethel Mize of Maplesville Sunday. They reported a nice time. They especially enjoyed the good dinner.

Mr. and Mrs. R. F. Thompson visited Mrs. Thompson's mother, Mrs. Snead, of near Centerville, last week.

Mr. and Mrs. C. T. Walker spent Sunday afternoon with Mr. and Mrs. John Ellis.

Mrs. Jane Merchant spent last week with Mrs. J. R. McAfee.

Mr. and Mrs. Silas Oden have moved in one of the tenant houses of Mr. Oden's father's.

Mr. and Mrs. Howard Oden spent Sunday afternoon with Mr. and Mrs. J. R. McAfee.

We are very sorry that Uncle Donie Lawrence is on the sick list. He is growing to be a ripe old age.

HIT ONE, HIT ALL

Washington, Feb. 27.—"A prominent commercial weekly asserts that you cannot hit the realroads without hitting everything else," says the Republican Publicity Association, thru its President, Hon. Jonathan Bourne, Jr., and then continues: "True, but no more true than the same assertion applied to hitting any other basic industry or enterprise. Farming can not be a success without an efficient transportation service. Neither can manufacturing. Nor, on the other hand, can the railroads prosper without getting traffic from prosperous agriculture and manufacturing. It is the prosperity of each that makes up the prosperity of all. You cannot hit agriculture with hitting everything else.

"Failure to recognize that fact was one of the great faults of the Wilson administration. Mr. McAdoo made an arbitrary increase in the wages of railroad employees. No one complains of that by itself. Everybody rejoiced and will continue to rejoice over any increase in wages a railroad employee or any other employee can justly secure. But the fault lay in the fact that McAdoo used that wage increase as a menas of hitting the railroad in the solar plexus. At the same time that he ordered the increase in wages he should have ordered an increase in freight and passenger rates, both increases to take effect on the same day. That would have been ordinary common sense and business judgment, but Mr. McAdoo was lacking in both.

"The Democratic administration limited the prices the farmers could get for their products, but it placed no limit on the wages the farmers must pay for help in planting, cultivating and harvesting their crops. In fact, the Wilson-McAdoo regime indirectly increased the wages the farmers must pay at the same time that the profits of the farmers were limited. That is the way Democracy hit the farmers at the same time it was hitting the railroads.

"There can be no successful price-fixing by government unless the price-fixing is universal and equitable, and, since human beings are not perfect, there can be no just and equitable arrangement of price scales. Satisfactory price-fixing is impossible when men try their best to be fair, but Mr. McAdoo and the other price-fixers of the Wilson administration did not try to be fair. They boosted the expenses of the railroads at the same time that they held revenues down. They boosted the expenses of the farmers at the same time that they held the revenues of the farmers down. They admit that they inflated in order to make it easy to sell Liberty Bonds to the public and then they deflated until those who could not carry the bonds were compelled to sell as low as 85 cents on the dollar.

"All this adds emphasis to the statement that you cannot hit the railroads, the farmers or the bondholders without ultimately hitting everybody. Nearly everybody found it out in time to give the Democratic party its walking papers by the largest majority ever recorded in the United States.

"Democratic campaign managers think the American people have short memories, but they haven't."

The last issue of the Scientific American Magazine gives a graphic description of a wonderful invention which is being rapidly developed and introduced throughout the country. The Radio Telephone, which has been so far perfected that wireless messages can be sent and received thousands of miles across land or sea. By the use of this device many people in New York, Chicago and San Francisco distinctly heard every word spoken by President Harding in his address over the grave of "The Unknown" dead soldier at Arlington Cemetery, near Washington, D. C., Armistice day.

The description of the device and its possibilities, already proven, read like a "fairy story" and there is good prospect that ere long it will become available for use in our homes or public places at very reasonable cost, and enable people at home or in assemblies to her all kinds of music, lectures and speeches by notable persons in all parts of the country.

There are two basic features which underlie the possibilities of this phenomena. First, all sounds rediate from their source through space very much as the dropping of a stone in a still pool will cause waves to radiate on the surface of the water in ever widening circles but with dimishing force. The second important feature in the Vacumn Tube Amplifier, which is a small glass tube, not so large as a mans finger, within which is confined electrical mechanism which magnifies the sound greately, so that sounds imperceptible without the amplifier can be distinctly heard, and more than that a second amplifier magnifies the magnified sound so that receiving equipment provided with a given number of amplifiers greatly increases the range of perfectly audible service from the sending station. This is no joke or "pipe dream" but a demonstarted practicable matter.

REFUGE

The Singing Society met the First Sunday in March at 2:00 o'clock and was called to order by the President, J. E. Miner, and prayer by R. N. Connell. The community arranged the program as follows::

Directors: J. E. Miner, M. B. Durbin, R. E. Powell and O. R. Robinson. Recess for ten minutes. R. M. Robinson, J. W. Cleckler, G. C. Powell, C. H. Robinson and E. L. Powell, all sang three songs each.

Organists: R. E. Powell, C. H. Robinson, Miss Lillie Mae Weldon, Miss Pearlie Jones, Mrs. Donia Robinson.

We were glad to have the Providence class with us. Also singers from other communities with us, and we extend a hearty welcome to all singers and lovers of music, and we invite all who will to come at any and all times and help us.

Our Sunday school is progressing nicely. We have a large crowd every Sunday. We have an evergreen Sunday school. We think everybody should be interested in Sunday school work, and ask God to help us in all our undertakings to upbuild His cause here in this sinful world. Our Society meets the first and third Sundays at 2:00 o'clock.

Well, folks, I would write more this week but that grasshopper got started to kicking last week and he kicked so fast and hard that he kicked the rest of "The Doings" clear away and I could not find them anywhere.

There surely must be a new man at the bellows judging from the way the wind has been blowing the past few days. The wind blowing so hard is about all the weather that we have had so far this winter that has been in its right place.

Well, it seems that every one is sending in conundrums to be answered so I will give you a few, but first I wish to answer those asked by the correspondent at New Harmony. That which you cut at both ends and it gets longer is a ditch. And there are no sticks that go to a crows nest as they are all carried. Now I want some one to tell me, what it is that the more you take form it the larger it gets? Why is a millionaire baby and a Ford car so much alike? Why is a Ford Car and a Bath Tub alike? Why is a dogs tail and the center of a tree alike? When is a bonnet not a bonnet? This will do for this week and I will give you some more next week.

A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

Duplicate wearing parts for

B. F. Avery & Sons Chilled Plows

The Chilled Plow with the Lock that Locks

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.

Come in and let us show you just why Avery Plows excel in this respect

NIX-VINES WEDDING

Dan Cupid has been busy again. This time he shot his unerring darts so as to transfix the hearts of Miss Etha Nix and Mr. David Vines. These young people surprised their friends last Wednesday afternoon by getting married. The nuptial ceremony was performed by Rev. The bride never looked more lovely than in her traveling suit of Navy blue with accessories to match. She carried a bouquet of pink and white carnations.

Both parties are well known. The bride is the daughter of Mr. J. P. Nix, a prominent farmer of near Jemison. For the past two years she has been a teacher in the Clanton Grammar School. MAPLESVILLE

The weather has been very disagreeable for the last few days. It has been cold and rainy and looked as if it was going to cause some of our pupils to be absent some days, but it seems that they are interested in coming so much till they get their rain coats and parasols and here they come to school. Especially the seventh grade and we hope every one will keep up the great interest they have taken in this season of school. We are most certain that we will have a new school house by the time the next session begins.

We are all very sorry of Miss Allie Millers absence from school a few days this week on the account of sickness. We hope she will be able to return to her school soon for she is missed by her pupils very much.

Our Sunday school is improving so nice for the last few Sundays till we truly hope that when spring opens that we will have doubled the number of attendance that we have now. We all should enjoy going to Sunday school better than anything else, for there is is where we learn the most about God.

CLANTON PAPTIST CHURCH

Last Sunday was a good day for this church with a good attendance in Sunday School, and fine congregations, especially in the morning. Next Sunday interesting services will be held both morning and night. The pastor will preach in the morning and Dr. J. E. Barnes, State Enlistment worker, will speak at night, in the interest of the 75 Million Campaign. On Thursday a special meeting is to be held in Birmingham at the First Baptist Church. Dr. L. R. Scarborough of Texas and several other good speakers will have part in the all day meeting that is arranged. The pastor will be absent from the city attending this meeting.

While we had a good Sunday School and a good increase over that of the previous Sunday we have not reached the 200 mark yet. A little more concentrated effort on the part of parents, officers and teachers will help us to reach this very soon. It is a fine thing to note in Clanton the great interest now being taken in Sunday School. Something like 400 were in Sunday school last Sunday at all of the three churches. This is an increase of 100% over two years ago. The value of the Sunday school is inevitable in the life of a child, and is very helpful to adult people as well. We welcome you if you attend no Sunday school to our building and church where we have the best equipment in the city for Sunday school work. You are cordially invited to attend the services of this church. P. G. CARTER, Pastor.

Mr. Steve Baker of Refuge community was a visitor to The Union-Banner office Monday. We thank him very much for bringing us a club of three new scriptions to the paper. Montgomery.—Following the spread of the farm bureau movement in less than one year into all sections of Alabama, resulting in 37 counties already having well organized, active county farm bureaus, information has reached the state office of the Alabama Farm Bureau Federation that Clay, Henry and Washington Counties will each begin organization work at once, to be followed in short order by Marshall, Macon and other counties. Within two months after opening permanent state offices, the headquarters of the Alabama Farm Bureau Federation has become one of the most active offices in the state, and is receiving a hearty response from every section of Alabama to its soil building, cooperative marketing and general rural improvement program being put into operation by the county farm bureaus. The 37 counties already organized are Lauderdale, Limestone, Madison, Colbert, Lawrence, Morgan, Franklin, Etowah, Cherokee, Lamar, Calhoun, Cleburne, Talladega, Shelby, Tuscaloosa, Pickens, Sumter, Hale, Coosa, Tallapoosa, Chambers, Lee, Elmore, Autauga, Choctaw, Bullock, Montgomery, Barbour, Pike, Dale, Geneva, Covington, Conecuh, Escambia, Baldwin, Mobile

Gas Please

Shreveport, La.—The sale of a birthright for a mess of pottage in Biblical days finds a parallel in the report that Lillie Taylor, 25-year-old negress, who was declared by the Louisiana Supreme Court to be the legal heir of an oil estate valued from $10,000,000 to $20,000,000, had some time ago sold one-half of her royalty to oil concerns for $5,000 and gave the other half to her attorneys, who conducted the suit. The negress is a resident of Dallas, Tex., where she engaged in washing and house cleaning for white people.

Ask For Bids On Highway

Lafayette.—Considerable interest is being manifested in Lafayette in the fact of the state highway commission asking for bids on the building of the highway from Lafayette to the Randolph County line, near Roanoke. Something like $100,000 will be spent in building the road and work will be furnished a great many now out of jobs.

Pay Up Campaign On

Birmingham.—This is a little circular that has been distributed by the Associated Retail Credit Men: "If all the money due the merchants of Alabama was paid this week business would be increased to such an extent that hundreds of men would be put to work at once. Those men would have needs to supply which would give still more men employment, the benedit accruing would be incalculable. 'Pay-Up-Week' is here. It is a nation-wide movement, designed to quicken prosperity and to restore business to normalcy."

Weevils Appear Early

Mountain Creek.—Already the boll weevil scare is on in this section. It is claimed that many of the pests have been induced by the warm weather to leave Winter quarters.

Mulga Citizens Elated

The Pneumonia Month.

March is a typical pneumonia month and usually gives high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slipht, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneuminoa. It is pleasant to take. Children take it willingly.—Upchurch Drug Co.

CLANTON HAS A POSTMASTER AT LAST

Mr. Wiley M. Bean took official charge of the Clanton Postoffice on last Sunday. This was the first time since the death of Postmaster J. E. Robinson, in November, 1918, that this city has had a real honest to goodness sure enough full-fledged and duly constituted postmaster. Of course we have had good men in charge of the office all along, but they were all serving under temporary appointments, and therefore were not real Postmasters. During this period of over three years we have been without a regularly appointed postmaster, the office has been in charge of five different men temporarily appointed. They are Grover and Grady Harris, N. A. Kicker, John M. Parrish and J. J. Pickens.

Everybody is glad we have a Postmaster once more, and the hope and expectation is held out that Mr. Bean will be one of the best Postmasters it has ever been our good fortune to possess.

CENTRAL ALABAMA HOSPITAL

We were reminded by the editor of this paper that the Central Alabama Hospital is almost completed, and were told that it is the best building in town. In parenthesis, however, the Baptist Church was referred to.

As citizens we should be proud of the fine new hospital building, which though rather small is a credit to any city. Clanton should take some pride in the fact that it has within its borders a man who is both architect and builder of this fine building, which for the purpose for which it was designed is the best in town. The writer however would suggest that the joke about the hospital building being a better building than the Baptist church is now rather stale, and suggests that the editor hatch something else that is fresher to the readers of the Union-Banner. Laying all jokes aside as the writer had much to do with the initiation of the hospital enterprise by helping to raise the stock and subscribing $100 himself he has no desire to discount its beauty, but to agree that it is a fine building of its kind and will doubtless be of great service to suffering humanity for many years to come. The fine support given to it by the ladies in the recent showers of linen goods is only one evidence of the manner it is already being appreciated by the people. Let the good work go on.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

VOLUME IX. CLANTON, ALABAMA, THURSDAY, MARCH 16, 1922. NUMBER 47.

M. D. FOSHEE ASKS FOR RE-ELECTION

Cites His Past Record in Office and Asserts his Loyalty to Republican Party.

Clanton, Ala., March 15th, 1922.
To the Voters of Chilton County:—

In this issue of The Union-Banner appears my announcement for re-election to the office of Clerk of the Circuit Court of this county.

In making my announcement I do so realizing the many duties and responsibilities that will be upon the one that is elected to this office. As most of the voters of the County know, this is one of the hardest offices in the County to fill. A Clerk deals with legal papers, records, and Courts all of his time. Therefore it takes one of the best qualified and most active men to fill this of almost and office in the County. I have had some experience in the office and I do not believe that I have ever caused the tax payers of the County one Dollar of expense by my errors. I have always had my papers and records ready when Court was called; and thereby saved the Courts from having to wait on me to get them ready; and therefore saved the County the expense of paying Jurors to sit around and wait for the Clerk to get ready.

I feel that it is almost useless to call the attention of the people of this County to my party loyalty, as I have for the last 12 or 15 years done all in my power for the success of the Republican party in this county. In the election of 1910, I was elected in the General election when most of our ticket was defeated. Since that time I have managed several Republican campaigns, and have at all times given of my time and means to aid in every Republican campaign in this county, as well as aided in campaigns in several other counties in this State. From 1910 to 1916 I gave several hundred dollarz to keep the Republican paper in this county on its feet and going, besides giving of my time to aid it in every way that I could. I also bore one half of the expenses of the Coosa County Index, a Republican paper that aided the present Judge of Probate of Coosa County to be elected.

My official record is before the people of this county, and I invite a careful examination of it. I do not say that I have not made any mistakes; however I do believe that they are comparatively few, considering the amount of work and the difficult task of running the Clerk's office.

I wish to say that I am not making the race on the shortcomings of any of my opponents, if they have any; but am asking the voters to elect me to the same office that I now hold, on my merits and qualifications.

I also wish to assure my opponents that I will conduct my campaign on a high plane, that I positively will not indulge in or indorse any mud slinging at all. I believe that each of my opponents are good men.

However, I believe the people of the County should vote for the man that is best qualified to fill the office; that a voter should consider the qualification and experience of a man for any office just like he would if he was going to hire the man to keep a set of books for him. For it appears to me that it is the same thing, as the voters in the election will employ some one to keep their books for them.

In conclusion, I wish to thank the people of the County for the confidence that they have shown in me in the past by electing me Clerk, and I have done everything in my power to try and not do anything that would cause any one to regret having cast their vote for me. And I assure them that should I be their choice this time that I will do all in my power to properly fill the office.

Assuring each and every one that their vote and influence will be appreciated, I am.

Yours very truly,
M. D. FOSHEE.

Clanton, Ala., March 15, 1922.

DUDLEY COLLINS RUNNING FOR CLERK OF THE CIRCUIT COURT

We direct the attention of our readers this week to the announcement of Mr. Dudley Collins as a Republican candidate for the office of Clerk of the Circuit Court of Chilton County.

Mr. Collins is well known to the people of this county, having been Tax Collector of the county for several years. He is a thoroughgoing good man, a loyal and faithful servant of the people, and a lifelong worker for the cause of the Republican party. His past official record has been good. He made a splendid Tax Collector, and no doubt his many friends will be glad to lend their support in his candidacy for the office which he now seeks.

REESE MULLINS IS DEMOCRATIC CANDIDATE FOR PROBATE JUDGE

Mr. C. Reese Mullins this week announces himself a candidate for Probate Judge of Chilton County, on the Democratic ticket. He says it is his life's ambition to serve the people of Chilton County at least one term as Probate Judge, and promises faithfully that if elected he will not make such a mess of the Job as Reynolds is alleged by him to have done.

The letter of announcement which Mr. Mullins issues is a broadside indictment of the present county admiistration as a total failure, none of which will be believed by anybody, except a few like himself, who are on the outside, and have a burning desire to be on the inside.

We predict that Mr. Mullins has got a lot of running to do before the people of this county turn over their affairs to him as he so much desires them to do. It would not surprise us if his life's ambition never materializes, if it is going to take a term as Probate Judge of Chilton County to fill the bill.

Mrs. Ellis Mims of Maple Springs was a visitor to The Union-Banner office Tuesday. Mrs. Mims is a loyal friend of this paper, which fact is attested by the splendid club of new subscribers which she brought us. We thank the good lady for her interest.

MANY CASES ALREADY AT HOSPITAL FOR TREATMENT

The doctors and nurses have run the carpenters and painters out of the Central Alabama Hospital building and replaced them with a whole raft of sick folks who seemed to be just saving their ailments till the hospital could take care of them. At the time of this writing there are half a dozen or more receiving treatment there.

The patients began to come in a week ago and up to this time the following have been registered:

Last Wednesday Mr. John Welch of near Marbury was brought here by Dr. J. W. Maddox. The next patient was Mr. Vernon of Lomax, who was injured at the Vida Lumber Company's mill. He had his foot crushed in the machinery last week, and was brought to the hospital Friday, when his leg was amputated. He is improving rapidly.

Sunday was a very busy day for the nurses and surgeons, there being three operations performed, as follows: Irby Higgins for mastoiditis; Ambrose Clinner, for gall stones; Miss Lucy Welch of Marbury for appendicitis.

Mr. Ben Glass has been in the hospital for several days, and is responding very successfully to treatment. It is thought he will be discharged in a few days without an operation.

Miss Anne Gardner, a trained nurse of much experience and ability, is Superintendent in charge of the hospital. For the present she is being assisted by Miss Inez Gandy a student nurse, the daughter of Mr. Tom Gandy of Fairview.

On account of the large number of patients at the hospital the reception which was scheduled to take place at the building Wednesday afternon was abandoned as part of the opening exercises.

The splendid start that has been made seems to substantiate the predictions that have been made that he institution would be a success.

CIRCUIT COURT IN SESSION THIS WEEK

The regular term of the Circuit Court of Chilton county is in session here this week. Judge McMorris of Wetumpka is sitting for the trial of the cases on the civil docket. Solicitor C. E. Alexander of Prattville is conducting the investigations of the Grand Jury.

The Grand Jury went into session about noon Monday, with Hugh Thompson, Blacksmith, of Clanton, as Foreman. The members of the Grand Jury, in addition to the foreman, are as follows:

Marion H. Marcus,
Will Moore,
Harve L. Mims,
Tandy McSwain,
Pratt Crumpton,
J. Archie Cleckler,

Messrs Joseph E. and B. L. Cobb of Jemison were visitors to Clanton Wednesday. They brought us a nice club of new subscribers, for which we are duly thankful.

LOOK on back page of Union-Banner and you will find explanation of this picture.

TOM LITTLEJOHN WILL MAKE RACE FOR SHERIFF

Mr. Tom J. Littlejohn of Clanton announces that he will ge into the race for Sheriff of Chilton County on the Republican ticket this year. He has not yet made a formal announcement of his candidacy, but will do so in a few days, probably in the next issue of The Union-Banner. Mr. Littlejohn is a popular fellow, and has many friends over Chilton county who will be glad to see him cast his hat into the political ring for the office of Sheriff.

From all indications, Mr. Littlejohn will make a good race; and if he should be nominated and elected by the Republican party as Sheriff of Chilton County, he will make a good official.

BEAN MAY RUN FOR PROBATE JUDGE

Prof. Willie T. Bean, who for many years was Superintendent of Education of Chilton County talks like he is thinking seriously of entering the race for Probate Judge of Chilton County this time. He says a great number of his friends have been urging him to enter the race, and that he will get into it very likely if this encouragement continues to come to him.

FOUR HELD WITHOUT BOND IN CONNECTION WITH BARRETT MURDER IN COOSA

The preliminary hearing of evidence in the case of the murder of Dewell Barrett, at Rockford last Saturday resulted in the binding of Fred and Clarence Henley, Robert Tippett and Miss Jewel Popwell without bond, to await further investigations by the grand jury of Coosa County.

The hearing was held at Rockford, before Justices of the Peace, Robinson and Burks. When the decision to hold the above named persons was announced, the great throng which filled the Coosa county court house went wild with cheering. The two Henley boys, Tippett and Miss Popwell were carried to jail in Birmingham Saturday night by Sheriff George B. McDonald, where they will await the action of the Grand Jury.

Rev. C. D. Messer of Thorsby, Route 1, was circulating among his many friends in Clanton Monday.

Messrs J. A. Sample and W. W. Parnell of Stanton were visitors to Clanton Monday. They called at The Union-Banner office and paid some subscriptions. There may be all the Democrats in Beat eight that are reputed to be there; but folks down in that end of the county read The Union-Banner just the same. They doubtless believe in looking at both sides of the political question.

Mr. Alf Mims of Thorsby was among the visitors to Clanton Tuesday. He requested The Union-Banner to announce that Mr. Fillmore Childress will deliver a political address at Cross Roads School House in the near future. The definite date will be announced later.

Federal Prohibition Officer, Walter Gillespie, was circulating among his friends in Clanton Tuesday.

PERCY M. PITTS FOR SENATOR

Readers of The Union-Banner will notice in this issue of the paper the announcement of Mr. Percy M. Pitts for State Senator, to represent the counties of Shelby, Chilton and Autauga in the upper house of the Alabama Legislature.

Mr. Pitts is a worthy and capable young attorney of Clanton. He is also a lifelong Republican. He began the practice of law in Columbiana in 1915, coming to Clanton about two years ago where he has continued his practice with success. He is a veteran of the World War, having spent a year in France with the A. E. F.

Mr. Pitts would make an able man in the office to which he aspires, and as the nominee of the Republican party, we believe he stands an excellent chance of being elected. He is well and favorably known in his native county of Shelby. We believe the majority which would be given him in Shelby and Chilton could not be overcome by the Democratic majority of Autauga, the other county of the Senatorial District.

We commend Mr. Pitts to the Republican voters of this county and District as a man who will make us a valuable Senator, and as a Republican who can be elected to the office next November.

A number of friends of The Union-Banner have sent in their clubs of three subscribers to the paper thereby getting advantage of our special dollar offer. Some did not stop at three, but sent in as high as four, five and six. We certainly appreciate the interest thus shown by these friends. They know that The Union-Banner is a big bargain at a dollar a year, and therefore they want their friends and neighbors to have it. Hurry and get your club lined up. This dollar price is not going to last long. April 10th will bring it to a close. After that time the price will be a dollar and a half again. All you folks who have been saying you would take the paper if you could get it for dollar better get a hump on you now. It will be all off after April 10th, unless you think enough of the paper to pay $1.50 for it.

FORMAL OPENING OF CLANTON HOSPITAL

Interesting Program of Exercises at Baptist Church.

Opening exercises of Central Alabama Hospital were held Wednesday, with appropriate programme at the Clanton Baptist Church. The people of Clanton and surrounding country and nearby towns gathered in good numbers to listen to the addresses of the occasion, principal of which was that delivered by Rev. Frank Willis Barnett of The Birmingham News. Rev. Barnett is a special favorite among the people of Chilton county, and his presence here, together with the general interest which is taken in the hospital, brought a good [illegible] the exercises.

Dept. of Archives and History, Thos. M. Owen, Director.

[illegible] out at the Baptist Church: [illegible]come Address by Dr. V. J. [illegible]gg, Mayor of Clanton, and also President of the Central Alabama Hospital.

Response by Rev. J. M. Graham of Thorsby and Mr. W. A. Gulledge of Verbena.

Address by Miss Jessie L. Marriner, of the Child Welfare Department for the State.

Invocation by Rev. D. M. Pearson, Pastor of Clanton Methodist Church.

Music was furnished by the Chilton County High School Band.

The program of opening originally contemplated a reception for visitors at the hospital building in the afternoon; but this was abandoned because of the fact that there are already a large number of patients in the hospital.

The address of Rev. Barnett was of course cut to fit the occasion, and done in a style the duplicate of which has never been found. He is probably the best all round speaker for occasions of this kind that could be found in the state of Alabama.

The people of this section of the State are particularly proud of the splendid hospital building around which wes centered the activities of the days exercises. The medical fraternity in this and adjoining counties are united in support of the institution, and the inrush of patients has already demonstrated the prevalent need of a hospital here. The building is the most modern that can be designed, having embodied in the arrangement and furnishings, all the advantage that has been found practical and best for institutions of this kind.

REYNOLDS CONSIDERING RACE FOR PROBATE JUDGE

Editor Union-Banner:—

I have been solicited by a strong delegation from each Beat in the county, to run for Judge of Probate. I want to thank the people for the confidence they have expressed in my official acts and say to them that I will let them know in a short time what I will do about being a candidate.

Respectfully,
L. H. REYNOLDS.

Proper Treatment

Scrap iron is worth about $50 a ton. Mainspring steel for watches is worth about $22,000 a ton. Both are made from the same kind of ore. What makes the difference in price?

It's the TREATMENT the metal receives — that's all. The dollars you handle idly, spend foolishly, invest carelessly, are worth but very little to you in the long run. The dollars you save and carefully invest, increase in value and lay the foundation for a fortune. The dollars mentioned in each case are just the same. It's the TREATMENT they receive that makes the big difference. See the point?

THORSBY SECTION

(S. E. Norton, Manager.)

Thorsby Institute has been favored the past week in several ways that will be of public interest. For several weeks past a somewhat vigorous campaign has been on in the schol in reference to Hook Worm cases and their treatment under the direction of Miss Emily B. Ellsworth, the associate pricipal. The folowing letter from Miss Jessie L. Marriner, R. N. Director Bureau Child Hygiene and Public Health Nursing:

Montgomery, Ala.

My Dear Miss Ellsworth:—

Thank you very much for the report of your work at Thorsby Institute in the Hook Worm campaign. Your achievement compares very favorably with the efforts of our most enthusiastic public health nurses and health officers. So I congratulate you. I am calling the attention of the Laboratory chief to this conspicuous bit of work. With best wishes I am,

Sincerely yours,
JESSIE L. MARRINER.

A letter from our representative in Congress, Mr. Lamar Jeffers, informs Miss Ellsworth that he is sending a list of Agricultural Bulletins now available and also the Agricultural year book, and a copy of memorial addresses on the life and character of John Hollis Bankhead. Both these books will be placed in Thorsby Institute Library.

On Monday, Rev. Nels Benson, who for the past eight years has been a missionary in Chiina under the auspices of the Lutheran Church, visited the school, at chapel, and gave an interesting and instructive address, taking for his subject, "Walking with God." Mr. Benson has been visiting Thorsby Lutheran Church people in company with his brother, Rev. John Benson, who is pastor of a church at Silver Hill, Ala.

On Saturday night, March 18th, Thorsby Institute boys athletic Assiciation will give a benefit entertainment in Bates Hall commencing at 7:45. The program will be as follows: Various Athletic Stunts, by members of the association; negro farce "Asking her father," two boxing matches, a wrestling match, farce, an equal chance, vocal and instrumental music. Admission: Adults 25 cents, Children 20 cents.

At a special meeting of Thorsby Town Council, held Thursday night, March 9th, for the purpose of considering and acting on a proposed franchise for the installation and maintenance of electric light and power, for the use of the Town of Thorsby and its citizens. After due consideration the Council voted unanimously to grant a ten year franchise for this purpose to P. G. Ault, of Birmingham, where he has been well known in business circles for many years. This franchise as drawn will be subject to the approval of the Alabama Public Service Commission, to whom it has been presented with a petition for its approval, in all legal respects signed by numerous citizens of Thorsby. Mr. Ault is now engaged in making preparations to ship the outfit to Thorsby.

Mrs. A. K. Horn, together with her son, Philip, were in Thorsby this week arranging to dispose of some of their goods left from the fire. They report Mr. Horn is doing nicely.

Mr. A. C. Legg was a visitor at the home of Mr. C. E. Lucas on Tuesday of this week.

The Baptist Ladies Aid Society will be entertained at the home of Mrs. Pete Franklin of Thursday afternoon, March 16th.

Mr. and Mrs. S. E. Norton spent the day in Birmingham last Saturday.

The union meeting of the Congregational church Thursday night, when Thorsby Chamber of Commerce, Thorsby Parent-Teachers Association and the Ladies Guild of Thorsby put on a health program, was another illustration of the splendid "get together" spirit which prevails in Thorsby. The house was well filled with an attentive and appreciative audience. A principal feature of the program was a moving picture film, of unusual excellence, illustrating many aspects of the life and activities of the hook worm, a parasite on humanity, which is all too prevalent in Alabama and which will require vigorous and persistent application of the laws of sanitation to completely eradicate from any community.

We, the teachers of Jemison Reading Circle, respectfully request the Chilton County Board of Education to devise some plan by which the health of the school children of Chilton County may be safe guarded against contagious and communicable diseases. (Signed.)

A DEMOCRATIC DISAPPOINTMENT

Washington, Feb. 27.—"When former Congressman Cordell Hull was chosen as Chairman of the Democratic National Committee there was a general feeling among Democrats that a fortunate selection had been made—even the Republicans were inclined to concede that a great improvement had been made in Democratic leadership," remarks the Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr. "But there are now some indications," the Republican Association continues, "that Mr. Hull is not running quite true to form and that there are many disappointments ahead for those who are to campaign under his leadership. Mr. Hull is hardly maintaining the standard of statesmanship he manifested while a Member of the House of Representatives.

"In a recent address at Indianapolis, copiously quoted by the Democratic press, we find him declaring, for instance, that, 'The American people were led over the precipice to panic conditions and terrific business demoralization by the national Republican leadership from 1918 to 1921. Not only each of the nine de-

"Mr. Hull was a Member of Congress until March 1921, and should be in full possession of all facts. He knows, as all the rest of the people of the country do, that we had a Democratic Administration of the Executive departments until March 1921. .Not only each of the nine departments but all of the boards and commissions were under the control of Democrats. This was particularly true of the Federal Reserve Board which had more to do with business conditions than any other one government organization. It was true of the Interstate Commerce Commission, of the Shipping Board and the War Finance Corporation. Congress had become Republican by a very narrow margin in 1919 but every effort of the Republicans in Congress to put through remedial legislation was blocked by the Democratic President.

"If Mr. Hull will turn to the Congressional Record he will find that the Democrats hed refused to revive War Finance Corporation which had expired by limitation and a bill for that purpose was passed by the Republican Congress only to be vetoed by the President. That bill was passed over the veto of the President in both Houses, and in the House of Representatives Mr. Hull voted with the Republicans. If it be true that no people were ever more ruthlessly led to the slaughter, as Mr Hull charges, how did it come that Mr Hull voted with the Republicans against a President of his own party?

"But Mr. Hull shows his lack of statesmanlike poise by direct charges that Senator Lodge is 'most remindful of Catiline, the political conspirator in the Roman Senate, while his statesmanship most nearly resembles that of Aaron Burr.'

"On the second thought Mr Hull will scarcely repeat his declaration of similitude between Lodge and Burr. Mr. Lodge has occupied a seat in national legislative halls for more than thirty years by virtue of the votes of a majority of the people of one of the great and intelligent States of the Union. When Mr. Hull indicts Mr. Lodge in the words above quoted he indicts also the intelligence and honesty and patriotism of the people of Massachusetts. We doubt whether Democratic leaders in Massachusetts will care to have that sort of argument spread before the people of that State as coming from a Democratic source".

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

IMPROVEMENT IN BUSINESS SHOWN

SEVEN BIRMINGHAM INDUSTRIES RUNNING FULL TIME—SEVENTEEN PART TIME.

K. K. K. MAKES DONATION

Huntington And Connelley Convicted —Clemency For Lambert Recommended—Farmers Of South Alabama To Grow Melons.

Birmingham.—Improvement in business conditions in Birmingham is shown by the advance sheets of the bulletin gotten out by the Department of Labor, which have just been received at the Municipal Federal Employment Bureau. During the period from January 15 to February 15, reports from 24 local industries employing less than 500 men each showed a net increase of 112 men employed. The Tennessee Coal, Iron & Railroad Company was reported as operating at 75 per cent capacity, with seven out of its nine open hearth furnaces at Ensley in operation. The bulletin will show the A. G. S. shops have resumed operations in the car department employing 260 men, who have been idle for some time.

The advance figures, which were given out by H. E. Oliver, director of the Municipal Federal Employment Bureau, show that of the 24 Birmingham industries covered by the report seven are running full time, and 17 part time or with reduced forces. Plants producing steel rails, steel wire and wire products are reported fairly busy. Further improvement in conditions, due to the prospective building program here, are predicted.

7 CREAMERIES ESTABLISHED

REPORT SHOWS THIRTY-SEVEN STATIONS HAVE BEEN PLACED.

Auburn.—The establishment of seven creameries and 37 cream stations and the introduction of 461 heifers and bulls and 717 milk cows were the high points in the dairy development of Alabama in 1921.

In a 21 page report William Hardie, dairy specialist for the Extension Service, reviews the progress of the work for the year as a whole, making special references to the different sections and indicating that progress was made in every section of Alabama.

Comparing the situation at the end of 1921 with that at the beginning, Mr. Hardie states that there are now 21 creameries in Alabama, seven of which were established in 1911; and that 37 of the 48 cream shipping stations of the state were established during the year.

For Haleyville Improvements.

Haleyville.—The streets and roads improvement committee appointed by the Haleyville Civic Association met with some very enthusiastic talks by W. R. Teague, C. L. Webb, C. C. Burdette, H. P. Still, B. J. Cowart, J. R. Dozier and O. B. Hall on the future of the town and the need of good streets through the town, and good roads throughout the county. The purpose of the meeting was to formulate plans to raise necessary funds to improve streets and sewerage.

Farmers Will Diversify.

Hackleburg.—The farmers of this community are preparing to rotate crops. There are between 60 and 80 acres pledged by the farmers of this community for potatoes and 90 acres for peanuts with other crops that will help to take the place of cotton. The new plans are spreading very rapidly and it is believed that before Spring the greater part of the farmers in the county will fall in line for diversified crops.

K. K. K. Donates.

Greenville.—An envelope addressed to the editor of the Greenville Advocate containing $25 for the school fair and a short note was found on the desk of Gen. J. B. Stanley, editor of the paper, supposed to have been placed there by members of the Ku Klux Klan of Greenville. The letter caused considerable comment.

PATES CHAPEL

Some one was heard to say Sunday that Pates Chapel was sure getting to have "some reputation." We hope this is true for that is one essential thing to the prosperity of a community. But we must also keep this up.

The Singing Society met here Sunday with a large attendance. "In unity there is strength," at least that is the wey we find it at Pates Chapel. With the combined classes of Pates Chapel and Pleasant Grove we are able to produce much more than we could without this union. Directors for the evening were Chester Maddox, Miss Nora Franklin, Mr. and Mrs. J. A. Cleckler, Prof. James Franklin, Miss Nettie Hodgens and Mrs. Eva Childress. Organist were Miss Nora Franklin, Mrs. Eva Childress, J. A. Cleckler and Miss Mae Maddox. We hope we will have a still larger crowd the next time. Not only "the more the merrier" but the more the better in this case. Every one is cordially invited to come and be with us on our next regular singing evening, the Fourth Sunday.

The Union-Banner has received a letter and a subscription from Prof. Cecil E. Harris, who is Principal of the High School at Raymond, Mississippi. Prof. Harris says he is missing too many things by not getting The Banner every week, therefore he wants to get on the list of our regular readers. He is a native of Chilton County, whose success as a teacher has been marked.

Lee vickers of Thorsby was a visitor to Clanton last Saturday. Mr. Vickers is one of the old friends of The Union-Banner. He has rendered valuable aid and support to the paper in years past. He has also been one of the most faithful and untiring workers of the Republican party in the county for many years. He lived in Beat 4 up until a few months ago, when he moved to Beat 9.

J. N. DENNIS ANNOUNCES AS CANDIDATE FOR SHERIFF

The announcement of Mr. Jasper N. Dennis as a Republican candidate for Sheriff of Chilton county appears this week in the candidate column.

Mr. Dennis is well known all over Chilton county, he having been a public official before, in the capacity of Tax Assessor, in which office he made a splendid record.

He will no doubt be a strong contender for the nomination which he seeks. If nominated and elected he can be depended upon to administer the affairs of the Sheriff's office in a respectable and efficient manner. He is one of the best men the party has, and his past record will stand the test of loyalty to the interests of the party.

ALEXANDER WILL SEEK RE-ELECTION

Solicitor Cecil E. Alexander, of this Judicial Circuit, is a candidate for re-election and is seeking the nomination of the Democratic party in the primary of August 8th. His announcement is made this week.

Rev. W. A. Goss of Mt. Creek was a visitor to Clanton Tuesday night. He came up to witness the presentation of the Senior Class play at the County High School.

THE AUBURN DRIVE

We note with interest that the people in charge of the Auburn Drive are panning out true to form in that they are paying for big advertisements in the lareg city dailies, and riding the small country papers for free space.

We are very frank to say that this does not produce a very pleasant taste in the mouth of this editor. We believe in the saying that what is sauce for the goose is also sauce for the gander. The next one of those publicity demons who perambulates into our sanctum is going to get a piece of our mind on this subject.

Even Bob Vail of the Western Newspaper Union is palming a good portion of this stuff on us in the news service for which he makes us pay the hard cash. Look out Bob, or you will find yourself over in the camp of the enemy.

POINT WITH PRIDE

When a Democrat tells you the Republican administration has done nothing, ask him to compare records with the preceding Democratic admisistration during its first twelve months. He will cite as Democratic accomplishments the Underwood tariff law, which demoralized our markets, and the Federal Reserve Act, the results of which are being denounced by Democratic leaders in both houses of Congress. Republican legislation and administration have brought the nation far enough back to normal so that Liberty Bonds which sold for 85 cents on the dollar in the Wilson administration are now worth 97, we are reducing instead of increasing our national debt, we are taking adequate care of the disabled and incapacitated veterans, we have checked undesirable immigration, established a national budget, discontinued a large part of burdensome bureaucracy, regained our former high place in international counsels and led the world into an international agreement for peace and reduction of armament.

M. D. FOSHEE CANDIDATE FOR CIRCUIT CLERK

The announcement of Mr. M. D. Foshee as a candidate for Clerk of the Circuit Court of Chilton County, to succeed himself, appears this week in the candidate column. And in another place in the paper a letter from Mr. Foshee which is addresed to the Republican voters of Chilton county, relative to his past career as Clerk of the Circuit Court and as a supporter of the Republicman party in this county.

The letter which is addressed to the voters by Mr. Foshee states his case as truly as it could be stated. So far as his record in the past, we are bound by truth and honesty to say that Mr. Foshee has made an official of the very best kind. He has manifested a capability in the work of handling court records and court papers that is the exception to the rule of averages among the Clerks of the State.

In addition to keeping the records and affairs of his office well up to requirements, Mr. Foshee has been kind and courteous to everybody. So far as his loyalty and work for the Republican party is concerned, that is as well known as is his record as an official. He has been in the thick of the fight in this county for the past fifteen years. He has contributed both time and money, yea even much work, for the Republican cause. We know of many times when it was he who saved the Republican newspaper of this county from wreck and ruin financially by contributing his own money to keep it going. This was at a time when a Republican newspaper was sorely needed to carry the standerd of the party to the people. Marion Foshee stayed with us through thick and thin, and the paper was kept going until to-day it is standing upon a solid foundation.

There are many instances where Mr. Foshee has exhibited his ability and fitness as Clerk of the Circuit Court; and likewise his loyalty and devotion to the Republican party and the cause of the people. Therefore it is not empty prophecy to say that if re-elected to the office he will make a good oficial. He has made one in the past, and will continue to do it if the people want him.

TWO GREAT ACCOMPLISHMENTS

Washington, March 13.—"The two outstanding successes of the first year of the Harding Administration have been the conduct of the Nation's foreign affairs, and the marvelous record of economy achieved under the Republican budget law," declares the Republican Publicity Association, through its President, Hon. Jonathan Bourne, Jr. "On those two issues alone the Republican party could go to the polls next November without a doubt as to the outcome of the vote. The Democrats may bring what charges they may against the record of the record of the last twelve months, they can not shake the facts as they stand, and with which the people are perfectly familiar.

"American international prestige was left at the lowest ebb of history by the outgoing administration. Today America has completely regained her moral and material leadership among the nations of the world. President Harding conceived and, with the aid of Secretary of State Hughes, carried out the boldest stroke for emancipation from militarism and for world peace that has ever been suggested. The league of nations covenant, with all its machinery for effecting its decrees by force of arms, did not attempt to do what the Washington conference actually accomplished. The covenant spoke vaguely of future limitation of armaments, but Secretary Hughes opened the Washington conference with a specific program for scrapping navies that was adopted substantially as presented. The other treaties that were an outgrowth of the conference furnish further proof of the masterly fashion in which our international relations have been conducted—a striking contrast to the successive surrenders that marked the matching of minds of the former President with the skilled diplomats of Europe.

"The nation was on the sure road to financial ruin when President Harding stepped into the White House. Deficit had followed deficit, even though the war had been ended over two years, and there was no relief in sight. The Republican Congress promptly repassed the budget bill that Mr. Harding's predecessor had vetoed, the President appointed a man of proved energy and courage as Director of the Budget, and the Congress valiantly supported him in his reductions of Federal expenditures. For three years we have had a Republican Congress, and for one year we have had a Republican President also. During that period the cost of running the Government has been as follows: 1919, $19,000,000,000; 1920 $7,500,000,000; 1921, $6,500,000,000; 1922, $4,065,000,000. It is hoped to bring the figure close to $3,500,000,000 in the very near future.

"In anticipation of further economy, the Republicans enacted a new internal revenue law that made a drastic cut of $800,000,000 per year in the people's tax burden. Much of that relief is directly felt by the individual taxpayer who is given increased exemptions and deductions in filing his reutrn. The rest is left through reduced prices and stimulation of business. The economies and reduced taxation of the Republican program have put renewed ambition into industry and created once again an incentive for profitable production. Proofs of that fact are found on every hand. Liberty Bonds have gained more than $10 per hundred in value, the borrowing rate has decreased from 8 per cent to 6 per cent, and securities in general have steadily advanced in price.

"The foreign debt refunding law, various laws for agricultural rehabilitation, an immigration restriction law, a civil service retirement law, the Veterans' Bureau law, and a host of other acts contributing to the public welfare have been passed. They have brought an increase in farm prices, which means added prosperity in scores of other industries; they have given the disabled soldiers the decent treatment denied them by the Democrats; and they have renewed that public confidence in government, so sadly in recent years. The party responsible for those accomplishments serenely awaits the verdict of the voters next November."

CANCELATIONISTS ON THE RUN

Washington, March 13.—"Despite the fact that a commission has been appointed by act of Congress for the sole purpose of arranging terms of repayment of the fereign debt owed the United States, those who urge the cancelation of the obligations are striving as hard as ever to carry their point," says the Republican Publicity Association, though its Pesident, Hon. Jonathan Bourne, Jr. "The lines of their arguments vary widely. Some claim that it is impossible to pay the debt unless we permit the importation of goods to a like amount, others insist that we owe a moral obligation to Europe to wipe off the debts as part of our contribution to the cost of the war, while still others flatly declare that foreign treasuries simply cannot make the payments. A study of the three principal debtor nations shows the fallacy of the cancelation propaganda.

"Great Britan not only can pay, but has indicated her willingness to pay, and has already made provision in her annual budget to meet the interest charges for the current year. The refunding commission should have no difficulty in adjusting interest payments for the future, and in arranging for regular reductions of the principal, amounting now to about four and a quarter billion dollars. The natural resources of Great Britian did not suffer at all from the war, and she added to her wealth a great amount of new territory rich in raw materials.

"France owes the United States about three and a half billions. Her national debt is approximately $23,000,000,000 figured on a gold standard, with a national wealth of around $60,000,000,000 and an income of about $7,500,000,000. Like Great Britian, France received immensely valuable additions to her territory in Alsace and Lorraine, the Saar Valley, and former German colonies in Africa. The annual interest on her obligation to the United States would be approximately $150,000,000, which she should be able to pay easily, and the principal can be so spread over a period of years as to make its payment no great addition to her financial burden.

"Italy has a total national debt of about $5,000,000,000 in gold. Before the war her wealth was $22,000,000,000 and annual income about $4,000,000,000. She, too, annexed valuable territory from Austria, which will bring in added revenue. Her debt to this country is about $1,800,000,000. Interest charges would be less than $90,000,000 a year, surely not a great burden, even with substantial annual principal payments added.

"It is understood the debt refunding commission will turn its attention first to the British obligations. The successful outcome of those negotations will form an important precedent for those that are to follow. National pride in the other debtor nations will not permit British credit to stand upon a higher plane than theirs. No county will allow another to outdistance it in the race for international credit. Ambassador Jusserand gives voice to that feeling when he indigantly denies that France will repudiate her debt. 'I want to say,' he declares, 'that there are 39,000,000 loyal Frenchmen who stand squarely behind France's obligations, and I am one of the 39,000,000.'

"Did they but know it, cancelationists are dealing a blow to international peace ond goodwill rather than aiding that cause. The destruction of international credit means the destruction of the repudiating nation if war comes to it in the future. Unable to negotiate foreign loans, a discredited country would fall easy prey to the enemy."

COMMISSIONER WALKER SEEKING TO CONSOLIDATE BRIDGES

Editor Union-Banner:—

Please give me a little space to say to those who are interested in the roads and bridges of Beat 7 and 8, that I think it would be a wise thing for the people to come together with the County Commissioners and agree on ways and plans to consolidate the five bridges on Mulberry Creek into three bridges. It is my intention to ask the people and the Commissioners to meet in the near future to see if there can't be something done to save expenses on Mulberry Creek. The county is having to keep up five bridges when three would answer all purposes. I think that the man who has a right to kick about high taxes, also has the same right to help the Commissioners keep down expenses.

We need your help and co-operation. If you want your county to help you, get busy and do something to help your county.

Respectfully,
C. T. WALKER.

SQUIRE WALDRUP WRITES ABOUT COUNTY AFFAIRS

Editor Union-Banner:—

Please let me have a small space in your valuable paper to say a few words in regard to the Mullins and Reynolds controversy.

First, I want to ask Mr. Mullins if anybody had to sell their county claims at a loss in order to get them cashed during the Reynolds administration. What about it under Deason's administration?

Then were not the roads built by time warrants under Deason's administration, and the county placed in debt before Judge Reynolds took charge of the affairs of the Probate's office?

Mr. Mullins should explain that when Judge Reynolds took charge of the office following Deason, he found the county heavily in debt, the treasury busted, and the county's obligations worth about fifty cents in the dollar. In addition to all this, Reynolds's administration had to incur the expense of dipping cattle, and building a new court house. In spite of all these things, Reynolds has been able to carry out his promise to pay all county claims without loss to the holders. Mr. Mullins knows these things are facts, and if he is so anxious to be fair, he ought to tell the people about all this.

Mr. Mullins says the Judge and Commissioners did not come to our relief in the matter of taxes. Will he please tell us how they could give us any relief when they have got to pay ten thousand dollars a year interest on the debts that were made by the Deason administration, and at the same time meet the current expenses of the county as they come. If this ten thousand dollars were taken off their shoulders they might be able to reduce our taxes.

They jump on the matter of upkeep of the roads and highways. I want to ask if Mr. Oliver or Mr. Mullins could do better than Reynolds with nothing to do with, I don't believe they could.

I want to say that if the devil has a winning card with which to destroy the interests of the people, that card is a political card; for it is full of malice and deceit, dividing our people against their own better interests. Now Mr. Mullins, in all candor, don't you think you made a mistake in criticising your home folks who are as good by birth, and perhaps as good by practice as yourself? Suppose you consider the beam in your own eye, so that you may see clearly how to exact the mote from your brother's eye.

Respectfully,
S. E. WALDRUP.

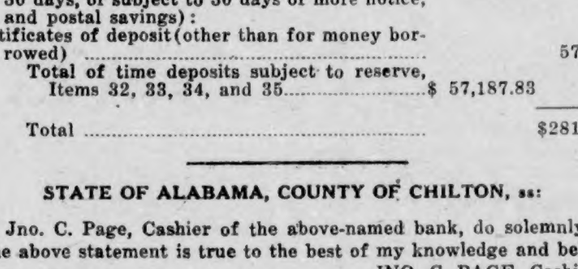
A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

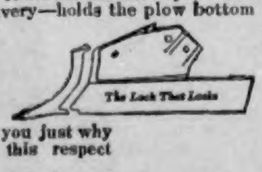
Duplicate wearing parts for

B. F. Avery & Sons Chilled Plows



The Chilled Plow with the Lock that Locks

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.



Come in and let us show you just why Avery Plows excel in this respect

MOUNTAIN CREEK

The Pastor's and Worker's Conference met with the church at Mountain Creek on Monday, March 13, with a good attendance.

The following officers were elected: P. G. Carter, President; W. P. Lowery, Vice-President; W. A. Goss, Secretary-Treasurer. After which the folowing subjects were discussed:

1. How can we present the entire Baptist Program to the churches? Opened by W. A. Goss, and discussed by T. J. Deason, P. G. Carter and W. F. Green.

2. The right emphasis to place upon our distinctive doctrines in our preaching. When and how often should we preach them? By Rev. J. S. Judah.

3. How can we deal with the unconverted members of our churches? W. P. Lowery, P. G. Carter and J. S. Judah.

All these discussions were to the point and very profitable.

Following these discussions a bountiful dinner, furnished by the ladies of Mountain Creek and Marbury, was spread, which was very much enjoyed by all.

We were fortunate in having with us Dr. J. E. Barnes, Rev. W. R. Seymore and our State Secretary, D. F. Green, who were present in the interest of our Seventy-Five Million Campaign, so the afternoon session was given over to them and they inspired us with their able addresses.

Also to confer with them in regard to grouping them in a simultaneous evangelistic campaign. Committee: P. G. Carter, W. P. Lowery, J. S. Judah, W. A. Goss, J. E. Moore, and T. J. Deason.

Everyone present seemed like the day had been well and profitably spent and expressed themselves as being glad they were present, and those who were absent missed a treat and it is hoped they will be present next time.

We were glad to have four visitors from the Elmore County Association, too.

The Pneumonia Month.

March is a typical pneumonia month and usually gives high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slipht, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneuminoa. It is pleasant to take. Children take it willingly.—Upchurch Drug Co.

Mr. Green D. Retherford has announced himself as a candidate for the office of Sheriff of Chilton County, on the Democratic ticket. Mr. Retherford is a good man, straightforward, honest and sincere. He is well and favorably known throughout Chilton County, having come within an ace of being elected county Commmissioner when he ran against W. H. Shaw of the first District in 1910.

Since coming to Clanton in 1914 he has been prominently connected in the hardware business and is now an employee of the Jones Hardware Company. He is also a member of the Jury Commission of Chilton County.

Health of this community is very good at present.

Farmers are all looking blue over so much rain, as it isn't very much trouble for it to rain these days, but guess it's all for the best.

Road working seems to be going on this week and too, it is high time some body was getting busy.

We have a real good Sunday school at this place now. Mr. W. T. Lowery Superintendent. We have about 65 on roll and I think that it is real good for this place.

Lowery, Mr. Abb Glass, Mr. Will Northcutt, Lassie Northcutt, Martin, Cofer, and several others. Organists were Birthy Martin, Cleaty Samons, Flossie Cobb, Lester Cobb Jewell Martin.

The house was crowded with people listning to the sweet songs, which were rendered and we especially invite everybody to come back again. We have singing ever second and fourth Sunday.

Mr. J. H. Martin went to Birmingham Thursday.

Mr. E. E. Martin, who has been in Kansas City, Mo., some months, has returned home, but am sorry he has a stiff arm.

Well, as this is my first time to write, if this comes out in print I'll come again.

NEW HARMONY

Health of this community is very good at present. Everybody is well now.

Well, we had a good Sunday School last Sunday. Good attendance and good lessons.

Well, it looks like now that the farmers are going to get behind with their work in this part of the country. So much rain and bad weather.

Miss Rosie Bates and Miss Ruth Williams visited at Mr. Charley Cooper's last Wednesday night.

Mr. Dolphus Jones visited Mr. Stanley Cooper Saturday night and Sunday.

W. B. Cooper and wife visited Charley Cooper Saturday night and Sunday.

Miss Willie Mae Shepard visited at Mr. E. T. Jackson's Wednesday night.

Miss Elsie Shepard visited Pallen and Iree Williams Wednesday night.

There will be a singing in the Christian Harmony books the third Sunday, next, at New Harmony at 2 o'clock. Everybody come and be with us.

As to the question about the pig under the gate, a Democrat can make more noise than the pig.

The reason the hen goes over the hill is because she can't go under it.

Mr. Keith Gandy and Mr. Vearl Hossey visited New Harmony Sunday afternoon.

Misses Allie and Mandy Durbin visited some where Sunday.

Truth is the gem for which we seek. O, tell us where shall it be found. For this we search and pray and weep that truth may in our hearts abound. We want the truth on every point. We want it all to practice by.

Give us a Republican Sheriff and Probate Judge to stand by.

Well, we spoke of the Sunday school. Sunday school is the starting of Christianity. If you raise a child up in Sunday school they will more than apt make good boys and girls. What we need is more of the older class of people to take hold and go. The children need the fathers and mothers to go with them. There are so many of us that will send the children to Sunday school and we will go some where else and we don't know wheather they said a lesson or not and don't care. We need not expect them to be any better when they get to be men and women than we are. How many boys and girls have gone to the bad for the lack of training? We ought to stop and think about it. We could many times save some one from going to the bad by saying one word to them. So many times somebody says something that will hurt some one. Now let's all go to Sunday school more than we do. We have an evergreen Suday school here, but it can be made much better than it is. It is progressing nicely. Our Superintendent is prompt every Sunday. We have a good literary school here and a fine teacher, Professor Culp. We had seven visitors Friday evening. Mr. Jeff Best made a nice talk for the school. They had a spelling match and it was fine. Neither side did not beat, they made a draw.

Well, I will ring off for this time, hoping the editor much success.

MAPLE SPRINGS

Health of this community is very good at present, except Mrs. W. J. Mims has been very sick for the last few days but is improving nicely now.

At first I must say that there is going to be a singing here Sunday morning at nine o'clock. We are expecting Prof. W. M. DeVaughn and A. A. Beaird to be with us, and every body come and bring your new song books and some body with you.

Miss Leatha Mims spent Monday night with her friend, Miss Pearl Wilson.

Miss Myrtle Mims spent Wednesday with Miss Inez Dunlap.

Mrs. Zora Mims visited Mrs. G. M. Baker Wednesday afternoon.

Mrs. Alphus Downs visited her sister, Mrs. Claud Downs Wednesday afternoon.

Mrs. O. L. Devaughn spent the day with her mother, Mrs. J. A. Mims, Thursday.

Mrs. Annie Mims spent the evening Thursday with her son and daughter, Mr. and Mrs. W. J. Mims.

Miss Myrtle Mims spent the day with Mrs. Zora Mims Friday.

Mr. and Mrs. Claud Downs and little son, Claud, Jr., spent Friday night with his father, Mr. R. J. Downs.

Mrs. Charlie Mims and little daughter, Getalene, spent Saturday with her sister, Mrs. W. J. Mims.

Miss Leatha Mims visited her cousin Friday night, Miss Myrtle Mims, and they reported a grand time of course.

Mr. J. C. Davis from Laynette spent Friday night with his uncle here, Mr. J. S. Davis.

Answer to a riddle that was in the news from somewhere. They ask why a hen went over the hill. Well, because she can't go through thats why.

Now listen, we want some one to answer our riddles, here they are:

1. Why is a horse with his head hanging down like next Monday?

2. What is it that waits till it dies to get fat?

3. Why is a pocket handkerchief like a ship at sea?

Mr. J. C. Davis enjoyed a few joyful hours with Miss Myrtle E. Mims Friday night.

Mr. Oliee D. Smith and family spent Saturday night and Sunday with Mrs. Cora E. Mims.

Miss Leatha Mims spent Saturday night with her brother, Mr. Willie Mims.

Mr. and Mrs. G. N. Driver and family, also Mr. J. M. Kelley and family spent Sunday with Mr. and Mrs. O. L. Devaughn.

Mr. and Mrs. N. A. Vinson and little son, Earl, spent Sunday with their daughter, Mrs. W. J. Mims.

A large crowd of boys and girls went out kodaking Sunday afternoon and reported a nice time. And then Sunday night all of us enjoyed a journey to the holiness meet at the tent.

Mrs. Emmett Thomas and little girls from Billingsley spent Saturday night with her mother, Mrs. J. S Scarbrough.

Mrs. R. J. Downs visited her son, Mr. Claud Downs Saturday night.

Mrs. J. S. Scarbrough is spending this week with her daughter, Mrs. Emmett Thomas.

Mr. J. C. Vinson enjoyed a delicious dinner with his sister, Mrs. Charlie Mims Sunday.

Uncle Fed Johnson was seen motoring toward Clanton early Monday morning.

AMBROSE CLINNER DEAD

Ambrose Clinner, age 66, died at the hospital in Clanton Wednesday afternoon. The body was placed in charge of Undertaker Mell Martin, and prepared for burial which will be at Samaria to-day (Thursday).

While here Wednesday at the opening exercises of the Central Alabama Hospital, Dr. Frank Willis Barnett prepared a feature article about Clanton, which will be published soon in the Birmingham News. Things that are said and written by Dr. Barnett are always of much interest, and people of Clanton will be anxious to see his article about our city.

PLANS ARE OUTLINED FOR AUBURN DRIVE

ALUMNI BEING URGED TO TAKE ACTIVE PART IN RAISING A Million.

Auburn.—The plan which has been adopted by the Greater Auburn Campaign to have each alumnus throughout the state to assume and be responsible for a minimum quota of $250 is meeting with a hearty response from the alumni of the institution.

Charles F. DeBardeleben, General Chairman of the Campaign, is receiving many replies to his letter to the alumni, proposing that they raise a sum of $250 to aid in the Campaign, for one million dollars. Chairman DeBardeleben explained that where an Auburn man was not financially able to give the entire sum himself, that he should raise the money in contributions from people in the state who are interested in the cause of education and in the agricultural and industrial development of Alabama.

"We are in touch with more than 3000 alumni of Auburn, scattered throughout the State of Alabama, with some in other states," said Chairman DeBardeleben. "If each one of the alumni will assume the minimum quota of $250 to be raised among outsiders, or subscriptions paid by themselves, it will be seen that we will have $750,000 of our million from that source. We have received sufficient encouragement from citizens of the state, not Auburn men, who are interested in the development of Alabama and in the cause of education, to be certain that we will receive the other $250,000 needed from that source."

MORRIS FERTILIZERS

We have secured the agency for the celebrated Morris Fertilizers, and we heartily recommend them to the trade as being the most economical fertilizers on the market today. They are usually a little higher in price than other fertilizers, but farmers who have been using them say they are by far the best goods they can buy and that they yield much larger returns than other fertilizers.

We have all found that it doesn't pay to buy cheap fertilizers, so let us have your order for the genuine, old style packing house blood and tankage goods with the Steer's Head on it.

VOLUME IX. CLANTON, ALABAMA, THURSDAY, MARCH 23, 1922. NUMBER 48.

GRAND JURY FINDS 33 INDICTMENTS

Investigation of 37 Alleged Violations of the Law Results in High Percentage of Indictments.

The Grand Jury of Chilton County which was in session last week made a high record for indictments, returning 33 true bills out of 37 investigations of alleged violations of the law.

The following report was rendered to the court by the Grand Jury upon the completion of its investigations:

To the Hon. B. K. McMorris, Judge of the Nineteenth Judicial Circuit of the State of Alabama.

We, the Grand Jury, duly empanneled for the January Term 1922, of the Circuit Court of said County, beg leave to submit to your Honor this our final report.

We have investigated 37 alleged violations of the law and examined a number of witnesses that have been brought before us and as a result of our investigations we herewith return 33 true bills.

We regret to report that in our opinion the Prohibition Laws are being openly violated in many instances. We have brought a number of witnesses before us where we have believed that violations of the Prohibition Laws have occured, but find it a very difficult proposition to obtain information relative to these violations.

We have examined the records of the County Officials and find them neatly and correctly kept so far as we were able to ascertain. In our opinion the bonds of the County Officials are adequate. We herewith attach a report of the County Treasurer, and mark it Exhibit "A." We hand herewith a report of the County Supt of Education and mark it as Exhibit "B." The Supt. of Education made no report as to difficulty of enforcement of the compulsory educational law, that he had some trouble in this regard in the past but during this school year the attendance of children at school was good.

We have examined the County jail and find the same in good condition, clean and neatly kept. There was only one white man in jail, five negro men and one negro woman, they reported that they were beig well cared for.

We have examined the County Poor house and find fifteen inmates, five males and nine white females and one colored female. From their appearance and statements they were well provided for and have every necessity their condition requires. We recommend that the two doors to kitchen and the two doors to the dining room be screened.

We find that the roads of the County have had more work done on them this fall than at any previous time, but on account of the heavy rains of late the roads are just now in very bad condition, we would say the present condition of the roads of our County is due largely to weather conditions.

Feeling that we have accomplished all that could be required of us at this time, we respectfully ask that we be discharged with our thanks to the Court and the County officials for their valuable assistance in our work, subject to the further orders of the Court.

H. F. THOMPSON,
Foreman.

LET US HAVE A GOOD BASEBALL SEASON

The Union-Baner hopes that the young men of Clanton will get togehter this season and put up a formidable baseball organization and be able to pull down for our town some of the honors that are to be distributed thru this the national pastime. We have already seen the fact demonstrated that Clanton can have a good ball team.

Then there is another thing that is absolutely necessary if we are to have a good ball team. It not only takes good players, but it also takes good rooters. The citizenship must stand behind the boys who are to do the playing. It is not enough to stand by and wait for the boys to win big victories and then start the shouting. They must have the proper encouragement now.

If you want Clanton to have some real baseball sport this year, get ready to stand behind the organization.

A DOSE OF "IGNORANCE DROPS" FOR C. REESE MULLINS.

Editor Union-Banner:

I have been silent as long as I can; so here I come for another small space in your paper. I want to urge the voters of Chilton county to be careful in the choice of candidates to fill the different offices. If we should make a mistake it will hurt all ailke.

I know the people have not forgotten the mistake that was made twelve years ago, and how bad it is hurting to-day. I have reference to the election of Judge Deason in 1910, and the six years he and the Democratic party were in control if the affairs of the county. We should profit by our mistake of the past.

There are going to be lots of candidates out in the field this time. It is going to require us to be thoughtful and not too hasty. In obligating ourselves to candidates we should consider the ones now in office, and are seeking re-election. I believe that we should continue in office those that have proven to be all right. I don't believe this any time for experimenting. I we have any officers who are carrying on our affairs satisfactorily, we had better retain them in office. I consider the affairs of Chilton county in good shape now, considering what they were six years ago.

I am not like Mr. Mullins. I want to speak the truth, and intend to do so, or else I will keep quiet and say nothing. I have not forgotten when I carried court script around in my pocket until I almost wore them out before I could find somebody to buy them. This was during Judge Deason's administration, when people could not get but fifty cents in the dollar for their warrants. Surely the people of Chilton County have not forgotten all about those times.

Mr. Editor, the Democrats remind me of something that occurred back when I was a boy. The people raised a good many sheep in our community. Finally the dogs broke in among the sheep and caused a great deal of damage. The people finally caught on to it and whipped the dogs so badly until they got afraid to go out among the sheep in the day time. They got to where they waited until night to make their raids among the sheep. In order to find out which dogs were doing the mischief the people had to stand out at night and listen. Now and then you could hear a lonely howl from a dog over in some neighbor's field that sounded as if he were lost or lonesome. But it was not his loneliness that made him howl. He was seeking to get some of the other dogs to join in with him to make a raid upon the sheep. The dogs had been whipped so much that they could not get up courage to do their mischief alone. They wanted all the whole gang of dogs to get together and then they would feel safer with their meaness when all were into it.

Mr. Mullins's letter in The Union-Banner calls this incident about the dogs to my mind. He knows as well as he knows he is living that the Democratic party has squandered the wealth of Chilton county in the days gone by, and that his party has been a failure, not only in Chilton County, but in the State of Alabama and the whole United States of America. He knows that they have had so many whippings in the last few years in Chilton county that they can't come out and face the people. Why, Because they have done so many low down dirty tricks and acted so unfair with the people until they are ashamed of it.

I knew when Mr. Mullins was howling around through the papers that he was wanting to run for some kind of office, because his howl sounded so much like a man who was lonely. But I can now understand what he was up to. He was trying to get the old gang collected back together, so they could start up their same old devilment. But up to now I haven't seen in the papers where anyone has joined him.

Voters, you watch through the day, and stand out at night and listen in order that you may know whose premises he is on, and which way he seems to be moving. There is devilment in his howl, and some damages will be done to the people somewhere and in some way if he should succeed in carrying out his secret intentions.

I want to say that if the Democrats would act honest and be fair with the people in their dealings they could expect prosperity and success for their party. Nobody gains anything by being dishonest with his fellowman. Whatsoever you sow, that shall you also reap.

The people of this county know and believe that L. H. Reynolds was telling the truth on the Registrars. But I would like to see the color of the eyes of every man or woman who expects the Democrats to be fair to everybody alike when they get into office.

That is all for this time Mr. Editor. I may come again some time before long. If I think Mr. Mullins needs another dose of "Ignorance Drops" later on, I will send it to you with directions how to give it to him.

Respectfully,
J. N. SCOTT.

TOM LITTLEJOHN ANNOUNCES AS CANDIDATE FOR SHERIFF

The announcement of Tom Littlejohn as a candidate for the office of Sheriff of Chilton County is made in this weeks paper, together with a short letter addressed to the voters signed by the candidate himself. Mr. Littlejohn has been spoken of for some time as a candidate for Sheriff, and it must be said that at the present time he has a large following of friends and supporters who believe he will be a successful candidate, and that he will make a splendid official.

Mr. Littlejohn has never held public office, but he is possibly as well known as if he had been an officer. He has been dealing with the public in different ways for the past twenty years, and has a splendid record for honesty and fair dealings.

He is a life-long supporter of the Republican party, and his attitude toward the party is well expressed by him in saying that if he is not the nominee of the party for Sheriff, he will nevertheless lend his efforts in helping to elect the man that is nominated.

PASTOR CARTER'S RESIGNATION NOT ACCEPTED

Rev. P. G. Carter, Pastor of the Clanton Baptist Church, formally tendered his resignation to the church in conference last Sunday morning. The vote of the church was taken upon the question of accepting the resignation, which resulted in the retention of Rev. Carter by a small margin of one vote.

The question provoked a bitter fight on the floor, and the outcome of the matter does not look very encouraging for the future progress of the church at the present time.

We do not know what will be the final result. There must be some time taken for reflection upon the matter. It is hoped that the division in the church may become united again by some means.

NO PREACHING SERVICES SUNDAY AT BAPTIST CHURCH

Owing to the pastors absence from the city there will be no preaching services next Sunday at the Clanton Baptist Church. Sunday School will be held at 9:45 a.m., and the other organizations will meet as usual.

CRIMINAL WEEK OF CIRCUIT COURT BEGINS MONDAY, APRIL 3

There are two capital cases set for Wednesday, April 5th, that of Hoyt Jones and Malcom Causey, charged with highway robbery.

It is probable that the trial of Robert Teel, charged with the killing of Gordon Jones, will come up for trial again during the first of the week.

ANDREW WILSON IS CANDIDATE FOR PROBATE JUDGE

This week we carry to the people of Chilton County the announcement of Mr. Andrew J. Wilson as a candidate for the office of Judge of Propate of Chilton County, on the Republican ticket.

Mr. Wilson is a prosperous farmer and well known citizen of Beat four, and has lived just north of Clanton for many years past. He has never been in politics before, but has devoted his entire time to his farm, at which he has made a financial success.

He is a good man, and declares to his friends that he wants to serve them as Probate Judge, believing that he can introduce into the office necessary system and requirements to fill the place to the benefit and satisfaction of the people of the county.

NEGRO WOMAN SHOT AND KILLED AT MITCHELL DAM

A shooting scrape at Mitchell Dam about dark on Monday night resulted in the death of Nettie Turnbull a negro woman. Nettie and two negro men named George Williams and Boss White were engaged in a card game, and Nettie seems to have won all the money, about $35 or $40. As is usual for nero gambling games, the row started when the negro woman got all the money.

When the row had gotten under good headway, Boss White went out and borrowed a pistol, and returning to the house where the fuss was going on, turned the gun over to George Williams. Three doors to the house were broken down by the negro men, and when they entered they found the negro woman behind another door. She was shot twice and died instantly.

Deputy Sheriff Joe Gore, of Mitchell Dam, says this is the most brutal and cold-blooded murder he has ever had anything to do with.

Sheriff J. L. Gore at Clanton was immediately notified of the killing, and he and his deputies left about eight o'clock for the scene. They got on trace of the two negro men, and found out that they had boarded freight trains at Coopers coming north. Messages were sent up to Clanton and Calera for policemen to look out for them. Officer Burton at Clanton pulled George Williams off a train here, after administering a dose of persuasion with his "billy." The other negro was caught by the marshall at Calera.

Both are in jail at Clanton.

SUNDAY SCHOOL RALLY

A big United Sunday School Rally is being arranged for Sunday, April 2nd, when all the city Sunday Schools are invited to gather at the Baptist Church at 11, A. M. Mr. E. W. MR. W. T. CALLEN DIED LAST WEEK

The city of Clanton, and indeed the entire county of Chilton lost one of the most substantial and honored citizens when death claimed the mortal body of Mr. William T. Callen on last Thursday morning. An illness of only a few days brought on his death. In the hope of relieving his suffering he was carried to Birmingham on the fast five o'clock train last Thursday morning, but he died soon after reaching Birmingh-

Mr. [illegible] years old, and [illegible]en of Clanton. [illegible] connections during his [illegible] career has brought him into contact with many people all over the county. Everybody who knew him will be grieved at his death, which came unexpectedly. Nobody thought but that there would be many more years of usefulness in the life of him for whom we mourn and bow in sorrow.

Archives and History, Dept. Thos. M. Owen, Director.

Surviving Mr. Callen of his immediate family are Messrs Frank and Ed Callen of Clanton, his two sons; and a daughter, Mrs. J. Hance Alred of Clanton; Messrs Hugh Simpson of Clanton and Wallace Simpson of New York, nephews. The beloved wife of the deceased passed on to her reward about five weeks ago.

Mr. Callen was a member of the Clanton Methodist Church, and his pastor, Rev. D. M. Pearson, had charge of the funeral services at the home of Mr. Hance Alred.

The personality and activity of Mr. Callen will be greatly missed at the Peoples Savings Bank, of which he was President at the time of his death. This bank was organized in 1901, and Mr. Callen has been connected with it, and actively engaged in the execution of its business affairs ever since. His well grounded and conservative ideas of business management are today attested in the strength of the bank which he has done much to build.

The city of Clanton will miss Mr. Callen as much as it has missed any man who has been taken from our midst in many years.

R. E. FITTS OUT FOR STATE SENATOR

Mr. R. E. Fitts of Stanton has announced himself a candidate for the office of State Senator to represent the counties of Chilton, Shelby and Autauga. Mr. Fitts announces as a Democrat, and says that he is opposed to special favors to corporations, and believes in the elimination of useless offices, of which he says there are many in Alabama. He says he is for Henry Ford, first, last and all the time.

VICTOR HEARD FOR CIRCUIT SOLICITOR

Mr. Victor J. Heard, one of the prominent young attorneys of Clanton, has made announcement as a Democratic candidate for Solicitor of this Judicial Circuit. Mr. Heard will make an effort to be elected to the place which is now being filled by Mr. Cecil E. Alexander of Prattvile.

The friends of Miss Byrdie Teel are glad to have her home again, after teaching a very successful school for the past few months.

PERTINENT QUESTIONS

Banks are required to keep a certain amount of money in reserve in order to comply with the law and the demands of safe, conservative banking.

If reserve funds are a good thing for a Bank, why wouldn't they be a good thing for you? Why not keep some money on deposit in a good bank like ours, as a reserve in case f emergencies? It will be safe there until you may need it. No better time than NOW to start.

The social service program on Mexican conditions proved one of the most interesting ones of that work for this year. The Pneumonia Month.

March is a typical pneumonia month and usually gives high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slipht, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneuminoa. It is pleasant to take. Children take it willingly.—Upchurch Drug Co.

SYLACAUGA MAN'S DEATH A MYSTERY

Sylacauga, Ala., March 18.—The body of W. E. Headley, of Sylacauga, was found lying dead in the road about half way between Weogufka and Quinsy early Saturday by negroes, who were unable to identify the body. They at once brought L. D. Jones, also of Sylacauga, to the scene, who identified the body and sent the news to Sylacauga of the mysterious death.

Several Sylacauga citizens hurried to the scene and a coroner's jury was selected, but did not render any verdict. There was no bones broken in the body and no bruises could be seen except a small bruise on his head which was perhaps caused by falling.

It seems that Headley had taken charge of a horse several miles from the scene and was driving him toward Sylacauga when his death occured. Foul play is not suspected, as money was found in his pockets and his watch also was found.

Mr. Headley had for a number of years been a resident of Sylacauga His body was brought to Sylacauga for interment.

HER EYE ON HER NUMBER

Combatting the theory that America's great industrial progress has been due chiefly to richness of agricultural resources, an eminent authority asserts that Africa has greater agricultural resources than North America. Now we can understand why Great Britain took pains to get control of practically all of the African continent outside the Sahara Desert. England was not short-sighted when it came to getting a few assets to counter-balance her war liabilities.

GIANT COTTON POOL IS BEING PLANNED

TO ASSEMBLE 100,000 BETWEEN NOW AND JUNE 1ST, 1922.

BALL TEAM INCORPORATES

Cotton Tests Announced—Seed Corn Advice—"City Beautiful" Prizes Offered—Poultry Promotion.

Auburn.—"The plan of the Alabama Farm Bureau Federation to organize a giant cotton pool in Alabama to include, at least, 100,000 bales between now and June 15, 1922, will have the active support of the Alabama county agents and other extension workers," said Prof. L. N. Duncan, director of the Alabama Extension Service, in a statement, following a thorough investigation of the plan.

Explaining the reasons for this cooperation on the part of the extension service, Prof. Duncan states that the plan proposed by the Alabama Farm Bureau has been found to be absolutely sound, being identical to that put into operation last year by the Texas Farm Bureau Federation, through which the Texas cotton farmers are now receiving beter prices for their cotton to the extent of $10 to 15 per bale and in many instances more. The Alabama farmers are entitled to this better price, and can receive it by eliminating the waste in the handling of their cotton and substituting orderly marketing for dumping just as the Texas farmers have done, it is said.

CANDIDATES ARE IMMUNE

Candidates Must Not Be Asked To Contribute, Says Statute

Montgomery.—Patriotic workers in Montgomery for the Gorgas Memorial Campaign, who were engaged Wednesday in soliciting funds with which to provide an everlasting monument to the great Alabamian, were confronted at the capitol with an insuperable obstacle which greatly limited the number of prospects. In Alabama, it is a violation of the law to ask an announced candidate for office to donate any of his monetary wealth to even so worthy cause as the Gorgas Memorial, for the law applies to all "causes' to which the candidate was not a regular contributor prior to his, or her, candidacy. It was a telling blow, because the capitol fairly teems with candidates.

FORMER ENFORCEMENT OFFICERS REFUSE TO TESTIFY.

Mobile.—Thirteen prohibition cases were nolprossed and others are scheduled to be dropped on account of the refusal of A. S. Cowan, of Birmingham, and Frank Boswell, of Montgomery, former state law enforcement officers, to come here and testify against the defendants. These cases were made by the officers in the operations here but they have declined to return here to testify.

Cotton Tests Announced.

Auburn.—The results of the tests of 18 varieties of cotton conducted by the Alabama Experiment Station at Auburn, in 1921, have been tabulated by Prof. E. F. Cauthen, who had direct charge of the experiments, showing that the per acre yields of lint cotton by varieties were as follows: Boykin, 369; Wannamaker-Cleveland, 360; Toole Wilt-resistant, 346; Cook, 1.346, 343; Piedmont, Cleveland, 343; King, 324; Simpkins, 318; Cullpepper, 318; Rowden (Bottoms), 301; Lone Star, 296; Hawkins, 294; Trice, 282; Over-the-Top, 279; Cook, 307-6, 277; Express, 267; Broadwell, 267.

Baseball Team Incorporates

Selma.—Selma's official representation in the national pastime arena this year, namely, the Selma Baseball Club, Inc., has filed official notice of its formation in the office of Secretary of State William P. Cobb. The organization, which has an authorized capital stock of $6,000, with $1,600 paid in, asserts its privilege to buy or otherwise acquire, sell and [illegible] a baseball team or teams, etc. Incorporators are P. T. Sparks, W. W. Burnes, Hugh Mallory, J. G. Wilkins, W. H. Plant, W. P. Cook and others.

New Hartselle Industry

Hartselle.—A small window and door factory has been built recently by A. P. Howell, who runs several sawmills and planers in the country. Mr. Howell is beginning the new enterprise on a small scale. He has dry kilns and other conveniences for getting the soft pine timber with which to manufacture the products.

Poultry Promotion.

Hartford.—Miss Bertha Lee Furguson has been engaged for some weeks in promoting the raising of thoroughbred poultry. She is not only seeking to promote the growing of fine breeds, but she is standardizing in the county by establishing one breed. To that end she is purchasing and distributing 7,500 eggs for hatching. She has distributed 600 eggs at this station, and has ordered 900 more. She journeyed to Malvern to distribute a shipment of 600 eggs.

Mr. Dewey P. Graham of Maplesville, was among the visitors to Clanton Monday.

BETHSALEM

I am gald to state that the health of this community is fairly goot at present.

Our school closed last Friday, after one of the most successful sessions in many years. The faculty is to be congratulated for the able and efficient manner in which they have handled the situation throughout the entire term. We hate to see them leave us as we have learned to love them all.

We regreted to see Miss Bertha Bowles leave last Saturday to go to school at Thorsby, as she will be greatly missed here. We wish her much success.

THE PEOPLE PAY

"There is no way," says Secretary Mellon, "by which the American taxpayer can avoid the burden." The remark was part of a letter to Chairman Fordney of the Ways and Means Committee in which the Secretary of the Treasury discussed the bonus bill now pending in the House. Regardless of what bonus plan may finally be worked out, the people ultimately have got to put up the billions to pay its obligations. That holds true whether the soldiers get their money from bond sales, adjusted service certificates, receipts from the foreign debt, miscellaneous taxes, or a sales tax.

CLANTON ROUTE SEVEN

Editor Union-Banner:—

Please let me come in for a few words if you please, as this is my first time and hope to have lots of readers.

Health of this community is very good, only colds and that is all the go now.

We find that Mr. Jessie Henley is on the sick list and has been for quite a while, but we hope he will soon be alright.

Well, we are having some mighty bad weather but I guess it's all for the best, as our Lord never sends nothing that is not right.

Well, we have a lot of candidates out this time but listen, my good people, vote for Mr. Tom Littlejohn. I think he will make a good Sheriff, also Mr. Harris will make a good Judge. Everybody that can vote for Littlejohn and Harris.

Well, I find that Mr. Eddie Williams and Miss Lela got married Sunday. What will be next, something worse I guess. I tell you young people, this is a bad time for marrying. You had better wait for times may be tight for some time, for we want new officers this year and it may make bad things worse. But any way let everybody do as they please and I will do the best I can.

Well, as this is my first time I will go, hoping to see this letter in The Union-Banner next issue. If it misses the waste basket will come again very soon.

CANE CREEK

Health of this community is very good, except colds.

Last week was such a beautiful week we thought that every one would have a nice time Sunday, but I don't suppose there was much visiting on account of bad weather.

There has been several deaths here lately. We are very sorry for their people.

Sunday school will start again at this place the first Sunday in April. We hope we will have a success. We want every one to come and join, old and young. If every one will do their part no one can burst it up. We are going to have an Evergreen Sunday school. So everybody come on that day and have your hearts ready to help in it.

Will hush, with best wishes to everybody.

We have heard all sorts of arguments on all sorts of subjects by all sorts of people in our few years experience as a newspaper editor; but we have never yet seen an argument as empty and devoid of foundation and truth as that which is now being made by some office-seekers in this county in trying to deny that the Deason administration is responsible for the depleted financial condition which our county has been laboring under for the past six years. A man just as well try to convince us that the frost and cold weather of winter does not kill the vegetaion of the land as to try to make us believe that Deason and the Democratic party in Chilton county did not bring the financial embarrassment that has held down the progress of our county during the present administration of Judge Reynolds.

THERE ARE NONE SO BLIND AS THOSE WHO WILL NOT SEE

The esteemed editor of The Cullman Tribune has the following to say about ineffectiveness which he ascribes to the present administration of President Harding:

Surely the fellow who has always voted and stood by the big g. o. p. elephant can now see the hand writing on the wall. One year has gone by with the present administration having every part of the legislative department in hand by an overwhelming majority, yet there is not one constructive law been enacted and become effective of note.

Brother Norwood, there are none so blind as those who WILL not see. When a fellow is determined not to see anything he can close his eyes and he will not see it. That is what you are doing in the case of Mr. Harding.

REVISED VERSION OF THE FIRST PSALM

1. Blessed are the people that liveth by the Counsel of Harding, but woe is he that standeth in the way of Wilson, or sitteth in the seat of Cleveland.

2. But our delight is in the peace and prosperity of the people of the land, which cometh always from the righteousness of a Republican President.

3. The followers of Harding shall be like a tree, planted by the rivers of water, that bringeth forth its fruit in its season. Their leaf also shall not wither, and whatsoever they doeth shall prosper.

4. The followers of Cleveland and Wilson are not so, but are like the chaff which the wind driveth away—therefore they shall not stand in the high courts of the land, nor sit in the congregation of the seven million.

5. For the Lord knoweth and guideth the way of Harding; but the pernicious ways of Wilson and Cleveland have been condemed, and their followers perished.

THE MULLINS "ARGUMENT"

Mr. C. Reese Mullins, Democratic candidate for Probate Judge of Chilton County, comes forth again this week with an attempt to reply to the letter of Mr. S. E. Waldrup, which was published in last week's issue of The Union-Banner. He sends it to us to publish, and we regret to say that we cannot get our consent to do so.

The insinuations which are made in the letter are offensive to people who are honest and conscientious Republicans. Since the readers and supporters of The Union-Banner are mainly Republicans, we refrain from publishing the letter of Mr. Mullins, inasmuch as we do not want to be the agency for carrying such erroneous and incendiary things to our people as are sought to be revealed in the communication.

Mr. Mullins attempted to sugar-coat it a bit by addressing it to "Dear Mack," thinking possibly that would cause us to feel his warmth of disposition to us and therefore soften up and allow him to use our paper to insult every reader of the same who is a Republican. But this lifelong aspirant for the office of Judge of Probate miscalculated a little bit right there. We like Mr. Mullins all right. He is a good citizen, a good man, our friend, and all that. But we don't care anything about him politically. The Union-Banner is not under obligation to him to carry his "brilliant ideals" of politics to the people of Chilton County.

If Mr. Mullins or any other candidate wants the people who read this paper to see and read their personal ideas about politics, and thereby forward their own individual interests in the effort to be elected to some office, there is just one way to get us to publish such stuff, viz: Just walk right into our front office and plank down the hard coin of the realm, the kind that will buy meat and bread and clothes for the baby, and then we are ready to listen to the sweet salutation, "Dear Mack."

FOR A CLEAN CAMPAIGN

The Union-Banner is pleased to learn that the leading Democrats of Chilton County are determined this year to have a clean, fair and square campaign. We understand they are making every effort to see that their leaders in making the fight for Democratic ideals, do not drag unpleasant personalities and malicious prejudices into the campaign.

We can assure our Democratic contemporaries that they will meet a hearty response from the Repulican side in this effort to keep politics upon a high plane. We are proud that the Republican party of Chilton county has always stood for honest, fair and square and clean methods of campaining, and they will be found endorsinb the same program in this campaign.

The people of the county should demand of the candidates and party leaders of both Republican and Democratic parties, a considerate treatment of the future interests of the county. We cannot alter the past, however much we cuss one another about it. It is the future in which we will live that portion of our lives which we shall live. Therefore it should be to the future that our efforts are directed in the establishment of principles and policies of government that will make our county a better place in which to live.

We most heartily commend the efforts that are being made to have a clean and decent campaign. We hope everybody will join in the movement with one accord.

WITH CLANTON METHODISTS

Sunday was spent by the Advocate man in Clanton. If you have never visited this little city you have a pleasant surprise coming. You will find the population larger than you anticipated. There are many beautiful homes. The public buildings would do credit to any town. The Baptists have recently built and furnished a church which they say cost them some $40,000. A hospital has just been completed and is in the care of competent physicians and surgeons. Clanton is on the way. In fact, it is arriving fast. It seems destined to become one of the very best of the middle-state cities.

Pearson the Pastor.

Rev. D. M. Pearson is the beloved pastor of the Methodist Church. He is doing a fine work. The Methodists and Baptists are running a race as to Sunday school attendance. It is pretty close, but the Methodists seem to have a little the better of it. Two hundred and ninety-one were present Sunday. Brother V. J. Elmore, the superintendent, says the absent nine will be on hand next Sunday and the attedance will reach at least 200. The women have a large class, as well as the men and much interest is being manifested.

Methodists Are Planning New Church

Committees have been appointed by Brother Pearson looking to the building of a new church. It is very much needed. The Advocate hopes that when they build, a house worthy of Methodism and of rapidly growing Clanton will be constructed.

The church is the friend of the conference paper and at the two services yesterday gave the editor a number of new subscriptions. It was a pleasure to preach to and worship with such a cordial people.

Great Power Plant.

In the afternoon in company with Brother W. T. Callen, Brother and Sister J. C. Jones took the visitor to see the Mitchell Dam on the Coosa River. The Alabama Power Company has expended some ten millions of dollars in the construction of this great plant that is now furnishing light and power to the cities of this state. The river is up and the overflow, breaking through the gates, looks like a second Niagara, while the rush of water upon the rocks down the stream resembles for some little distance the picturesque scenes of Niagara gorge. Such manifestations of power, to a reflective mind, are very suggestive of Him who is the source of all power.

The Wilson Hotel

While in Clanton we were the guest of the Wilson Hotel, a home-like hostelry that is one of the very best in the state. To Brother and Sister Pearson we are indebted for a most delightful day.—Alabama Christian Advocate.

HOSPITAL IS DOING RUSHING BUSINESS

It begins to look like the Central Alabama Hospital is going to keep up the pace which it set during the first few days as there are more patients coming in all along. There have been two new ones registered this week, and the total number now there for treatment is seven All of them are doing well.

The X-Ray is being installed this week in a special room provided in the building for that purpose. Also the electric sterilizer is being connected up for usage. These two modern machines place the Central Alabama Hospital another step forward in the class of the best hospital institutions of the country.

The Ladits of the Eastern Star have already provided the fusnisnings for the room which they accepted as their part. It is a distinct credit to the ladies of this organization to show such an interest in our hospital.

DOINGS at MULBERRY

(By G. H. DeShazo.)

"A Poor Married Man" visited Fairview last Thursday night and showed himself off to quite a large crowd of appreciative people. The nice sum of $14 was realized for the building fund of the Isabella consolidated school.

Thieves and Robbers looted the store of Mr. W. T. White at this place on last Wednesday night, getting away with about $50 worth of merchandise. These parties evidently understood their job for they covered their trail so completely as not to leave the slighest trace as to where they came from or where they went.

The writer made a business trip to Clanton Thursday morning.

Several of the young folks, including the writer, attended the closing exercises at the New Convert Colored School on last Thursday night, and believe me we surely did have some fun.

Mr. W. F. DeShazo and the writer went to Maplesville last Friday to attend to some business matters, and while there Mr. DeShazo swapped mules.

Mr. D. O. Manning and family spent Saturday afternoon in Clanton shopping.

Mr. W. L. Lenoir and family and Mr. J. S. Wright and family spent last Sunday with Mr. and Mrs. W. G. DeShazo

Mr and Mrs. W. G. DeShazo wish to express their appreciation for the kindness of the neighbors in assisting them during the illness of Mrs. DeShazo.

Mr. D. Jethro Hayes and the writer spent Sunday afternoon in Clanton taking in the "sights."

The prayer meeting is moving along nicely now, everybody come on and lets make it better. Every one is cordially invited to attend Sunday school at Isabella Methodist Church next Sunday afternoon at 3:00 o'clock.

There must be something down here in this community that is very attractive, especially so to the boys from Macedonia, as there was quite a "bunch" of them to be seen in this community Sunday afternoon. Come on boys we are always glad to have you in our midst.

Mr. Marvis Grooms of Stumps Hills, better known as "Dock" spent the week-end with relatives in this community.

We regret to report that Mr. W. C. Grooms has been very ill owing to an attack of the "Flu." We hope for his seepdy recovery.

Mrs. Kirby Summers and Miss Eleanor Summers went to Maplesville on a shopping trip Monday.

Misses Clara Thompson and Everee Maddox have closed their school at Fairview and returned to their homes near Clanton.

Found a Cure for Indigestion.

"I use Chamberlian's Stomach and Liver Tablets for indigestion and find they suit my case better than any dyspepsia remedy I have ever tried and I have used many different medicines. I am nearly fifty one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to, now," wites George W. Emory, Rock Mill, Ala. These tablets contain no pepsin but strengthen the stomach and enable it to digest the food naturally. —Upchurch Drug Co.

Mrs. J. C. Veazey and son, Wallace, of Macedonia visited Mr. and Mrs. W. G. DeShazo Tuesday.

Mr. Messer of Liberty was a visitor to Mr. W. F. DeShazo Tuesday.

The writer spent Monday in Clanton engaged in business transactions with the Union-Banner.

Mr. H. Moody Williams of Fairview was a visitor to this commuity last Sunday afternoon.

We regret to report that Mrs. W. G. DeShazo is still on the sick list. Miss Emma DeShazo, a trained nurse from Birmingham, arrived Tuesday morning to take charge of her case and we hope that she will soon have Mrs. DeShazo on the high road to recovery.

Mr. H. J. Grooms of Stumps Hills was a visitor to this community on Monday of this week.

A LETTER AND SUBSCRIPTION FROM McKENZIE, ALA.

Editor Union-Banner:

You will find enclosed check for a year's subscription to The Union-Banner. I always like to hear the news from Chilton, that being my old home. I am in the southern part of Butler county, at McKenzie. This is a small town, but is fast growing.

We have here a high school with nine teachers and something over 400 students; fourteen stores, a bank, two hardware stores and two garages. This is a stock raising and trucking point. We have shipped about 200 cars of cows and hogs from here this winter.

The farmers already have part of their crop planted, of which there is between two and three hundred acres of Irish potatoes. These potatoes will be shipped from here. There are something over a hundred acres of watermelons already planted. There is a very small acreage of cotton, though every farmer has planted a few acres.

We ship cream from this place, running the creamery station in connection with our store. We ship on an average of one thousad pounds of cream per week. There have been a lot of fine cabbage shipped from here already, at a good price. The strawberry season is now on, though there have not been any shipped from McKenzie. Other nearby towns are shipping many carloads already.

I will close, Mr. Editor, by asking you to visit our town.

C. W. WILLIAMSON.

Mr. and Mrs. Will Roper of Spigeners were visitors to relatives in Clanton last week.

Mr. W. T. Ennis, who has been working in Clanton for the past year on the new Baptist Church and the Hospital, has gone to Sylacauga to take up work there. Mr. Ennis is a master at the work of plastering and concrete work.

Mr. J. M. Smith of Liberty Hill was in Clanton one day last week. He subscribed for The Union-Banner to be sent to his daughter who has gone to Jacksonville to take a course in the State Normal School.

A Letter From Mr. J. M. Nix

Clanton, Ala., March 22, 1922.

To the Republicans of Chilton County:

Having announced in another column of this paper my candidicy for Sheriff of Chilton County, subject to the action of the Republican party I desire to state that I have been a life long Republican, in fact, my father, W. Y. Nix, blazed the path upon which I have politically trod.

Before I decided to make this race I carefully and earnestly considered the duties incident to the office and I believe from my business experience, education and determination that should the people of my party honor me with this office that I will be able to conduct it in a way and manner that no one shall regret having trusted me with same. If nominated I shall put forth every effort to see that the entire Republican ticket is elected in the general election and if I am not the nominee I will support the entire Republican ticket and in fact will put forth a more determined effort to see that our party goes over the top to victory, thereby keeping the reins of government of our county in the hands of the party who is the friend to the farmer, laborer and in fact, to the people in general.

It will be my policy if elected to this office to enforce the laws impartially without fear or favor to any class or classes, in fact, all the laws will be respected and enforced by me alike, and no particular law shall be neglected and others specialized upon in the enforcement thereof. I believe in a strict enfocement of the laws, yet at the same time I believe in tempering justice with kindness and striving to make the punishment and sting of the law be a reform to the offender rather than be too stringent and ultimately making a hardened criminal.

My record as a republican, business man and citizen of your county is open for your investigation and in fact I ask the people to investigate same and after doing so and considering the matter of a man to be your nominee for Sheriff if you decide upon me I shall strive to do everything in my power that you may never have cause to regret doing so.

Before the primary I hope to see the voters in person and talk with each one, however, should this be prevented I shall appreciate your support and influence.

Respectfully,
J. M. NIX.

Mr. J. C. Courtney of Route 3 was a visitor to Clanton Tuesday. He brought The Union-Banner a club of three subscribers.

Mr. O. F. Bates and family spent Saturday night and Sunday with Mr. and Mrs. F. A. Bates.

Mr. Mack Durbin and wife spent Sunday night at Mr. A. J. Durbin's.

Mr. W. B. Cooper and wife spent Saturday at Mr. Jesse Henley's.

The Sunday school is progressing nicely. Come everybody and help us. We welcome all.

Last Friday was the last day of school. We certainly thank Mr. Culp for his kindness toward his pupils. He was always kind to them. He always met his pupils with a smiling face and seemed to love them all. We believe if any one failed in their studies, it was their fault. It was not Mr. Culp's, for he done every thing within his power for them to make a success. We all wish him much success and happiness throughout his life. He made a nice talk before he left us. Which we all enjoyed.

Well, as this is all the news for this time, we will go, wishing the editor much success.

WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me.

"I saw after taking some Cardui . . . that I was improving. The result was surprising. I felt like a different person.

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me . . . My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments.

MORRIS FERTILIZERS

We have secured the agency for the celebrated Morris Fertilizers, and we heartily recommend them to the trade as being the most economical fertilizers on the market today. They are usually a little higher in price than other fertilizers, but farmers who have been using them say they are by far the best goods they can buy and that they yield much larger returns than other fertilizers.

We have all found that it doesn't pay to buy cheap fertilizers, so let us have your order for the genuine, old style packing house blood and tankage goods with the Steer's Head on it.

The Christian Endeavor Society held its regular meeting at the Congregational church at 6:30, P. M., Sunday. A special Dixie Endeavor day program had been prepared. Mrs. Robert Primm, the appointed leader, was absent on account of illness and Miss Anna Hughes, Chairman of the prayer meeting committee, acted as leader. Many interesting features of the rise and progress of The Christian Endeavor Society were presented. Among them, a report by Miss Jenkins, of the International C E.. Convention in New York last July, which she atended, where there were enough delegates to form a close column marching twenty abreast to require one hour to pass the reviewing stand. The Christian Endeavor Society greatly exceeds in membership any other organization of young people in all the world. It is a training school of loyalty to one's denomination, pastor, Sunday School, Missionary work and Christian service. A collection was taken for Dixie Endeavor work. On next Sunday at 6:30, P. M. the Society will hold a Missionary Meeting to be presided over by the Missionary Committee, all young people of Thorsby and vicinity are cordially invited.

At the Congregational church last Sunday evening the Womans Missionary Society, with the assistance of Rev. J. F. Owen, who managed a Stereopticon outfit, gave pictorial views of the foreign Missionary fields under the auspices of the Womans Board of the interior. The church was well filled and the pictures very interesting.

Several members of the Thorsby Red Cross Committee visited the public school last week to witness an exhibition of physical exercises, learned from a set of Phonograph Records, presented to the school by the committee early in January. Of the one hundred children lined up for the exercises nearly all showed signs of careful training and pretty thorough understanding of the various movements which they performed in a very creditable manner. Prof. Harris and his assistants, Mrs. Harris and Miss Bertha Littleton, speak convincingly of the good effects of these exercises on the health of the children who all seem to enter into the work with enthusiasm.

On Friday of this week the public school will close for the summer. It is intended to have a basket picnic on that day which will be held near "Forsmans" and it is hoped that parents and others will join and make it a real COMMUNITY picnic.

On Thursday of last week Mr. Frank Willis Barnett paid a visit to Thorsby for the purpose of getting "Copy" for a write up of the town to be published in The Birmingham News. He was given every facility to meet our people who gave him such an earfull, that he said he had three times as much as he could use. But what he enjoyed most was the opportunities given him for public speaking at Thorsby Institute, the Public School, the Baptist Ladies Aid Society, at Mrs. Pete Franklin's in the afternoon and before a full house, at the Baptist church in the evening. He delighted his audiences in every case and we all say "long live" Frank Willis Barnett.

Many Thorsby people will be glad to learn that we are soon to have among us one of our young men, who grew up in Thorsby, but on reaching manhood sought congenil empolyment elsewhere and by right living and close application to business climbed steadily until he became Superintendent of the Corona Coal Company at Corona, Ala. This position he has recently resigned and accepted a position on the State Highway Commission and is now engaged in surveying and laying out highways in Pickens and Sumpter Counties. We refer to Mr. Reno S. Villadsen. Mr. Villadsen will make his home in a part of his mothers home, Mrs. P. K. Villadsen, and will shortly install his very interesting family there. Thorsby seems to have attractions for quite a number of people whose business calls them to be away from home most of the time. They know they leave their family in a safe environment.

We are pleased to note among newcomers to Thorsby Mr. Raymond Carlson, son of Mr. and Mrs. John Carlson, who left Thorsby several years ago, soon after graduating from Thorsby Institute, to pursue his studies in Augustana College at Rock Island, Illionis. When he finished there he secured a position with a firm of Auditors or expert book keepers, whose business it is to straignten out tangles in the book keeping department of business concerns, and also to officially verify accounts of executive officers in municipal and private institutions. It is evident that the young man has been successful in his chosen calling as he has been at it for several years, and has not visited his home town in more than two years. It does us all good to see our young people thus making their way in preparation to share the cares and responsibilities of life as live American citizens. And thorsby really has quite a colony of them scattered over the country.

On Tuesday night a few friends of Mrs. Blanche Ekblad Carlson, daughter of Mr. and Mrs. K. A. Ekblad, gave her a surprise party at the home of her parents . Mrs. Carlson grew up in Thorsby, but a few years ago went north to engage in some satisfactory employment. In November last, she was married to Mr. Carlson, who it is said is a machinist. She is now making a visit to her parents.

The following were among those who comprised the party. Raymond and Pearl Carlson, Young Mr. Johnson and sister Bernic Misses Agnes and Ruth Gerald, Misses Inga and Anna Erdahl, with their mother and others whose names we did not get.

The Congregational Womans Missionary Society met at the home of Mrs. S. E. Norton on Tuesday afternoon of this week. Japan was the subject studied.

The Ladies Guild of Thorsby will be entertained on Thursday afternoon March 23rd, at the home of Mrs. G. F. Harper. All Thorsby ladies invited.

SHILOH

As I hanen't seen any news from this community in quite a while, will drop a few lines if the editor will permit.

Health of this community is fairly good at present.

Farmers are very busy in their farms when the sun is shining, tho the rains are getting us behind. Yet we will make up for all lost time if the sun will shine a few days.

The exercises at the close of Miss Juila Parrish's school on last Friday afternoon was enjoyed by all present. We sure will miss Miss Julia in our community for a while. But we are looking forward to the time when she will return to take up her school next fall as she has been elected as principal of our school. We will gladly welcome her back.

Our Sunday School is progressing nicely under the careful management of our Superintendent, Bro. R. L. Williams.

The singing at this place last Sunday evening was a grand success for time we had after Sunday school. The directors were F. I. Popwell, T. W. Billingsley and M. S. Deason. Also we organized a singing society to be held here every first and third Sunday at 3 p. m., with Prof. F. I. Popwell as Chairman. We hope to make our society a grand success. We cordially invite all singers and lovers of music to come and be with us.

M. S. DEASON, Sec'y.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness and that is by a constitutional remedy Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

NEW YORK STORE

PREDOMINANCE OUR MIDDLE NAME

A newspaper of Rome criticizes the United States for non-participation in the Genoa meeting, saying that "the United States tries to make its own political and financial interests predominant." If participation in the Gneoa conference would mean making those interests subordinate to Europe influence, the charge states the exact truth. Of course America wants to keep its interests predominant, which it has a perfect right to do, being the richest and most powerful nation in the world. But such a policy does not necesssarily include selfishness. American resources have been extensively devoted to the rehabilitation of Europe. The difference is that they have been employed under American, rather than European, direction.

ADDITIONAL REASON

The British are much agitated over the threatened American ship subsidy program. They see in it the greatest single menace to their own maritime interests. Which is pretty good proof of its effectiveness, and an additional reason for its adoption by Congress.

TEXAS BRICKLAYERS

New York paper complains that down in Texas workmen lay 1500 bricks a day while in Northern States they lay less than 500. Without any time trying to ascertain the reason for the difference, let's watch whether the greater speed in Texas hastens relief in the housing shortage.

FOR PROBATE JUDGE

I hereby announce myself a candidate for the office of Probate Judge of Chilton County, subject to the action of the Republican primary on August 8th, 1922.

Your vote and influence will be highly appreciated.

(Paid political adv. by A. J. Wilson, Clanton, Ala.)

FROM A LITTLE GIRL IN TEXAS

Editor Union-Banner:—

Will you allow me space to say a few words about Texas? We are having lots of rain, and it is terrible to have to go to school in such weather. I am twelve years old. I am in the high fifth grade. We have good public schools. We have been left Alabama three years. We have good health. My mother just received the Union-Banner. We are so glad to get it, and to hear the news from Clanton. Hello, to Mr. and Mrs. J. C. Calloway, my grand-mother and grand father. We live out from town in Freemont addition. We bought a nice 4 room house and it is up on a high hill. We suppose we will make this our future home. We will make a visit home soon. We also have a snow white dog. His name is Snowball. Would you mind to put this in your paper? Your Friend,

CORINE FUNDERBURK,
Dallas, Texas.

A Letter From Tom Littlejohn

Clanton, Ala., March 21, 1922.

To the Republican voters of Chilton County:—

In this issue of The Union-Banner appears my announcement for the office of Sheriff of Chilton County.

In making my announcement I do so realizing the duties and responsibility that will be upon me if elected to this office.

I have never held any public office, but have been dealing with the public for the last twenty years and feel my business training is sufficient to make me thoroughly competent to fill this office.

I am making this race with no promises or pledges to any one except that if elected will enforce the laws as written on our Statute books with equal rights to all and special favors to none.

I have several opponents in this race and I consider them all my friends and good men and I do hope we can get through this campaign without any mud slinging and trading with other candidates.

I expect to conduct a celan campaign and if elected, will try to enforce the law to which I will be obligated by my oath of office, and if defeated will get behind our nominee and help elect our ticket.

Yours very truly,
TOM J. LITTLEJOHN.

WIFE DOING GOOD WORK

"I have been bad off with stomach and liver trouble and bloating for many years. No doctors or medicine helped me. On the advice of my druggist I bought a bottle of Mayr's Wonderful Remedy and I don't want to miss a single dose. It has given me more benefit than all the medicine I have ever taken. I feel I am doing good to recommend it to others." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—For sale by Alred Drug Company, Clanton, and all good druggists everywhere.

REV. BAILEY AT UNION SPRINGS

Rev. J. G. W. Bailey of Minooka was a visitor to The Union-Banner office Monday. He will preach at Macedonia Saturday night, and return to Union Springs for his regular services Sunday at eleven. Everybody is requested to attend these services.

RELEASE SOUGHT BY PARTIES IN JAIL

Announcement is made from Birmingham that habaes corpus proceedings seeking the release of Miss Jewel Popwell, Fred and Clarence Heney and Robert Tippett, have been instituted before Judge Dan A. Green. These persons are being held without bond in Birmingham for alleged complicity in the killing of Dewell Barrett at Dollar, in Coosa County. The petition which is before Judge Green alleges that the defendants are wrongfully hald in jail without bond. They were committed to jail in Rockford by justices of the peace before whom the committment trial was held, and carried to Birmingham later by the Sheriff of Coosa county.

Attorneys for the defendants instituted habeas corpus proceedings before Judge W. L. Longshore, and in a hearing March 18, the petition was denied. The hearing before Judge Green will be held Friday morning at 11 o'clock.

PROVIDENCE

Editor Union-Banner:—

If you please, just allow me a small space in your valuable paper to say only a few words in regard to this community.

Health around here is good at present, except some few bad colds. But think probably on account of being out too late at night.

Rev. J. C. Thomas filled his regular appointment Saturday and Sunday. But as the weather was so bad only a small crowd was out for the Sunday service.

Our school closed at this place Friday, March 17. With Miss Inez Lagron Principal and Mr. Crumpton assistant, a goodly number of people was present Friday afternoon at the closing hour of this school. The entire community was made sad on the hour, which came around to bid each one good bye. More especially was they so sorry to see our Principal, Miss Lagron, take her leave from this community, as she was a real Sunday school worker, as well as literary worker and her absence will be greatly missed.

An entertainment was greatly enjoyed by all the entire sorrounding communities, which was given by Mr. and Mrs. W. G. Shaw in behalf of Miss Lagron. The writer understands Mr. Shaw feels sure of the fact that his new graphonola probably will get to rest a while now.

Miss Margarett Blewster spent Saturday night with Miss Annie and Clatie Sammons, and report a lovely time.

Mr. and Mrs. Bernice Watson, of Birmingham, is down for a few days visit this week.

We learned of our friend, Mr. Burl Martin, spending the entire Sunday past with his father and mother at home. The writer is at great loss to understand just how this come around. A READER.

J. MARTIN NIX COMES OUT AS A CANDIDATE FOR SHERIFF.

The announcement of Mr. J. Martin Nix as a candidate for the office of Sheriff of Chilton county on the Republican ticket, appears in the candidate column this week. Mr. Nix also publishes a letter addressed to the Republican voters of Chilton county, in which he expresses some of his ideas regarding the conduct of his campaign and the execution of the duties of the office.

Mr. Nix is a popular business man of Clanlton, and is the son of that sterling citizen and stalwart Republican, W. Y. Nix, of Maplesville. Mr. Nix has been in business in Clanton for many years, and has conducted himself all along as a thorough gentleman. He would no doubt make a good official in the discharge of the duties of the office to which he aspires.

Oh, we are so glad to see the bright sun shine again and we are sure the farmers are indeed glad to see those beautiful spring days as well as the school girls and boys for we know that every beautiful spring day means so much to the farmer, for some of the farmers are planting corn and if we don't have a few Spring days his corn will not grow very much.

We are glad to see our roads in better condition than they have been.

Our school is still progressing, but will last only about seven weeks longer and we all will be sorry to lose our teachers for they have done so much for us since we have had them here with us and we hope that we may have them with us to teach us another school, for we are hoping to have a new school house by the time our school begins again.

The Sunday School Convention that was held here Sunday was extra good, considering the weather. We had several able speakers with us and we are sorry that more could not come.

A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

Duplicate wearing parts for

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.

HOW the cost of building quality tires has been brought down to the lowest level in history was explained by H. S. Firestone, President of the Company, to the stockholders at the annual meeting on December 15, 1921.

1. *All inventories and commitments at or below the market.*
2. *Increased manufacturing efficiency and volume production reduced factory overhead 58%.*
3. *Selling costs reduced 38%.*

Mr. Firestone stated, "This reduction in prices is made possible by our unusually advantageous buying facilities, and the enthusiasm, loyalty and determination of our 100% stockholding organization.

"Due credit must be given to Firestone dealers who are selling Firestone tires on a smaller margin of profit. This brings every Firestone saving direct to the car-owner."

The saving through first cost plus the saving through high mileage doubles Firestone economy and is daily adding new fame to the Firestone principle of service—

REPORTS OF STATE EXAMINERS ON THE FINANCIAL AFFAIRS OF CHILTON COUNTY

PREDICTION IS MADE THAT COUNTY WILL SOON BE OUT OF DEBT IF PRESENT ECONOMICAL POLICIES ARE CONTINUED IN CONDUCT OF BUSINESS BY COUNTY COMMISSIONERS.

If there are any citizens of Chilton county, Democrats or Republicans, who have any question in their minds as to the conduct of the affairs of the county by the Probate Judge and Commissioners Court during the past few years, it might be of interest to them to know what has been said by the State Examiners who have been sent here by the Governor to check up the records of these officers.

Reports on Judge Reynolds.

The following report was made by State Examiner L. A. Easterly, on Jan. 27, 1920, being his findings of conditions in the Probate office covering the period from Dec. 1st, 1917, to Nov. 30, 1919:

Montgomery, Ala., Jan. 27th, 1920.
Hon. Thos. E. Kilby,
Governor of Alabama,
Montgomery, Alabama.

Dear Sir:—In obedience to instructions received from Judge C. E. McCall, Chief Examiner of Accts., State Alabama, I have examined the books, accounts and vouchers of Hon. L. H. Reynolds, Judge of Probate of Chilton County from the 1st day of December 1917 to the 30th day of November, 1919.

I find that Judge Reynolds has kept his books and accounts in a remarkably correct manner and that he has promptly remitted all money collected by him for the State and the county, having only made a few errors in his remittances and those errors were against himself and in favor of the State and county.

As Judge of the County Court of Chilton County I have found that he has been diligent not only in trying to eforce the laws of the State but has collected and paid into the County Treasury all moneys imposed as fines and costs against defendants tried in his Court.

A statement marked "Exhibit A" is hereto attached which shows his collections and remittances to the State on account of privilege license, Mortgage Privilege Tax, Motor Vehicle Tax, Charter Fees of Domestic Corporations, Hunters License and redemption of lands, which is made a part of this report. He remitted to the State, $15.30 more than he collected on account of privilege taxes during this period and did not remit the amount of 92 cents on the Motor Vehicle License, this leaves the State due Judge Reynolds the amount of $14.38.

A statement marked "Eqhibit B" is hereto attached which shows his collection and remittances to the County on account of privilege license, Mortgage Privilege Tax, Motor License and redemption of land, he is due the County $1.01 on account of privilege license, but overpaid the County $7.60 on account of Mortgage Taxes, this leaves the County due Judge Reynolds the amount of $6.59.

A statement marked "Exhibit C" is hereto attached which shows his collections and remittances on account of the County Court which shows his collections and remittances on account of the County Court, which statement is made a part of this report, this statement shows that Judge Reynolds has overpaid the county $5.25 on account of Court Costs collected and remitted. The County Court of Chilton is proving itself to be valuable as an asset to the County Treasury.

A statement marked "Exhibit D" is hereto attached which shows his collections and remittances on account of road taxes and wagon taxes collected during the year of 1918, this statement is made a part of this report. Judge Reynolds is due the County $1.00 because of an error in substraction of his commissions on the road taxes collected for the month of July, 1918. Both these taxes were abolished by the Commissioners Court and have not been collected since the close of the year 1918, while these taxes were levied and collected they were the source of considerable revenue for the public roads of the County but were abolished because of their unpopularity with the people of the County.

I have examined Judge Reynolds record as hard labor agent of Chilton County and find he has promptly paid into the County Treasury all moneys collected from account of convicts sentenced to hard labor for Chilton County.

I have examined Judge Reynolds' collections and remittances of Motor Vehicle tax to the cities of Clanton, Maplesville, Jemison, and Thorsby, towns located in Chilton County and find that he has made the remittances to those towns promptly and regularly as shown by receipts on file in his office, but I prepared no detailed statement of the collections and remittances of this account, satisfying myself that the remittances had been made in accordance with the law.

Judge Reynolds rendered me much courteous assistance in the course of my stay in Clanton and my examination of his books and those of the other officers of Chilton County.

Respectfully submitted,
L. A. EASTERLY, Examiner.

Sworn to and subscribed before me this the 28th day of January, 1920.
M. D. FOSHEE,
Clerk Circuit Court.

The following is the report of State Examiner Frank Peabody, made to the Governor on March 17th, 1922, which takes up the affairs of the Probate office where Mr. Easterly left off on the report above, Dec. 1st, 1919, and covers the period from that date up to January 31st of this year:

(Continued on last page.)

DORMINEY AND GENTRY ANNOUNCE AS CANDIDATES FOR COMMISSIONERS AGAIN

The Union-Banner is pleased this week to state to the people of Chilton County that Messrs T. J. Dorminey and D. H. Gentry are again candidates for the office of County Commissioner on the Republican ticket. We believe these two men have made records in their offices during the past four years that entitles them to the unanimous endorsement of the people for another term. They are good men, they have been zealous in their devotion to duties of their offices, and have worked hard to keep the business of the county on the road to improvement.

It is surprising to see the record that has been made by the Commissioners Court of which these two men have been valuable members. One would have thought when they went into the offices that the condition of the county was such that nobody could make any creditable showing. But they have done well.

As an evidence of what has been done, we call the attention of our people to the reports of the State Examiners which are published in another place in this paper. These examiners say that if the policy of the past four years is pursued in the management of the county for a few more years, the county will be out of debt. We do not see how the voters of the county refuse to keep men in our offices who can offer us the happy result of having our county out of debt in a few years.

These men will be able to do much more for the county in the next four years than they have in the past. As our debts are reduced our burden will grow lighter, and the commissioners will have more to do with. They can put more money and time and attention on our roads. Next year the Alabama Power Company will pay a large amount of taxes into our county on their Lock 12 property, which will give our county more money to take care of the obligations. Then too there is hope that the state highway department will take over some of the highways through the county and relieve us of the expense of keeping these up. This will be a considerable item of saving to the county

We hope the people of Chilton county will retain Mr. Gentry and Mr. Dorminey as members of the Commissioners Court. We believe the best interests of the county demand this. They have shown their fairness for the office, and our county should be proud to have the advantage of their services.

CLANTON WILL HAVE GOOD BASEBALL GROUND THIS YEAR

A committee of baseball enthusiasts set out last Monday morning to ascertain how far Clanton would go in supporting the baseball movement for the coming season. The plan as announced by them was to secure money enough to build a fence around the High School ball ground and to construct a grand stand for the ladies. The figure of cost of this improvement was estimated at about $500 and the boys announce that over half that amount was subscribed on the first day.

That is the way to do it if we are going to have any baseball. The grounds should be enclosed in a high fence, and all who want to see the games should pay to get inside. The rason for this is that it costs money to carry on baseball, and those who enjoy seeing the game should bear the expenses.

Our boys promise us that if the people of the town will stand behind them this year they will show us some playing that will make us proud of ourselves. Let us get with them and stay with them.

CHEST OF SILVER HANDSOME GIFT FOR HOSPITAL

Prof. Alverson, the faculty and student body of our County High School recently presented to the Central Alabama Hospital a chest containing thirty-two pieces of handsome silverware. The donors are to be commended upon the judgment that prompted them in the selection of a gift that will be of untold service, and that will prove to be a joy forever.

As Chairman of the Ladies Auxiliary to the hospital committee, I sincerely thank Mr. Alverson, his faculty, and the pupils of our high school for their thoroughly acceptable gift to the Hospital. In the language of the inimitable Rip Van Winkle, "May they all live long and prosper."

W. T. BEAN IN RACE FOR PROBATE JUDGE

The announcement of Mr. W. T. Bean, as a candidate for Probate Judge of Chilton County, appears this week in the candidate column. Mr. Bean is a native son of Chilton Couty, having been born and reared in the Collins Chapel community. When a young man he set himself to the task of securing an education and preparing himself for a career of public service. He succeeded well in his undertaking.

He was engaged in the work of teaching school in Chilton County for nine years, being principal of the Collins Chapel School for five successive years out of the nine. He graduated at the Jacksonville Normal School in 1911.

In 1912, Mr. Bean was elected by the people of Chilton County as their Superintendent of Education. He served six years in this capacity. His record in the office is well known to the people of the county. It may be said that he served the educational interest of the county very admirably during this six years.

At the close of his service as Superintendent of Education in 1919, Mr. Bean and his brother entered business in Clanton. Their store has very succesfully weathered the financial storms of recent years, and is to-day doing a splendid business, which attests the ability of Mr. Bean in handling business matters.

As another instance of the ability of Mr. Bean to handle matters of finance, it is pointed out that during the six years he was Superintendent of Education, he successfully administered the educational funds of the county which amounted to between twenty-five and forty-five thousand dollars a year.

Nobody will question the loyalty of Mr. Bean to the Republican party in the past. He has been true to his colors in every political campaign since he became old enough to take a part in politics.

A NEW KICKER ARRIVES

We clip the following from The Birmingham News of last Thursday, which will be of interest to the many friends of Mr. Croell Kicker in Clanton:

Sergt. C. N. Kicker, of the Birmingham police force, Thursday was in high spirits, following the visit of the stork to his home, early Thursday morning.

The latest arrival in his homestead is a boy, he proudly declared, and is a hefty youth of 9½ pounds, possessed of two lusty lungs.

Sergt. Kicker was busily engaged practically the entire of Thursday receiving the congratulations from members of the force and officials of the Birmingham police force.

FRANK J. CALLEN IS PRESIDENT OF BANK

We learn that the Board of Directors of the Peoples Savings Bank of Clanton have elected Mr. Frank J. Callen as president of the bank to succeed his father, the late W. T. Callen.

This is a wise selection, as Frank is a hustling young man of ideal character and sound business judgment. He has been brought up in the baking business under the tutelage of his father, and is eminently fitted both by disposition and training to take up the work where his father left it, and carry the business on successfully. His former connection with the Bank has acquainted him with the people who have done business there and his selection as head of the Bank will no doubt meet with the hearty approval of everybody concerned.

NEGROES HELD WITHOUT BOND

A Preliminary investigation into the killing of Nettie Turnbull at Mitchell Dam last week, was made Monday morning in the County Court before Judge Reynolds. The result was the holding of George Williams and Bose White, two negro men, without bond.

The evidence presented against the two negro men showed that the killing of the negro woman was one of the most brutal and cold-blood murders that has ever happened in Chilton county.

Further investigation of the killing will be made by the next grand jury of Chilton county.

MISS POPWELL AND HENLEYS REALEASED ON BOND

The hearing which was accorded Miss Jewel Popwell, Fred and Clarence Henley and Robert Tippett, before Judge Greene in Birmingham last Friday, resulted in the release of the defendants on bonds of five thousand dollars each. They were being held in jail in Birmingham as a result of the committment trial in Coosa county, in which Justice of the Peace refused them bail. They are charged with complicity in the murder of Dewell Barrett at Dollar, in Coosa county.

Mr. C. A. Peterson of Thorsby was a visitor to Clanton Monday of this week.

BAKER MAY RUN FOR REPRESENTATIVE

Mr. Rudolph Baker says he is thinking seriously of being a candidate for representative in the Legislature of Alabama from Chilton county on the Republican ticket. He says a large number of his friends have solicited him to make the race for this office.

COL. A. C. SMITH OUT AGAIN

The Union-Banner was pleased to have Col. A. C. Smith of Coopers pay us a visit last Saturday He is able to walk again now with the aid of crutches, having had one of his legs amputated recently while in a Birmingham Hospital.

Mr. Smith is looking better than he has for a long time, excepting of course the sad feature of the missing limb. He says his general health seems to have taken on new vigor since the leg was amputated.

He will not resume the practice of law here for some time yet, probably not until his son Cecil, completes his law course at the University of Alabama a year hence.

The many friends of Mr. Smith throughout Chilton County will be interested to learn of his recovery.

S. S. CONVENTION

On the fourth Sunday in April there will be a Baptist Sunday School Convention held at the Samaria Baptist church near Clanton.

The following Sunday Schools are earnestly urged to send four delegates from each school:

Liberty Hill, Cane Creek, Refuge, Maple Springs, Poplar Springs, Samariah, Friendship, Concord, Highland and Clanton.

In the near future an interesting program will be arranged and everything will be done to make the day beneficial to all who attend.

PUZZLE ANSWERS ARE COMING FAST

SOLVERS PRAISE CONTEST AS EDUCATIONAL FEATURE IN WHICH YOU WIN IF YOU LOSE.

Answers to our "P-word" picture puzzle are coming in at a lively rate and the prospects are that it is going to be an interesting and exciting game at the end.

They are all working at it, it seems—the boys and the girls both old and young, the butcher, the baker, the candlestick maker, the "school-marm" and the preacher. But who is going to win? That is what it will be interesting to see. So don't be a quitter" (even if it does begin with 'p'). Get into the game.

There is no game of chance about this picture puzzle. It is a test of good eye and quick wits. And the beauty about it is that the fellow with a lot of book learning doesn't stand much more show than the fellow with only a practical education in the school of hard knocks. The former may know what "probocis" means but don't know what a potato planter looks like. So there you are.

At any rate, when they get thru with the puzzle they will both have increased their vocabulary and their knowledge of things "p." From an educational standpoint they will be ahead. From a financial standpoint they are not losers even if they should win no prize. They ought all have the Union-Banner any way. Incidentally, The Union-Banner ought to get quite a number of new subscribers this way—also a very desirable result of the game.

There are some of the answers already received of which we cannot help but feel that it is too bad that their authors have not qualified for the bigger prizes.

Archives and Dept. of History, Thos. M. Owen, Director.

WILL R. CLEMENTS IS DEMOCRATIC CANDIDATE FOR COMMISSIONER

The announcement of Will R. Clements is made this week as a Democratic candidate for County Commisioner. Mr. Clements lives in the First District and is a candidiate for the place now held by Mr. T. J. Dorminey, Republican.

Mr. Clements has been for a number of years a member of the Jury Commission of Chilton County.

Mack D. Ruffin of Fairfield was in Clanton this week visiting his old friends and acquaintances. Mr. Ruffin was looking fine and wore a jubilant smile, as he walked around town noting the progress that has been made by Clanton during his absence.

Uncle Mose Robinson of Beat 16 was among the visitors to Clanton Saturday. He brought The Union-Banner the biggest chicken hen egg we have ever seen. Uncle Mose said if anybody should bring us a bigger one, to let him know and he would tell his old hen she would have to do better next time.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

WORRIED HUSBANDS ---READ THIS

GUDE'S PEPTO-MANGAN IS THE BEST TONIC FOR NERVOUS, TIRED-OUT WIVES.

Is your wife "all tired out" and cross and irritable much of the time? Do the children "bother her to death" every day, and do the ordinary household tasks that she formerly performed with ease seem now to overtax her. In other words, do you often come home to a house of trouble instead of a house of joy and happiness?

If your answer is "yes" to these pointed questions, don't blame your wife until she has taken Gude's Pepto-Mangan with her meals for a few weeks. She is simply run-down and nervous and needs the kind of iron that she will get in Gude's Pepto-Mangan to give her more vitality and strength. For thirty years doctors have recommended Gude's Pepto-Mangan as a first-class building-up tonic. Sold by your druggist in both liquid and tablet form.—Advertisement.

$50 OR $3---WHICH?

Why Take Chances on Winning Only $3.00 When You Can Send in Only Three New Subscriptions and Win $50.00?

In the Banner's P-Word Contest, the best list of words will get only $3.00 if no subscriptions are sent in with your list; but by simply asking three of your friends to take the Banner one year at the reduced price of one dollar, your list will be qualified for the Capital Prize of $50.00. This is a big lot of money these days, and it is hard to earn $50.00 at work. It is easy to get three friends to take The Union-Banner and then by naming the most p-words in the pciture you get the fifty "bones."

If you have already sent in your list of words and did not send in any subscriptions, lyou still have unti April 10th to qualify your list for the first prize. You would hate it if your list should get first prize and you would only get $3.00 as a cash prize, when you could have gotten $50.00 just as easy.

Look elsewhere in this paper and read all about it.

The Pneumonia Month.

March is a typical pneumonia month and usually gives high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slipht, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneuminoa. It is pleasant to take. Children take it willingly.—Upchurch Drug Co.

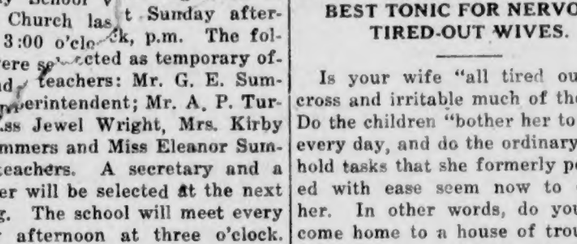
A Plow "Point" to Remember

When you come to buy a chilled plow, find out if duplicate wearing parts can be put on easily, and if they fit closely. A good test is to take off the share that is on the plow and put on a new extra share. A still better test is to put a NEW share, moldboard, or landside on a plow that has been used several years.

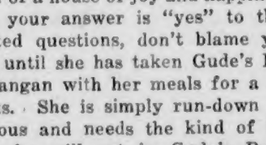
Duplicate wearing parts for

B. F. Avery & Sons Chilled Plows



The Chilled Plow with the Lock that Locks

slip into place with ease and "fit like a glove," because every share (point) and moldboard is carefully tested before it leaves the factory. "The Lock That Locks"—found only on the Avery—holds the plow bottom to its original shape no matter how long it is used, hence it's just as easy to fit new parts on an OLD Avery Chilled Plow as on a new one.



Come in and let us show you just why Avery Plows excel in this respect

FRANK WILLIS BARNETT'S STORY ABOUT CLANTON

The story about Clanton which was written recently by Doctor Frank Willis Barnett, and published in The Birmingham News on Wednesday of last week was the best narrative we have ever seen relating the story of our history, as well as current items of interest in the social, business, civic and religious life and activities of our little city.

Eerybody who read the story was immensely pleased with the same, and many have expressed surprise at some of the things which he so charmingly told us. The historical information given by Dr. Barnett in this article elicited the one unanimous question, "Where did he find all those things about how this town became known as Clanton?"

Another, and perhaps the greatest feature about the story was that superb style of narration which is always found in the speeches and writings of Dr. Barnett. It is a style the duplicate or equal of which has never been produced by anybody else, save the original and only Frank Willis Barnett.

Clanton is indeed grateful to The Birmingham News for the place given our city in the work which that paper is doing for Alabama through the instrumentality of Dr. Barnett. The News granted us a distinct favor in letting us have Dr. Barnett at the opening exercises of The Central Alabama Hospital. They filled the cup of generosity well full in that kindness alone. Then with the publication of Dr. Barnett's story about our city, they packed the measure full, heaped it up and run it over.

Clanton sincerely thanks Dr. Barnett and The Birmingham News.

MORE BUILDING STARTING UP

The building boom in Clanton has taken another spurt forward and at present there are two more brand new business houses in sight and more being talked of.

The foudations have already been laid by workmen on a new building for Dr. J. E. Gowan, in the block confronting the Court House, next to Tom Rockett's building. The new structure which is now going up will be occupied by The Easterling Cafe. The building will be of brick, with pressed brick front, in keeping in all ways with the three other new buildings which have recently been completed in this block.

Paving of the sidewalk from the alley corner of The Union-Banner Building, northward in front of the Clanton Produce Co., an dG. C. Armstrong's has been completed. It is very probable that within a few months Dr. Gowan will erect a handsome store and office building on his very desirable corner property immediately in front of the Court House, and carry the paved sidewalk on up to that corner.

Right across Sixth Street in front of the Clanton Produce Co. Dr. Arthur Johnson wil soon build another business house on the now vacat lot between Carter Brothers Garage and Marion Gore's feed store. We may then expect the paved sidewalk on that side, which now stops at Carter's Garage, to be extended northward to the corner at Second Avenue.

OUTRIGHT MENDACITY

The Philadelphia Record, Democratic, speaks of the business conditions of 1916-20 as the "long period of Democratic prosperity." But it happens that it was not Democratic prosperity; it was war prosperity. The records of the Department of Commerce under the Wilson administration show that following the enactment of the Democratic tariff law our imports increased and our exports decreased until for the first time in many years if not for the first time since the Civil War we were importing more merchandise than we were exporting. Because we were buying abroad more than we were selling, our own shops were closed or their operators were curtailed. The front pages of the Democratic press of 1914-15 pictured the bread lines that were conspicious in every city. The balance of trade, as shown by Democratic records, continued against until a month after the outbreak of the war when the cutting off of imports and the filling of war orders changed the situation. Not even the most stupid teader of economic history disputes the statement that it was the war and not Democratic administration that brought the prosperity of 1916-20. It is not stupidity but mendacity that makes the claim set forth by the Philadelphia Record.

WILFUL WILSON

Almost every incident in international affairs serves to emphasize the folly of President Wilson's stubborn insistence upon interweaving the League of Nations covenant with the peace treaty. The United States Senate, Republicans and Democrats alike, was ready to ratify without delay any resonable treaty of peace. The Republicans formally notified Mr. Wilson to that effect, so that he might not be under any doubt whatever. The Republicans also notified him that they would not vatify a treaty with the league covenant in it. Nevertheless, in his determination to be the supreme ruler of the world, Mr. Wilson wove the league into the treaty. That was the cause and the sole cause of America's refusal to ratify the treaty, and that refusal was approved by 7,000,000 plurality vote at the election in 1920.

One of the most recent incidents showing the evil effects of Wilsonian autocracy was the failure for the Allied nations to pay to us the money which we were legally and morally entitled to receive in reimbursement for the expense of keeping our troops on the Rhine. No nation has disputed the soundness of America's claim but they suggest that since we did not ratify the peace treaty we are not in a position to urge the payment. President Wilson denounced the 39 Republican Senators as a "small group of wilful men." A still smaller "group" was Mr. Wilson himself, who, by his "wilfulness" insisted upon his own ideas being adopted regardless of the judment of the many. He recalls the juror who said that the jury could have agreed if the other eleven men had not been 'so stubborn. The pity of it is that America is every day paying the penalty for the Wilsonian stubbornness.

REPORTS OF STATE EAXMINERS ON PROBATE JUDGE AND COMMISSIONERS COURT

The attention of the people of Chilton County is called to the reports of of State Examiners which are published in another place in this paper. These reports cover the affairs of the offices of the Probate Judge and Commissioners Court from Dec. 1st, 1917 to January 31st, 1922.

If anybody in the county wishes to question the conduct of the affairs of these offices, the answer to their question will be found in the reports of these examiners.

We want to call special attention to that part of Examiner Easterly's report made on Jan. 27th, 1920, in which he says that if the practice of economy which he found in the previous conduct of the affairs of the county should be kept up, the county would be within its debt limit within another year.

Then the report of Mr. Peabody made last week says that two years ago the county was above the debt limit allowed by law, but by practicing economy, adhering strictly to the laws, conducting the affairs in a business-like manner, have greatly reduced this idebtedness and are withing the limit, and by following the present methods it will not be many years before the county is out of debt. This seems to us to be a record that our county officers need not be ashamed of, and of which the people of the county can well be proud.

FIELD DAY AND BASEBALL TOMORROW

All preparations have been made for the big field day tomorrow (Friday) on the High School campus. In the afternoon The High School baseball team will meet the Thorsby Institute team.

First and second prizes have been offered by the merchants of the town for each of the following events: Sack Race, Standing Broad Jump, 100 Yard Dash, Three Legged Race, Running Broad Jump, 220 Yard Dash, Hurdles, Tug O' War, Potato Race, Standing High Jump, Relay Race, Running High Jump, 440 Yard Dash, Wheelbarrow Race, Baseball Throw, and Pie Contest.

The exercises are free and you are cordially invited to attend. The morning program will begin at 10 o'clock. The game will be called at 3:00, p. m.

Those Americans who are supporting European propagandists and condemning the Harding policy of arranging for ultimate collection of the debts due us, should be reminded that the steamship fare from here to Europe is not large, especially for a one-way ticket.

MOVING INTO NEW STORE

The Clanton Produce Co., otherwise known as Tom Taylor and Jesse Baker, are engaged Wednesday in moving the stock of goods from their old location into the new building which they have just completed next to the Union-Banner building.

Their new store is as fine if not the finest one in Clanton. They have more floor space than they had in their old store, and will expand their stock in order to take up all the additional room.

The many friends of this enterprising and prosperous firm are invited to call to see them in their new building. They will be glad to show you their new place whether you want to buy anything or not. And if you take a notion to buy something from them while looking around, you can be assured that they will treat you right.

Mr. Maurice Lande, Manager of The Leader, the new store which will occupy the place being vacated by Taylor and Baker, announces that his new stock of goods will be ready for the trade on next Saturday. His friends are invited to call and see him in his new store. He promises to save you money if you trade with him.

TO THE BROTHERHOOD OF THE CHILTON COUNTY BAPTIST ASSOCIATION:

Dear Brethren:—In looking over our Minutes I see that we have a membership of 3,540. I also see that we have reported for missions $512.56, a little less than 14 cents a member. That isn't near what it ought to be. We ought to give at least $1.00 a member for missions. The Convention year closes April 30th, and some of us are behind with our pledges, and even some have not made any pledges nor paid anything. For these reasons the Lord's cause is suffering for the necessary means to carry on the work. I earnestly beg everyone who reads these lines to do something in the next thirty days.

Brthren, the Lord is looking to you to help in this work. Everyone can do something if they want to. I know we haven't got much money, but we might sell a bushel of corn, or work a day, or get a cross tie and get a little cash. Where there is a will, there is a way, if the will is strong enough to seek the way. I know the most of us think we need all we have got, and more besides; but let us remember that God demands that we give a part of our income to him, and if we withold from him, he will withold from us.

Read the third chapter of Malachi, also first Kings, 11 to 16. Do whata God says do and he will take care of the results. Jesus said give, and it would be given you good measure, pressed down and running over. Again he said it is better to give than to receive. Paul said let everyone of you upon the first day of the week, lay by in store as the Lord hath prospered you.

Brethren, let's do better in the future than we have in the past. I have written these lines from love to God, and in the hope of stimulating the brethren to their duty.

Sincerely,
T. J. DEASON.

POOR ORIGINAL TORN

THORSBY SECTION

(S. E. Norton, Manager.)

One of the least known, because comparatively new, members of Thorsby Institute faculty, is Miss Katherine Perry, who by her gracious personality and all around efficiency, is winning a name and place for herself in the hearts of Thorsby people. As a part of her preparation for a teacher, she took a course at the Emmerson school of Oratory, in Boston, Mass., where she became a warm personal friend of her instructor, Mrs. Jessie Eldredge Southwick, who has a national reputation as an entertainer and platform speaker.

Mrs. Southwick is now making a tour of the South and through Miss Perry was secured for an evening at Bates Hall, where she rendered a varied and pleasing program last Saturday night to a large and appreciative audience. Her "court scene" from "The Merchant of Venice," "Whitewashing the Fence" from, Tom Sawyer, and "The Chariot Race" from Ben Hur, were masterpieces of dramatic inpersonation which with other numbers showed remarkable versatility and forceful personality in the part of the speaker. Mrs. Southwick remained two days in Thorsby as the guest of her friend and very kindly consented to speak Sunday night at Christian Endeavor meeting, where in a brief talk, she portrayed the necessity of sacrifice and struggle for growth in spiritual life as well as physical development, setting forth to the young people and others assembled that non can "be carried to the skies on flowery beds of ease."

NOTICE

For the present, Thorsby Institute Library will be open to the public, on every school day, from 11 a. m. to 12 M., and from 3 to 4:30, p.m. Any person desiring books or the use of the Library will be welcome during these hours.

Thorsby Institute Base Ball Team will attend the Chilton County Athletic Meet at Clanton, Friday afternoon, March 31st, when they will play a match game with Chilton County High School team. We hope Thorsby people will send along a good contingent of "rooters" for our boys.

On Tuesday, April 4th, Thorsby Institute will have their annual picnic and outing. Parents or friends of the school who desire to join in the festivities will be welcome (if accompanied by a basket of lunch.)

Miss Helen C. Jenkins left Friday evening for New England, where she will remain several months in pursuit of that part of her work which consists in developing friends and securing funds for Throsby Institute.

The Baptist Ladies Missionary Society met Monday afternoon at the home of Rev. W. P. Lowery. The subject under consideration was "Home Mission Work in Alabama." They report a very interesting meeting.

Considerable interest was manifested in reference to the write up of Thorsby, by Frank Willis Barnett, which appeared in The Birmingham News last Friday. He seemed to get a lot of information which was mostly correct, which reminds one of the couple who had decided to sell their home and move away, and placed their property in the hands of a real estate dealer who wrote a glowing description of the place and its advantages. Next day he got a letter from the owners saying that they had decided not to sell as they had never known what a fine place they had until they saw it in print. We judge by the wheelbarrow load of copies of that issue of "The News" that a lot more people will soon know more about the good things we have at Thorsby.

Now that the Alabama Public Service Commission have granted the petition for a grant to Mr. P. G. Ault of Birmingham for the instalaltion and operation at Thorsby of an Electric Light and Power Plant. It is understood that Mr. Ault is getting the outfit, and his household goods, ready for shipment and is expected to become a resident of Thorsby within the next few days.

We are pleased to note important imprvements begun and cntemplated in requilding the places destroyed by fire in January. E. N. Bentley and Mr. Harry Thompson have dissolved partnership in their Garage business, and Mr. Bentley has bought the Lucas property adjoining Foshee's store, and is now engaged in removing the debris preparatory to building a Garage at once. We understand that Mr. J. R. Martin intends to put up a store building on his property adjoining Bentley, this leaves only the A. K. Horn property unimproved and we believe some one will pick it up soon at the price for which it is offered.

Mrs. Charles A. Perry, after spending two months in Montgomery, returned to Thorsby last week and is making her home with Mrs. Hattie M. Gerald.

A portable building has been placed at the corner of Montgomery and Jones Streets, which rumor says will be used for a restaurant, something very much needed in Thorsby since the fire in January, which destroyed the only one in town.

Rev and Mrs. J. F. Owens are plannig to leave Thorsby next Monday, April 3rd, to return by motor, to their old home in Utica, New York. Mr. Owens has been engaged in Sunday School extension work in Alabama for more than a year past under the auspices of Congregational Extension Boards, with headquarters in New York City.

Miss Anna Werniss and Miss Nolia Robinson, of Birmingham, were week-end visitors in Thorsby.

The long talked of change of management in Thorsby Post office took place last Saturday, when Walter M. Parnell was superceded by Grover Bice, who has with him, his brother, Clarence, as assistant.

Mr. Wm. Goodgame and Mr .L. E. Diefenderfer made a trip to Birmingham last Friday.

Mr. Ben McCary, father of S. D. McCary, died Sunday, age 77. The funeral was held at the home on the old Smith homestead Monday morning and burial was in Thorsby cemetery.

J. D. Sawyer, a young colored man, whose home was about five miles west of Thorsby, was taken to an infirmary in Birmingham a few days ago, suffering with appendicitis, but too late to be benefited by an operation. His body was returned Monday morning and interred in Beulah Cemetery.

OAK HILL

Editor Union-Banner:

It has been so long since we have seen anything in the dear old Union-Banner about our singig society that we are made to wonder where are the other corresponding secretary's from the other places and what is the matter with them that they are not on the job. We know that it was not because the singing was not good that they have not written to the paper, for the writer has been at every one and knows that is was not only good but very good.

We have Sunday School here every Sunday with fairly good attendance. Preaching by the pastor on Saturday night, Sunday and Sunday night of the first Sunday in each month. Singing every fourth Sunday evening.

Last Sunday being our singing evening, we had a fairly good attendance which we were glad to see, but had it not rained we would no doubt have had one of the largest crowds we have ever had. The class was arranged nicely by President E. L. Glasscock and they did some fine singing.

Directors for the evening were, E. L. Glasscock, Ira Grant, Leonard Glasscock, Vester Campbell, Charles Glasscoch, A. H. Glasscock and little Edward Glasscock directed one song. Those who presided at the organ were Misses Esther Atkinson, Lena Glasscock, Elsie Robinson.

The society met at Jemison Baptist church next Sunday evening. Everybody come who can and let's have another good time singing God's praises together.

TOMORROW WILL BE THE PRODUCT OF TODAY

ALABAMA NEWS

$2,500 RADIO EQUIPMENT PRESENTED AUBURN BY THE BIRMINGHAM NEWS

The Birmingham News recently announced the gift of $2,500 to the Alabama Polytechnic Institute at Auburn for the purchase and equipment of a one kilowat broadcasting station

This station will be as powerful as that of the Westinghouse Electric Company at Pittsburgh, whose nightly concerts and Sunday sermons are enjoyed by every amateur receiving station in Alabama.

Through this gift The Birmingham News contribution to the Auburn drive, Auburn will be the fifth college in the United States to have a radio broadcasting station.

Radio telephony promises to be the biggest and most popular development in the scientific world since the invention of the ordinary telephone. It seems now that it will be only a few years until hundreds of farm houses in Alabama will be equipped with receiving sets. Auburn's and The Birmingham News opportunity to serve will be increased with every new receiving set that is installed.

Nightly programs of primary service to the farmer will be given. Lecturers on scientific agriculture will give nightly talks to farmers in their own homes on how to combat the boll weevil, what fertilizers to use, the best time to plant various crops, weather forecasts, market conditions, when, where and how to sell their various crops, etc. In addition, doubtless, from time to time, there will be musical programs, lectures on other subjects; in short, all that would go to make rural life in Alabama more profitable, more pleasant and more convenient and attractive.

Dr. Spright Dowell, the able president of Auburn, has been consulted, and he regards a radio broadcasting station as absolutely essential to the proper equipment of a modern, up-to-date technical college. Auburn has several expert student operators, amply capable of installing the outfit and making it of the largest service to the people, as well as in dissemination of scientific instruction.

GADSDEN INDUSTRIES WILL BEGIN WORKING AT FULL TIME SOON.

Gadsden—It is stated upon good authority that all the pipe shops in the city will go on full time and full crews in a few weeks. Nearly every manufacturing plant and industry in the city has increased its working force within the past month and the prospects for full time at all the plants is very encouraging.

The starting up of the Gadsden car works on full time with 500 employes has given an impetus to all lines of business and everyone is more optimistic than they have been for many months.

MORTGAGE DEBT ON FARM HOMES 38.9 PER CENT OF TOTAL

According to a preliminary report that has just been issued by the Department of Commerce, through the Bureau of the Census, the total mortgage debt on owned homes and farms in the state of Alabama in 1920 was $53,570,501 and the total value of these mortgaged homes and farms was $137,592,856, the mortgage debt thus representing 38.9 per cent of the total value. Rented homes, tenant farms and farms that are partly owned and partly rented it should be noted, are not included in this report.

Bull Path Road Reopened.

Corona.—The old Bull Path road, famous in this section a generation ago, which intersects the Fayette-Jasper road near the Chapel Church near here, is being rebuilt and put in commission again as a public road after having been out of commission as such since 1902. This road, when completed, will admit trrafic passing to and from Old Coal Valley and Oakman and mean much for the farmers near here.

Gadsden Council Buys Lot.

Gadsden—The city council has authorized the purchase of four lots on Hill Avenue for park purposes. The property is said to be ideally situated for a small park. The offer of the council is in line with its policy to provide park sites in the various sections of the city.

Road Contract Let.

Cullman—Contracts for the construction of a hard surfaced road from Hartselle to Cullman on the Bee Line Highway have been let by the state highway commission to the Texas Roads Company of Dallas, Texas, which was the lowest bidder on the two projects.

Randolph Gets Road Machinery.

Roanoke—The road building machinery to go with the large and small tractors bought recently by the commissioners of Randolph arrived and work on the roads will begin at once. Work has already started to improve the road from the Chambers County line on the route to LaFayette to Roanoke and this will be a great help as a great deal of traffic goes over this highway. The big 10-ton Hoyt tractor is being overhauled and will handle the heavier road work

NEW HARMONY

Well, here I come again. We lost out last week but will try to write a little now.

Health of this part is not very good. Such colds you never seen. They sure do stay with a fellow believe me. Well, we are having some more bad weather. Farming is a slow go, while every time the sun shines we do a little.

Well, I think the game law is a good thing. If we did not have it some body would shoot a candidate they are so thick. I think Littlejohn is going to the front for Sheriff in this part. Mr. Litteljohn is a nice man. I think he would fill the place with credit to his party. He is a good friend of mine. He knows you where ever he sees you. He is liked by everybody that knows him.

Now for Judge, we could not beat Harris. He is a clean upright man, worthy of the office he is asking the people for. He always meets his fellow man with a kind word and a smile. He served the people as Sheriff one time and made a good record.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

We have got too many good men out this time. Some of them won't get in, but who ever the nominees are let's get behind them and put them in. Let's roll up the biggest vote we we ever did before.

Now a word for Mr. Collins, he is one of our best men in the county and we could not beat him for Clerk. Go to his home and find out about him and see what he is doing. You will find him in overalls at work when he is not in his office. We don't think we have a better friend than Mr. Collins. So I will stop at this for this time. As far as the officers, they are all good men and we can't say nothing against any of them.

Well, we got rained out on our singing Sunday evening. We intended to go to the Baker School House but it was too rainy, but there will be a singing at Pleasant Grove Church next Sunday morning at 9:00 o'clock sharp in the Christain Harmony books. Everybody is invited to come and help us sing the good old songs. The candidates are invited too. Sometime soon we are going to have an all day singing and then the candidates will be there. Mr. Editor, you come too.

I guess I had better not write any more for there are so many announcements untill this may not get in this week. Hope it will, so I will ring off for this time, hopeing the editor much success and the candidates too.

MORRIS FERTILIZERS

We have secured the agency for the celebrated Morris Fertilizers, and we heartily recommend them to the trade as being the most economical fertilizers on the market today. They are usually a little higher in price than other fertilizers, but farmers who have been using them say they are by far the best goods they can buy and that they yield much larger returns than other fertilizers.

We have all found that it doesn't pay to buy cheap fertilizers, so let us have your order for the genuine, old style packing house blood and tankage goods with the Steer's Head on it.

Some Facts About the Central Alabama Hospital Now at Clanton

An Institution that was designed and built to render a Definite Service to the People of Middle Alabama.

It is often said that necessity is the mother of invention; and in reality, necessity is also the mother of invention and other things besides. Necessity has likewise been the mother of progress, of development, of research, and a long list of things that could be mentioned with but little thought. The handmaid of necessity, the mother, is opportunity.

Opportunity, accentuated by a fertile field of usefulness, has brought to Clanton an institution which is destined to be of immense benefit to this section of Alabama, as well as the town of Clanton and Chilton County in particular.

The men who conceived the dream that has come true in the elegant hospital building recently constructed in Clanton, first saw the necessity and the opportunity for such a institution here. The territory within a radius of fifty miles of Clanton was surveyed carefully, to find that in this vast stretch of modern progressive Alabama there was not a single hospital to care for the great numbers of people who are constantly demanding the attention and the accommodation of such an institution. There were found seven counties which revole aroud Chilton with Calnton as the hub of Alabama, none of them possessing a hospital or infirmary of any kind.

The opportunity was grasped at once; the field was pronounced as a sufficient one by every authority to whom the subject was presented. It was determined to have a hospital in Clanton and we are proud to-day to point to a magnificent building as modern and up-to-date as can be found in the state, which represents the dream of its founders and promoters, a dream that has literally come true. The picture on this page shows the building as it looks today.

All the nebulous preliminaries to the organization of the definite hospital movement took concrete form one night along about last August, when a small group of Clanton business and professional men assembled in the office of Mr. Mallie White at the depot. We do not remember just who were there, but there was a good supply of enthusiasm in the little crowd. Steps were taken leading to the organization of a permanent hospital association. It was necessary to have many committees of one sort and another, as the thing was just in its infancy and all hands and the cook were needed to nurse it.

But one thing brought on another. Other meetings were held here and there, and by and by sufficient stock in the corporation was subscribed to bring on the permenent orgaization of the movement. The result was a meeting which mad a temporary organization with suggestions for officers; then a permanent organization and so forth and so on, until at last The Central Alabama Hospital, Inc. was a duly authorized business concern under the laws of the State, with the following officers:

Dr. V. J. Gragg, President; Dr. S. C. Wood of Thorsby, Vice-President; Dr. T. J Marcus, Secretary; W. M. Wyatt, Treasurer. The Board of Directors are Dr. N. S. Johnson, M. D. Foshee, M. A. Gore, and Dr. J. P. Crumpton.

Confronted now by the task of erecting a suitable hospital building, and by the matter of raising the necessary money with which to pay for same, further steps were taken by the organization to take care of these matters. A building committee was appointed from among the stockholders to have charge of the job of selecting and purchasing the lot upon which to build, and another committee was appointed to complete the selling of stock in the corporation. The building committee was composed of Charley Cox, Chairman; M. A. Gore, M. D. Foshee, M. L. White, and J. Q. Wade. Dr. Gragg and Dr. Marcus were entrusted with the duty of seeing all who subscribed for stock, and collecting their subscriptions.

The Building Committee selected the Whitfield property, facing Fifth Avenue between Tenth and Eleventh Streets, which was purchased. Preparations for the erection of the building were begun about last October. The committee for the sale of stock in the corporation set to work diligently, and the following persons were interested to the extent that they invested their money in the hospital:

G. C. Armstrong, Jno. D. Armstrong, Jesse Baker, W. T. Bean, E. W. Butler, C. B. Cox, J. P. Crumpton, P G. Carter, Sam C. Cox, J. L. Dupree, H. F. Downs, J. B. Downs, D. I. DeRamus, V. J. Elmore, R. J. Eiland, Felix Eiland, John Edwards, M. D. Foshee, G. L. Foshee, M. A. Gore, V. J. Gragg, F. A. Gulledge, Guy Higgins, Travis Headley, H. V. Honeycutt, Johnifer Headley, J. C. Jones, J. Tom Jones N. S. Johnson, Robt. Johnson, J. L. Johnson, C. Fenn Jones, W. A. Kemp, Tom Kemp, J. P. Lawrence, Maurice Lande, C. E. Lucas, T. J. Marcus, J. Watts Moore, G. O. McKee, J. Mell Martin, T. C. McSwain, J. M. Mahan, Eli J. Motes, E. H. Mims, R. B. McNeill, J. M. Nix, T. H. Neighbors, J. A. Nivens, W. L. Popwell, Walter Popwell, Jno. C. Page, G. D. Retherford, H. G. and Omar Reynolds, W. C. Roper, J. T. Rockett, M. E. Roy, J. W. Stanfield, H. S. Shaw, B. J. Sessions, M. L. White, W. M. and T. E. Wyatt, F. R. Woodyard, J. Q. Wade, Dr. S. C. Wood, C. Reese Mullins, Oscar W. Jones.

The selection for the location of the hospital is an ideal one. The grounds are ample and commodious, the size of the lot being 2½ acres. It touches both on Fourth and Fifth Avenues, and runs 315 feet along Fifth Avenue, facing north.

The Hospital Building.

The building is the work of Architect G. E. Plier of Clanton. Mr. Plier and Dr. Gragg visited all the hospitals in Birmingham, Montgomery, Selma, and New Orleans, searching out the latest and most improved arrangements, the best of which were incorporated by Mr. Plier in the design of the Central Alabama Hospital building. Mr. Plier was also employed by the building committee to have direct supervision of the construction work. The result is a building that is capable of accommodating thirty patients, and offering the very best and latest accommodations that are known to modern hospital operation. The structure must be seen to be fully appreciated. Many visitors to the building are wonderfully surprised to find that it is such a complete and adequate combination of all the good features that have been found to be necessary in a first class and up-to-date hospital. The building was arranged and designed to fill the needs of the field as surveyed by the promoters of the institution in the beginning. It is fully capable of serving its territory.

The building is built of gray pressed brick and concrete, having a basement and two stories. It is the intention of this article to give our readers as best we can a definite detailed outline of just what the hospital is and is capable of doing, and therefore we shall take up the building in detail, beginning at the ground floor and going to the top.

THE HOSPITAL BUILDING

The Ground Floor

The main driveway from the front on Fifth Avenue leads under a porte-cochere on the west side of the building. Entrance from the porte-cochere to the elevator on the ground floor gives immediate access to the upper sections of the building. The elevator has not yet been installed, but will be in due time. When the arrangement of the grounds is completed the driveway will be continued around to the south of the building, and out into Fourth Avenue. Thus conveyances bringing patients to the hospital will come in at the front, drive under the porte-cochere deposit the patient on the elevator, and continue on the driveway out into Fourth Avenue.

The ground floor is mainly devoted to colored patients. There are 3 well arranged private rooms, and two wards capable of taking care of six patients each. The rooms and wards are well lighted and ventilated. They are heated by ceiling radiators. There are adequate bath room and toilet facilities on this floor for the accommodation of the patients.

Here we wish to deviate long enough to express the thanks of the hospital management for the splendid work that has been done by the colored citizens in providing linen items for their department. The things which they gave to the hospital were of the very best, and they were not at all stingy with their donations. Their department is well provided.

The bath rooms and toilets on all the floors are directly ovet each other. This arrangement was made in order to minimize the cost of plumbing installation and equipment. Every unit in every bath room has an individual cut off so that each may be suspended for any couse, without interfering with any other unit. All the bath rooms are of the most modern sanitory arrangement, being finished with wainscoting of white cement that may be washed and kept clean.

There is a large storage room at the east end of the building on the ground floor, in which it is planned ultimately to install a laundry where all the washing for the hospital may be done.

There are built-in linen closets on all the floors of the building, arranged so as to be freely accessible to the wards and private rooms of patients.

The dark room for development of X-Ray pictures is situated on the ground floor just under the big concrete steps of the main front entrance. This room is being equipped as an X-Ray and microscopical laboratory.

The furnace for heating of the entire building is situated on the ground floor. All rooms in the building are heated by this system of hot water circulation through the radiators. This same heating system also provides hot water for the bath and wash rooms throughout the entire building. The furnace is equipped with automatic heating devices which prevent the heat from becoming too severe. Adjacent to the furnace room is the fuel room, to which coal may be delivered from outside the building.

While we are discussing the ground floor we as well mention the fire-fighting arrangement, which applies to all parts of the building as well as this particular floor. In the hall of each floor, there is a fifty-foot piece of two-inch hose, always ready for immediate use, and connected with the city water mains directly, thus permitting all the pressure of water to come instantly to these hose when turned on. This furnishes a practically absolute guarantee for the building against destructive fires. If fire breaks out on any one floor, the hose on that floor and the one on the floor next to it can be brought to play upon the flames. If a fire happens to occur on the second or middle floor, all three hose can be brought upon it, as each hose is fifty feet long so as to reach up or down the stairway to the next floor below or above as the case may be.

Second or Main Floor.

The second or main floor is approached by the two entrances from the grounds outside the building. The main entrance from the front on the north leads into the spacious hall way. The other entrance leads up a double flight of concrete steps on the east end of the building into a lobby or sun parlor which may be used for accommodation of convalescent patients or visitors. This lobby is pleasant and well lighted by a number of French windows on the north, east and south sides.

The office of the Hospital Superintendent is situated at the east end of the hall, and is adjacent to the private room of the superinendent. The furnishings for her private room were provided by Miss Annie Gardner, the Superintendent. The whole arrangement is evidence of a well-defined idea of what should constitute a properly appointed suite appropiate and convenient for the environment.

Across the hall from the Hospital office is the doctor's office. Here is a suitable arrangement which is at the disposal of all physicians who may bring patients to the hospital. A medical library and other requisites of a doctor's office are provided here.

On this floor are three private rooms for the accommodation of patients, one of which is the maternity room furnished by the Order of the Eastern Star. The furnishings are done in white enamel, and chief among the items provided for this room is a latest type of maternity hospital bed. There is a private bath adjacent to this room.

The kitchen and dining room are among the neatest and best arranged features of the building. They are situated at the west end of the hall. The kitchen has a built-in cabinet and pantry. The dining room is in the corner of the building. Furnishings for this room, an exquisite breakfast room suite, were given to the hospital by Miss Gardner, the Superintendent.

Chest of Silverware.

Prof. Alverson, the faculty and student body of our County High School recently presented to the hospital a chest containing thirty-two pieces of handsome silverware. The donors are to be commended for their judgment that promoted them in the selection of a gift that will give untold service, and that will be a joy forever.

There is an electric outlet in every room and hall, which makes possible the attachment of an electric iron, fan, heater or other device if desired.

The X-Ray room is immediately to the left of the main front entrance of the building. The equipment is a full outfit for the making of X-Ray pictures in all cases which demand it.

Electric Signal System.

In the main hospital office and also in the private room of the Superintendent there is an electric light signal system which shows the superintendent the exact room from which every call for a nurse is sent by a patient; also shows the time which elapses from the call by the patient until it is answered by a nurse. In this way the Superintendent is enabled to keep exact tab on the manner in which all the nurses attend to their duties in caring for their patients. This is one of the very latest ideas in hospital operation which was picked up by Mr. Plier somewhere in his searches for plans of hospital design and architecture. Every bed in the building has a push button, which is used by patients in calling for nurses.

The Third Floor.

On the third floor are three private rooms and two wards of four beds each. These are nicely arranged, and equipped as well and completly as can be found in any hospital. The wards are on the south side of the building, one having three large windows and the other has two.

At the east end of the building on the third floor is the sun parlor, the furnishings for which are being given by the Civic Improvement Association, an organization of Clanton ladies. The parlor has a northern, eastern and southern exposure, and is provided with fifteen French windows for ventilation. The screens are on the inside, so that the windows may be opened when desired to catch the breeze.

There is a large open front porch which extends outward on the north or main front of the building, over the large steps of the main entrance to the second floor.

The bath room on the third floor is equipped with a portable bath tub which may be filled in this bath room and carried to any room in the building by means of the elevator.

The operating rooms, of which there are two, are situated on the third floor at the southwest corner of the building. One operating room is provided for making dressings ings and minor operations, and has a cabinet for drugs, sundries, and other equipment.

The main operating room is in the extreme southwest corner of the building on the top floor. It is in direct connection with all parts of the building by means of the elevator. This room is the lightest one in the building, having four large windows on two sides, and a large sky light. The light is augmented by a finishing of white over all the walls and furnishings of the room. The floor is of light colored tiling, and the walls have a wainscoating of white cement.

Between the two operating rooms is the doctors wash room. This is equipped with a large surgeons sanitary wash basin which is operated by a foot valve attachment, thus making it possible for the operating surgeon to turn the water on and off with his feet, not having to touch his hands to anything while engaged in the operation.

Another great improvement in the arragement of the building is having the sterilizing room adjacent to and in immediate connection with the operating room. When instruments and other things necessary in an operation have been sterilized, they should not have to be carried out into open halls and exposed to dust and open air. Hence the close proyimity of the sterilizing room to the operating room in this case, to avoid this inconvenience.

The sterilizing room is equipped with a four battery electric sterilizing machine, for sterilizing water, instruments, linen, and any other thigs that are to be used in the operating room.

Out in the hallway and sun parlor of the third floor is the large rolling chair for use of patients who want to take a trip up and down the hall and out into the sunshine after beginning to get well. Dr. Gragg offered to ride us in this chair, but we told him we felt like that vehicle was provided for somebody else.

Miss Annie Hulett Gardner is Superintendent in charge of the hospital. She is a trained nurse of many years experience, having been in charge of some of the biggest infirmaries and hospitals in the State of Alabama. She takes great pride in the hospital here, and exercises the greatest care and caution to see that everything is carried on just as it should be, and that the operation of the hospital is a success in every way. Miss Gardner is at present assisted by Miss Inez Gandy.

One splendid feature we noted is that every outside window of the building is screened. The painting and finishing of the wood work throughout the building is very attractive, being done in a natural wood color.

Our Physicians and Surgeons.

Any recognized ethical physician or surgeon is extended the opportunity of bringing his patients to the hospital for treatment. When brought here patients will be taken in charge by nurses and attended to in whatever manner necessary, while the doctor may render the medical attention that is required, perform operations and have the use of all facilities offered by the hospital.

As we have often said before, this section of Alabama has as good doctors as can be found anywhere in the state. It is all a mistake to think that all the good doctors are in the cities. It is true that there are good doctors in the cities, but it is also true that all the doctors in the country are not sorry ones.

With this splendid hospital plant a our disposal, there is no doubt but that we can get as good attention in this hospital as can be had in any other.

Loyal Community Support.

The way the people of Clanton have stood behind this movement is indeed gratifying. It has required a considerable secrifice by those who have provided the necessary finances and they are to be commended for the way they have stuck to their task. The ladies of Clanton have responded nobly by showering the hospital with many very useful items of linen. The Eastern Star ladies, the Civic Club, and the Study Club, deserve many thanks for the part they have chosen to do in furnishing different parts of the building.

The Study Club have taken upon themselves the work of providing flowers for the lawn.

POOR ORIGINAL TORN

MAPLESVILLE

The weather for the last week or so has been so beautiful. The sun has been shining so warm and bright till all the trees are budding; our tiny seeds which we have planted are beginning to grow, and if the sun will just continue shinig warm and bright for a few days longer all the farmers around here will have their crops growing, as several of them have planted part of their crop and if the weather continues warm many more days the poplars and bays will be blooming and then as we pass we can hear the little bees humming all in the trees, and see the beautiful butterflies flying from flower to flower, and then we all feel like summer is here.

This has been another successful school week for us, as every week passes by we feel that we have accomplished more than we did the week before. Last week was test week here, and everyone has averaged a better grade than they did last month and we feel that we are accomplishing something in school this year, as our teachers have put forth every effort they possibly could to make our school a success and have made it successful. Our principal, Prof. H. A. Harris, is the one that aroused such great interest around here, in building a new school house and we hope that we can carry out our plans and be ready to begin building it soon, and we owe much credit to Prof. H. A. Harris, for he has been at the head all the time helping in every way.

TO INVESTIGATE TELEPHONE RATES

PUBLIC SERVICE COMMISSION TO INSPECT BOOKS AND ACCOUNTS.

LICENSE IHCREASE IS LARGE

Much Guano Being Sold—Farm Work Rushed—Electric Lights For Thorsby—Gadsden to Have New Park.

Montgomery.—With the intention of determining whether or not charges now being made for telephone service by the Southern Bell Telephone and Telelgraph company are excessive the Alabama Public Service Commission issued an order directing a general inspection of the books and an investigation of accounts of the company. The order provides that engineers and auditors of the Public Service Commission shall have the authority to make the inquiries in Alabama, or at the principal office of the company. Officials of the company were directed to throw open their books and records to the representatives of the commission and all cities and towns of Alabama were invited to make suggestions regarding the investigations with the statement that such suggestions will be considered in the general investigation.

DECREASE IS SHOWN IN ANIMAL VALUES

Montgomery—Animals to the value of $72,497,000 were on hand on Alabama farms on Jan. 1, 1922, as compared with a value estimated at $90,767,000 on the same date in 1921, and $128,943,000 on Jan. 1, 1920. This somewhat startling decrease in values over a period of four years as set out in a summary prepared by F. W. Gist, state and federal agricultural statistician, appearing in the Alabama Markets Journal for February and March, does not in all cases represent a decrease in numbers.

For instance it is shown that 130,000 horses on hand in 1921, were valued at only $9,880,000. The value of 6,027,000 chickens in 1922, is placed at $3,122,000 whereas 5,910,000 chickens in 1921 were valued at $4,314,000. The number and value of other livestock on Alabama farms on Jan. 1, 1922, is given as follows: Mules, 299,000, value $28,206,000; milch cows, 506,000, value $14,674,000; other cattle, 515,000, value $5,550,000; brood sows, 220,000, value $2,641,000; other hogs, 1,087,000, value $8,600,000; sheep 83,000, value $224,000.

REDUCTIONS IN RATES OBTAINED AT GADSDEN.

Gadsden.—One of the results of Gadsden's recent fight against discriminatory freight rates has been a reduction on lumber rates from 2 1-3 to 5 cents per 100 pounds on lumber from this city and vicinity to all Central West, Eastern Ohio and Western Pennsylvania points. The reduction is announced by the Southern Railway and associated lines. This is but one of the numerous reductions that have been made and are to be made by all of the roads operating in this territory. Several cuts have been made in commodities other than lumber. Others will come slowly but surely, it is announced.

Walked In Sleep; Fell In Well.

Jasper—Mrs Belle Whitehead, who fell in a well with her baby in her arms at Bexar, Marion County, is slightly improved, according to her father, W. H. McLain, of Oakman, Route 1. Mr. McLain stated that Mr. Whitehead was awakened by the cries of his wife and found upon investigation that she and her baby had fallen in the well, which contained water several feet deep. She had walked out in her sleep, waking when she struck the water. She went under, baby in arms, but called for help when she came to the surface. With the aid of the well bucket rope Mr. Whitehead rescued his wife, who was then in a critical condition. The baby died from the accident.

Supporting The Plan.

Montgomery—The first ten days of work in connection with the cotton pool marketing plan in progress in Alabama, under the auspices of the Alabama Farm Bureau Federation, has brought to light the fact that the bankers and business men of the state are eager and anxious to support the plan as soon as it is understood. This is shown by the daily and almost hourly reports now reaching the Farm Bureau offices located here.

Farm Work Is Rushed.

Russellville—Since the heavy rains of last week a great deal of farm work has been done here. Everybody is busy preparing for a large crop this season, a number of farmers have said that they would not plaint any cotton this year.

Roanoke—If the selling of guano is an indication of a big cotton crop the farmers of Randolph are going against the advice of experts this year. Guano is a big seller here.

Mr. Will Burnett of Billingsley was among the visitors to The Union-Banner office while he was in Clanton Monday.

T. A. MADDOX RUNNING FOR COMMISSIONER

The announcement of Mr. T. A. Maddox is made this week as a candidate for County Commissioner from the second district, subject to the action of the Republican primary. Mr. Maddox will make the race for the place which has been held by Mr. D. H. Gentry for the past four years.

Mr. Maddox has never been in public life before, but he is a man who has a good record and will make a splendid impression on the people of the county when he gets out amongst them. He is a splendid citizen, and his private life in the past would indicate that he would make a good Commissioner if he should be entrusted with the duties of the office by the people of the county.

The fast L. & N. Passenger Train No. 1, stopped in Clanton Wednesday for the first time in many months. And for all we know it may be the last time it will do so in many more months. It did not stop Wednesday as a result of the efforts that have been made by Clanton citizens to have it stop regularly here. The cause of the stop was a freight car jumping the track down about Coopers.

Elbert Bean presented the Editor with a bunch of fine Yellow Globe Turnips Wednesday morning. Mr. Bean says he has plenty of these turnips to sell anybody who wants them, or has plenty of land to sell on which they grow.

REPORTS OF STATE EXAMINERS ON CHILTON COUNTY AFFAIRS.

(Continued from Page 1)

Clanton, Ala., March 17th, 1922.

Hon. Thos. E. Kilby,
Governor of Alabama,
Montgomery, Ala.

Dear Sir:—In obedience to instructions received from the Executive Office thru Hon. Chas. E. McCall, Chief Examiner of accounts, State of Alabama, and in compliance with same, I hereby certify that I have examined the books, accounts and vouchers of Hon. L. H. Reynolds, Judge of Probate, Chilton County, from December 1st, 1919, to January 31, 1922, and beg to submit the following report:

I found all the reports in this office to be neat, and correctly kept, it being quite a noticeable fact, the very few errors that have been made in the posting of the books. I had two or three corrections to make, of a minor nature, and after this was done, I found that in his settlements with the State, the Judge has overpaid on Mortgage Tax $15.29, and owes the State 20 cents on Motor Vehicle License, leaving a balance of $15.09 due Judge Reynolds.

In his settlements with the county, I found the Judge had overpaid on Privilege License, 10 cents and Mortgage Tax $7.62, making a total of $7.72 due Judge Reynolds.

All remittances to the State and County were made promptly each month in compliance with the law, and I have no suggestion to make that will help in the conduct of this office.

In the settlements with Incorporated Towns for Motor Vehicle License due them, all have been paid, but I found that Judge Reynolds was holding $77.50 due the Town of Maplesville because there is no regularly elected Mayor or Clerk to receipt him for the money.

The Judge is pursuing the proper course in this matter, the town is incorporated, but has no officials, and the Judge in issuing Privilege License does so on that basis.

I further certify that a copy of this report has been mailed to Hon. B. K. McMorris, Judge of the 4th Judicial Circuit, Wetumpka, Ala.

Respectfully submitted,
FRANK PEABODY,
Asst. Examiner of Accounts.

Sworn to and subscribed before me this 17th day of March, 1922.

REPORTS ON COMMISSIONERS COURT

The following is the report of State Examiner L. A. Easterly, made to the Governor of Alabama on Jan. 27, 1920, covering the affairs of the Commissioners Court from Dec. 1, 1917, to December 31, 1919:

Montgomery, Ala., Jan. 27, 1920.

Hon. Thos. E. Kilby,
Governor of Alabama,
Montgomery, Alabama.

Dear Sir:—In obedience to instructions received from Hon. Chas. E. McCall, Chief Examiner of accounts, State of Alabama, I have examined the books, accounts and vouchers of the Commissioners Court of Chilton County from Demember 1st, 1917, to December 31st, 1919.

I find that the Commissioners Court of Chilton County has adhered strictly to the rules laid down in section 147 of the Code as to the payment or allowance of claims against the County as all claims allowed during this period covered by this examination were itemized and sworn to in accordance with the provisions of that section and I found that no claims had been passed and allowed which were illegal but all were found to be proper charges against the county for materials furnished the county or for work done for the County.

I find the indebtedness of Chilton Couty to be as follows as shown by the register of claims of Chilton County:

Bonds, issued June 1, 1917, due June 1st, 1947, bearing interest at the rate of 5% per annum	$190,000.00
Road Warrants issued previous to 1917 bearing interest at the rate of 6% per annum	31,000.00
Warrants issued to rebuild Court House and for Tick Eradication, 1919	40,948.74
Total	$261,948.74

The assessment of real and personal property for Chilton County for the year 1919 totals $6,004,913, which would permit a debt limit for the County of $210,171.95, which being deducted from the indebtedness of the County, December, 31, 1919, would show an excess indebtedness of $51,177.79, but on January 1st, 1920, after the Tax Collector made his December payments to the County Treasurer, there was in the County Treasury the sum of $34,132.39, and there still remains on the Tax Collectors Books more than $9,000.00 of uncollected taxes which will give the County when collected and paid in $43,132.39, in cash and pay its expense for the year 1920 and apply to the payment of such of the warrants issued to build the Courthouse and to eradicate ticks as will fall due during the latter part of the year 1920.

The Courthouse of Chitlon County was destroyed by fire on August 31, 1918 and a law passed by the Legislature of Alabama in 1919 requiring that all Counties in the State engage in tick eradication and the necessity for the erection of a new Court House to protect the records of the County and the mandatory requirements of the law for the eradication of the cattle ticks left them, the members of the Commissioners Court with no alternative but that of incurring further indebtedness of the County.

But it would seem that the economy now being practiced by the Court in the expenditure of money and the anticipations of an increase in the assessmet of property values in Chilton County, that the Commissioners have before them the prospect of being within their debt limit as provided by Section 224 of the Constitution of the State of Alabama, adopted in 1901, within another year at least.

Respectfully submitted,
L. A. EASTERLY,
Examiner.

Sworn to and subscribed before me this the 28th day of January, 1920.
M. D. FOSHEE,
Clerk Circuit Court.

The following is the report of State Examiner Frank Peabody, of affairs of the Commissioners Court, from the time of Mr. Easterly's report as above, to Jan. 31, 1922:

Clanton, Ala., March 17th, 1922.

Hon. Thos. E. Kilby,
Governor of Alabama,
Montgomery, Ala.

Dear Sir:—In obedience to instructions received from the Executive Office, thru Hon. Chas. E. McCall, Chief Examiner of Accounts, State of Alabama, and in compliance with same, I hereby certify that I have examined the claims and Minutes of the Commissioners Court of Chilton County and beg to submit the following reports:

The present Board is composed of the following:

Hon. T. J. Dorminey,
Hon. D. H. Gentry,
Hon. C. T. Walker,
Hon. J. W. Littlejohn,
Hon. L. H. Reynolds, Judge of Probate.

I find that all claims against the County are passed on by the Board and these claims have been carefully checked and found in order.

Two years ago the County was above the debt limit allowed by law, but by practicing economy, adhering strictly to the laws, conducting the affairs in business like manner, have greatly reduced this indebtedness and are now within the limit, as the financial report will show, and by following the present methods it will not be many years before the County is out of debt.

A road law passed in 1920 by the County, requires all male citizens between the ages of 18 and 45 to work 10 days on the roads. This 10 days work is required and no provision is made for a cash substitution. This law brought a great many protests in the past but I understand that it is now favored by the majority of the citizens and it has been the cause of the County having roads which are far above the average and they are kept in good condition with small expenditure of the funds of the County.

The county is now spending very little money on Tick Eradication, the quarantine being lifted, only one man is now employed in this work being an inspector on the Shelby County Line, and is paid the sum of $50.00 for this work.

I further certify that a copy of this report has been mailed to Hon. B. K. McMorris, Judge of the 4th Judicial District, Wetumpka, Ala.

Respectfully submitted,
FRANK PEABODY,
Asst. Examiner of Accounts.

Sworn to and subscribed before me this 17th day of March, 1922.

The total indebtedness of the county is	$227,905,02
Cash on hand in Bank	20,468.55
Debts less the cash on hand	$207,436.47

The above reports are copies of the official records, as made and filed by the State Examiner, who were sent to Chilton County by Governor Kilby to check up the affairs of the office of the Judge of Probate and the Commissioners Court.

They are published as a matter of information to the people of the county, in order that they may know just what has been done by the men who have been conductig the affairs of the county.

The attention of every citizen of Chilton County is invited to these reports.

Respectfully,
L. H. REYNOLDS,
Probate Judge.

THE UNION-BANNER

VOLUME IX. CLANTON, ALABAMA, THURSDAY, APRIL 6, 1922. NUMBER 50.

TO THE REPUBLICAN VOTERS OF CHILTON

READ THIS—IT IS NOT A LETTER FROM A CANDIDATE FOR OFFICE

Editor Union-Banner:

Will you please allow me space in your valued paper to say a few words to the Republicans of this County, and it will do lots of the Democrats good if they will listen too.

Listen here folks, if you have not already closely examined the report of the State Examiner on the affairs of the County, then make it your business to hustle up last week's issue of The Union-Banner and don't you let anything stop you until you have gone entirely over these reports. All of you skeptical folks who have been grumbling about this that and the other as to where the county's money has been going can very readily find out, and also see where some more of it has got to go. You will remember that the county has been paying about $10,000 a year interest on road debts made by the previous administration and then on top of that the Court House burned and had to be rebuilt also the State forced us to Dip our old cows when we had no ticks, so there was another $40,948.74 debt heaped upon the shoulders of the County, and where, oh where, was the officials to get the money to pay these debts? We were already far beyond our legal indebtedness and therefore could not issue warrants or bonds to cover this, so our officials had to look to other sources for money. We should all be very thankful to the individuals who were kind enough to help the administration out of this difficulty.

Well, we have the new Court House, (and as said by Dr. Frank Willis Barnett, "Not the best in the State, but the most conveinently arranged; you can find what you want in it, without having to walk yourself to death hunting for it.) We dipped the cows, got the quarantine lifted and after all of this expense, after a period of five years begining at a time when the County was about 230,000 in debt, add this other expense incurred during the present administration and to day we find that owing to the wise management of the financial affairs of our County by the present set of officers that we have weathered the storm of adversities and are well within the debt limit as provided in the State laws governing same, with the assurance of the State Examiner that if the present system is followed for a few more years that the County will be entirely out of debt and be running ahead of the hounds so to speak.

With the added possibility of an increase in the revenue of the County during the next year as the Alabama Power Company I understand will begin to pay taxes into this county, don't you people think that the wise thing to do would be not to swap horses in mid-stream, and especially so when old Dobbin has worked so faithfully for you in the past? I think that the present administration deserves the undevided praise and admiration, and incidently the support of the Republican party of the County in the future. The men who are there now thouroughly understand the conditions under which they have to labor and the means with which they have to combat these conditions, and would it not be folly to some extent to change shifts just at the present, to have a new crew come in who knew nothing of the workings of the present body, or anything of their plans for the future, and tangle them all up so that it would take another six years like the past to untangle them again.

The past administration of the Republican party, as all Republican administrations are, is something that we can get on the house tops and proclaim to the world with pride and without fear of someone truthfully contradicting us.

I have no political axe to grind. I have nothing against any of the men in the race for the various offices to which they aspire, all of them are good friends of mine, and I would be glad to see the whole bunch elected, but that cannot be, and as I said at the begining, I beileve that in view of the service that the present administration has rendered the county and people in general that they are in a degree entitled to the places again. Loyal Republicans let this be one time that you let no personal prejudices cloud your poiltical horizon, and be careful that you steer clear of all political bosses and rings, and vote your honest opinion. In conclusion let me admonish you to take deep thought over the things that I have set forth in this article and after careful study of the situation you find yourself in the same channel of thought, then put your shouider to the wheel and push for the good of the Republican party and the people in general, as you have never pushed before. Lets roll up the biggest majority that this county has ever seen.

Now lets everybody to the wheel, push pull and holler and roll 'em up for Republicanism.

Yours sincerely,
GUY H. DESHAZO.

JUDGE S. M. ADAMS ANNOUNCES FOR STATE SENATE

Hon. S. M. Adams, ex-Probate Judge of Chilton County, and for many years a prominent Baptist Minister, came out at the last hour Saturday, as a candidate for the State Senate, wiring his announcement to the Secretary of State.

Judge Adams was in Clanton all day Saturday conferring with his friends in regard to his announcement, and a great deal of encouragement was given him. He is opposed in the Democratic primary by Hon. Lawrence F. Gerald of Clanton and Mr. R. E. Fitts of Stanton.

Judge Adams has been a prominent figure in the public life, not only of Chilton County, but the state of Alabama as well, for the past half a century He has behind him a clean, honest and upright record of eternal and faithful devotion to those things which embody the best interests of the people of the county, state and nation. His friends in all parties, and if he succeeds in being elected to the State Senate he will represent the interests of the people of the District regardless of party.

"P-WORD" PUZZLE JUDGES SELECTED

BE SURE TO GET INTO THE FUN AND GIVE THEM A RUN FOR THEIR MONEY.

Prof. W. T. Bean, former County Superintendent of Education, and Prof. J. L. Wilson, one of the prominent school teachers of this county, have already agreed to serve on the Board of Judges in The Union-Banner's P-Word puzzle contest, which closes on next Monday, April the 10th. The third member of the Board of Judges will be secured between now and the close of the contest.

All answers received and so as to be postmarked by that date will be considered. The judges will meet sometime after that date to consider the answers and decide on the winners of the prizes. Their's will probably be no mean chore, but their standing as men of integrity and sound judgment will mean a fair and impartial decision. The decision of the judges will be final.

We have been asked by contestants who were in a little too big a hurry in sending in their list of words, whether they would be allowed to send in a second list. This we have allowed. In fact we invite them to do so. We want everyone to have a full and fair chance. Also if they desire to qualify for a bigger prize, they of course can do so.

In looking over the answers which have been received so far, we find many contestants who have not followed the rules carefully. For instance one party includes in his list "photo" and "photo-mount." in the first place, if the word "photo" is used it cannot be used again as part of a compound word, and in the second place "photo-mount" is not in the dictionary. In the case of "pocket-knife," that can be used even tho "pocket" is used as they are both complete words.

Reports are that everybody is having a jolly good time with the puzzle. The puzzleman expects to get gray hairs by the end of the week. Be sure to get into the game. You may win the prize.

Many are using verbs and adjectives. Only nouns, actual objects seen on the picture count. Remember that. Don't get scared out by reports of others having bigger lists than you. The chances are that their lists are padded with words that don't count.

Dept. of Archives and History, Thos. M. Owen, Director.

MRS. HESTER IS CANDIDATE FOR SCHOOL BOARD

Mrs. Beverly Hester of Clanton is announced as a candidate for member of the Board of Education of Chilton County on the Democratic ticket.

Burton Higgins of Maplesville was a visitor to his parents, Mr .and Mrs. Guy Higgins in Clanton Sunday.

Material for the new building to be erected by Dr. Arthur Johnson on his property across the street from the new building of the Clanton Produce Co., is now being assembled. We suppose the work will begin right away.

Much Damage By Tornado.

Cullman—Several persons are reported killed and a number injured in a tornado which wiped out Crane Hill, 15 miles southwest of Cullman last week. All connections by telephone were down and late reports were meager in regard to the killed and injured. Doctors and nurses were sent to the village from Cullman. In Cullman it is estimated $60,000 damage has been done, the tornado striking the business section of West Cullman and laying waste a strip a mile long and 50 yards wide,

Coal Mines In Operation.

Jasper—Reports given out by some of the mine superintendents indicate that the mining business is beginning to improve. Mr. Jackson states that the Brilliant Coal Company, which operates the Calumet Mine, has "railroad contracts" sufficient to keep the mines running. Walter Killingsworth of Carbon Hill states that the big mines at Carbon Hill are running more regularly now and getting out more coal weekly than any time during the past two years.

New Dairy Stock Arrives.

Montgomery—Eighty head of fine dairy cattle which will stock the new dairy at Kilby State Prison have been received at Kilby State Camp. Immediately upon their removal from the East, where they were purchased by Warden General Feagin, some three or four weeks ago, the cattle were installed in the modern dairy quarters. Milk and butter produced by the dairy herd will be used at the new state prison, to supply all demands, and the remainder is to be disposed of on the market at the most advantageous price.

To Improve Mail Service.

"Postal Improvement" week will be observed, beginning May 1, according to an order of Hubert Works, postmaster general. The committee named to make plans for the campaign will devise a scheme whereby the personnel of the Post-office Department will be urged to take a greater interest in the postal service, and the general public will be encouraged to lend a greater co-operation with postal authorities and employes in bringing about a more perfect mail service throughout the country.

Big Poultry Shipment Planned.

Roanoke—Randolph County is to ship a number of carloads of poultry to Eastern markets this year, if plans now on foot are accomplished. The first carload will leave Wadley in the next few days and several carloads will be gathered from time to time as the trade demands. The farmers are taking to this new plan for raising money and indications point to a success for the undertaking.

Mr. S. A. Johnson of Montgomery was the guest of Mr. and Mrs. L. C. Reynolds Thursday.

HARD FOUGHT GAME

Chilton Hi and Thorsby Institute pulled of the closest and cleanest base ball game of the season last Friday afternoon.

Thorsby took the head in the start and it looked for awhile like they had the situation by the tail and a down hill pull, but the Chilton boys crossed their fingers and double-crossed the jinx and nosed out winners in the last half of the 12th inning.

Riggins was in the box for Chilton Hi until the 4th frame and Thorsby was treating themselves to a batting feast but Coach Heard came to the relief of Riggins and put Julius Burnett on the firing line instead. His benders put Thorsby out of joint and before the 9th went dead on its last hit, Red Wagoner at bat, piled out a three bagger on third strike and tied the score.

The game then went up to the last half of the 12th with neither side eating any cake, when burnett put out a two bagger and Wagoner scored and all was over except the shouting.

Following is the box score:

CLANTON ROUTE 7

Editor:

I will come again, as I heard no kicks about the last visit, which I made to the Union-Banner, and hope if any one has anything to say about this visit that they will keep it to themselves.

Well, it seems that farming is a slow go now, but hope it will pick up later as the sun is shining, but listen, is the people shining? No, they are away back in the dark. Does this please God? No, it surely does not please Him at all, so why should He please the people so well because He loves us all. So now why can't we please our lord? Because we had rather please the Devil. Well, that will do to live by, but it won't do to die by.

Well, we are informed that Mr. Walter Culp and Miss Lillie Belle Arant tied the knot with their hands that they can't untie with their teeth Sunday, so we wish them well.

Well, I guess every body has by this time decided who they are going to vote for; so now just vote for the best man. Well I guess I will close for this time. Will see you again.

FIGHTING MALARIA WITH TOP MINNOWS

TEST BEING MADE AT MITCHELL DAM OF GENERAL GORGAS' DISCOVERY TO STAMP OUT DISEASE.

During recent discussions of the great service rendered his country, and especially the South, by the late Gen. William C. Gorgas, a native of Alabama, his work looking to ridding the country of the menace of malaria seems to have been generally overlooked. And yet there is now going on in the very center of Alabama the first effort put forth on a scale worth while to prove the practicability of the great sanitarian's discoveries. This test is under way at Mitchell Dam on the Coosa River and is being sponsored by the Alabama Power Company at its own expense, but under general direction of federal and state public health officials. The experiment is focusing the eyes of sanitary experts of the entire country on Alabama, for, if malaria can be banished, as was yellow fever, there will be no serious menace left to health conditions in the South that are not common in other sections. Then, too, coming as it does while the Gorgas memorial campaign is under way, more weight is given to the argument.

How Discovery Made.

It was while giving attention to the work of cleaning up Cuba and the Panama Canal Zone that Gen. Gorgas recognized the importance and possibilities of ridding these countries of malaria. In cooperation with Senior Sanitary Engineer LePrince, of the U. S. Public Health Bureau, he ascertained through tests that the only carrier of malaria is a little mosquito, known to science as the Anopheles, and that this mosquito cannot transmit the disease unless he has himself first bitten some person affected with malaria.

How to exterminate the Anopheles was then the problem that confronted the two great sanitarians. First they discovered that his breeding places were the more or less stagnant ponds that are common to the swampy lands. In these ponds the Anopheles deposits its larvae. The next and most important discovery was that the little top-sucking minnow, known scientifically as "Gambusia," was passionately fond of the larvae of the Anopheles and would devour all that came within his reach.

Propagates Rapidly.

The Gambusia is an innocent looking little sucker, notwithstanding the name which some scientist inflicted upon him, but there is one thing to his eternal credit—he propagates more rapidly than any other known live object with the single excpetion of the housefly, possibly The Anopheles does not spawn, as do other fishes, but the offspring of one of these little fish total an average of 450 per annum.

Gen. Gorgas and Mr. LePrince conducted some experiments in Louisiana and other sections of the South sufficient to convince them that malaria could be wiped out by placing sufficient Gambusia in the breeding places of the Anopheles. It was these experiments that led the Alabama Power Company to make the test in a practical way at Mitchell Dam. Officials of this company got in touch with the Bureau of Fisheries at Washington and one of its experts, Mr. Hildebrand, was sent to co-operate with the company in making a survey of the reservoir of Mitchell Da on the Coosa River with a view to stocking that reservoir with a sufficient number of Gambusia to destro all the larvae that Anopheles may deposit therein.

Reservoir Covers 7,000 Acres.

This reservoir will cover an area of 7,000 acres when the dam has been completed, and Mr. Hildebrand figured that it would require 30,000,000 of the little policemen of the Gambusia type to patrol the 200 miles of shore line that will exist when the work is given its finishing touches. Then the expert got down to some real scientific figuring. He figured that if the company would bring into being 76 artificial ponds, filled with Coosa River water, and located at designated points over the territory to be covered by the reservoir, and that if he placed 160 females and 40 males of Gambusia in each of these ponds during the Fall of 1921 and Spring of 1922 that by the Spring of 1923 there would be 30,000,000 of Gambusia ready to swim out gleefully into the immense lake and have one patrolman for each six inches of short line for the entire 200 miles. The job was a big one, but the Alabama Power Company directed its engineering force to get busy, and now about 70 of the indicated 75 ponds have been completed, and into each 160 females and 40 males of Gambusia fresh from government hatcheries have been released.

Feeding the Fish.

While Gambusia delight in sucking Anopheles larvae from the top of the water, they do not find sufficient of this larvae in the ponds constructed by the engineers to make them thrive and consequently they are fed thrice each week on a liberal allowance of bread crumbs and finely chopped beef. On this diet they are growing fine, but when they reach full size few of them measure more than one and a half inches in length and not larger than a small child's finger.

Officials of the Alabama company are watching the progress of this experiment with great interest.

Judge Honeycutt of Thorsby spent Monday on business in Clanton.

CLANTON BAPTIST CHURCH

A very enjoyable and profitable day was spent at this church last Sunday, when a united Sunday School Rally of all the three churches of Clanton was held. We appreciate very much their presence and hearty co-operation. Mr. E. W. Halpenny, Superintendent of the Alabama State Sunday School work, gave two splendid lectures to fine congregations. "Ye have compassed this mountain long enough, go northward" was the text chosen for the morning discourse. The small amount of emphasis that has been placed upon the importance of the Sunday School as compared to the preaching services of the church was forcefully pointed out, and the great importance of the Sunday School, not merely for the children, but also for the adults was emphasised. The time has come, said the speaker, when we should realize "that we have compassed this mountain long enough." It is now time to launch out into greater things, and go somewhere in this great teaching service of the church. The subject for the afternoon, "The need and value of an adequate training for leadership in the work of the Sunday School," was very helpful and interesting to those present. The greatness and importance of the task, the need of efficiency for effective teaching as presented by the speaker gave abundant evidence that he had been a teacher and knew well the problems of the Suday School Teacher. We have no doubt that these two meetings have accomplished much in stimulating greater interest and enthusiasm in this branch of church work in the city and community of Clanton.

Mr. Halpenny is loaned to the State by the International Sunday School Association and is a man of wide experience and training, both in Canada and America. We were fortunate indeed to have him with us.

A very fair congregation was present at the night service that seemed to follow with close attention the sermon on "The Application of Christianity by Contact and not by Isolation." A fine male quartette was rendered as a very attractive part of the service. We hope to hear this several times more in the near future.

Services will be held next Sunday as usual. Morning at 11, a. m., and evening at 7:45, p. m. The Barracca Class of young men, under the musical leadership of Miss Roberta Curry, will furnish the music. This will be an interesting occasion, and should be encouraged by a large congregation. There was a fine Sunday School of 190 present last Sunday. Lets try to make it 200 next Sunday.

We cordially invite everybody to the services of this church and appreciate the large number of visitors at the evening services.

P. G. CARTER, Pastor.

POOR ORIGINAL

THORSBY SECTION

(S. E. Norton, Manager.)

Mrs. Nancy H. Neal, wife of Wm. C. Neal, died Monday noon, April the third, age 80 years, at their home in Thorsby. Mr. and Mrs. Neal came to Thorsby from Indiana in 1903. They celebrated their golden wedding Nov. 14, 1921. Mrs. Neal was the oldest of the members of the Congregational Church at Thorsby. At this writing the annòuncement of the time and place of the funeral awaits the arrival of relatives. Mrs. Neal was a woman of strong Christian character, and in spite of her years and much suffering, was young in spirit, always brave and looking on the bright side; a lovable character. Mr. Neal has the deep sympathy of many warm friends in the community.

Mr. A. E. Reagan met with an accident Monday evening in falling from a porch. His right arm was brokenjust below the elbow.

Quite a number of Thorsby citizens were privileged to witness a contest exhibition of physical exercises set to music on the phonoghaph records, by the students of Thorsby Institute on Monday afternoon, on the campus. The performance was most interesting. The girls in white "middy" dresses, first went through the drill, followed by the boys in the same drill after which six were selected from each contingent, contesting for the honor of superiority in their work. The favorable decision was won by the girls who were the more correct in the details of the exercises. The drill was under the supervision of Miss Katherine Perry for the girls, and Mr. Owen Sappington for the boys. The judges were composed of members of the Thorsby Red Cross Committee, who had presented the set of phonograph records used, to the Institute last January. Many expressions of the benefits received from the regular use of these exercises, were heard from students, parents and teachers.

On last Thursday evening, Miss Beatrice Johnson was a lovely hostess to a number of young people, complimenting Mrs. Karlson (formerly Blanche Ekblad) of Rockford, Ill., and Mr. Raymond Carlson, of Chicago, Ill. Early in the evening delicious punch was served, after which games were enjoyed, and later in the evening delightful refreshments were served to the following guests: Misses Agnes and Ruth Gerald, Anna and Inga Erdahl, Pearl Carlson, Esther Johnson, Naemi Turnquist, Mrs. H. V. Thomas, Messrs Martin Nelson, W. M. Parnell, H. V. Thomsen, Clyde Meade, Walter Johnson, and the honor guests, Mrs. Karlson and Raymond Carlson.

Mr. and Mrs. Bosworth of Birmingham were in Thorsby Wednesday, attending the funeral of Mrs.. W. C. Neal.

The Thorsby baseball team, accompanied by a truck load of "rooters," attended the Chilton County Athletic Meet at Clanton last Friday. In a match game with the Chilton County High School Team, the score stood six to six at the close of the game. Three more innings were required to give Clanton the beat by one score.

The annual outing and picnic of Thorsby Institute was held on Tuesday, April 4th, on grounds a mile north of Thorsby. The weather was ideal and the day was much enjoyed by students and friends, especially the bountiful dinner. They remained for supper, which consisted in what was left from dinner, hot coffee and "weenies," and marshmallows roasted over an open fire. The party returned by moonlight, tired but happy.

The Helen Keller Literary Society will give their bi-weekly program in Bates Hall Friday, April 7th, at 3:00 o'clock, P. M., to which friends are cordially invited.

ALABAMA NEWS

Farmers Organize Hay Marketing.

Montgomery — Final plans were made for formation of a farm bureau hay marketing pool, to consist of at least 10,000 tons in Alabama, to be sold on a plan identical to that proposed by the farm bureau for the marketing of cotton at a meeting in the office of the Alabama Farm Bureau Federation, attended by some of the leading hay growers of Alabama. A hay marketing organization committee was selected, with Col. James M. Williams, of Montgomery, as chairman and the other members of the committee being J. F. Compton, Allenville; Charles Johnson, Uniontown; Dr. Sam Clark, Dancw; Dr. T. H. G. Cook, Cochran; J. J. Thornton, Boligee; W. C. Harrison, Gallion; J. R. ESuter, Massillon; S. S. Cough, Uniontown, and D. F. Walker, Allenville. To facilitate the formation of the pool, the hay growing section of Alabama was divided into seven districts, with Pickens and Sumter Counties forming District No. 1, Greene County No. 2, Perry County No. 3, Hale County No. 4, Marengo County No. 5, Dallas and Wilcox Counties No. 6, and Montgomery, Macon, Bullock and Lowndes Counties No. 7. The association proposes to handle only alfalfa and Johnson grass hay.

Claim Tax Too High.

Birmingham—Tax assessments of the Republic Iron and Steel Company for 1920 and 1921 have been appealed from the tax adjustors to the board of revenue. The company's property for 1920 was valued at $4,422,460 and for 1921 at $4,224,387. These assessments were recently made by the State Tax Commission sitting here to review the assesments of corporations whose taxes for 1920 and 1921 had been held up because of litigation over the right of the tax adjustors to examine the books of corporations. Following the Supreme Court decision giving them the right, all cases have been settled except that of the Republic Iron and Steel Company. The taxes of the company amounted to $126,000 for 1920 and $128,000 for 1921. The company claims the valuation of its property is too high.

Illiteracy Figures Compiled.

Birmingham—Figures compiled by the Federal Census Bureau, showing that in Alabama there are 278,082 illiterates 10 years old or more than 10, is evidence that the illiteracy problem is yet a long way from final solution in this state, according to educators. This estimate, contained in the April issue of the Alabama School Journal, places the percentage of illiteracy in all counties taken as a whole at 16.1. Jefferson, largest of the counties, leads with 26,063; Dallas is second with 13,512, while Montgomery County is given third place with 11,435. In the city of Montgomery alone, it is stated, ther are 4,554 illiterates.. 4,502 in the city of Mobile and 12,200 in Birmingham.

Plan Get-Together Selling Day.

Goodwater—Goodwater will have a co-operative sales day on April 17. This promises to be a great success. The merchants of the town are going to give the farmers the highest market price for all their produce in exchange for merchandise. It will be mutually beneficial for farmers and merchants. There will be a number of attractions for this day and a large crowd is expected. The Goodwater Commercial Club is behind the movement and every effort will be made to bring the town and surrounding country into a closer relation for the common good. Goodwater merchants have always sold their goods at less prices than surrounding towns.

School Nearing Completion.

Tuscaloosa—The Northport School building on Academy Hill is nearing completion and is one of the most attractive schools in the county. The school is a graded and high school and is up to date in every respect. It is built of red brick and stucco, will accommodate about 400 pupils and when completed will cost $25,000.

Planting Large Corn Crops.

Piedmont—Indications now are strong for heavy planting in this section. The order of the day among the farmers is corn planting. A drive in the county reveals a great amount of preparations and quite a lot of planting already. The indications also are that the icreage to cotton will be increased over last year's crop.

Road Through Piedmont.

Piedmont—The announcement that the War Department is interested in the construction of a permanent highway from Camp McClellan to the Georgia line has been received in Piedmont with much enthusiasm. The Piedmont Chamber of Commerce has been active for several months on the project and with the cooperation of Anniston and Jacksonville, succeeded in having this road placed on the map of designated federal and state aid roads.

LETTER FROM MRS. A. H. SEELEY OF PITTSFIELD, MASS.

Editor Union-Banner:

It occurred to me some time ago that I would like to write a few lines to The Union-Banner. I am the daughter of Commissioner C. T. Walker of Lawley.

Massachusetts, as you know, is the leading State of New England, and I am living in Berkshire County, the Western end of that State.

Most everyone has read of the Berkshires, but I will give you some of my own personal views.

Pittsfield, my home, is the starting point of the most beautiful drives of Berkshire. Going south through Lenox Stockbridge you pass the large summer estate of J. P. Morgan, Rockefeller, Walker and several others which are open to the public, and you see their beautiful stretches of lawns with the fountains and pools, their Italian gardens with the magnificent beds of flowers, many of which are imported, and statuary of pure white marble.

Then there is Stockbridge mountain which holds the "Great stone face," and Sheffield plains, the scene of the Revolutionary War times, even some of the old homes of that time are still in use.

Then there is the Balancing Rock, which would probably weigh 25 tons, sitting on a large flat rock. At one time the touch of the hand would rock it, but due to the severe weather here it has been worn so that now it sets solid on its foundation.

Mt. Greylock Summit is 28 miles from Pittsfield, yet on a clear day its 40 foot cover can be seen. The view from the summit is wonderful, you can see into four states, viewing Mt. Tom, Bennington Monument, Catskill mountains and the Hudson River, as well as lakes and towns near by. The sunrise and sunset from there is gorgeous, ofte times you are above the clouds.

There is the Mohawk Trail and Jacobs Ladder, both beautiful drives. The Mohawk Trail starts in north Adams which is at one end of the famous Hoosac Tunnel. Jacobs Ladder is a fine trip over mountains and valleys.

We have some real cold weather and two lakes are our means of ice, which is cut and stored in winter for summer. It is often 32 inches and more thick.

In the summer these lakes are used as summer resorts, covered with boats, canoes and launches. Great sport in winter fishing and skating. Fishing is done through the ice and everybody has very good luck as the fish are hungry.

I have many more interesting things I could write but I will not take up any more of your space.

With best wishes for the Banner and to my friends of Chilton County.

MRS. A. H. SEELEY.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since . . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."

For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments.

If you suffer as these women did, take Cardui. It may help you, too.

Mrs. L. writes:

"I am convinced there is a difference in baking powder. I have been using any old powder for ten years but my cakes are 100 per cent better since I bought a can of Royal Baking Powder. I recommend it to any housewife who thinks she knows all about cake making with any kind of powder."

MORRIS FERTILIZERS

We have secured the agency for the celebrated Morris Fertilizers, and we heartily recommend them to the trade as being the most economical fertilizers on the market today. They are usually a little higher in price than other fertilizers, but farmers who have been using them say they are by far the best goods they can buy and that they yield much larger returns than other fertilizers.

We have all found that it doesn't pay to buy cheap fertilizers, so let us have your order for the genuine, old style packing house blood and tankage goods with the Steer's Head on it.

FALAKTO

Dear Editor:

Health of this community is very good. Farmers are very busy getting ready to plant.

Spring is with us in spite of the lateness of Easter. And I wonder if everybody has noticed all or some of the beauties of Spring. As I see the country children rambling over the hills gathering loads of pretty flowers how I wish that every child lover of Spring and beauty could leave the narrow city streets and come out into space. God's hills of beauty and love, where there are flowers of more kinds and colors than we have space to mention. Birds are building and singing; bees are hummig; trees are budding and blooming; hills where everything speaks of God, peace and Spring.

Mr. and Mrs. J. D. Wells of Boyles spent Friday night and Saturday with their parents, Mr. and Mrs. R. L. Wells.

Mr. and Mrs. W. J. Benett of Birmingham spent Sunday with the latters mother, Mrs. Hayes.

Quite a crowd of friends and relatives of Clanton spent Sunday with Mr. and Mrs. W. E. Parrish.

And I must not forget to say that while we hope every one of our candidates is just as good a man as the other, everybody has their choice, and it seems that Mr. Harris, Mr. Nix and Mr. Mims will carry this part of the county, and of course we hope they are elected, and let us ask every person that doesn't know these men to ask their friend, and every lady that is undecided to ask her husband. We feel assured that these men are good and well qualified men.

Thankig the editor for this space.

SHOULTS

Spring is here. Everything is in its beauty. The trees have their tender green leaves, the hillsides are covered with green grass and flowers. On the branches we find the beautiful honey suckle and ferns. The birds are singing songs of joy. The cool breezes are refreshing. All these things makes us feel happy. We do not appreciate the things of nature as much as we should. We should be proud to know that we can live in a palce where nature affords such beautiful things.

Rev. J. D. Deason filled his regular appointment Saturday afternoon and Suday. A large crowd was present at both services. Two interesting sermons were enjoyed.

BILLINGSLEY AND LITTLEJOHN OFFER FOR MEMBERS OF BOARD OF EDUCATION

Messrs Wm. J. Billingsley and John E. Littlejohn have announced themselves as candidates for re-election as members of the Board of Education of Chilton County in the coming Primary to be held on August the 8th. In accepting this office and discharging the duties incident thereto, these two estimable gentlemen, as well as the other two splendid men who are on the present Board, have virtually placed themselves on the altar of sacrifice for the educational welfare of our county. It has indeed been a sacrifice to properly discharge the duties of the office, but the sacrifice has been made willingly and cheerfully by these men. The educational system of our county has been well handled by the present Board. We believe the people of the county will show their appreciation of their services by electing Messrs Billingsley and Littlejohn again in November. They will certainly receive the unanimous nomination of the Republican party in the primary.

REYNOLDS HAS DECIDED TO MAKE RACE FOR PROBATE JUDGE

In discussing his probable entry into the race for re-election to the office of Judge of Probate with the editor of The Union-Banner Tuesday morning, Judge L. H. Reynolds said:

"I have definitely decided that I will get into the Republican Primary as a candidate for the nomination and re-election to the office of Probate Judge of Chilton County. Many people, having insisted that the financial interests of the county demand my continuance in the office for another term. I have consented to place myself at the disposal of the people of the county again, for the voters to say whether or not my services are wanted any longer.

"The County Executive Committee of the Republican party is called to meet here next Saturday. I will not make a formal announcement before the committee meets. But you say say to the people that my announcement will be before them next week."

WILL CULP IS NOT DEPUTY SHERIFF ANY MORE

Mr. Will G. Culp asks us to state to the people of the county that he is no longer connected with the office of Sheriff. There seem to be some who do not know that he has resigned that position and continue to present matters to him that are intended for the attention of Sheriff's force. Of course Mr. Culp doesn't make this statement in the way of shirking any opportunity to help the people in any way possible. But he is now busy with other duties and has not the time to hunt up the officers and tell them of things that are reported to him.

Mr. J. R. Willis, a prominent Republican of Coosa County, was a visitor to The Union-Banner office Wednesday. Mr. Willis is an old friend of the Editor of The Banner. We met him several years ago while we were engaged in the newspaper business at Rockford. Mr. Willis is optimistic over the chances of the Republicans to win in Coosa County again this year. He says George Stewart, the present probate Judge, is a sure winner for re-election.

Engineer J. W. A. Burton, son of Policeman Burton of Clanton, was injured in a wreck of the train which he was pulling Tuesday at Pratt City. It is said that the escape of Mr. Burton with only slight injuries was miraculous, as he never left his cab when the smash up occurred. Mr. Burton here received a telegram from his son Tuesday night stating that he was not seriously hurt.

Mr. W. A. Calloway of Verbena was a visitor to the Clanton Baptist Church Sunday, attending the Sunday School Rally.

G. D. Retherford went up to the singing at Minooka last Sunday.

ARE THE AVERAGE YIELDS OF CHILTON COUNTY PROFITABLE?

By David D. Long, Soil Specialist
Soil Improvement Committee
Atlanta, Ga.

In this time of stress when all farmers are trying to work out of a depression, it is essential that farming as a business should be looked upon from a business basis.

It is necessary to diversify, for diversification always has been a paying proposition even before the boll weevil came and especially so in relation to the production of home supplies.

Diversification, however, is not the whole solution unless the yields of the crops are profitable. It cannot be expected that a farm operator can just diversify and expect to work out of this serious situation. It requires more than that. It requires that the yields of all crops shall be sufficiently high to pay costs of production and leave a profit. Low yields. Low yields are very often the cause of complaint that prices do not pay costs of production.

Cost surveys as conducted by the United States Department of Agriculture show that with increased yields the costs of production per bushel, or pound of a product decreases and that the profits per acre increase. It is necessary therefore to look well to your yields to determine whether or not they are rofitable.

It is a generally accepted fact that the yield is the most influential factor in relation to profits secured from farming operations. It is equally well known by every farmer that a certain yield is necessary to pay the cost of production. The relationship of yield to profit as determined by the United States Deartment of Agriculture for southern farmers offers a safe guide as to how the increase of yields decrease the cost of production; increase the profit per acre; and as to what yields are necessary for profit.

The records given below are taken from the Farm Management Survey of Brooks County, Georgia as published by the United States Department of Agriculture. The agriculture of this county has the reputation of being well diversified. The records were made in 1914 and in as much as conditions of 1922 are much the same as in 1914 the information as to profits offers a fair approximation of what yields are necessary for profit under present conditions.

Profit in this survey are net profits as all items, such as interest, land rent, labor, seed, fertilizer, etc. are included in the production costs.

Cotton.

From this survey it was found that a yield under 200 pounds of lint cotton cost 11.6 cents a pound and gave a loss of $1.63 per acre; from 200 to 300 pounds lint the cost was 9.1 cents a pound and the profit per acre $5.29; from 300 to 400 pounds lint the cost was 7.8 cents a pound and the profit $7.96 per acre; for 400 pounds and over the cost decreased to 7.5 cents a pound, while the profit per acre increased to $18.19. The average costs per acre for all farm was $34.51. The census returns of 1920 show that the average yield of Chilton County Alabama was 135 pounds of lint.

Quoting from the above publication "The data presented also indicate that under conditions found, with corn at an average price of 75c per bushel, it is necessary to secure a yield above 10 bushels per acre of corn planted in rows alternating with peanuts or about 18 bushels of corn planted "solid" if a profit is to be shown when figured by cost determination methods."

The average corn yield of Chilton County 1919 was 12.8 bushels according to the census of 1920. A comparison with the above figures shows at a glance whether this average yield is profitable.

Oats.

Again quoting from this survey, "Oats must yield 15 bushels to show a profit at an average price of approximately 50 cents; but when the yield slightly exceeds 25 bushels, the cost is reduced to 36 cents per bushel. The latter yields a good margin of profit."

The average yield of oats for Chilton County as reported by the census of 1920 is 12.5 bushels per acre.

Peanuts.

The average cost of producing peanuts as determined by this survey was $36.61 per acre. The average yield was 37 bushels per acre with a net cost of 99 cents per bushel.

The average yield of Chilton County for 1919 as reported by F. W. Gist, Alabama Agriculture Statistician was 11.1 bushels. Assuming that the average cost of $36.61 to be the average cost under Chilton County conditions, the cost of production per bushel would be $3.30.

By increasing the yield, the cost per bushel is automatically decreased as in other crops.

Sweet Potatoes

The average yield of sweet potatoes for Chilton County in 1919 as shown by the census report of 1920 was 90 bushels per acre. Of all crops this yield appears to be most profitable. The analysis of cost of production shows that the cost of production per bushel rapidly decreases as the yield increased. The profits also increased with increased yields. Under 1914 conditions an average yield of 70 bushels per acre, cost per bushel to produce 36 cents and gave a profit of $14.18 per acre. With a yield of 100 bushels per acre the cost was reduced to 28 cents per bushel and the profit increased to $27.27 per acre. But when the average yield was 162 bushels, the cost per bushel was 22 cents and the profit per acre increased to $65.01.

Legume Hay

The cost of producing cowpea hay also decreases as the yields increase, while the profits per acre increase.

A yield of 680 pounds of hay cost at the rate of $26.88 a ton to produce, leaving a loss per acre of $1.74. A yield of 1120 pounds cost $17.20 a ton and gave a small profit of 68 cents an acre. A yield of 1,640 pounds per acre cost $12.03 a ton and produced a profit of $5.42 an acre. However, when the wield increased to over a ton, 2120 pounds, the cost per ton decreased to $11.23 and the profit per acre increased to $8.62.

The average yield of annual legumes cut for hay in Chilton County as reported by the census of 1920 was 1600 pounds per acre.

From the above figures it appears urgent that the acreage yield of all crops be increased to a profitable point. The farmer well knows what it takes to make higher yields per acre. He knows the value of good seed, building up the soil with organic matter, the intelligent use of fertilizers, cultivation, etc. and now is a good time to practice these measures to put the farm on a profitable yield basis.

Some reader has in his mind the question of markets. All marketing associations well managed will certainly help in the matter of distribution and prices. However, no marketing association will be able to turn high costs per bushel or pound on account of low acreage yields into a prifit. Marketing is no substitute for low acerage yields and high costs, nor is it a substitute for good seed, good fertilizers or good farming.

But above all, consider carefully if your average yields are profitable! If not, plan to make them profitable. If they are, plan to keep them profitable or to increase the profits per acre.

1. Contest closes April 10, 1922, and all answers must be mailed on or before that day.

2. Anyone living in or outside of Chilton County may compete in this contest. Employees of this paper and anyone else connected with The Union-Banner however are barred from participating.

3. Answers should be written on only one side of the paper. Write your name and address plainly at the head of your lists. If you write of anything else use a separate sheet of paper.

4. Only English words found in the dictionary can be used. Obsolete words will not be counted, however.

5. A word used once cannot be used again as part of a compound word; and only compound words as given in the dictionary as such will be allowed.

6. The same object can be named but once. This does not preclude however the naming of an object which is a part of another object.

7. The word may be given in the singular or plural form but if the one is used the other cannot be.

8. The first prize will be awarded to the contestant whose answer has the largest and nearest correct list of words of objects (found in the picture) beginning with the letter "P". 11. In arriving at this decision the judges will allow one point for each correct word. A margin of 15 incorrect words will be granted to each contestant to allow for a possible legitimate difference of opinion; but each incorrect word above that number will count one against.

12. If two contestants tie for first place the first and second prizes will be divided between the two pro rata according to their class. The next highest will receive the third prize, etc. If three tie for first place, the first, second and third prizes will be divided between the three in same manner, etc.

NEGRO JAILED FOR ROBBING STORE OF G. C. ARMSTRONG

Policeman Croell Kicker, of Birmingham brought a negro named Cecil Perdue, to Clanton last Friday morning and turned him over to the Chilto County authorities. The negro was wanted here on a charge of burglary and grand larceny in connection wth the breakng into of the store of G. C. Armstrong some time last year.

Policeman Kicker said the negro had evidently been around Birmingham all the while, but the officers had not been able to put their fingers on him until Thursday. In investigatng another robbery case in Birmingham, this negro was connected up with it when a quantity of goods were found in his possession. While he was being held at the police office, it was found by questioning that he was the negro, Cecil Perdue, who was wanted on the case here.

Mr. Kicker expressed the opinion that this negro is a regular box car thief, and has been engaged for probably a long time in the work of stealing and robbing and disposing of his loot for money. He is already under indictment of a former Grand Jury of this county. He will probably be tried during the present term of Circuit Court.

LETTER FROM MR. M. O. CULP OF BIRMINGHAM

Mr. Editor:

I will write a few things about this big city. It seems that business is improving to some extent. I have never seen so much building going on before. You can see big buildings every way you look going up, and the plants are doing good business now to what they were some time ago. But hold on a minute, you all sure have got us "skint" on candidates. I got hold of The Union-Banner Saturday and I never saw the like. I will bet a dime apt as not some of those fellows don't get elected. They are all good men, but my, if they all are to convass the county there won't be any polls made in Chilton this time. I was intending to run for something down there but I have decided that I will just run up here where I will have more room. But as I have a very good job with the T. C. I. Co., I will just just let them fellows have it this time. Tell Uncle Dock Wells to announce for Chaplain for this drove of candidates, for they will need one in a bunch like that.

Well, Mr. Editor, if you have space left after you get the candidates all down, put this in, and if you don't have space for them and it too, just leave it out, and I am pretty sure you will have to lay it aside or enlarge your paper.

Wishing the good people of Chilton good luck, I remain,

M. O. CULP.

You must keep well if you wish to be happy. When constipated take one or two of Chamberlain's Tablets immediately after supper. They cause a gentle movement of the bowels.

PLEASANT GROVE

Organists for the afternoon were Nora Franklin, Mrs. Eddie Childress, ad Miss Mae Maddox.

We wish to thank the visitors for their help and want them to come again. Our society meets the first and third Sunday afternoons, and we invite all who will to come and be with us.

CANE CREEK

Dear Editor:

Will you please allow me a small space in your valuable paper to say a few words in regard to this community?

Health around this place is very good, except colds as usual. Everyone seems to be pleased with the beautiul weather.

Farming is progressing nicely since spring began to come and the weather got pretty.

It makes us all feel good to see the woods, gardens and fields looking so green.

We all met at the Church Sunday and made ready for our Sunday School. Will have the literature there next Sunday. By the help of God we expect to keep it going. I think everyone is going to do their part. Come on people, and let's show the backsliders we can have a good Sunday school for the Lord. Everybody come and join us. We welcome you.

Mr. Ruben Lowe's school was out at this place Tuesday. The "kids" all seem to be sorry.

We can congratulate Mr. Lowe for the good work he has done at this palce. Everyone seems to like him. We hope to have him next term.

Next Sunday is preaching day at this place. We invite everybody to come and hear the good sermon that Brother Parrish will preach. He will tell us lots of good things. So everybody come and hear it. The Sunday-School classes be there at 10 o'clock, if possible. Preaching service will be at 11 o'clock.

"A BANNER READER."

S. M. Edwards of Beat 9, was among the visitors to Clanton Monday.

Preventive Medicine.

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.

THE UNION-BANNER

VOLUME IX. CLANTON, ALABAMA, THURSDAY, APRIL 13, 1922. NUMBER 51.

REYNOLDS OFFERS HIS SERVICES AGAIN

WILL LEAVE IT TO THE PEOPLE TO SAY WHETHER THEY WANT HIM OR ANOTHER

At the request of many of the Republicans of Chilton County, I have decided to run for Judge of Probate; this request was made by them on account of the financial condition of the county, they thinking that with the past twelve years experience I have had in office that I could be of help to the tax payers.

The financial condition of the county is gradually improving and as two State Examiners, who examined my books and accounts said, if the present management is continued that our county will soon be out of debt.

Following is an exact quotatioin of the report from December 1st, 1917, to December 31st, 1919, which was made by L. A. Easterly, State Examiner:

"The Courthouse of Chilton county was destroyed by fire on August 31, 1918, and a law was passed by the Legislature in 1919 requiring all the counties in the State to engage in tick eradication, and the necessity for the erection of a new Courthouse to protect the records of the County, and the mandatory requirements of the law for eradication of the cattle ticke left them, the members of the Commissioners Court, with no alternative but that of incurring further indebtedness of the county.

"But it would seem that the economy now being practiced by the Court in the expenditure of money and the anticipations of an incrase in the assessment of property values in Chilton County, that the Commissioners have before them the prospect of being within their debt limit as provided by Section 224 of the Constitution of the State of Alabama, adopted in 1901, within another year at least."

Major Frank Peabody, State Examiner, who examined my books and accounts from December 1st, 1919, to January 31st, 1922, reported to Governor Kilby the following:

"Two years ago the County was above the debt limit allowed by law, and by practicing economy adhering strictly to the laws, conducting the affairs in a business like manner, have greatly reduced this indebtedness and are within the limit, as the financial report will show, and by following the present methods it will not be many years before the County is out of debt."

Mr. Easterly and Major Peabody are expert examiners and are both Democrats and as I am a Repubilcan, I am sure that I was entitled to all they said in compliment to my official acts.

I have done the best I could for the people of this County; I have let all my personal business go and have given my entire time to looking after the welfare of the County. Many times it has seemed as if the bills of the County could not be met but in some way every Warrant has been paid, the County has had a good credit, and when a Warrant was given, the owner did not have to run after some Script buyer and discount his Warrant, but he could go to the Treasurer and get spot cash and full face value.

When I took charge of the Probate Office five years ago there were outstanding Warrants to the amount of about $218,000.00; accounts that had not been passed on to the amount of seven or eight thousand dollars and the Fine and Forfeiture Fund was over $7,500.00 behind, making a total of over $230,000.00 that the County owed. We have built a Courthouse that cost over $70,000.00 and only had $14,000.00 insurance to apply on this. We have dipped your cattle which cost about $40,000.00. On the 15th of this month we owed $227,-905.02 and had cash on hand to the amount of $20,468.55, which leaves us owing only $207,436.41. You can see that we have spent $100,000.00 in building a Courthouse and dipping the cattle and have paid $50,000.00 interest on the debt which was created by the former administration and have reduced the original debt about $25,000.00, and as Mr. Peabody says, if the same economy is practiced, the County will be out of debt in a few years.

In practicing economy we have many enemies; those whose bills were reduced are kicking; the officers who were dispensed with are dissatisfied and some candidates who were defeated are knocking me. It seems to be the policy of the opposition in this county to inform every defeated candidate that I defeated him, and many of them get sore at me because they were not nominated. I have never gone into a combination to help nominate any candidate, neither am I going into one this time.

Some parties are taking a great interest in selecting the nominees for the Republicans, and for the last few years no one could tell how they voted.

I have full confidence in the wisdom of the Republicans in this County and I believe they are fully qualified to pick out their officers. I am only going to run for Judge of Probate and it will be my policy, as it has been, not to mention my opponents, for I am not running on the short comings of anyone, but will run on the record I have made in the office; and after the voters have carefully considered all the facts in the case, if they think some other person is better qualified for Judge of Probate and think it will be better for the tax payers to elect some one else, and that it will be better for some other person to lead the party fight, their decision will be satisfactory to me and I will abide by it as I have always done. Since my first vote I have always accepted the verdict of my party and abided by it without a murmur.

For over thirty years I have helped the party in every way that I could. It has never beer too hot nor too cold for me to go, and many times I would be very busy when you called me, but I have always responded. I

A CANDIDATE FOR REPRESENTATIVE IN THE LEGISLATURE FROM CHILTON COUNTY

In response to the solicitation of many of the members of the Republican Executive Committee of Chilton County, and of other leading Republicans, I have made up my mind to offer my services to the people of Chilton County as their Representative in the next Legislature of Alabama. My candidacy is hereby announced, and the Republicans may say in the primary of August the 8th, whether they desire me or somebody else to be their candidate.

A bit of sacrifice is involved on the part of whoever is the county's Representative in the Legislature, but at the same time, the Republican party of Chilton County must have a candidate for the place, and whoever is the Republican nominee will no doubt be elected to fill the office.

I have consented to make the race realizing that if I should be nominated and elected, I will be called upon to make this sacrifice. But for me a sacrifice for the interests of the people of Chilton County and the Republican party is not a burden, but a pelasure. My life has been devoted to serving the interests of the people of my county through the medium of my newspaper connections. If the people think that I can take care of their interests in the Legislature, I am at your service. However, if the choice of the people falls upon someone else, I feel that I will only be the better off, personally, by virture of the sacrifice being placed upon the shoulders of another instead of myself.

In all things I am for the best interests of the people of Chilton County, and anything that I may be able to do at home or abroad will be done with great pleasure.

Respectfully,
W. M. WYATT.

MR. BEAN'S LETTER ON PROBATE RACE

SOME POLICIES OUTLINED REGARDING MANAGEMENT OF OFFICE

To the Republican Voters of Chilton County:

I have announced my candidacy for the office of Judge of Probate of Chilton County subject to the action of the Republican party of Chilton County. I hope to be able to see every Republican voter in the county before the primary to be held on August 8th, but I am now taking this means of letting the people know what I stand for and the methods I shall pursue should I be fortunate enough to be elected to the office to which I now aspire. In writing this letter, I do not deem it necessary to touch on any public question except those coming in direct touch with the office of Judge of Probate.

As an introductory, I wish to say that my record for my business experience since reaching man-hood has been as follows: For nine years I was engaged in teaching in the public schools of Chilton County and in farming. I taught as principal of one school for five years. I served as County Superintendent of Education of this county for six years, and since retiring from that office I have had three year's successful business experience in the general merchandising business and in farming.

During the time I was County Superintendent of Education I served the people to the very best of my ability in every capacity that confronted me. I managed the financial affairs of the schools as economically as was consistent with the interest of education, and I expended with the aid of the county board of education approximately from $25,000 to $45,000 each year I was in that office and the record of my work stands open to-day to speak for itself as to whether the money was economically or extravagantly expended. My ability or my inability to economically expend large sums of money has been clearly demonstrated, and for the voters to place the responsibilities of this office on me will in no wise be an experiment. I am glad to say that no state examiner ever found one penny's error in the hundreds of thousands of dollars that passed through my hands. I am now asking you to investigate my record for economy and efficiency; justice and courtesy; ability and accommodations during my business career and then make your verdict accordingly, and I assure you that I shall be satisfied with your decision.

The upbuilding and the maintaining of the public roads and bridges of the county is one of the biggest questions before the tax payers of the county today. I am fully aware that the amount of money for general improvement is limited after the interest on the present indebtedness is paid and the current expenses are met, but with the amount of taxes that are now paid into the county treasury I believe that the county's indebtedness can be decreased largely each year and the roads and other interests of the county can be kept in a good condition or better than they are now in and some improvement gradually done, and if the Alabama Power Company begins paying taxes next year as it is supposed to do, the present indebtedness can be paid within the next six years and much improvement done also. My idea of expending a good portion of what money that may be available for road work should be done in the following way: There is a great number of roads throughout the county that are in very good condition throughout the year with only a few places on each one that becomes impassable some time almost every year. Now with a few dollars worth of work done on these impassable places at the proper time and in the proper way will render these roads in such condition that will enable traffic to be carried on at all times, and I believe that this work can be done very economical at the leisure time of the farmers by employing farm labor and farm teams. This will greatly improve the roads and at the same time will help the farmers who want to take advantage of this work and it will leave the money in the county.

Not having served in the capacity of Judge of Probate, it is impossible for me to lay out in detail every course I would pursue if elected, but I will assure every voter that if I am elected I will exert myself to the utmost of my ability to help the county commissioners to hold a sufficient amount of money in the county treasury at all times to pay cash for each and every bill the county might owe so that when you are given a county warrant you can get your money at once instead of having to wait for months or discount it for about half as was the condition a few years ago. And I again say that with the amount of taxes that we now pay that the county can be kept on a cash basis at all times except when emergencies may arise.

I wish to say further that should I be elected to the office which I am now seeking, it shall ever be my policy in so far as it is practical to ask the people to express their wishes on all vital questons in which they are interested and then I shall be governed accordingly just as I allowed the people to have a voice in the management of their school affairs when I was superintendent of education. You will recall that while I was serving as superintendent of education that there was a law passed giving the superintendent the authority to appoint or nominate all school trustees and teachers, but in every instant I asked the people to select trustees and teachers of their own choice. I believe yet that I did the right thing when I allowed the people to rule, and I wish to state again that in all matters I shall endeavor to heed the wishes of the people and it shall be my ambition to give an administration in the interest of the common people.

Before I close I want to say that if I am elected to this important office, I will assure the tax payers of the county that I will give them an economical, straight forward business like administration, and I assure you that I will help execute the laws to the best of my ability without fear or favor to any one, but will give justice and a square deal to every one.

Now I want to insist that you carefully investigate my life's record from a moral, political, official, and economical standpoint, and if you find that my record has been such as to merit your endorsement, I most earnestly solicit your vote and influence, but if you find that my record has been such as to lead you to believe that I can not successfully handle the affairs of the office of Judge of Probate, then I think it your duty to vote for some other person who can successfully manage the office, for the interest of the county is above that of any candidate.

Very respectfully,
W. T. BEAN.

REPUBLICAN PRIMARY ELECTION DATE SET FOR AUGUST THE 8TH

The Republican Executive Committee of Chilton County, in session here last Saturday, officially designated Tuesday, August the 8th as the day upon which the Republican Primary election will be held. This is the date which is suggested by the election laws of Alabama, and also the date upon which the Democratic primary will be held. There had been some talk of the Republicans holding an earlier primary, but this movement did not gain sufficient strength as to demand the attention of the committee.

Squire John S. Dennis, a veteran Republican citizen of Beat 11, was here last Saturday attending the meeting of the Republican Executive Committee.

THE LEADER STARTED OFF WITH A BIG RUSH LAST SATURDAY

Mr. Maurice Lande, Manager of The Leader, Clanton's new Ready-to-Wear and Dry Goods Store, says he is well pleased with the start he has made in his new business venture. Last Saturday was the beginning of his opening day sale, and the business done on that day was in every way stisfactory.

Mr. Lande is a very popular business man. He has been doing business here for the past year, and has met with signal success.

Mr. and Mrs. Charley Walker of Shoults, and daughter, Mrs. Shoults, were visitors to The Union-Banner office last Saturday. Mr. Walker was here to attend the Republican Executive Committee meeting.

John D. Rockefeller once said: "The first essential to building a foundation for business success, is the establishment of credit."

John ought to know. He has established a pretty fair credit, himself. A man's credit need not necessarily be backed by millions. He may be poor and still have credit, for credit is influenced by what a man really is; by what he does; how he uses his money, talents, time; by his family, church, social and banking relations. An account at our bank will help, too.

(Continued From Page 1.)

have been at practically every meeting the Republican Party has had, and most of the time I would be in the "firing line."

I was elected Judge of Probate in 1906, served six years the very best I could, left the County's affairs in good condition, was defeated in 1910 by 48 votes, was re-elected in 1916 by a majority of 535 votes and will have served you six years more when my term is out.

I have always wanted to see the country roads built up, but during both my administrations there has been no money to expend. A prominent Democrat said before I was elected the last time that I would not have a "d—— thing to do but to pay debts," and it has almost been true.

The person who is elected the next Judge of Probate will have a better chance, for the debts are getting in better condition and the Alabama Power Company is expected to commence paying taxes next year. The Federal and State Governments are expected to take the Highway off our hands in a short time, and this will relieve us of an enormous expense. The person who has control of the County affairs then should be able to make some show. But you know the policy of the Democrats is to spend money and to create debts. They see prospects now of having more money to spend, so we may expect them to make a vigorous fight to get control of the county.

There have been a few self-appointed agents going over thte county for the last few years, telling the voters what should and should not be done; I haven't any of these, neither will I have any. Some are telling the Republicans that we should nominate a man for Judge of Probate whom the Democrats would not fight. If the Democrats are to pick our nominees, then why not let them nominate the man? If there is no issue between us, there is no use of having any political party.

I ask the votes to think this matter over for themselves; look to the interest of your party and county. You ought to forget my interest or the interest of any other candidate, for everybody cannot be Judge of Probate. Your County's interest and your Party's interest are of more importance to you than the interest of any individual. I can live without the office; I do not ask for it on account of the salary alone, for when the County Court salary was reduced from $1,200 per year to $300, and I had to pay $25.00 per year for Bond and since the recording has been only about half what it used to be, it reduces the salary more than half.

I will say that I have done the very best I could to administer the laws that came before me. I have not let politics nor friendship interfere with my official duty. I have convicted some of my very best friends and have released some of my worst enemies. My public record has been an open book. Every dollar that has been paid out of the Treasury up to January 1st, 1922, has been published, and I would be glad if it were possible for every tax payer to be present at the Commissioners Courts and see every bill passed.

I believe as the women qualify that they should have the same chance as men to fill the offices. I especially believe that they should serve on the School Board for we know the success of the churches and schools almost depends on the women, and I believe that the laws should be amended so as to give the women equal rights with men.

I want to call your attention to one item before I close: If you will take the County Court record at the close of the last Democratic Administration, you will find the Fine and Forfeiture Fund $7,500.00 in debt. This debt has now been paid and an additional $5,000.00 transferred to the road fund, and we now have over $1900.00 in the Fine and Forfeiture Fund. (If you will take this item alone and compare the two administrations you will see that I have saved more in the management of the County Court than you have paid me in the last five years, or more than you will pay me for the six years.)

In contending for the rights of the people I have made some enemies, but if this makes me unpopular, I cannot help it, for I have always defended my party, regardless of what some people thought. I have always come out in the open and have never sneaked around and talked in a whisper, for I believe that all public matters should be made public and if there is anything the public is interested in, then let them all know about it.

I do not expect to worry the voters about my campaign this year. I fee like you all know me; you know my policy and how I try the cases. I have one promise to make you: If I am elected I will do the best I can to serve you for the best interest of all the people. I will try to continue to economize and save all the money I can for you. If I am not convinced that the defendants who are tried before me are guilty, I will discharge them. On the other hand, if I believe they are guilty, I will convict them and assess such a fine or hard labor as I think is right.

I have said that I did not intend to run for the office of Judge of Probate, and until recently I had not considered running again; but at the solicitation of leading Republicans from every part of this County, I have decided to enter the race, thinking that with the experience I have had that I can be of benefit to the tax payers; however, this is a matter to be left with the people.

I notice that the Union-Banner and Chilton County News have both come out for a respectable campaign and say that they will conduct a campaign upon the principles of each party respectively.

I am sure that the people of this County appreciate these statements from the papers, and they should be carried out to the letter, for after the election we will have to live together and do business with each other as we have in the past.

I want to thank those who have expressed their confidence in me by asking me to run for Judge of Probate and I will appreciate the vote and influence of every voter who thinks I am the proper person for the office.

Respectfully,
L. H. REYNOLDS.

NEWS OF INTEREST FROM THE CENTRAL ALABAMA HOSPITAL

Mr. Herschel Lynch, a young Methodist minister, from Verbena is in the Hospital, rapidly recovering from an operation for appendicitis which was performed the first of the week.

W. R. Traywick, a young man who is employed by the Alabama Power Co., is in the hospital for treatment. He will be out in a short time.

Miss Annie Gardner, Superintendent in charge says that the Hospital is getting along fine, and everything points to a successful future for the institution.

The Union-Banner is indeed thankful to Mrs. H. L. Ratliff of Maplesville, Route 2, for the club of twelve subscribers which she sent us during the subscription contest which closed Monday. She secured a total of twelve subscriptions, which is the largest club we have received.

ACKNOWLEDGMENT, BUT NO CASH

France has repiled to the Hughes note asking payment of the costs of maintaining the American army on the Rhine. The claim of the United States is acknowledged, the only question being as to whether the allies or Germany should be asked for reimbursement. That query is easily answered. Germany, of course, is responsible for the amount under the terms of the armistice, the Versailles treaty, and the Berlin treaty, but the fact is that the reparations commission has taken charge of every mark the Germans are able to pay on the various war indemnities, and it is to that commission, therefore, that the claim of the United States should be addressed. The situation is perfectly plain, and it is up to the countries represented on the reparations commission to acknowledge it.

CLEANING OUT THE UNFIT

Washington, April 11.—As a further step in the reorganization of the government departments, President Harding has ordered sweeping changes in the Bureau of Engraving and Printing. The chief of the bureau and many of his division heads have been dismissed "for the good of the service," and changes have been made in practically every branch of the office. The Bureau of Engraving and Printing is one of the most important in the Federal organization. It now employs about 6,100 people, and during the war the number of employees was about 8,500. Every bond, revenue and postage stamp, and piece of paper money is engraved and printed at the Bureau, as well as a quantity of miscellaneous work of the same nature. It is of the utmost importance that the men in charge should be of the highest integrity and efficiency, and Mr. Harding's action will achieve that end.

Editor Union-Baner:

Please give me space in your paper to announce to the public that we, by the request of the Salem Church, will take up the annual May Singing that has been held there for 22 years on the fourth Sunday in May. It will be here this May at its regular time, under the same rules that it was at Salem. We will expect the same Chairman and Secretary to take charge of the singing and make the announcements as they have before. This change is made on the account of Salem having to dissolve. Everybody feel welcome to come just the same as if it was at Salem again.

SIDELIGHTS ON THE REPUBLICAN EXECUTIVE COMMITTEE MEETING

By Z. J. Jones.

It was harmonious and enthusiastic, full of "pep" and inspiration.

Sheriff Gore made the address of the occasion. The Sheriff is looming up as a public speaker, well worth listening to.

Nearly all the candidates were there, true men who will never let the banner of Republicanism trail in the dust.

A goodly number of party workers were in evidence—Deshazo, Littlejohn, Atkinson, Wyatt of the Banner, Nix, Cobb, Vickers, and others too numerous to mention.

Mr. Vickers is one of the old time workers, true and of unquestioned veracity, of unstinted liberality in his home, a true man.

The record of the present officials in the county is admirable, worthy of the approval of the whole county.

ANNUAL MAY SINGING WILL NOT BE AT SALEM

Mr. Jasper Robinson, formerly of Salem, but who now lives at Verbena, was in Clanton last week serving as a juror at Circuit Court. The editor of The Union-Banner asked Mr. Robinson what was to become of the annual May singing at Salem this year and in future years, since that community is almost abandoned on account of the erection of Mitchel Dam on Coosa River. Mr. Robinson stated that the annual singing would be held at Providence, a neighboring community to Salem, as the people of that community had requested that they be permitted to take it up and continue the work every year.

There are permanent officers of this organization, which has been in existence for something like twenty years. We presume that these officers will make announcement as to the future arrangements of the singing in due time.

SPECIAL GRAND JURY INDICTS NEGROES FOR FIRST DEGREE MURDER

The sepcial grand jury which was called for last Friday to investigate the killing of Nettie Turnbull, negro woman, at Mitchell Dam some time ago, rendered an indictment for murder in the first degree against Bose White and George Williams, negro men, who were being held in jail without bond. They will come up for trial at the special term of the Circuit Court on Tuesday, April 26th. A special venire of jurymen has benn drawn for the trial of these cases.

Rev. Jones, Methodist preacher, of the Jemison circuit, spent last Thursday night at the home of Probate Judge Reynolds in Clanton.

LEE VICKERS WILL NOT RUN FOR SHERIFF

Lee Vickers of Thorsby, was a visitor to Clanton last Saturday, attending the meeting of the County Republican Executive Committee. Mr. Vickers stated to The Union-Baner while here that he will not enter the race for Sheriff of Chilton County this year, in spite of the fact that many of his friends have solicited him to get into it. Mr. Vickers ran for Sheriff in the Republican primary twelve years ago, and made a very creditable race. He has always taken prominent part in Republican politics in Chilton County, and has done much good work for the party. Mr. Vickers has been a special friend of The Union-Banner, having always worked hard in getting people over the county to see the need of subscribing for and reading their home paper. Up until a few months ago, Mr. Vickers lived in Beat 4. He is now a resident of Beat 9.

No reward is offered, because they are lost forever! No question will be asked, except one question, "How did you lose them?" There is but one answer,—"I cut out new fad treatments and guesswork; I used one of the most powerful blood-cleansers, blood-purifiers and flesh-builders known, and that is S. S. S.! Now my face is pinkish, my skin clear as a rose, my cheeks are filled out and my rheumatism, too, is gone!" This will be your experience, too, if you try S. S. S. It is guaranteed to be purely vegetable in all its remarkably effective medicinal ingredients. S. S. S. means a new history for you from now on! S. S. S. is sold at all drug stores in two sizes. SPECIAL SESSION OF CIRCUIT COURT WILL CONVENE HERE MONDAY APRIL 27

At the close of the regular term of Circuit Court here last Friday, Judge McMorris issued a call for a special term of the court for one week beginning Monday, April 27th, and drew the jury for the trial of cases which will come up then.

Circuit Clerk M. D. Foshee informs us that the docket set for the special term calls for the trial of non-jury civil cases on Monday, the 27th. The balance of the week will be taken up with the trial by jury of cases pending on the criminal docket.

The trial of Bose White and George Williams, negroes, who were indicted by the special grand jury last Friday, for the alleged killing of Nettie Turnbull, a negro woman at Mitchell Dam, is set for trial at this special term, on Tuesday, April 26th.

JUDGE REYNOLDS IN THE RACE

The formal announcement of Judge L. H. Reynolds for re-election to the office of Probate Judge of Chilton County appears in this issue of The Union-Banner, together with a lengthy article which he has prepared to accompany his announcement.

The Union-Banner does not feel that it is necessary for us to offer any word of introduction for Judge Reynolds. He is known by the people, and his past record is an open book. His attitude regarding the office for the next six years is admirably expressed by himself, when he says that the matter is up to the people to say whether they want him to serve them another six years or not.

There is one thing which this paper will say in regard to the past record of Judge Reynolds in office, and that is: In our opinion he has made an excellent record, one of which the people of Chilton County may well be proud. Now if the people want him to be their servant for another six years, and to look after their business for them, he is ready to serve them. However, if the people want Mr. Harris or Mr. Bean or Mr. Wilson or Mr. Mullins or Mr. Messer, it is up to them to say so by their votes. We hope that the people of the county will do what is the best for their interests and the future interests of the county. It is up to our citizenship to say whether they will choose Judge Reynolds or someone of the other candidates for the important duties of the office of Judge of Probate.

Whatever agreements may be the outcome of the Genoa conference, the United States can never be charged with being a party to them, and therefore more or less responsible for their successful execution. Europe will make its own bed at Genoa and must lie in it.

It is reported at the White House that President Harding intends to go on no speech-making tours in connection with the fall elections. He takes the position that it is not the part of the President to take the stump in political compaigns. The atitude of Mr. Harding is in pleasing contrast with that of his predecessor in the White House.

President Harding was right in keeping out of the coal strike controversy so long as the pubilc is not injured. We had eight years of an administration that undertook to interfere in every controversy and cure every ill, and the result was hardly satisfactory.

Ireland and Egypt and Armenia and Poland and innumerable other countries are gradually working out their destiny—with much trouble and some bloodshed, it is true. If the United States had gone into the League of Nations we would be expected to work out their destinies for them.

Boston Transcript—"Germany will yet realize that she lost the war." About the time, perhaps, when America realizes that she is the one that has to pay for it.

MILESTONES TOWARD NORMALCY

Even the most radical are getting over the notion that you can get something done for nothing by having the government do it. The Democratic administration encouraged that fallacious idea, because the Wilsonian socialistic bureaucracy wanted to get its hands on every sort of business. The Harding administration reminds the coutry that what is done by the government must be paid for in taxes.

The Wilson administration played a continous confidence game. The Harding administration places all the cards on top of the table. The Wilson administration promised a merchant marine without any additional burden up on the people, and then went in for the most expensive ship building programme that could have been devised. The Wilson administration took over the railroads and urgently asked Congress to extend government operation for five years longer, paying deficits out of the treasury instead of raising freight rates to cover the costs of operation. The Harding administration is getting the ships into private ownership and in proposinp and encouraying subsidy does not undertake to fool the country into the notion that a merchant marine can be maintained without any cost whatever. This administration has returned the railroads to private operation and is trying to straighten out the obligations incurred under the Wilson regime. The Republican administration makes no pretense that transportation service can be had at less than cost by letting the government do it.

It is a relief to the country to have public officials at Washington who deal frankly and honestly in conducting public business.

MRS. INGA HOWARD ANNOUNCES AS CANDIDATE FOR SCHOOL BOARD

The first lady to offer for office on the Republican ticket in this county is Mrs. Inga Howard of Thorsby, who aspires to membership on the County Board of Education.

Mrs. Howard is the wife of Mr. Charles Howard, and a lady who is in every way eminently qualified for the office she is asking for. It is the opinion of many people that there should be at least one, and possibly two women on our school board, and there is no doubt but that the candidacy of Mrs. Howard will receive the hearty endorsement of a great number of voters.

We are glad to see the announcement of this splendid lady, as the women of our county should exercise themselves in the management of public affairs in holding offices as well as voting for men to hold the offices.

MR. H. A. HARRIS ANNOUNCES AS CANDIDATE FOR PROBATE JUDGE

The announcement of Mr. H. A. Harris as a candidate for Probate Judge of Chilton County, on the Republican ticket, appears in this issue of The Union-Banner.

Mr. Harris is well known throughout Chilton county, having served one term as Sheriff. Before he was elected Sheriff he was a well known business man, running a store at Copoers, and had taught in the schools of the county several years. Since giving up the Sheriff's office three years ago he has been teaching again, having been at Jemison last year and at Maplesville this year.

The friends and supporters of Mr. Harris in Chilton County are many, and it is a foregone conclusion that he will stack up a good vote in his race for Probate Judge. He is a good, steady, honest Christian man, a loyal and sincere Republican who has the best interests of his county at heart.

UNCLE JIMMIE MIMS ANNOUNNOUNCES AS CANDIDATE FOR COMMISSIONER

Uncle Jimmie Mims of Collins Chapel again is offering to the people of Chilton county his services as County Commissioner, from the Second District. He was a candidate for this place four years ago, and was defeated in the primary, securing a very creditable vote however.

Mr. Mims is a very successful farmer, and a good man. We believed when he was running for Cimmissioner the other time that he would make a good official for this important place. We are still of the same opinion regarding him. He has many friends in his home community, and through out the entire county as well, who say they are going to put him over this time.

MEMORIAL DAY AT THE SOLDIER'S HOME

On April 30th Memorial Day will be observed at the Old Alabama Soldier's Home.

Hon. John S. Tilley, of Montgomery, will deliver an address, and other exercises will be arranged.

The management extends an invitation to the people of Clanton, Marbury, Verbena, Mountain Creek, and the communities in the neighborhood to visit the Home on April 30th, Sunday.

Ample provision to park autos and vehicles will be made, and in this connection, it will be in order for visitors to bring with them lunch baskets for their own use, as it will be impossible for the Home to furnish tables to accommodate the crowd of visitors anticipated.

The management has made many improvements in the general conditions at the Home.

Mr. Sanford Clark, one of the old reliable Republicans of Beat 5, was here last Saturday attending the meeting of the County Republican Executive Committee.

We suggest this as a suitable sign for autoists who drive along the streets of Clanton: Drive slow and see our town; drive fast and see our jail; drive reckless and see our graveyard.

Boil the mixture 36 hours, then strain through an I.W.W. hat to keep it from working, then bottle and add one grasshopper to each pint to give it a kick."

ALABAMA'S LARGEST AUTOMOBILE HOUSE

The Birmingham Motor Company, Alabama's largest Automobile House, have been distributors for Buick Cars and Federal Trucks for 11 years, during which time they have learned how to render courteous, efficient, and satisfactory service. This service combined with the products they distribute of a "proven worth" has made their phenomenal business growth. The success they have had and the good will and popularity that has come to this Company in the 11 years of painstaking service building is best evidenced by the 8,000 satisfied customers who will vouch for this firm.

It is certain, therefore, that their products of "proven worth" will play an economical part in your future purchases. The success of this company, Mr. Don Drennen says, is due to the "Sudden Service" which is rendered by all employees. The place is operated on an up-to-date plan, equipped with special machinery, manned by competent mechanics, and courteous respect awaits everyone.

They are conveniently located at Ave. C. and 21st St. They have a complete stock of parts and tires and it might surprise you to know that Buick Cars are selling faster this season than anticipated. Last year Buick built over 80,000 automobiles, and this year they expect to do much better. For the last four years they have taken first prize at the New York and Chicago Shows.

The 4-Cylinder Line is proving very popular. It is built just like the Buick Valve-in-Head Motor, and properly related chassis. Buick dependability plus Buick Authorized Service makes the Buick a Car of 100% value.. The price of an automobile is the original list price, plus of upkeep, plus depreciation you must accept when car is brought to the second hand market. Last month the Birmingham Motor Company sold and delivered 60 automobiles and an old-fashioned policy of every customer satisfied is the guarantee that goes with every new and used car they sell.

FORD OFFER TABLED

It has been practically decided by Senators and Members of Congress to postpone until next winter final decision on the offers of Henry Ford and others to take over the Government property at Muscle Shoals. The press of legislation in both Houses precludes the debate on the subject to which its importance entitles it. It is the intention, however, to introduce at once a bill appropriating funds that will enable the Givernment to proceed this summer with the work of completing the Wilson dam. The joint Congressional committee that recently visited the spot were of the opinion that further deterioration should not be permitted and that work should be resumed at an early date. Thus nothing will be lost through a postponement of the propositions to dispose of the property.

MULES IMMUNE FROM BONE DRY CONFISCATION

Supreme Court Renders Decision That a Mule Is Not a Vehicle.

Montgomery—A horse or mule caught with liquor on its back is immune from confiscation under the bone dry prohibition law. The supreme court defined the rights of horses and mules not attached to vehicles in a case from the Madison County court which was started by the solicitor in an effort to confiscate a mule because he had been used in transporting liquor.

The bone dry law says any vehicle used in transporting liquor may be seized, condemned and sold by the state. But this mule was not attached to a vehicle. If he carried liquor at all he carried it on his back. The supreme court's decision was that this would not constitute a case wherein the animal could be sold. If the mule had been attached to a vehicle and the vehicle had contained liquor he would have been condemned. The court's opinion pointed out various sections of the bone dry law which showed that vehicles and not animals were intended to be seized under the bone dry law.

Piedmont Grows Cabbages.

Piedmont—Ivy C. Turner has demonstrated the fact that head cabbage can be grown in this section through the winter. From a small plat in his garden he has produced about 500 pounds of nicely headed cabbage from 75 cents worth of plants set last October. And it has been suggested that if the farmers in this community were to receive the value at the market price of such vegetables as can be grown successfully here each month in the year as are shipped in to Piedmont there would be no boll weevil problem as it exists today t. the extent of financial ruin to the farmers in the absence of effective means of curbing the ravages of the weevil.

FIRST TO ENDORSE

The State Department has sent notes to each of the other eight governments represented at the Washington conference signifying the readiness of the United States to exchange ratifications of the treaties approved by the Senate. It is interesting to note that this country is the first to give final endorsement to those undertakings. Those who are inclined to criticize the Senate for delay in performing its function as part of the treaty-making power should ponder that fact.
